American Railroad Journal.

New York Saturday, January 2, 1869.

Elizabethtown and Paducah Railroad.

We learn from the President of this road, who has been in this city for several days past, that fifty-two miles of the road have been placed under contract, from Elizabethtown, through Hardin and Grayson, to the border of Ohio County, and that the balance of the distance to Green River (thirty-five miles, we believe,) will be put under contract as soon as possible. We also learn from Colonel Thomas that he is prepared and will as soon as possible let the contracts for getting out and cutting the stone for the bridges over the Tennessee, the Cumberland and Green Rivers, the building of which he hopes to be able to complete in two years. These bridges are to be built of iron and stone, and are to be of the most complete and substantial character—to be built to last for all time. The exact point at which these bridges will be placed on the three rivers has not yet been determined. That over the Tennessee will probably be below the mouth of Clark's River, or below the "Narrows." At which point it will be depends upon the point at which the road will cross Cumberland River, which will not probably be determined until Spring. There are four routes under consideration between Princeton and Cumberland River, and the route selected will be determined by distance, cheapness of construction, the amount of business which will be furnished to the road and the most money which will be subscribed on the road on either route. The Dycusburg precinct, in Crittenden County, will probably be given an opportunity to vote $100,000, and Livingston County will probably be given another chance to vote $250,000. Birmingham precinct, in Marshall County, will probably be given a chance to vote $50,000, and the people along the several lines will very likely be asked to show the interest they have in the road passing through their vicinity by the subscription of money or lands. Whichever may be the route selected, it will be a great thing for the whole country, and especially for that portion of the country immediately on its line.—*Paducah (Ky.) Herald, Dec.* 15.

Mississppi Valley Railroad.

The building of this road, which would have been completed ere this but for our late trouble with the general government, and which awakened so much interest in our city in 1860, is again being agitated. Vicksburg and Yazoo City are now contending for the terminus. In 1860 the principal rivals were Jackson and Canton. By a resolution of the Board of Mayor and Aldermen, which was ratified by a large majority of the voters, Jackson subscribed $200,000 of stock, and bid fair thereby to gain the prize. If it was worth so much when Mississippi was entirely an agricultural State, is it not more worthy of an attempt to gain this key to the richest portion of our State when we are upon the dawning, as we hope, of the day when our State will also be a manufacturing one? Of the importance of this measure it is unnecessary for us to speak. Any one will see of what advantage it will be to the place at which it may terminate when it is known that it will run from Memphis through the valley of Mississippi. To the people who reside in the valley its completion is an end devoutly to be wished. Mississippi needs this railroad. Her people have felt the need of it ever since the advantages of railroads have been fully understood and appreciated. It will open that part of our State to the outside world and invite immigration. It is approved by both Memphis and Mississippi and its building will be the achievement of a great purpose. Vicksburg sees this. Yazoo City sees it. Would it not be well for Jackson to revive her energies, which have been for some time dormant, and again enter the contest for the terminus of this road, which is destined to be one of the most valuable in the State? Who will set the ball in motion.—*Jackson (Miss.) Clarion.*

☞ The new bridge spanning the Mississippi River, between Dunleith and Dubuque, was completed on the 21st of December. Its entire length is 1,760 feet, and consists of four spans of 225 feet each and two of 250 feet each and a draw of 360 feet in length. The entire bridge is composed of iron and masonry, and cost, with the approaches, $900,000.

Cheraw and Salisbury Railroad.

A letter received in Charleston yesterday from Major D. B. Townsend, the President of the Cheraw and Coalfields Railroad, contains some interesting information in regard to the recent operations of this company. The old Cheraw and Coalfields Railroad was, it will be remembered, superseded by the Chatham Railroad, incorporated at the last session of the Legislatures of North and South Carolina. This determined the direction of the Coalfields Railroad to alter their original route and make Salisbury, on the North Carolina Railroad, the objective point, so as to connect Charleston and the interior with the lines of railroad leading westward from that point. Applications were accordingly made to the two States for the requisite amendments to the charter, which, if obtained, were to be submitted to the stockholders for their acceptance and ratification. The Legislature of our own State promptly made the proposed alteration, and we have now the intelligence that the Legislature of North Carolina has also granted the modifications which were required. We presume, therefore, that the stockholders of the Cheraw and Coalfields Railroad will be called together at some early day to ratify the amended charter and to consider the ways and means of pushing forward their important work.—*Charleston News*, Dec. 18.

Railroads in the United States.

The development of the railroad systems of the United States in the year 1868, has been more rapid than in any former year. Nominally we have an increase of 3,450.37 miles, and in the cost an increase in the immense sum of $193,245,232 over the figures given by us as the totals of the previous year. Much of this aggregate is due directly to the progress made in building the Pacific Railroads, and indirectly to the impetus the near approach of their completion has given to railroad building throughout the country, but more especially in the States between the Mississippi and Missouri Rivers, and also in California. There is little doubt also, but that our figures for 1868 did not include many miles of railroad that were brought into use in the last part of the year 1867, the facts not having come to our notice in time for their entrance. Deducting these, or in other words, adding them to the figures for 1868, we may safely assume that 3,000 miles have been built in the year just passed. The apparent increase in cost is excessive, but it must be remembered that very large amounts have been added

to the construction accounts of pre-existing railroads, and in many instances the nominal cost of roads has been largely increased by the operation of consolidations and re-organizations. Our figures, however, do not include issues of stock without cost, as in the Erie case, but are as near correct as reference to the latest official reports, or close estimate can make them. Of the total given above, probably $150,000,000 has been added for the 3,000 miles of new road, which considering the expensive character of the Pacific lines is not too large an estimate, being but an average of $50,000 a mile, while the Pacific roads are not built for less than an average of $80,000 per mile. Large amounts are also lying dormant on roads in progress and not yet finished. The following shows the distribution of mileage and cost to the several States and Territories:

	Miles of road. Total.	Miles of road. Open.	Cost of road and equipment.
Maine	944.19	559.67	$19,789,521
New Hampshire	783.72	668.72	21,975,319
Vermont	643.59	603.59	24,347,149
Massachusetts	1,537.36	1,425.43	68,345,521
Rhode Island	121.47	121.47	5,006,665
Connecticut	782.66	641.23	23,064,859
New York	4,459.58	3,328.87	182,588,123

11. North Intr'r States, &c.	24,439.34	16,852.08	760,666,231
5. Western S., &c.	5,156.00	913.00	66,186,000
Aggregate Jan. 1, 1869	62,917.10	42,272.18	1,853,706,041

In these tables, it is here proper to state, the Union Pacific Railroad is assumed to have been completed to the Great Salt Lake 1,035 miles, and the Central Pacific of California a length of 458 miles. These distances were expected to be reached by January 1, 1869. The length of the Central Branch is set down at 120 miles, and that of the Eastern Division at 405 miles, those being the distances last reported. Should the actual result of the year be more or less, the proper allowances must be made by deduction or addition as the fact may require.

The following compares the aggregates as given by us for January 1, 1868 and 1869:

Jan. 1.	Miles of road. Total.	Miles of road. Open.	Cost of road and equipment
1868	54,556.85	38,821.81	$1,660,460,809
1869	62,917.10	42,272.18	1,853,706,041
Inc. last yr.	8,360.25	3,450.37	$193,245,232

In the following table we show the cost of road per mile in each of the States—in the first column giving all the cost to the completed portion and in the second column the cost less deductions estimated to belong to the portions of roads in progress and not yet completed, expressed in an intermediate column by a per centage on the gross figures of the first column:

States, &c.	Gross Cost.	Deduct p. cent.	Actual Cost.
Maine	$35,259	5	$33,592
New Hampshire	32,862	0	32,862

The anual progress of railroad building since in 1827 the commencement was made in the construction of the Granite Railroad at Quincy, Mass., to the present time, is shown in the following table:

Year.	Miles.	Year.	Miles.
1828	3	1849	6,350
1829	28	1850	7,475
1830	41	1851	8,589
1831	54	1852	11,027
1832	131	1853	13,497
1833	576	1854	15,672
1834	762	1855	17,398
1835	918	1856	19,251
1836	1,102	1857	22,625
1837	1,421	1858	25,090
1838	1,843	1859	26,755
1839	1,920	1860	28,771
1840	2,197	1861	30,593
1841	3,319	1862	31,769
1842	3,877	1863	32,471
1843	4,174	1864	33,860
1844	4,311	1865	34,442
1845	4,522	1866	35,351
1846	4,870	1867	36,896
1847	5,336	1868	38,822
1848	5,682	1869	42,272

City Passenger Railroads are not included in the above summary. These are now in general use in all considerable cities and in numerous instances in places where population is less dense. Their economical bearings are fully recognized and their popularity is increasing. Boston, New York, Brooklyn and Philadelphia count their street railroad tracks by hundreds of miles. Probably the total is not less than 2,000 to 2,500 miles.

Nor have we included in our statement any account of the second tracks with which most of the leading lines are supplied, nor the sidings and turnouts on all the lines. These may be estimated at 25 or 30 per cent. of the length of road, and are being added to yearly. Adding these supplementary tracks to the tabulated mileage we find that the total length of equivalent single track in use is from 52,500 to 55,000 miles, and if we add to this the equivalent for the city passenger tracks to nearly 60,000 miles. It is now forty years since we began to build railroads and in that time we have built a greater length than is to be found in the whole of Europe. Progress leads but to new demands and new enterprises.

Hoosac Tunnel.

The contract between the Commonwealth and Messrs. Walter & Francis Shanly for the completion of the Hoosac Tunnel was signed yesterday. By the terms of this instrument the contractors agree to complete the tunnel and lay down four and three quarter miles of substantial railway track through it, rated at $14,000 per mile, for $4,592,000. They agree to begin operations at once with energy, and by the 1st day of May next, to deepen the central shaft fourteen inches per day, and to advance from the east and west faces 250 feet per month. They engage to carry down the central shaft to the base of the tunnel by May 1, 1870, and thereafter to advance from four faces the full sized tunnel at the rate of 4,900 feet per year. At this rate of progress they would complete the enterprise is less than four years, but, as a safeguard against all casualties, they are allowed a year more for the completion. They expect, however, to finish the undertaking two years within the time prescribed by statute. The contractors give security in $500,000 for the completion of the work on the terms prescribed, by stipulating that they will call for no money until the State engineer certifies that the work done at less than average rates shall exceed $500,000. They also agree that twenty per cent. of the remuneration for the work done shall be reserved and paid on completion of the undertaking.—*Boston Adv., Dec.* 25.

Albany and Susquehanna Railroad.

We have received a copy of the report of this company for the fiscal year ending September 30, 1868. At the commencement of the year, the line was in use to Bainbridge, 108 miles from Albany, (to which point it was completed on the 10th of July, 1867,) and the grading was nearly completed to Afton, a further distance of 6 miles. The line was laid to the latter point, 114 miles, and regular trains commenced running, on the 11th of November, and to Harpersville, 120 miles, on the 25th of December, 1867. The whole length of road laid at the date of the present report November 25, 1868, was 125 miles. Length of double track, including sidings, 11.15 miles. Weight of rail per yard, 56 lbs. The company had 17 locomotives, 15 passenger, 182 freight, 7 baggage, mail and express, and 113 gravel and other service cars. The whole length of main line from Albany to Binghamton, will be 140 miles, to which point it was expected to have it completed by the 24th of December, ult.

The receipts from operations of this road for the years ending September 30, 1866, 1867 and 1868, have been as follows:

	1866. 98.5 miles.	1867. 108 miles.	1868. 120 miles.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, January 2, 1869.

Stock Exchange and Money Market.

A much more embarrassing closeness has been reported in the money line since our last, partly the result of speculative manipulation of the market, and partly of the preparations of the banks for their quarterly exhibit to the Comptroller of the Currency, on Jan. 4. The stringency steadily increased through the week, and was most severely felt on Tuesday and Wednesday. The floating supply of capital has been materially reduced, and loan and discount rates have been advanced sharply. The city banks, in their last week statement, showed a further general decrease in their averages, of over 4½ millions in their deposits, over two millions in their legal tender reserve, and nearly ¾ of a million in thtir specie hoard, together with a contraction of over a million in their loan and discount item. A small addition was made to their circulation. The U. S. Sub-Treasury balance has been cut down over a million. The Sub-Treasurer was to have commenced on Thursday the paying out of the January interest on the public debt. It had been issuing for some days previously, gold checks for round sums of the accruing half year's interest claims on the six per cents of 1881, and the later issues of the Five-twenties, including the second issue of 1865, and the issues of 1867 and 1868. These checks were made payable on Jan. 1. The inquiry for accommodation became very urgent on Tuesday, and parties in need of aid were obliged to submit to the imposition of extremely oppressive rates. Strictly first class borrowers, even on Government and prime railway collaterals, have had to pay a commission of 1-16@⅛ per cent. in addition to the legal rate on call. There was an unusually lively call from the Stock houses for money to make up accounts, and even as much as 7 per cent. in gold, and ¼@½ per cent. commission was paid for the use of capital, for a few days. The following day witnessed some slight relaxation in the market, most of the negotiations of responsible borrowers having been on the basis of the legal rates, in currency and coin net. With the close of the old year it is confidently believed that the pressure will pass away, and that a much more comfortable movement may be looked for the coming week. The discount market has been disturbed by the failure of two or three prominent houses, in the dry goods jobbing, to meet their engagements. Less partiality has been shown for mercantile paper, the dealings in which have been on a restricted scale, within a range of from 8@10@12 per cent. per annum.

The specie reserve of the city banks is now $17,940,865, against $10,9 1,969 same time last year. The city bank deposits are now $178,503,752, against $178,713,191 week ending Dec. 28, 1867. The legal tender reserve amounts to $48,706,160, against $60,657,932 same time last year. The circulation now stands at $34,387,114, against $24,134,400 same time last year. The loans are now $261,342,530, against $241,620,312 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $124,385,841 a day, against a daily average of $101,851,355 the preceding week, and $97,509,745 the week ending with Dec. 9, 1868. The current week's exchanges average about $105,000,000 a day. The city banks, last week, lost $702,719 of specie, $4,573,476 of deposits, and $2,089,973 of legal tender notes. They reduced their loans, $1,091,650; and increased their circulation, $33,356.

National Bank notes to the amount of $94,810 were issued last week by the Treasury Department, making the total issue to 1,685 banks thus far, amount to $311,388,896, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $11,621,852, leaving, with the existing 1,629 banks, (having an aggregate capital of $419,806,511,) an actual circulation at this date, of $299,767,044. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $341,947,400; and for the public deposits, $35,635,850—making a total of $377,582,750. The Treasury Department last week redeemed and destroyed $291,084 of worn and mutilated fractional currency, and issued $426,289 of new. The outstanding amount of fractional currency on the 1st of December, was $33,875,268, against $33,413,985 on the 1st of November, 1868.

The Gold Exchange Bank clearances last week were on a limited scale. Its average amount of

loans and discounts was $1,325,683, average amount of specie $601,405, average amount of deposits $1,236,305.

The U. S. Sub-Treasury receipts, week ending with Dec. 26, were $5,668,622, including $1,202 932 from customs duties; payments, $5,206,170, including $408,000 of coin interest; balance at the close of the week, $90,476,836, against $90 019,384, at the close of the preceding week, showing a decrease of $457,452. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $1,026,787 including $222,647 from customs; and payments, $1,449,692, including $89,375 of coin interest; on Tuesday, receipts, $1,162,304 including $144,000 from customs, and payments, $1,279,039, including $40,775 of coin interest. The balance at the close of business on Tuesday stood at $89,937,195, against $91,054,011 a week previous; and $91,020,262, on Dec. 9, 1868.

The outstanding amount of coin certificates on the 1st of Dec., was $23,255,840, against $19,716,-840 on the 1st of Nov., 1868. The Sub-Treasurer at this port issued, last week, coin certificates to the amount of $1,641,000, and retired $1,026,932 through the receipts for customs. The coin certificates issued by the Sub-Treasury office, during November, reached $7,658,840.

Very light receipts from both customs and excises were reported last week. The excises, last week, yielded about two millions; customs at the port of New York, $1,202,932, and at the outports about $450,000 (in coin) more, making the grand total income for the week equal to abou- $4,231,-550 in currency. The total receipts of the National Treasury, from excises, during the fiscal year ending with June 30, 1868, were $191,180,564. The receipts from the same source, thus far in the current fiscal year, commencing with July 1, 1868, have been about 71 millions, according to the latest Washington advices.

The Gold speculation has been quite spiritless all through the week. The money pressure has operated against an active movement. The dealings have been on a restricted scale, within a range of from 134½@135. The latest quotation on Wednesday was 134¾. The export drain has been light, though for the whole year, the aggregate outflow has been about 71 millions, against some 52 millions in 1867, 63 millions in 1866, 60 millions in 1862, 70 millions in 1859, and 45 millions in 1857. Thus, it will be seen that this year's shipments are very considerably heavier than those of any preceding year of large exports. So far this year, the U. S. Sub-Treasurer at this port has disbursed 82½ millions of coin interest on the funded debt, against about 62 millions same time last year. The customs revenue of the port in the current calendar year has been nearly 116 millions, against 116½ millions the corresponding period of last year. The city banks now hold a specie reserve of 18 millions, against 11 millions this time a year ago. While the receipts of California gold at this port, this year, show an increase of nearly seven millions over those of last year, the total exports to all ports from the port of San Francisco, in 1868, indicate a decrease of about six millions as compared with those of 1867.

The total imports of specie at this port from Europe, and other foreign ports since Jan. 1, 1868, have been $7,129,747, against $3,145,592 same time last year. The customs demand for Gold last week, averaged $240,586 a day; thus far, this week, it has been equal to $183,-323 a day, or equal to a weekly aggregate of $1,099,938. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $248,897 and from California, $75,591. The total customs revenue of the Government, in coin, at this port, since Jan. 1, 1868, has been $115,558,321, against $116,513,410 same time in 1867. At the port of San Francisco, $8,217,655, against $7,317,996 last year.

The total receipts of California gold at this port, since Jan. 1, 1868, have been $34,559,-131, against $27,677,556 in 1867, showing an increase thus far in 1868, of $6,881,575. The exports of specie, from this port, last week, were $608,-790, against $3,277,077 same week last year; total, since Jan. 1, 1868, $70,718,781, against $51,-791,278 same time in 1867. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $408,000; since Jan. 1, 1868, $82,417,517, against $61,823,595 same time in 1867. The specie exports from San Francisco, from Jan. 1, to Dec. 12, were $33,409,829, against $39,618,989 same time last year.

A less active inquiry has been noted for foreign exchange, prices of which have favored buyers, under a rather more liberal supply of prime bills. Bankers' prime sixty day bills on London closed on Wednesday at 109¼@109½, and on Paris to 5.20c.@5.16¼; sight bills on London to 110@110¼, and on Paris to 5.13¾c. @5.12½. The offering of produce bills has been fair this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $3,-023,509, against $2,514,442, same week last year; total, since Jan. 1, 1868, $166,784,168, against $188,049,618 in 1867.

There has been more inquiry for the Government interest-bearing obligations since our last, and prices have advanced despite the severity of the Money pressure. Holders have been confident that higher prices will prevail early in the new year, and have been unwilling to sell freely at the going rates. The investment call continues to increase, running mainly on the later Five-Twenties, and making a handsome aggregate showing. Some of the foreign houses have been buying old 1865, and 1867 Five-Twenties at the ruling figures. This demand will doubtless be enlarged, after the January interest and dividend payments shall have been completed. The offerings of bonds of all issues have been very moderate, as a rule. Washington advices intimate that the next debt exhibit will show an increase of two or three millions.

U. S. sixes of 1881 closed here on Wednesday at 114⅛@114⅝; U. S. Five-twenties of 1862, 110⅛@110⅝; U. S. Five-twenties of 1864 at 107¼@107⅜; U. S. Five-twenties of 1865 at 107⅜@107⅞; U. S. Five-twenties of 1865, consolidated, 110⅛@110⅝; U. S. Five-twenties of 1867, 110¾@110⅞; U. S. Five-twenties of 1868, 111⅛@111¼; U. S. Ten-forties at 105⅜@105⅝; U. S. Six per cent. currency bonds, 99⅛@99⅜.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Dec. 16.	Dec. 23.	Dec. 30
Consols	92½	92½	92⅜
U.S. 5-20's of 1862	74½	74¼	74⅜
Erie	27½	26¼	26½
Ill. Central	96¼	95¼	95½

Railway and miscellaneous stocks have been less excited and less variable; but there have been quite extensive dealings in nearly all the usually active portion of the general list and prices have shown much strength in the face of the extreme and unexpected closeness in Money.

General business has been light as a rule, and as is customary, at the close of the year, in domestic produce. Breadstuffs have declined. Provisions have been quoted firmer. Middling upland cotton closed firmly and buoyantly on Wednesday at 25½ cents per lb. The stock of cotton now here is estimated at about 30,000 bales. The receipts at the port this week, have averaged about 3,500 bales a day. The receipts at all the ports, since Sept. 1, 1868, have been 931,000 bales, against 807,000 bales same time last year; exports, same time 458,000 bales, against 401,000 bales same time last year; stock on hand at latest dates, 295,-000 bales, against 312,000 bales same date last year. Total crops of 1867–'8, 2,430,893 bales; total receipts at ports year ending Sept. 1, 1868, 2,240,282 bales; total exports thence, same time, 1,657,015 bales. The exports of domestic cotton goods from this port, since Jan. 1, have been 25,920 pkgs., against 13,801 pkgs., same time last year. From Boston, 8,213 pkgs., against 8,982 pkgs. same time in 1867. At the Live Stock market, this week, Beeves have been in moderate demand at from 10@17c. per lb.; week's receipts, 4,000. Veal calves fairly active at from 9@13c. per lb.; receipts, 727. Sheep and lambs in less request at 4⅛@10, per lb.; receipts, 24,496. Swine, quiet, closing at from 9@9¾c. per lb., all live weight; receipts, 21,011. The receipts for the year 1868 were 297,310 beeves, 5,161 Milch cows, 86,244 veal calves, 1,444,538 sheep and lambs, and 1,006,362 swine, against 289,430 beeves, 3,420 milch cows, 69,921 veal calves, 1,164,016 sheep and lambs, and 1,103,398 swine, in 1867. A very moderate trade has been reported in foreign goods, prices of which have varied little. The total imports of foreign dry goods, last week, were $935,210 and the total amount marketed $687,-570. The value of foreign merchandise imported last week, was $2,940,595—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $3,875,805 against $2,458,493 same week last year; from Jan. 1, 1868, $241,676,904, against $235,439,840 same time in 1867. The ocean freight market has been rather quite, but rates have been quoted firmer. For Liverpool we quote flour at 2s.@2s. 6d. by sail, and 8s.@3s. 6d. by steamer, per bbl.; grain at 7d.@8d. by sail, and 9d.@9½d. by steamer, per bushel; cotton at $\frac{5}{16}$d.@$\frac{3}{8}$d. by sail, and $\frac{5}{16}$d.@½d. by steamer, per lb.; and heavy goods 20s.@35s. by sail, and 35s.@50s. steamer, per ton. Total number of vessels in port on Wednesday, 519.

The New York exports, exclusive of specie, for the week ending Dec. 29, and since the beginning of the year, compare as follows:

	1867.	1868.
For the week	$2,514,442	$3,023,509
Prev. reported	185,535,176	168,760,659
Since January 1,	$188,049,618	$166,784,168

The Michigan Central Railroad Company have declared a dividend of 5 per cent. in cash, and 10 per cent. in stock, payable January 2, 1869.

The quarterly dividend of the Panama Railroad Company, viz: 6 per cent. from the earnings of the road and 2 per cent. from the earnings of steamers, etc., is payable on the 5th inst., in gold coin.

☞ The General Railroad Law of Arkansas was accepted by the people at the last general election by a vote of 25,200 to 4,134.

☞ Fifty-two miles of the Elizabethtown and Paducah Railroad, from Elizabethtown to the Ohio county line have been put under contract.

TO CAPITALISTS AND INVESTORS

The First Mortgage 7 per cent. Bonds
OF THE
Rockford, Rock Island and St. Louis Railroad Co,
PAY BOTH
PRINCIPAL AND INTEREST IN GOLD,
And are free of Government Tax.

This enterprise has long since past the point at which its completion could be considered doubtful. *Nearly half the line is substantially ready for the rails*, and contracts are in progress for large quantities of iron, and an adequate supply of rolling stock. The rails for the division connecting the Company's coal mines with the Chicago and Northwestern Line are all on the ground, and being rapidly laid; so that *the Company will shortly be delivering their coal*, for which they have contracts covering all they can mine this season.

THE CAPITAL STOCK,
FIXED AT
NINE MILLIONS,
is already largely subscribed for, and the remainder is going into the hands of individuals along the route, or being taken by the counties and towns through which the road passes.

THE ENTIRE CAPITAL
will, without doubt, be soon taken, and the subscription closed.

THE BONDS ARE A FIRST AND ONLY LIEN of $21,000 per mile upon 400 miles of railroad, traversing

THE RICHEST AND MOST POPULOUS DISTRICT
of Illinois, upon the Company's franchises, and property of every description, including
20,000 ACRES OF VALUABLE COAL LANDS,
partly owned in fee and partly leased for 50 years, and estimated to contain
ONE HUNDRED MILLION TONS OF COAL

Each bond is for $1,000, or £200 sterling, and is convertible into stock of the Company at the option of the holder. The interest is payable on Feb. 1st and Aug. 1st.

The Trustee for the Bondholders is the Union Trust Company of New York. Arrangements have been perfected by which a considerable part of this Loan is likely to be placed in Europe, and only a small portion of the issue will remain to be disposed of at home.

Parties subscribing at once *will secure the Gold premium on the coupon of Feb. 1st*, which is equal to a reduction of one per cent. on the price of the Bonds.

We are authorized to offer what remains of these Bonds at 97½ and accrued interest in currency; at which price, considering the soundness of the enterprise and the ample security of the Loan, the Bonds must be regarded as the
CHEAPEST AND BEST INVESTMENT ON THE MARKET.

Other approved Securities received in exchange at market rates.

Pamphlets giving full information sent on application.

The Bonds may be had at the OFFICE OF THE COMPANY, 12 WALL STREET, and of
HENRY CLEWS & CO., Bankers,
32 Wall street, New York.

From Herapath's Railway Journal.

British Railway Statistics for 1867.

The British Board of Trade have just issued their Return for 1867. It shows that the total traffic receipts of the railways of the United Kingdom from all sources in the year 1867 were £39,479,999, while in 1866 they were £38,164,354, so that the traffic of 1867 exceeded that of 1866 by £1,315,645.

The £39,479,999 traffic of the United Kingdom in 1867 was thus made up—

England and Wales	£33,398,222
Scotland	4,209,158
Ireland	1,872,619
United Kingdom	£39,479,999

The increase of £1,315,645 on the lines of the United Kingdom was thus:

	Increase.
England and Wales	£1,123,353
Scotland	82,027
Ireland	110,265
United Kingdom increase	£1,315,645

MILEAGE.

	Miles.
England and Wales	10,037
Scotland	2,282
Ireland	1,928
United Kingdom	14,247

The increase in the mileage:

	Mileage Inc.
England and Wales	336
Scotland	38
Ireland	19
Increased miles in United Kingdom	393

Of the 14,247 miles of railway in the United Kingdom in 1867, 7,844 were double, and 6,403 single. The traffic in the United Kingdom of £39,479,999 is made up of passenger and goods traffic as follows:

Passenger traffic	£17,935,634
Goods	21,544,365
	£39,479,999

INCREASE OVER 1866.

Passenger	£539,709
Goods	775,936
	£1,315,645

The number of train miles run in the United Kingdom in 1867 were:

Passenger trains	74,886,409
Goods	73,656,418
Train miles	148,542,827

The working expenditure in 1867 stood thus:

England and Wales	£16,764,520
Scotland	2,102,367
Ireland	982,065
	£19,848,952

The increase in the working expenditure over 1866:

England and Wales	£869,994
Scotland	89,280
Ireland	78,005
	£1,037,279

The per centage of working expenditure to receipts was:

England and Wales	50
Scotland	50
Ireland	52

The average of the United Kingdom is put down at 50 per cent., or 1 per cent. higher than the previous year.

Only £278,366 increased profit was obtained in the year in the United Kingdom, the increased receipts having been £1,315,645, and the increased expenditure £1,037,279.

It is to be observed that the Board of Trade returns in giving the gross revenue of our railways only furnishes the amount of the receipts from passenger and goods traffic. These receipts undoubtedly form the principal part of gross railway revenue, but the companies have some other sources of revenue besides traffic. Thus the London and North Western has additionally certain interest receipts, rents, dividends from investments in other undertakings, and transfer fees. Therefore the Board of Trade returns, however accurate, are not quite correct as to the revenue account, and its results to the Proprietors. Those returns show that last year (1867—for which the Board of Trade returns are just made) the gross receipts of the railways of the United Kingdom from all sources of traffic were £39,479,999; the working expenditure £19,848,952; the net receipts or working profits £19,631,047; and the percentage of this £19,631,047 profit on the total paid up capital of all descriptions was 3.91 per cent. But the per centage of profits in 1867 on the total capital really amounted to something more than 3.91, arising from the circumstances we have named. They were probably full 4 per cent.

Since 1864 the profits of railways have decreased in per centage of the capital outlay (paid up), while the amount of the profits has increased.

	Profits from working the lines.
1864	£18,015,256
1865	18,741,040
1866	19,352,681
1867	19,631,047

Per centage of profits upon total capital paid up (including loans, &c.

1864	4.23
1865	4.11
1866	4.01
1867	3.91

This unsatisfactory result arises of course from increase in the capital. The profits have increased, but the capital has increased at a greater rate. The capital has increased thus:

	Paid up capital ordinary preference, debentures, &c.
1864	£425,719,618
1865	455,478,143
1866	481,872,184
1867	502,262,887

Thus while the capital has increased in the four years by some £76,500,000, the working profits have only increased by about £1,600,000, or little more than 3 per cent. on the additional capital.

The result would have been less unsatisfactory if the working expenses had not increased in percentage. The percentage in the working expenses on the traffic receipts has gone up thus:

	Pr. ct.
1864	47
1865	48
1866	49
1867	50

The amount of the working expenses in the four years was:

	Working exps.
1864	£16,000,208
1865	17,149,073
1866	18,811,673
1867	19,848,952

Here is an immense advance in the working expenses. In the four years they increased nearly £3,850,000. And how did the traffic increase? To a greater extent than £3,850,000, otherwise there would have been less profit, whereas the profit did increase, as we have seen. The traffic receipts since 1864 were:

	Traffic receipts.
1864	£34,015,564
1865	35,890,113
1866	38,164,354
1867	39,479,999

The traffic increase since 1864 was not quite £5,500,000, but the working expenses were almost £3,850,000 additional. In round figures the profits of 1867 were only £1,650,000 more than those of 1864, while the traffic was as much as £5,500,000 more. This poor result is due to the working expenses having increased to the extent of being £3,850,000 more.

The new lines made since 1864 have evidently cost a great deal of capital, and have not brought in a corresponding amount of traffic, and that traffic has been worked at a high rate of expenditure. The miles of railway open in each year since 1864 were—

	Miles.
1864	12,788
1865	13,289
1866	13,854
1867	14,247

Notwithstanding that the addition to the length of line since 1864 has been principally in single lines, the average cost per mile has increased, which shows how lavishly capital has been expended:

	Capital per mile of line opened.
1864	£33,288
1865	34,275
1866	34,782
1867	35,113

It will be seen from figures following that the capital has been mainly increased in the preferential department. The ordinary capital has been increased, and so has the loan, but the great increase has been in the preferential stocks. This has been a serious evil in the railway world, but one that will be cured in future by the raising of most additional capital by means of ordinary stocks.

Since 1849, which is as far back as the Board of Trade returns extend, the statistics of capital are:

	Ordinary.	Preferential.	Debenture Stock.	Debenture Loans.	Total.	Per mile of line open.
1849	£158,560,119	£19,862,506	£	£51,335,154	£229,747,779	38,088
1850	150,022,877	34,740,800		55,507,068	240,270,746	36,289
1851	155,060,024	84,494,155		58,686,718	248,240,887	36,029
1852	161,400,257	88,700,755		64,064,668	264,165,680	38,283
1853	164,724,178	48,527,380		65,072,958	278,324,516	35,561
1854	166,030,806	49,877,952		70,660,086	286,068,794	35,523
1855	169,605,442	52,818,026		75,161,241	297,484,709	25,702
1856	173,446,109	56,789,558		77,359,419	307,594,086	35,315
1857	178,624,394	68,126,627		78,406,237	315,157,280	33,329
1858	181,837,781	61,854,547		81,683,179	325,375,507	34,699

Comparing with 1849 we have certainly made some progress in reducing the capital cost per mile of the lines, but we have more single line now than in the earlier period of our railway history.

LENGTH OF LINE OPENED.

	Double. Miles.	Single. Miles.	Total. Miles.
1849	5,084	998	6,082
1850	5,466	1,055	6,621
1851	5,613	1,277	6,890
1852	5,878	1,458	7,336
1853	5,987	1,699	7,686
1854	6,103	1,950	8,053
1855	6,153	2,182	8,335
1856	6,266	2,444	8,710
1857	6,357	2,681	9,447
1858	....	.....	9,542
1859	....	.....	10,002
1860	6,690	3,743	10,433
1861	6,893	3,972	10.865
1862	7,009	4,542	11,551
1863	7,270	5,052	12,322
1864	7,402	5,387	12,789
1865	7,503	5,786	13,289
1866	7,711	6,143	13,854
1867	7,844	6,403	14,247

The statistics of the passenger traffic if not so good as of the goods traffic, are certainly encouraging:

	Number of passengers conveyed, exclusive of season ticket holders.	Gross receipts from passenger traffic.	Proportion per cent. to total receipts.
1849	68,841,539	£6,277,892	53.17
1850	72,854,422	6,827,761	51.70
1851	85,374,116	7,840,764	53.00
1852	89,102,765	7,763,992	49.42
1853	102,265,702	9,099,031	50.44
1854	111,180,165	10,244,954	50.68
1855	118,567,170	10,694,790	49.73
1856	129,315,196	11,376,337	49.11
1857	138,971,240	11,888,219	49.18
1858	139,141,135	11,697,906	48.88
1859	149,757,294	12,537,493	48.70
1860	163,435,678	13,085,756	47.13
1861	173,721,139	13,326,475	46.65
1862	180,429,071	13,911,985	47.76
1863	204,635,075	14,521,528	46.61
1864	229,272,165	15,684,040	46.11
1865	251,862,715	16,572,051	46.17
1866	274,293,668	17,395,925	45.58
1867	287,683,113	17,935,634	45.43

The passenger traffic used to be the principal part of the traffic of railways. The goods traffic is now the principal part. The goods traffic has increased at a greater rate—

	Gross receipts, from goods, traffic.	Proportion per cent. to total receipts.
1849	£5,528,606	46.83
1850	6,876,908	48.30
1851	7,056,695	47.00
1852	7,946,562	50.58
1853	8,936,848	49.56
1854	9,970,770	49.32
1855	10,812,809	50.27
1856	11,789,156	50.89
1857	12,286,392	50.82
1858	12,258,845	51.17
1859	13,206,009	51.30
1860	14,680,866	52.87
1861	15,238,880	53.35
1862	15,216,673	52.24
1863	16,634,869	53.39
1864	18,331,524	53.89
1865	19,318,062	53.83
1866	20,768,429	54.42
1867	21,544,365	54.57

Following are the figures of the total traffic receipts since 1849, with the average receipts per mile open, and the train mile receipts—

	Total receipts from all traffic sources.	Per mile of line open.	Per train mile. s.	d.
1849	£11,806,498	£1,957	0	0
1850	13,204,669	1,994	0	0
1851	14,997,459	2,177	0	0
1852	15,710,554	2,141	5	2
1853	18,036 879	2,345	5	5
1854	20,215,724	2,510	5	6½
1855	21,507,599	2,580	5	9½
1856	23,165,493	2,660	5	11¼
1857	24,174,611	2,559	5	9½
1858	23,956,751	2,510	5	6
1859	25,743,502	2,574	5	6
1860	27,766,522	2,661	5	5
1861	28,565,355	2,629	5	5
1862	29,128,558	2,522	5	4½
1863	31 156,397	2 528	5	4
1864	34,015,564	2,667	5	3
1865	35,890,113	2,700	5	1¾
1866	38,164,354	2,755	5	4
1867	39,479,999	2,770	5	3¾

We see from the above how the railway traffic of the United Kingdom has increased from 1849 to 1867—19 years. It has increased from under £12,000,000 in a year to nearly £40,000,000, and this year, 1868, it may be quite or more than £40,000,000.

The receipts per mile of line opened have very steadily improved from £1,957 in 1849 to £2,770 in 1867; and the receipts per train mile have kept up pretty well—still we should like to see these higher.

It is the capital cost and the working charges which present the most unsatisfactory features. The capital spent we can't get back again, but we might in future reduce the working expenses, and we are glad to say that to their reduction our railway managers are directing keen eyes. If the working expenses can be reduced we shall soon see higher dividends. The Board of Trade return in this respect does not extend further back than 1860. We also append the percentage of working expenses, the net receipts or working profits, and the percentage of working profits on the total capital:

	Total working expenditure.	Proportion per ct. to total receipts.	Net receipts.	Proportion p.c. to total paid up share and loan capital.
1860	£13,187,368	47	£14,579,154	4.11
1861	13,843,337	48	14,722,018	4.06
1862	14,268,409	49	14,760,149	3.85
1863	15.027,234	48	16,129,163	3.99
1864	16,000,308	47	18,015,256	4.23
1865	17,149,073	48	18,741,040	4.11
1866	18,811,673	49	19,352,681	4.01
1867	19,848,952	50	19,631,047	3.91

Albany and Susquehanna Railroad.

The work upon the Albany and Susquehanna Railroad, between this city and the tunnel, is making rapid progress. The track is laid and in running order to Osborn Hollow, a distance of about twelve miles, and for evenness of grade and smoothness of track, will compare favorably with older roads, that by long and constant use, have become well ballasted. The contractors, Messrs. Weed & Co., of this city, have done their work very thoroughly.

From Osborn Hollow to the point on the other end of the line where the grading has been completed and track laid, a distance of about three miles, there are upwards of one huudred men and a large number of teams constantly engaged in cutting and filling in, preparatory to the final connection of the track, which is being laid from both directions. To complete this grading will require from eight to ten days—if the present warm weather should continue, we believe ten days sufficient to accomplish the entire work of grading and laying the track.

At Osborn Hollow the workmen have just completed a magnificent piece of trestle work, five hundred and fifty feet in length, and averaging about thirty feet in height. The bents that support the timbers upon which the track is laid, are sixty-eight in number, or one at every eight feet the entire distance. For strength and durability this trestle is unexcelled. There are several lesser constructions of this kind between this city and Osborn Hollow, some of them many feet higher.

As the train approaches Port Crane from the direction of the tunnel and the view of the Chenango Valley opens to the gaze of the traveler, he is struck with admiration at its extent and beauty, but when he arrives opposite Van Name's Port, where, at an elevation of perhaps five hundred feet, the whole valley for miles is spread in a beautiful panorama before him, then admiration is turned to enthusiastic adoration. We venture the assertion that such another view cannot be found in the State where the beautiful, and that which appals are so closely blended.—*Binghamton Republican.*

Railroad Chairs.

In another column will be found an advertisement of the Van Anden Railroad Chair, the most recent invention of the kind, and calculated to realize all that the patentee claims for it. Being made of wrought iron, and the lip "upset" from the solid metal, it has greater strength, while the grain or fibre of the iron holding *across* the line of rails obviates a tendency to split, which is found in all chairs that are rolled. The lip as shown in the cut is continuous, and the spike holes through lip and base are so punched that one half the spike is recessed or bedded in the solid metal. These chairs can be made of any weight from eight to twelve pounds each, the peculiarity of their manufacture allowing a lighter chair to be produced than the rolled ones with all the necessary strength, and which of course reduces the expense. The patentee, Mr. Wm. Van Anden, has given much attention to the matter, and this patent is the result of long experience in the requirements of railroad construction.

North Carolina Railroad Loan Bill.

The bill re-enacting and confirming the appropriations made last August to the Williamston and Tarboro' and the Western North Carolina Railroad Company passed its final reading in the House on the 17th ult., and is now a law. The fourth section directs the public treasurer to subscribe to the capital stock of the Chatham Railroad Company $1,000,000 when the contract for the grading of that road between Raleigh and Cheraw, S. C., shall have been let. This subscription is to be made in bonds running thirty years, bearing six per cent., and is to be preferred stock, paying a dividend of six per cent. before any dividend is declared on any other stock. The bonds issued in August in behalf of these companies are to be surrendered to the treasurer, who shall deliver a like amount in bonds under this act in exchange for them. A special annual tax is levied to pay the interest on all these appropriations according to the constitutional requirement.

☞ The survey of the Mount Vernon Railroad in New Hampshire has been completed. The distance from the Wilton road at Amherst station to King's Mills, in New Boston, is eleven and two-fifths miles; and thence to Peterborough, through Francestown and Greenfield, is thirteen and sixty-six hundredths miles.

☞ The Southern Minnesota Railroad has been completed to Lansboro, 60 miles west of La Crosse.

Texas Central Railroad.

Mr. W. H. Morgan, of Towanda, Bradford county, Pa., one of the most efficient and accomplished engineers of the North, has effected a conditional contract, but awaiting contingencies in New York city, for the construction of the western branch of the Central Railroad from Brenham to Austin. Half paid down upon estimates as constructed, and one half the net earnings of the sections as completed, affords one of the most lucrative contracts in the United States. An outlay of some $200,000 by contractors would realize a return in two years, allowing eighteen months for completion, of a net profit of that amount on the whole work. The majority of the Central board are now in New York, and our friend, Paul Bremot, one of the most efficient of the board, left yesterday for the North, and perhaps Europe, to aid in the perfection of arrangements to extend the main trunk rapidly to Red river. The company can, since capital is reassured by the quiet which prevails, obtain what capital they want, and we are assured that it is the intention of this enterprising company to push their work vigorously to Red river at once.—*Houston Times.*

Atlantic and Gulf Railroad.

The Augusta *Sentinel* says that the Central (Georgia) Railroad Company has purchased from the City of Savannah all the stock of the latter, amounting to nearly one million and a half of dollars in the Atlantic and Gulf Railroad. This purchase is said to have been made with the view to getting control of the latter road, so as to defeat the contemplated connection of the Macon and Brunswick with the Gulf Road at Doctor Town, by which the Brunswick Road would become a successful competition of the Central Road for the trade and traffic from Macon to Savannah.

Southern Maryland Railroad.

Colonel Hutchins reports that the surveying party on the route of the Southern Maryland Railroad (Point Lookout) have concluded their labors, and have run the line into this city. It is proposed to cross the Eastern Branch at the site of the old burnt bridge, crossing the stream, and entering the city. The road will then run along Virginia avenue to its intersection of Maryland avenue, where it is proposed to place the depot. The party express the opinion that the road can be built at as small a figure as any road of the same length in the country, there being but few heavy cuts or fills; and it is the intention of the company, if possible, to commence the construction of the road early in the spring.—*Washington Intelligencer.*

☞ The following gentlemen have been elected directors of the Mississippi, Ouachita and Red River Railroad Company: Hon. J. T. Eliott, President, D. W. Fellows, B. W. Martin, D. S. Wells, L. B. Fort, T. P. Dockery, J. T. Elliot, B. Collins, E. Mosely, R. B. Smith, G. H. Stinson, S. C. Buchanan, and E. Feibleman. The office of the company is at Camden, Ark.

☞ The preliminary surveys for a railroad from Alexandria to Georgetown, *via* the aquednct, have been completed by Messrs. Phillip Quigley and Wm. W. Duncan, lessees of the Alexandria canal. They contemplate that the grading will be commenced in two weeks' time, after which the work will be energetically pushed toward completion.

☞ The New Orleans and Ohio Railroad running from Union City to Paducah, is to be sold at Marshal's sale next February.

☞ The January interest on the bonds of the State of Tennessee will be paid at the Fourth National Bank, New York.

☞ Work on the Winona and St. Peter Railroad, west of Wasaca, Minnesota, is making progress. Two hundred men are at work, and the grading is about half done between Wasaca and Janesville, a distance of thirteen miles.

☞ The extension of the Alexandria, Loudoun and Hampshire Railroad to Mercier's Station has been completed, the rails having been laid to that point.

☞ Spencer Co., Ky., has subscribed $300,000, and Mercer Co., $400,000, to the capital stock of the projected Louisville, Harrodsburg and Virginia Railroad.

Richard Norris & Son,

LOCOMOTIVE WORKS.

The undersigned offer for sale, or on lease for a term of years, to acceptable parties their Extensive Locomotive Works, Established in 1834, consisting of Lands, Buildings and Tools, centrally situated in the City of Philadelphia on a main line of railway connecting with all others. Personal application to be made at our office

RICHARD NORRIS & SON,
4t **17th st. and Spring Garden st.**
PHILADELPHIA, Dec. 12, 1868.

To all connected with Railroads,

Superintendents, Conductors, Engineers, &c.

DO YOU WANT A TIME-KEEPER?

If so, ask your Watchmaker for a Borel & Courvoisier *Nickel Watch*. Prize Medal awarded at London, Paris and Swiss Exposition, for best performance.

TEN NEW DUMP CARS,

For Coal, Ore, or Gravel.

Body 11+8. Corner Posts, Bottom and Sides of Iron. 33in. wheels. Gauge 4 ft. 8½ inches. Can be delivered in ten days.

WILLIAMS, PAGE & CO.,
91 Water st., Boston.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO., NEW YORK, Dec. 15, 1868.

AT A MEETING OF THE BOARD OF DIRECTORS of this Company, held this day, it was

Resolved, That a dividend of FIVE PER CENT., in cash, free of Government tax, be paid, on the 1st day of February next, to the holders of the full paid shares, registered on the 18th day of January next, and that the transfer books be closed on the said 18th day of January, and opened on the 5th day of February following.

THOMAS E. WALKER, Treasurer.

HAMILTON SQUARE

RUBBER WORKS.

C. V. MEAD & Co.,

Manufacturers of Superior Quality

OF

INDIA RUBBER

CAR SPRINGS,

BRAKE TUBING, ETC.

P. O. Address Box 588, TRENTON, N. J.

TESTIMONIAL.

Baltimore, Md., April 16, 1868.

We have used, on the Baltimore and Ohio Railroad, during the past year, about 13,000 lbs. of India Rubber Car Springs, manufactured by the Hamilton Square Rubber Works, Trenton, N. J., (C. V. Mead & Co.,) and have found them equal to, if not superior to any we have used in past time, and on much more reasonable terms.

JOHN OLIVER,
Purchasing Agent Baltimore and Ohio Railroad.

CAUTION.—The above firm are not connected with any other Manufacturers using the name of Mr. Mead.

Mead's Springs are stamped Hamilton Square Rubber Works, Trenton N. J.

C. V. MEAD. R. L. HUTCHINSON,
R. S. MANNING. G. W. NORTON,

THE UNION PACIFIC

RAILROAD COMPANY.

OFFER A LIMITED AMOUNT OF THEIR

First Mortgage Bonds

AT PAR.

NINE HUNDRED AND SIXTY MILES

Of the line West from Omaha are now completed, and the work is going on through the Winter. As the distance between the finished portion of the Union and Central Pacific Railroads is now less than 400 miles, and both companies are pushing forward the work with great energy, employing over 30,000 men, there can be no doubt that the whole

Grand Line to the Pacific

Will be open for Business in the Summer of 1869.

The regular Government Commissioners have pronounced the Union Pacific Railroad to be FIRST CLASS in every respect, and the Special Commission appointed by the President says:

"Taken as a whole, THE UNION PACIFIC RAILROAD HAS BEEN WELL CONSTRUCTED, AND THE GENERAL ROUTE FOR THE LINE EXCEEDINGLY WELL SELECTED. The energy and perseverance with which the work has been urged forward, and the rapidity with which it has been executed are without parallel in history, and in grandeur and magnitude of undertaking it has never been equalled." The Report states that any deficiencies that exist are only those incident to all new roads, and that could not have been avoided without materially retarding the progress of the great work. Such deficiencies are supplied by all railroad companies after the completion of the line, when and wherever experience shows them to be necessary. The report concludes by saying that "the country has reason to congratulate itself that this great work of national importance is so rapidly approaching completion under such favorable auspices." The Company now have in use 137 locomotives and nearly 2,000 cars of all descriptions. A large additional equipment is ordered to be ready in the Spring. The grading is nearly completed, and ties distributed for 120 miles in advance of the western end of the track. Fully 120 miles of iron for new track are now delivered west of the Missouri River, and 90 miles more are *en route*. The total expenditure for construction purposes in advance of the completed portion of the road is not less than eight million dollars.

Besides a donation from the Govt. of 12,800 acres of land per mile, the Company is entitled to a subsidy in U. S. Bonds on its line as completed and accepted, at the average rate of about $29,000 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. The Company have already received $22,158,000 of this subsidy, of which $1,280,000 was paid Dec. 6th, and $640,000 Dec. 14th.

Government Aid—Security of the Bonds.

By its charter, the Company is permitted to issue its own FIRST MORTGAGE BONDS to the same amount as the Government Bonds, *and no more*. These Bonds are a First Mortgage upon the whole road and all its equipments. Such a mortgage upon what, for a long time, will be the only railroad connecting the Atlantic and Pacific States, takes the highest rank as a safe security. The earnings from the way or local business for the year ending June 30, 1868, on an average of 472 miles, were over FOUR MILLION DOLLARS, which, after paying all expenses, were much more than sufficient to cover all interest liability upon that distance, and the earnings for the last five months have been $2,386,870. They would have been greater, if the road had not been taxed to its utmost capacity to transport its own materials for construction. The income from the great passenger travel, the China freights, and the supplies for the new Rocky Mountain States and Territories must be ample for all interest and other liabilities. No political action can reduce the rate of interest. It must remain for thirty years—*six per cent. per annum in gold*, now equal to between eight and nine per cent. in currency. *The principal is then payable in gold.* If a bond with such guarantees were issued by the Government, its market price would not be less than from 20 to 25 per cent. premium. As these bonds are issued under Government authority and supervision, upon what is very largely a Government work, they must ultimately approach Government prices.

The price for the present is PAR, and accrued interest at 6 per cent. from July 1, 1868, in currency.

Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau St.,

AND BY

John J. Cisco & Son, Bankers,
No. 59 Wall St.,

And by the Company's advertised Agents throughout the United States.

Bonds sent free, but parties subscribing through local agents, will look to them for their safe delivery.

A NEW PAMPHLET AND MAP WAS ISSUED Oct. 1st, containing a report of the progress of the work to that date, and a more complete statement in relation to the value of the bonds than can be given in an advertisement, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.
Dec. 15, 1868.

DEAKIN & JOHNSON'S
PATENT PUNCHED STEEL,

For STEAM & HORSE  CARS & LOCOMOTIVES.

HOLLOW SHAFTING; LOCOMOTIVE, MARINE, & OTHER TUBES,

HYDRAULIC CYLINDERS, SPINDLES, AXLE BOXES,

GUN BARRELS, GUN JACKETS AND ORDNANCE,

And for all purposes requiring great STRENGTH and SOLIDITY

The PUNCHED STEEL is confidently recommended as the best article in the market, saving from 20 to 50 per cent. in weight, and giving considerably greater strength than solid steel.

Sole Agents for America, **LENG & OGDEN,**
Iron and Steel Merchants and Importers,
4 & 6 FLETCHER ST., NEW YORK.

To Railroad Companies.

We beg to call the attention of Managers of Railways and Contractors throughout the United States and Canada to our superior facilities for executing orders at manufacturers prices for all descriptions of both AMERICAN and FOREIGN

RAILROAD IRON.

We are always in a position to furnish all sizes, patterns and weight of Rail for both Steam and Horse Roads, and in any quantities desired, either for IMMEDIATE or REMOTE delivery, at any port in the United States or Canada, and always at the very lowest current market prices. We are also prepared to supply

BESSEMER STEEL RAILS,

of American and Foreign manufacture, rolled to any desired pattern and weight per lineal yard, and of approved lengths. Contracts for both IRON AND STEEL RAILS will be made payable in United States currency for American, and in either currency or gold (at the option of the buyer) for Foreign; when desired, we will contract to supply roads with their monthly or yearly requirements of STEEL OR IRON RAILS, taking their

OLD RAILS IN TRADE FOR NEW

furnished, receiving the difference in cash, and allowing the highest market price for their Old Rails, and, if necessary, receiving the latter after the delivery of the New Rails.

Orders for Foreign Rails, both Steel and Iron, will be taken for transmission by Mail or through the Cable to our

LONDON HOUSE,
58 OLD BROAD STREET,

for execution at a fixed price in Sterling, or on commission at the current market price abroad when the order is received in London; shipments to be made at stated periods to ports in America, and at the lowest possible rates of freights. Address

S. W. HOPKINS & CO.,
69 & 71 Broadway, New York.

PATENT

Smoke-Burning and Super-Heating Boilers,

Are Economical of Fuel, and perfectly Safe.

HOISTING MACHINES,

Run without noise.

Drainage and Wrecking Pumps,

Pass Sand and Gravel without injury,

Capacity 100 to 40,000 Gallons per minute.

OSCILLATING ENGINES,

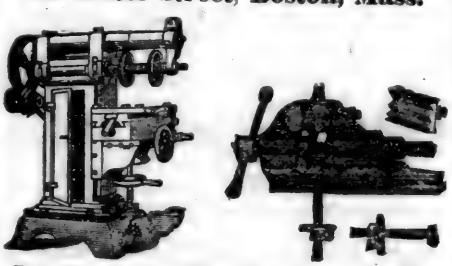
Run at great speed.

All light, compact, and durable.

Manufactured by

WM. D. ANDREWS & BRO.,
414 & 416 Water St., N. Y.

Notice to Contractors.



GENERAL OFFICE OF THE RONDOUT AND OSWEGO RAILROAD COMPANY, Rondout, N. Y., November 13th, 1868.

Proposals will be received at this office until January 2d, 1869, for the Grading and Masonry of the Mountain and Delaware Divisions of this Road. The Mountain Division consists of 23 sections containing 23 miles, commencing at Phœnicia, in Ulster County, and extending to Margaretville, in Delaware County. The Delaware Division consists of 29 sections, containing 29 85-100 miles, commencing at Margaretville, in Delaware County, and extending to Harpersfield Centre, in Delaware County. Map, plans, and specifications will be furnished on and after December 1st 1868, at the Chief Engineer's Office in Rondout. All other information furnished at this office.

6t48 THOMAS CORNELL, President.

UNION VISE COMPANY,

61 Water Street, Boston, Mass.

Pipe, Extra Jaw, and Heavy Vises warranted for Blacksmiths' and heavy work. New style Wood Vise. Covered Screw Vises—Forty styles and sizes constantly on hand. Standard Milling Machines—simple, easily adjusted, great capacity, power and strength—three sizes: large, 2,300 lbs.; medium, 1,600 lbs.; small, 950 lbs. For sale by the trade.

G. H. NOTT, Pres't.
A. H. BRAINARD, Supt.

To All Whom it may Concern.

Notice is hereby given that the Mead Rubber Company of the City of New York, a corporation duly organized, under and in pursuance of an act of the Legislature of the State of New York entitled: "An Act to authorize the formation of corporations for Manufacturing, Mining, Mechanical, or Chemical purposes," passed February 17th 1848, and the several acts amendatory thereto, will apply to the Legislature of said State, at the next session thereof, for a special act of said Legislature, altering or amending the charter of said corporation, by changing the name of said Company from the "Mead Rubber Company," to the "Star Rubber Company."

Dated New York, November 4th, 1868.

For the Company,
JOSIAH J. BURGESS, President.
W. W. WARD, Secretary. 6t48

VAN ANDEN
SWAGED

Patented Sept., 18, 1866.

WROUGHT IRON
RAIL CHAIRS.

RAILROAD SUPPLIES.

The VAN ANDEN CHAIR recommends itself above all others now in use, having continuous base and lips, the grain of the Iron running across the line of the Rail, giving it additional strength over all others now in use, with no liability to split. The spike holes being punched within the edge of the lip, admits of one half the Spike being recessed back in the solid metal, which cannot be done in the rolled chair.

Cheap-Freight Railways.

We publish in our present issue a communication from Mr. SHERWOOD to the Washington *Chronicle*, on the subject of a Cheap-Freight Railway from Washington to Lynchburg, Va., on the plan proposed by the National League, and heretofore frequently advocated in our columns. We understand that conferences are proposed between those representing the interests of the Orange, Alexandria and Manassas Railroad, and parties in Washington relative to establishing a freight thoroughfare on the plan suggested in Mr. Sherwood's letter. If so we regard this as one of the most important railway movements ever made in the United States.

While we have no doubt of the success of this enterprise, if adopted, we can see more in the probable results of the example than in any other scheme we have ever contemplated. If successful, as we have no doubt it would be, a cheap-freight route from New York to New Orleans would be the almost immediate result.

We have heretofore urged that the "equal speed," "equal rights," plan for a freight railway on routes competent to yield a large freight patronage would add from 25 to 50 per cent. to the financial value of most of our roads. After continued and long reflection we repeat the opinion. The great difficulty with our whole system under present management is feeble capacity to carry freights, high charges on meagre patronage, and paralyzed results on the great producing interests of the nation as compared with what is attainable under a better and more vigorous system. Our railways will never flourish as they should, nor the country be made to realize the full fruition of benefit until the principles of fair reciprocity are established between railways and the people. We firmly believe that what is best for the people will be best for the railways.

We hope, in case this incipient project is matured, railway interests, as well as the people everywhere will join in making a thorough experiment. It would have our best wishes, our confidence and support.

The Dubuque Bridge.

The new Bridge spanning the Mississippi River between Dubuque, Iowa, and Dunleith, Ills., was completed on the 21st of December, 1868, and the first train crossed it on the 22d. The same day it was tested by R. B. Mason, its chief engineer, with his associates, in the presence of the officers of the Illinois Central Railroad Company, the Dubuque Bridge Company, and of Walter Katte, engineer of the Keystone Bridge Company, which built the superstructure. Five locomotives with their tenders coupled together, and weighing altogether, two hundred and forty-five tons, were moved over the bridge so as to rest successively on each span. Under this test the greatest deflection of the spans 250 feet long was about two inches; of those 225 feet long, 1⅝ inches; and of the pivot spans, which are 180 feet long, 1⅛ inches. With a single engine resting on the centre of a span the greatest deflection was ¾ of an inch. A further test was made by running two locomotives coupled together over the bridge at a speed of fifteen miles an hour. This caused a deflection of 1⅛ inches. The tests were thoroughly satisfactory, and after they were made Superintendent Hughitt of the Illinois Central Railroad, ordered the bridge into service, and before night several hundred freight cars had crossed it in both directions. The express train west crossed the bridge on the same day. Now all trains, both freight and passenger, run through to Dubuque, and start from that place instead of Dunleith.

The bridge is composed of iron and masonry, and cost, with the approaches, $900,000. Its entire length is 1,760 feet, and consists of four spans of 225 feet each, and two of 250 feet each, and a draw of 360 feet in length. The Dubuque *Herald*, from which we have obtained the above says:

The construction of this bridge deserves to be noted as one of the most eminent examples of fast work, even in this fast age. The contract was made January 14, of the present year. Since the first of February all the iron which enters into the structure has been made from the ore or the pig. Within eight working months the whole work has been completed, including not only the iron superstructure, one-third of a mile in length, but also approaches twice as long and a tunnel through limestone on the Illinois side 835 feet long, at a total cost of about one million dollars. And with all this haste there has been no neglect, the bridge having no superior on the Mississippi, and being one of the most creditable of the many creditable structures built by the Keystone Bridge Company, which in this case has finished its work ten days earlier than the contract required.

This bridge is the property of the Dubuque Bridge Company, whose officers are as follows: President, Hon. Wm. B. Allison; Chief Engineer, R. B. Mason; Secretary, W. E. Massey; Directors, Platt Smith, H. L. Stout, R. B. Mason and Joseph F. Tucker.

Railroad Bridge at Keokuk.

In reference to the proposed Bridge at Keokuk, Iowa, the Chicago Railroad *Gazette* says that four railroad companies guarantee eight per cent. on $1,000,000. Bonds for that amount are to be issued, and are already subscribed for at 85 cents, which provide for the cost of the bridge. The Bridge Company likewise issue $1,000,000 in stock. Each purchaser of a $1,000 bond gets $1,000 stock as a bonus. The tariff, as agreed on, is 70 cents per ton on freight, and is not to be reduced until the receipts are enough to pay eight per cent. on the stock. The Keystone Bridge Company get $850,000 for building the bridge, the net amount produced by the sale of the one million in bonds.

Finances of Ohio.

From the Report of the Commissioners of the Sinking Fund, we learn that the total funded debt of the State, May 15, 1868, was...$10,958,876 76

The redemptions during the six months were:

Foreign loan of 1860 ..	$2,000 00	
Foreign Union loan of 1868	155,716 00	
Foreign loan of 1870 ..	157,361 33	
Domestic Union loan, 1868	111,124 00	
		426,201 33
Outstanding Nov. 15, 1868.....		$10,532,675 43

The existing funded debt of the State consists of the following loans:

FOREIGN DEBT—PAYABLE IN NEW YORK.

Loan payable after Dec. 31, 1860, not bearing interest.....	$6,270 00
Loan (Union) payable July 1,1868, bearing 6 per cent. interest.....	2,600 00
Loan payable after Dec. 31, 1870, bearing 6 per cent. interest	2,026,170 60
Loan payable after Dec. 31, 1875, bearing 6 per cent. interest.....	1,000,000 00
Loan payable after June 30, 1881, bearing 6 per cent. interest	4,095,309 47
Loan payable after Dec. 31, 1886, bearing 6 per cent. interest	2,400,000 00
	$10,130,350 07

DOMESTIC DEBT—PAYABLE AT COLUMBUS.

Stock of 1849, not bearing interest	$1,765 00	
National road bonds, not bearing interest..	60 36	
Union loan of 1868, not bearing interest.....	500 00	
Union loan of '71, bearing 6 per ct. interest.	400,000 00	
		302,325 36
Total public funded debt, Nov. 15, 1868.....		$10,532,675 43

The receipts into the Sinking Fund, and the disbursements therefrom, were as follows:

RECEIPTS.

Balance in the Treasury May 15, '68.	$533,572 17

		837,432 61
Balance in the Treasury Nov. 15,'68		$352,463 41

☞ The Richmond *Journal* says that General Wyckham, President of the Chesapeake and Ohio Railroad Company, has left that city for the scene of his future labors on the road, and intends to set energetically to work upon the extension of the great work, which he confidently expects to carry through to White Sulphur Springs by the time the early visitors begin to arrive at that famous resort.

New Orleans, Mobile and Chattanooga R.R.

At last the long talked of enterprise, the construction of a railroad from New Orleans, along the Gulf shore, to Mobile, and thence northeasterly to Chattanooga, Tenn., commences to assume a tangible form. Two years ago the City Council passed an ordinance granting this corporation certain privileges, making the condition, however, that by November, 1869, communication by rail with Mobile should be complete. Since that time the legislatures of Louisiana, Mississippi and Alabama have conferred valuable privileges, and yet, spite of these, people have been left to wonder why the important work was not begun. The company has, meanwhile, had its headquarters on the Gulf shore at Pass. Christian, Miss. and has also, part of the time, had an office in this city. Its corps of engineers and surveyors have long since completed their work in laying out the line of the road, which, running across the swamp or salt meadows northeast of the city, will cross the Rigolets near the mouth of Pearl river, and thence skirt the coast as far as Pascagoula, whence, turning northeast again, it reaches Mobile at a distance of about thirty miles from the latter point. Along this entire distance, say 160 miles, there will be three important bridges—one, with a draw of 100 feet, at the Rigolets, and two of about a mile in length each, and with fifty feet of drawbridge at the crossings of Bay St. Louis and the Bay of Biloxi. These bridges render the construction of the road an undertaking of no common magnitude, for the Rigolets, through which the waters of the Amite river and of Lake Pontchartrain, augmented by those of the Pearl, flow to the Gulf, are forty to fifty feet in depth, a strong rapid current, bounded by swampy banks, infested by mosquitoes and alligators.—*N. O. Cor. St. Louis Republican.*

Cumberland Valley Railroad.

The earnings of this road for the years ending September 30, 1867 and 1868, have been as follows:

	1867.	1868.
From passengers	$190,359 20	$208,206 56
" freight & express	320,731 78	350,007 01
" mails.....	6,300 00	6,300 00
	$517,390 98	$564,513 57
Expenses, viz:		
Motive power.....	$68,559 59	$105,638 48
Conducting transp.....	84,134 91	86,278 89
Maintenance of way ...	146,837 98	69,642 00

Total, as above.....	$787,187 14	$821,386 58

The company have 16 locomotives. Miles run with passenger trains, 132,598; with freight trains, 98,462; with construction trains, 11,086—total miles run, 242,146. Passengers carried east, 137,496; do., west, 143,738—total, 281,134. The report says:

The business of our road has continued to increase from year to year, and that of the last has not been an exception, nor have we yet arrived at that maximum which legitimately belongs to the road and the necessities of the population of Cumberland Valley. In our last annual report we announced the policy of the Board to be a determined purpose to place the road and all its rolling stock and conveniences in the highest possible condition. With this view the thorough ballasting of the road has been continued until now there remain but eight miles to complete the work. A new scale office has been built at Bridgeport, also a coal house for storing coal for locomotives, and 3,425 feet of new siding graded and laid at that point. At Chambersburg 325 feet of new siding have been graded and laid, and at Marion Station 525 feet, making the total length new siding put in this year 4,275 feet. There have been put into the track, 472 tons of re-rolled 56 lbs. rails, 19,841 cross ties and 3,201 wrought iron chairs. One hundred tons of steel rails were ordered last April, but failed to reach us before the 1st of October, and they will be put into the road during the present year. We have purchased 30 new eight-wheeled box cars and built one new mail baggage car and one new passenger car body. The engine Robert Morris, the work of remodeling which had commenced, has been finished; and the William Penn has been remodeled, making all the principal parts of these two engines entirely new, which affords us two additional first class passenger engines. We did not purchase the new locomotives contemplated in our last annual report, but the one purchased last year was paid for in this.

The following will show the extraordinary expenses during the past year:

Ballasting track.....	$44,461 71
Grading and laying new sidings.....	3,084 95
New freight cars	24,000 00
Mail car and passenger car body.....	3,740 25
Scale and coal houses at Bridgeport..	2,254 71
Locomotive engine.....	12,679 45
Iron bridge at Carlisle.....	10,695 19
The sum of $13,326 62 was expended upon the Morris and Penn engines of which should be placed to this account	10,000 00
Total	$110,916 26

Our necessities for the ensuing year call for eight hundred tons of new rails, and twenty-five thousand cross ties: the sidings should be extended at Bridgeport, Mechanicsburg, Kingston, Carlisle, Greason, Newville, Chambersburg, Greencastle and Hagerstown: we should have two more engines, one for passengers and the other for freight, and we require 30 more coal cars. We want, too, some addition to the tools of the machine shop, where so much work is so neatly, economically and well done, it is but a just tribute to the foreman and workmen of that branch of our establishment that they should be supplied with all such implements as mechanical science continues to furnish to the modern machine shop. By a refrence to the tables showing the amount of freight carried, it will be perceived that the increase in coal over last year has been about forty-three per cent. and this will continue yet to increase, if the article can be delivered to farmers at the lowest possible price. It is the policy of the company to insure this by preventing as far as possible any combination between the few dealers at each point of the road, from charging more than a reasonable profit on the sale of coal; and this we can only do by encouraging others to enter into business whose interests are to cheapen the article to the consumer at a moderate profit to themselves. The profit which the company derives from this trade does not consist alone in the receipts of toll for carrying coal, but in its re-

sults, in greatly increasing the fertility of the soil by the use of lime; hence that it should be furnished to farmers at the lowest possible rate is our policy, as well as our purpose.

The South Mountain Iron Company has commenced the making of their road to their ore mines at Pine Grove, which they expect to complete in the early part of the coming year. This road is about sixteen miles in length, will connect with the Cumberland Valley road at Carlisle, from whence the trade coming off that road will be carried to Harrisburg. This may bring to our road in the first year fifty thousand tons which renders necessary the increase of our motive power. To induce the building of this road, from whence so large an amount of freight is anticipated, our company agreed to loan to the South Mountain Iron Company, two hundred thousand dollars, at an interest of six per cent. per annum, clear of State taxation, payable semi-annually, to be secured by mortgage upon the road and all the rolling stock and real estate of the company, which consists of about 22,000 acres of land, with the furnace, forge and other improvements.

In our last Annual Report the extension of our road from Hagerstown to the Chesapeake and Ohio Canal was recommended. The subject has since received the attention of the Board and it has been resolved to make it. This will require an expenditure of about three hundred thousand dollars. To raise this amount the Board, in pursuance of the charter, authorized an increase of the capital stock to the amount of two hundred thousand dollars, by allowing the present stockholders to subscribe at par to the amount of twenty per cent., of their holdings on the 1st November, and most of the stockholders have availed themselves of the privilege; the balance of one hundred thousand or such part of it as may be necessary will be paid out of other resources of the company. When this extension shall have been completed it will open up a new trade over the whole length of our road. It connects with the Chesapeake and Ohio Canal, at Williamsport, Maryland, which runs near to the coal fields of the Cumberland, which will supply the valley and all points beyond it with the bituminous coal of that region. The pine and hard woods of the Alleghany mountains will also have a new out-let into our valley; whilst the anthracite coal of Eastern Pennsylvania will be carried West over our road to supply fuel for smelting iron ore all along the Chesapeake and Ohio Canal and Potomac river.

This extension will probably be completed during the next year, and we must soon begin to prepare to meet its requirements.

GENERAL STATEMENT.

Directors.—Frederick Watts, Thomas A. Biddle, Thomas A. Scott, Washington Butcher, Wistar Morris, H. J. Lombaert, Daniel O. Gehr, Thomas B. Kennedy, Edmund Smith, J. Edgar Thomson, Josiah Bacon.

Secretary and Treasurer.—EDWARD M. BIDDLE.
Superintendent.—O. N. LULL.

Imports of Dry Goods.

The imports of foreign dry goods at the port of New York for each month of the years 1867 and 1868, are officially stated as follows:

	1867.	1868.
January	$11,928,872	$5,119,359
February	9,786,615	8,574,770
March	10,227,579	9,361,654
April	5,274,455	4,826,418
May	5,436,451	5,825,994
June	4,235,313	4,181,629
July	6,532,575	6,971,547
August	12,608,019	12,853,606
September	7,351,223	8,457,768
October	5,382,793	5,702,189
November	4,397,398	5,514,392
December	3,092,350	3,516,508
Total	$86,263,643	$80,905,834

The following will show the relative proportion of the different classes of fabrics:

	1867.	1868.
Manufs. of wool	$31,357,833	$25,753,436
" cotton	15,800,894	13,561,001
" silk	18,565,817	21,708,801
" flax	12,949,561	12,501,157
Miscellaneous dry goods	7,589,538	7,381,439
Total imports	$86,263,643	$80,905,834

The value of foreign dry goods entered directly for consumption at the port of New York is as follows:

	1867.	1868.
January	$5,836,470	$3,160,052
February	6,125,167	5,675,807
March	6,428,343	6,815,183
April	3,805,827	3,779,001
May	3,384,643	4,344,834
June	2,374,570	2,842,868
July	3,724,269	4,228,253
August	8,782,015	9,035,309
September	5,908,490	6,370,866
October	3,297,079	4,137,852
November	2,903,081	3,836,263
December	1,556,591	2,285,028
Total	$53,605,545	$56,511,266

The value of foreign dry goods entered for warehousing at the port of New York is as follows:

	1867.	1868.
January	$6,092,402	$1,959,307
February	3,661,448	2,898,963
March	3,799,236	2,546,521
April	1,968,628	1,047,417
May	2,051,808	1,481,160
June	1,870,743	1,338,761
July	2,808,306	2,743,294
August	3,826,004	3,818,297
September	1,442,733	2,086,902
October	2,085,714	1,564,337
November	1,494,317	1,678,129
December	1,556,759	1,231,480
Total	$32,658,098	$24,394,568

The value of foreign dry goods withdrawn from warehouses of the port of the New York is as follows:

	1867.	1868.
January	$3,060,973	$1,604,974
February	7,009,274	3,195,825
March	6,942,758	4,127,654
April	2,652,699	2,155,172
May	2,255,601	1,664,920
June	1,338,874	860,011
July	1,254,419	1,481,329
August	5,731,940	4,021,283
September	3,243,421	2,844,755
October	1,851,593	1,583,480
November	1,515,484	1,317,923
December	780,394	736,496
Total	$37,637,480	$25,593,722

The total imports of foreign dry goods at New York from 1849 compare as follows:

Year.	Invoiced value.	Year.	Invoiced value.
1849	$44,435,571	1859	$118,152,624
1850	60,106,375	1860	103,927,100
1851	62,846,731	1861	43,636,689
1852	61,654,144	1862	56,121,227
1853	98,704,211	1863	67,274,547
1854	80,842,936	1864	71,589,752
1855	64,074,062	1865	91,965,138
1856	93,362,893	1866	126,222,855
1857	90,534,129	1867	86,263,643
1858	60,154,509	1868	80,905,834

The Wheel, the Axle, and the Rail.

A Circular of Useful Information for Railway Men, compiled by W. G. Hamilton for the Ramapo Wheel and Foundry Co.

Mr. Hamilton has given in a concise form an interesting treatise on Car Wheels, Car Axles and Rails, with a finely engraved plate of the Passenger Car Truck used by the Pennsylvania Railroad. The valuable information given, collated from the best authorities, will be eagerly sought for by railway men. The high reputation the wheels made by the Ramapo Works enjoy, will not be lessened by the able and attractive manner in which Mr. Hamilton presents practical statistics to the public. We are glad to learn that the Ramapo Works are full of orders. The orders received during the month of December for 3,700 wheels requires the melting of 925 tons of metal. The annual consumption of iron being 7,000 tons.

Fires during the year 1868.

The N. Y. *Herald* publishes a list of fires that have occurred in the United States for the year ending December 31, 1868, where the losses are reported to have reached $20,000 and upwards. The following is a recapitulation:

Losses in	Amount.	Losses in	Amount.
January	$5,449,000	July	$1,470,000
February	4,329,000	August	3,305,000
March	2,405,000	September	2,492,000
April	2,890,000	October	2,285,000
May	1,812,000	November	2,916,000
June	1,980,000	December	3,414,000

Total losses in 1868	$34,757,000
Total losses in 1867	36,905,000
Total losses in 1866	66,410,000
Total losses in 1865	43,139,000
Total losses in 1864	28,522,000
Total losses in 1863	14,060,000
Total losses in 1862	17,640,000
Total losses in 1861	18,020,000
Total losses in 1860	15,597,000
Total losses in 1859	16,058,000
Total losses in 1858	11,561,000
Total losses in 1857	15,792,000
Total losses in 1856	21,150,000
Total losses in thirteen years	$339,605,000

Rondout and Oswego Railroad.

The work of construction on this road is being prosecuted with energy at the Rondout end of the line, 600 men and 150 horses being employed. This road will connect with the New York and Oswego Midland, and will cost three million dollars. A portion of the line will be in running order by next June. Nine hundred and eighty-five thousand dollars have been raised on town bonds, and the private subscriptions amount to one hundred and twenty-five thousand dollars About three hundred and fifty thousand dollars have thus far been expended on the road.

From the Two Republics.

The Vera Cruz Railroad.

We publish below, from the *Diario Oficial*, the revised concession to the Vera Cruz and Mexico Railroad Company. It is a legal and authentic contract; and there is left no further room for caviling in regard to it. It is the solemn act of the government—executive and legislative; and it places the company beyond all further vicissitudes. It renewes the credit of the company, gives confidence to the enterprise; and the way is clear for renewed energy and activity upon the work. With the completion of this road, this capital and several other cities will be brought into immediate and direct communication with the commercial world. It will open to enterprise a vast agricultural and mining country, rich enough to support a dozen railroads. It will bring in immigration, so much needed in this extensive and inviting region; and commerce will regain confidence and become regulated, certain and profitable. We understand that already, engineering and surveying parties have gone upon the route of the Puebla section and that work will also commence soon in the same direction.

This act of Congress, and the enlightened action of that body in reference to other bona fide projects of internal improvement, reflects great credit upon its members. So much for the South Eastern portion of the Republic. What we want next is a railroad in the North Western section—say from the upper Rio Grande through to the Gulf of California, to open that vast and valuable region of the Republic. A measure of this character is second in importance to no other. That carried out, the country will be in an eligible condition to reap the benefits of the "National Railway's" in conjunction with which, the net-work of roads as proposed by that indefatigable projector Mr. Stephenson, will be completed.

DEPARTMENT OF FOMENTO, COLONIZATION, INDUSTRY AND COMMERCE.

Benito Juarez, Constitutional President of the United States of Mexico, to all its inhabitants, be it known;

That it has pleased the Congress of the Union to decree the following.

The Congress of the Union decrees.

Art. 1. The decree of the 27th November, 1867, remains in force, with the following modifications:

1. Article second will remain in these terms.

Art. 2. The managing Company shall complete the construction of the said railroad between Vera Cruz and the city of Mexico; and the branch from Apizaco to Puebla; the government binding itself not to give pecuniary aid (subvention) during the term of sixty-five years from this date, to any corporation or person whatever that will undertake the construction or running of another railroad between Vera Cruz and Mexico, or the intermediate points. The aid conceded to the Puebla and Jalapa railroad is not embraced in this compromise.

II. The terms referred to in article fourth will be prorogued for one year; this article is as follows:

Art. 4. The line of railroad from Apizaco to Puebla, to be finished by the 31st day of the month of December in the year 1869, placing it immediately at the public service. The part to be built between Apizaco and Paso del Macho, to unite Vera Cruz and Mexico, will be concluded precisely on the 31st of December, 1872, placing it immediately in operation.

III. Article fifth which refers to the preference for building branches, is suppressed.

IV. Article fourteen will remain in these terms:

Art. 14. The charges for merchandise and passengers on the partial divisions will be in proportion to the number of leagues. The national products that are transported from Mexico to Vera Cruz and intermediate points, will be entitled to a reduction of sixty per cent on the tariff. When the same products are transported in the opposite direction, the reduction on the same tariff will be twenty per cent.

V. The following will be substituted for article fifteen.

Art. 15. Two years after the conclusion of the road and its having been in operation, the government will modify with the consent of the company, the tariff on merchandise and passengers, provided that the profits of the stockholders will be at least twelve per cent. per annum.

The division of goods in the three classes of the tariff of merchandise, will be submitted for the approval of the government, now, and every two years, hereafter, counting from the completion of the road, though the law may fix for this purpose, longer terms.

VI. Article nineteen will be as follows:

Art. 19. In order to aid the works to which this decree refers, the government binds itself to give to the company the sum of five hundred and sixty thousand dollars annually for the space of twenty-five years, without interest. Within eight months the company will deliver to the National Treasury the interest bonds and coupons that, for the stock of eight million of dollars was given to Antonio Escandon, in accordance with article nineteen of the decree of August 31st 1857, and which has no force nor value whatever.

VII. Article twenty will remain in this form:

Art. 20. The Supreme Government solemnly binds itself that the payment of the five hundred and sixty thousand dollars will be faithfully and punctually paid, without ever subjecting said sum to any suspension, reduction or other reform whatever that is decreed or agreed upon, respecting the National debt.

VIII. The following will be substituted for article twenty-one:

Art. 21. The Government will issue special bonds under the title of "Bonds of the Vera Cruz and Mexico railroad," and said bonds will represent five hundred and sixty thousand dollars for each one of the four years that the construction is to last. This paper will be received in payment of the twelve per cent. on the duties of importation collected in the Custom Houses of Vera Cruz, Tampico, Matamoros, Manzanillo and Mazatlin, or an equivalent to the twelve per cent, in case that a smaller quota is sufficient to cover the five hundred and sixty thousand dollars. If in virtue of the liquidation of what the company receives the first year, it should appear that the duties of importation in the five mentioned Custom Houses, are insufficient to cover the five hundred and sixty thousand dollars annually, the Government will increase the quota until it shall be enough to cover this sum, paying the deficiency in ready money in the city of Mexico.

IX. Article twenty-two will say:

Art. 22. The bonds will be issued by the Minister of Fomento, and no importer will be permitted to satisfy in advance the twelve per cent. of the duties he has to pay, in coin nor in any other kind that is not the said paper, under the penalty of being subjected to a second payment; this will be double the quantity of the amount of the quota, recovering the half in paper, in order that the disposition of the law be fulfilled at all events, and the other half in money, according to the rules of the guide of confiscations to the informers.

X. Article twenty-three will also be substituted by the following:

Art. 23. The Department of Fomento will annually deliver to the company, five hundred and sixty thousand dollars in railroad bonds, who will be bound to have a supply of the same in the city of Mexico and at each of the five mentioned ports, that the commerce may obtain it with the necessary convenience. In no case can the company sell it at a higher price than its representative value, under the penalty of refunding the excess to the purchaser and to pay a triple amount as a fine, in favor of the treasury. After the completion of the road, the government will make the annual payment of the five hundred and sixty thousand dollars in ready cash, in the city of Mexico, quarterly at maturity, without delay upon any account, and this credit can never be subject to suspension, or conversion of debt, or other form of alienation, which is not that of payment in coin.

XI. Article twenty-nine will remain as follows:

Art. 29. The government will enjoy in the conveyance of trains, munitions, equipages, provisions, horses, mules and troops that travel from one point to another of the line, a reduction of seventy-five per cent. on the prices recovered from the public, but in order to avoid abuses that might be committed under this clause, it is solemnly stipulated, that in each case of a movement of troops or conveyance of trains or munitions, there will be given by the government a special order for the directors of the line. The immigrants coming to the Republic with the due authority of the government, will enjoy the same advantages conceded to the armed force.

Art. 2. The following articles will be added to the decree.

Art. 45. The government will inspect the construction and operation of the railroad, though the means fixed by the minister of Fomento.

Art. 46. Within five months at farthest, the statutes of the company will be submitted to the government for its approval, and the two following prescriptions are to be embodied in them:

1. The Capital stock cannot be augmented over the sum of twenty-seven millions of dollars, nor to change its division for half in shares and half in obligations, nor allow the interest of the latter to exceed eight per cent. per annum, without the previous consent of the government.

2. The government, without prejudice to its representation as stock-holder, and of the other means that it thinks proper to employ in order to take part in the direction and administration of the company, will cause itself to be represented in the directive board by the two-sevenths or by the three-eleventh parts of the directors, and those that will be appointed for that purpose will have the same faculties and prerogatives as the others.

Art. 3. The item of five hundred and sixty thousand dollars is included in the budget of expenditures, for the subvention of the railroad between Mexico and Vera Cruz, and the expense of the import of the railroad tax of fifteen per cent, conformable to the decree, of the 27th November 1867, with the modifications agreed upon between the Executive and the concessionary company, that appears in article 1st.

Art. 4. The terms pointed out in the law of the 27 November 1867, and that of five months granted for the presentation of the statutes, is understood to count from the date of the publication of this law.

Hall of the National Congress. Mexico, November 10, 1868.—Guillermo Valle, deputy President.—Joaquin Baranda, deputy Secretary.—Juan Sanchex Azcona, deputy Secretary.

Therefore, it is ordered to be printed, published, circulated and to be duly observed. Palace of the General Government in Mexico, on the eleventh day of November, one thousand eight hundred and sixty eight.—Benito Juarez.—To Citizen Blas Balcarcel, Secretary of Fomento, Colonization, Industry and Commerce.

BALCARCEL.

Mexico, November 11th, 1868.

☞ The contract for the construction of a Railroad Bridge at St. Paul has been awarded to R. B. Langdon, Esq., of Minneapolis. The work is to be commenced immediately, and completed by July next.

General Railroad Law of Arkansas.

This law is almost identical with that of Tennessee, which has done so much for the advancement of that State, and is a practical, well guarded and efficient plan for accomplishing the object sought. It was accepted by a vote of the people at the last general election. It is entitled :—

AN ACT TO AID IN THE CONSTRUCTION OF RAILROADS.

Be it enacted by the General Assembly of the State of Arkansas :

SECTION 1. For the purpose of securing such lines of railroad in this State as the interests of the people may from time to time require, the faith and credit of the State of Arkansas is hereby irrevocably pledged, and the proper authorities of the State will and shall issue to each railroad company or corporation, which shall become entitled thereto, the bonds of this State, in the sum of $1000 each, payable in 30 years from the date thereof, with coupons thereto attached for the payment of interest on the same in the city of New York, semi-annually, at seven per cent. per annum, in the sum of $15,000 in bonds for each mile of railroad which has not received a railroad land grant from the United States, and $10,000 in bonds for each mile of railroad which has received a land grant from the United States, on account of which such bonds shall be due and issuable as provided.

SEC. 2. *Be it further enacted*, That the board of railroad commissioners are hereby authorized and required to receive the application for the loan of the State credit herein provided for, and to designate the roads entitled to the same; *Provided*, The whole aggregate number of miles proposed to be built by such companies to which such aid is granted, does not exceed 850 miles.

SEC. 3. *Be it further enacted*, That it shall be the duty of said board of railroad commissioners to inspect, from time to time, the railroad desiring to receive said aid, and indicate to the governor the manner such state aid is being used and applied. And should it be found that such state aid is being improperly used or applied, then the governor is hereby authorized to withhold all or a part of said bonds, and to take such other steps as he may deem proper, to the end that the bonds shall not be squandered to the manifest injury of the citizens of the State. Such action on the part of the governor shall be reported to the next session of the general assembly, who are hereby empowered to take such steps as may be necessary to protect the interests of the State.

SEC. 4. *Be it further enacted*, That any railroad company having existence under the laws of this State, and desirous of receiving the state aid hereafter provided for, may signify the same by application to the board of railroad commissioners, signed by the president, and attested by the seal of said corporation, setting forth the character and organization of said company, its capital stock, a map of the line or lines of road proposed to be built, the progress made thereon, the financial condition and resources of such company, with such other information as the case may require, and if such board of railroad commissioners shall find such corporation to be organized according to law, with resources adequate to the purpose, and that the construction of the proposed line or lines of road will be of public benefit, and said board of railroad commissioners shall consent to approve and grant such application, then and thereafter said railroad company or corporation shall be entitled to, and have a right to ask for, demand and receive the bonds of the State hereinbefore declared to be pledged and granted upon complying with, and fullfilling the terms and conditions hereinafter set forth.

SEC. 5. *Be it further enacted*, That any railroad company or corporation which shall have acquired the right to demand and receive state aid, by virtue of the official certificate in the preceding section specified, and claiming an issue of bonds in its behalf, shall first file in the office of secretary of State the following papers, viz :

First, A map of the line or lines of railroad proposed to be built, showing the counties traversed, the general direction and terminal points, and the streams to be crossed.

Second, The affidavit of the president and chief engineer, showing the estimated cost of preparing the first consecutive one hundred miles of road for the iron rails.

Third, The affidavit of the president or treasurer that the available resources of the company, subscriptions, money, lands and other means are sufficient to prepare one hundred consecutive miles, or one third of the whole line of road for iron rails.

Fourth, The affidavit of the president and chief engineer, that ten consecutive miles of road had been graded, bridged, furnished with ties, and made ready for the iron rails.

Fifth, And shall furnish the governor with such papers, documents and other information as he may require in reference to the railroad or its management, to which affidavit shall be made.

SEC. 6. *Be it further enacted*, That thereupon the governor, or the person filling for the time being the executive office, shall issue to the president of said company the bonds of the State of Arkansas, bearing the seal of the State, attested by the Secretary of State, as provided in section one hereof, upon the completion and preparation for the iron rails of each succeeding ten miles or more, until the entire line or lines of road of railroad corporation shall be completed. The president of such railroad company shall file his official receipt for each issue of bonds, accompanied by the affidavit of himself and at least four directors, that the bonds, or the avails of them, shall be disposed of solely for the purpose of providing for the ironing, equipping, building and completing said road.

SEC. 7. *Be it further enacted*. That the legislature shall from time to time impose upon each railroad company, to which bonds shall have been issued, a tax equal to the amount of the annual interest upon such bonds then outstanding and unpaid, which tax may be paid in money or in the past due coupons of the State, and after the expiration of five years from the completion of said road, the legislature shall impose an additional tax of two and one half per cent. per annum upon the whole amount of state aid granted to such company, payable in money or in the bonds and coupons of the State at par; and, if in money, the same shall be invested by the treasurer of the State in the bonds of the State at their current market value. The taxation in this section provided to continue until the amount of bonds issued to such company, with the interest thereon, shall have been paid by said company as herein specified in which case the said road shall be entitled to a discharge from all claims or liens on the part of the State: "*Provided*, that nothing herein contained shall be so construed as to deprive any company, securing the loan of the bonds of the State herein provided for, from paying the whole amount due from such company to the State at any time in the bonds of the State loaned in aid of railroads or the coupons thereon, or in money."

SEC. 8. *Be it further enacted*, That in the case said company shall fail to pay the tax as imposed by the preceding section, at the time the same become due and for sixty days thereafter, it shall be the duty of the treasurer of the State, by writ of sequestration to seize and take possession of the incomes and revenues of said company until the amount of said defaults shall be fully paid up and satisfied, with costs of sequestration, after which said treasurer shall release the further revenues of said company to its proper officers.

SEC. 9. *Be it further enacted*, That nothing herein shall be construed to prevent said board of railroad commissioners granting the State aid herein contemplated to the whole or any part of any railroad in the State, which may now be unfinished or in process of construction: *Provided*, That as soon as this act shall be ratified by the people and the commissioners shall approve the application of any company which may be entitled to the benefits of this act, and they shall have complied with its provisions, the governor shall be authorized to issue the bonds to said company upon demand therefor, as provided for in this act.

SEC. 10. *Be it further enacted*, That railroad companies or corporations desiring to make application for State aid, under the provisions hereof, must file the application required by the fourth section hereof within one year after this act shall have become a law, or within one year after the incorporation of any railroad which may be incorporated, and within one year thereafter comply with the requirements of section five hereof, with respect to the first ten miles of road, and complete the whole road within seven years after this act shall have become a law, or after the incorporation of the company; *provided*, that any railroad now chartered and availing themselves of the provisions of this act shall construct and put in running order one fourth of the entire line of road within two years after this act becomes a law, and one-half of their entire line of railroad within two years thereafter, and have the whole line finished and in running order before the expiration of seven years after this act becomes a law; failing in these conditions said company or companies shall forfeit their charter and franchise to the State.

SEC. 11. *Be it further enacted*, That any railroad company that may have received at any time before the ratification of this act by the people, under any law of this State, a loan of the bonds of this State, such company shall only be entitled to the benefits of this act to the amount and extent of the loan herein granted, after deducting the amount of bonds of the State or other State aid received by such company from the State, under any other law of this State, from the whole amount such company may be entitled to under this act.

SEC. 12. *Be it further enacted*, That at the next general election to be holden under the provisions of section three of article fifteen of the constitution of this State, the proper officers having charge of such election shall upon a poll, as in other cases, take and receive the ballots of the electors qualified to vote for officers at such election for and against this act, in compliance with section six of article ten of the constitution; such ballots to contain the words "For Railroads," or "Against Railroads," and if it appears that a majority so voting have voted "For Railroads," this act shall immediately become operative and have full force, and all laws heretofore passed for loaning the credit of this State in aid of railroads shall cease and be void; but if a majority shall be found to have voted "Against Railroads," this act shall be void and of no effect.

Approved July 21st, 1868.

☞ The Little Rock (Ark.) *Gazette* says : "Our railroad interests are looking up. The representatives of foreign capital who have been here, are all encouraged with the prospects and we may look for the commencement of active operations soon—particularly on the Little Rock and Fort Smith route."

☞ The State of North Carolina has as yet made no provision for the payment of the January interest on its bonds; but it is believed that the Legislature, now in session, will take prompt action to raise the money.

☞ The Hastings and Dakota Railroad is now completed to Farmington, on the Minnesota Central Railroad.

☞ The new suspension bridge at Niagara Falls was opened to public travel on New Year's Day. It is the longest suspension bridge in the United States.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." ‡State-aid Railroads are distinguished by a "‡."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, January 9, 1869.

Stock Exchange and Money Market.

Money has been unexpectedly active and close all the week, under review. The banks, governed by the requirements of quarter day, have been contracting their business, and have been extending very little help to borrowers even on prime collaterals. Private lenders have been "feeding" the market, very shrewedly, and have been enabled to exact usuriously high prices for such accommodations as they have seen fit to give to the street dealers. Bidding for money at the Boards and in the Long Room has been carried on an extensive scale, partly in the interest of operations, desirous of augmenting the excitement in the loan and discount lines and thus of adversely influencing real values, both financial and commercial. This policy has been formally proscribed under severe penalties, by both the Stock Exchange and the Open Board, in resolutions adopted on Monday and Tuesday, since which commendable action, the Money pinch has been rather less severe, and the pressure for aid somewhat less urgent. During most of the week, to the leading street borrowers the price was full 7 per cent. currency, on the public funds, and, in many instances, the legal rate in coin and a fractional commission on railway and miscellaneous stock collaterals. No considerable movement was reported in the discount line. The nominal rates were 8@12 per cent. per annum, on choice to good grade of mercantile paper. Late on Tuesday, there was a sudden reaction in the market, and the offerings at the legal rate were on the increase. The movement on Wednesday was also more comfortable for borrowers and the prospect is that a return to ease will be the tendency of the market for some time to come. The City Banks, in their last weekly return, show an increase of $2,795,257 in their specie reserve, $196,261 in their legal tender average, and $1,986,693 in their deposit line. The loans have been reduced $2,252,473, and the circulation has been diminished $7,500. The U. S Sub-Treasury has reduced its cash reserve over eleven millions within the week. The January interest and dividend claims, payable on all properties at this centre, have been estimated as approximating $32,862,500 in gold, and about 19½ millions of currency.

The specie reserve of the city banks is now $20,736,122, against $12,724,614 same time last year. The city bank deposits are now $180,490,445, against $187,070,786 week ending Jan. 4, 1868. The legal tender reserve amounts to $48,896,421, against $62,111,201 same time last year. The circulation now stands at $34,379,609, against $34,134,391 same time last year. The loans are now $259,090,057, against $249,741,297 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $117,061,000 a day, against a daily average of $124,885,841 the preceding week, and $101,851,355 the week ending with Dec. 16, 1868. The current week's exchanges average about $125,000,000 a day. The city banks, last week, gained $2,795,257 of specie, $1,986,693 of deposits, and $190,291 of legal tender notes. They reduced their loans, $2,252,473; and their circulation, $7,505.

National Bank notes to the amount of $168,020 were issued last week by the Treasury Department, making the total issue to 1,685 banks thus far, amount to $311,556,916, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $11,878,226, leaving, with the existing 1,629 banks, (having an aggregate capital of $419,806,511,) an actual circulation at this date, of $299,678,690. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,016,900; and for the public deposits, $35,391,350—making a total of $377,408,250. The Treasury Department last week redeemed and destroyed $254,300 of worn and mutilated fractional currency, and issued $338,763 of new. The outstanding amount of fractional currency on the 1st of December, was $33,875,268, against $33,413,985 on the 1st of November, 1868.

The average amounts of the Gold Exchange Bank loans and discounts last week was $1,483,575, average amount of specie $786,608, average amount of deposits $1,588,970.

The U. S. Sub-Treasury receipts, week ending with Jan. 2, were $9,977,025, including $1,139,182 from customs duties; payments, $18,106,434 including $8,100,000 of coin interest; balance

the close of the week, $82,347,376, against $90 476,836, at the close of the preceding week, showing a decrease of $8,129,459. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $1,907,753 including $297,866 from customs; and payments, $2,684,611, including $1,334,000 of coin interest; on Tuesday, receipts, $1,239,913 including $226,000 from customs, and payments, $1,822,351, including $840,000 of coin interest. The balance at the close of business on Tuesday stood at $78,601,922, against $89,937,195 a week previous; and $91,054,011, on Dec. 16, 1868.

The aggregate receipts of the Sub-Treasury in December were $39,511,114; payments, $37,687,-811; balance at the close $87,901,169, against $86,077,866 at the close of November.

The outstanding amount of coin certificates on the 1st of Dec., was $23,255,840, against $19,716,-840 on the 1st of Nov., 1868. The Sub-Treasurer at this port issued, last week, coin certificates to the amount of $3,139,000, and retired $1,078,181 through the receipts for customs. The coin certificates issued by the Sub-Treasury office, during November, reached $7,600,980.

A very moderate revenue was derived by the National Treasury, from all sources, last week. The excises, last week, yielded about 2¼ millions; customs at the port of New York, $1,139,182, and at the outports about $400,000 (in coin) more, making the grand total income for the week equal to about $4,327,895 in currency. The total receipts of the National Treasury, from excises, during the fiscal year ending with June 30, 1868, were $191,-180,564. The receipts from the same source, thus far in the current fiscal year, commencing with July 1, 1868, have been about 73 millions, according to the latest Washington advices.

Gold has been only moderately active, since our last, and has been more than usually steady in price, the extremes having been 134½@135½, and closing figures on Wednesday 135@135⅛. The export and customs call has been light. The Sub-Treasury has disbursed about ten millions of coin interest, since the 1st inst. The *Russia* on Wednesday took out $60,000. The *Rising Star* from Aspinwall, delivered $589,765 of California treasure. Government received $6,657,573 from customs at this port in December, against $5,448,-244 in December, 1867.

The total imports of specie at this port from Europe, and other foreign ports year ending Jan. 1, 1869, were $7,129,747, against $3,145,592 in 1867. The customs demand for Gold last week, averaged $239,832 a day; thus far, this week, it has been equal to $261,933 a day, or equal to a weekly aggregate of $1,571,598. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $14,290 and from California, $589,765. The total customs revenue of the Government, in coin, at this port, in 1868, was $116,471,894, against $116,958,654 in 1867. At the port of San Francisco, $8,382,-329, against $7,484,475 last year.

The total receipts of California gold at this port, in 1868, were $34,559,131, against $27,677,-556 in 1867, showing an increase in 1868, of $6,-881,575. The exports of specie, from this port, last week, were $222,815, against $2,787,143 same week last year; total, in 1868, $70,841,596, against $51,801,948 in 1867. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $8,100,000; in all 1868, $82,896,417, against $61,-871,348 in 1867. The specie exports from San Francisco, from Jan. 1, to Dec. 22, were $34,216,-172, against $40,656,910 same time in 1867.

There has been less activity in foreign exchange, but rates have varied little, closing with rather more firmness for the *Russia* on Wednesday. Bankers' prime sixty day bills on London closed on Wednesday at 109⅜@109⅝, and on Paris to 5.20c.@5.16¼; sight bills on London to 110⅛@110⅜, and on Paris to 5.13¾c. @5.12½. The offering of produce bills has been light this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $1,-926,240, against $2,500,234, same week last year; total, in 1868, $167,511,245, against $186,790,025 in 1867.

Government securities yielded a little in price, through the week, under the money pressure, but found ready buyers for cash at the going rates. As the money movement worked more favorably for street borrowers toward the close, the demand suddenly revived, leading to a sharp rally in values on Wednesday, the market closing strong and buoyant. During December the sum of $6,-760,000 in six per cent. currency bonds was issued to the Pacific Railroad Companies, $4,840,000 being to the Union, and the balance to the Central Pacific.

U. S. sixes of 1881 closed here on Wednesday at 111⅛@111¾; U. S. Five-twenties of 1862, 111⅜@111⅝; U. S. Five twenties of 1864 at 108@108¼; U. S. Five-twenties of 1865 at 108¼@108½; U. S. Five-twenties of 1865, consolidated, 107¼@107½; U. S. Five-twenties of 1867, 107⅝@107⅞; U. S. Five-twenties of 1868, 108@108¼; U. S. Ten-forties at 106@106¼; U. S. Six per cent. currency bonds, 99⅛@99⅜.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Dec. 23.	Dec. 30	Jan. 6.
Consols	92½	92⅜	93
U. S. 5-20's of 1862	74¼	74⅝	74⅞
Erie	26¼	26½	26¾
Ill. Central	95¼	95½	95⅝

Railway and miscellaneous stocks have been quite active all through the week, and notwithstanding the severity of the money pinch, prices of all substantial properties have been very well supported, the market closing quite firmly, as a rule, though with some irregularity.

Domestic produce has been more sought after, since our last. Breadstuffs, provisions and cotton have been quoted stronger. Middling upland cotton closed however, less briskly and less buoyantly on Wednesday at 27@27¼ cents per lb. The stock of cotton now here is estimated at about 31,-000 bales. The receipts at the port this week, have averaged about 3,000 bales a day. The receipts at all the ports, since Sept. 1, 1868, have been 1,-023,000 bales, against 881,000 bales same time last year; exports, same time 529,000 bales, against 473,000 bales same time last year; stock on hand at latest dates, 307,000 bales, against 326,000 bales same date last year. Total crops of 1867-'8, 2,-430,893 bales; total receipts at ports year ending Sept. 1, 1868, 2,240,282 bales; total exports thence, same time, 1,657,015 bales. The exports of domestic cotton goods from this port, since Jan. 1, have been 25,920 pkgs., against 18,801 pkgs., same time last year. From Boston, 8,213 pkgs., against 8,982 pkgs. same time in 1867. At the Live Stock market, this week, Beeves have been in fair demand at from 12@18c. per lb.; week's receipts, 4,089. Veal calves at 9@13c. per lb.; receipts, 574. Sheep and lambs at from 4¾@8½c. per lb.; receipts, 17,307. Swine, active at from 10@10½c. per lb., all live weight; receipts, 5,338. Foreign merchandise has been held with much firmness, as a rule, though the transactions have been on a restricted scale, in most instances. The total imports of foreign dry goods, last week, were $1,054,593 and the total amount marketed $800,519. The value of foreign merchandise imported last week, was $2,130,366—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $3,184,959, against $3,095,642 same week last year; grand total in 1868, $244,861,863, against $238,535,482 in 1867. Freights have been more active, but rates have been lower and irregular. For Liverpool we quote flour at 1s. 9d.@2s. by sail, and 2s. 6d.@3s. by steamer, per bbl.; grain at 6¼d.@6½d. by sail, and 7½d. by steamer, per bushel; cotton at ⅝d.@⅞d. by sail, and ⅞d.@1⅛d. by steamer, per lb.; and heavy goods 20s.@32s. 6d. by sail, and 32s. 6d.@50s. steamer, per ton. Total number of vessels in port on Wednesday, 428.

The New York exports, exclusive of specie, for the week ending Jan. 5, and since the beginning of the year, compare as follows:

	1868.	1869.
For the week	$2,500,234	$1,926,240

The imports for the week ending January 2, and since the beginning of the year, have been as follows:

	1868.	1869.
Dry goods	$753,265	$1,054,593
Gen. merchandise	2,342,377	2,130,866
Total for the week	$3,095,642	$3,184,959
Previously reported	235,439,840	241,676,904
Since January 1	$238,535,482	$244,861,863

The balance in the Sub-Treasury on Wednesday was $80,638,874 07.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—New York State 7s, Bounty Loan, reg., 107⅝; do., 6s, 1873, 102; Louisiana 6s, 69; do., Levee bonds, 63½; Georgia 6s, 78½; do., 7s, 90; Brooklyn 6s, W. R., 17@18½; George's Creek Coal, 66@75; Santa Clara, 1.50@3.00; Atlantic Coal, 2.90@3.00.

☞ It is proposed to make an effort to build the Kansas City and Santa Fe Railroad as far as Emporia, to which place (about seventy miles) the road is to run by way of Olathe, Gardner and Ottawa. The Ft. Scott road from Kansas City to Olathe is already built, and is it now proposed to submit to the citizens of Johnson County, Kansas, (in which county Olathe is situated) a proposition to vote $100,000 in bonds in aid of the Santa Fe Road.

☞ The Richmond (Va.) *Examiner* says that the Auditor of Public Accounts reports that the collections made by the Sheriffs of the State have been very satisfactory, and that there is now in the treasury $520,000. The interest on the State bonds held in foreign countries has been provided for and paid.

☞ The Lehigh Valley Railroad Company has given official notice that hereafter all editors, schoolmasters, and ministers of the gospel will be passed free of charge over that road upon showing their certificates of office.

☞ The contract for building the Railroad Bridge over the Missouri River at Leavenworth, Kansas, has been let to L. B. Boomer & Co., of Chicago. The work is to be commenced by the 1st of February, and completed in eight months.

☞ James Tillinghast has been appointed General Superintendent of the New York Central Railroad.

☞ The Dutchess and Columbia Railroad has been leased to the Boston, Hartford and Erie company for ninety-nine years, at $200,000 per year, which is equal to about 7 per cent. interest on the cost of the road.

TO CAPITALISTS AND INVESTORS

The First Mortgage 7 per cent. Bonds
OF THE
Rockford, Rock Island and St. Louis Railroad Co,
PAY BOTH
PRINCIPAL AND INTEREST IN GOLD,
And are free of Government Tax.

This enterprise has long since past the point at which its completion could be considered doubtful. *Nearly half the line is substantially ready for the rails*, and contracts are in progress for large quantities of iron, and an adequate supply of rolling stock. The rails for the division connecting the Company's coal mines with the Chicago and Northwestern Line are all on the ground, and being rapidly laid; so that *the Company will shortly be delivering their coal*, for which they have contracts covering all they can mine this season.

THE CAPITAL STOCK,
FIXED AT
NINE MILLIONS,
is already largely subscribed for, and the remainder is going into the hands of individuals along the route, or being taken by the counties and towns through which the road passes.

THE ENTIRE CAPITAL
will, without doubt, be soon taken, and the subscription closed.

THE BONDS ARE A FIRST AND ONLY LIEN of $21,000 per mile upon 400 miles of railroad, traversing
THE RICHEST AND MOST POPULOUS DISTRICT
of Illinois, upon the Company's franchises, and property of every description, including
20,000 ACRES OF VALUABLE COAL LANDS,
partly owned in fee and partly leased for 50 years, and estimated to contain
ONE HUNDRED MILLION TONS OF COAL

Each bond is for $1,000, or £200 sterling, and is convertible into stock of the Company at the option of the holder. The interest is payable on Feb. 1st and Aug. 1st.

The Trustee for the Bondholders is the Union Trust Company of New York. Arrangements have been perfected by which a considerable part of this Loan is likely to be placed in Europe, and only a small portion of the issue will remain to be disposed of at home.

Parties subscribing at once *will secure the Gold premium on the coupon of Feb. 1st*, which is equal to a reduction of one per cent. on the price of the Bonds.

We are authorized to offer what remains of these Bonds at 97½ and accrued interest in currency; at which price, considering the soundness of the enterprise and the ample security of the Loan, the Bonds must be regarded as the
CHEAPEST AND BEST INVESTMENT ON THE MARKET.

Other approved Securities received in exchange at market rates.

Pamphlets giving full information sent on application.

The Bonds may be had of
H. H. BOODY, TREASURER,
12 WALL STREET,
and of
HENRY CLEWS & CO., BANKERS,
32 WALL ST., N. Y.

Arrivals at New York during 1868.

The following is a statement of the arrivals of vessels at the port of New York during the past year, distinguishing the class and nationality, and comparing it with the arrivals for 1867, from which it will be seen that the number of American vessels has increased 291, while the increase in the total number of arrivals is but 185:

	Steamers.		Ships.		Barks.		Brigs.		Schrs.		Total.

From the Washington Chronicle.

Railroads to the National Capital.

The interest now taken by the people of Washington, Georgetown, and Alexandria in respect to railroads to and from the capital induces me to offer some suggestions on the subject. It is proposed to embark the cities of Washington and Georgetown as shareholders in the roads. This is well, providing it can be done in a way that will be certain to yield the cities a good dividend on their stock in addition to the immense advantages that would result in the new creations of property and increase of business. I propose to elucidate how it can be done with good dividends on every dollar invested.

There is one route, among the best natural freight routes in the United States—much better than the New York Central, as that lies on the Erie Canal, and is subjected, for seven months in the year, to the effective competition of that great channel of commerce. The route I allude to is from Washington to Lynchburg, or, in other words, the line of the Orange and Alexandria road. By establishing a freight route on this line it can be made to pay, and pay well. Please turn to the map and observe the great amount of way traffic it would command from agricultural products, lumber, lime, and other fertilizers. It would commence with the Tennessee road as a feeder—further north the road coming in at Charlottsville; and still further, the Manassas Gap and Warrenton Junction, with the extensions of a system of roads from the West, to drain the commerce of a country twice as large as Virginia.

It is needless to say that this vast mineral region, with its manufacturing power combined with agriculture, would afford more tons of freight than pass by rail in Illinois, Indiana, Wisconsin, and Michigan. The freights are there, illimitable in supply, incapable of exhaustion, and are only awaiting development by some agency competent to handle them. Were a double track road established between Washington and Lynchburg, open to free competition in transporting, moving freights at eight miles per hour, with a capacity on this plan for carrying 15,000,000 tons each way, at a cost of sixty-five cents per ton for each hundred miles, my opinion is that it would be made to carry more tons than now pass on the New York Central, Erie, Pennsylvania, and Baltimore and Ohio, all put together. The road would have a power of development somewhat approaching the immense resources that would supply its patronage.

In the plan for a national system of cheap-freight railways it is not contemplated that the company owning the road bed should engage in transportation, but merely to own and keep the road in repair and collect its tolls, like the Erie Canal. Outside parties would put on the equipments or rolling stock, and free competition in carrying would keep freights below the point of extortion; besides, on a freight road, graduated on the cheap-freight plan, such would be the greatness of its patronage that it would be impossible for any one company to attend to and properly take care of the details of transportation.

Baltimore, should that city co-operate by continuing the route through to that point, would be privileged to put on all the rolling stock it pleased, and in all probability would avail itself of its facilities. In such event the writer predicts that Baltimore would reap a better harvest from the suggested freight thoroughfare than she has ever received, or would be capable of receiving from the Baltimore and Ohio road under its present plan of management. But what effect would this have upon Washington? Just this: Whilst Baltimore would be privileged to take all it could receive and handle, Washington would have the same opportunity. In the meantime the proprietorship of the road bed *would be sure to get dividends.*

Another view: Establish this thoroughfare on the cheap-freight plan, and scarcely a ton of freight would cross the road to go to Norfolk or Richmond, unless, peradventure, they put their competing roads on the same plan. In such case they would carry to the coast in that direction all they pleased, and who would be hurt by it? Not the road from Washington to Lynchburg, for their supply of patronage would continue just as boundless as ever, inexhaustible from its very nature.

The State of Virginia has it in her power, by adopting the cheap-freight plan of railways, to get more powerful agencies for developing her resources in three years than any other State now possesses or could ever attain on the old plan of meagre commerce and high charges. The natural wealth of Virginia is untold and incalculable. She wants capital, enterprise, diversified industries, and population. She can have them all at an early day by a considerable effort in the right direction.

The writer will premise that one double-track cheap-freight railway can be made worth more to the agricultural, mining, mechanical, and commercial interests of a State than half a dozen of the feeble, one-horse, rickety concerns where the folly is perpetrated of making travelers, trunks, and bandboxes go three times as fast as the business of the country; besides, with decent charges for freight it can be made about three times as profitable to the road itself. This last proposition the writer proposes to elucidate by a little data of general application.

It is well known to those who have examined into the subject faithfully that the freight traffic over good routes yields nearly the whole net revenue. Take for example the "New York Central" and "Erie" for the year 1866. In the reports to the Legislature, sworn to by the officers of these companies, the accounts stood thus

NEW YORK CENTRAL.

Receipts for freight	$9,671,920
Operating expenses on freight traffic	7,123,355
Net profit on freight traffic	$2,548,565
Receipts on passenger traffic	$4,860,249
Operating expenses on passenger traffic	4,272,318
Net profit on passenger traffic	$87,931

ERIE ROAD.

Receipts for freight on this road	$11,611,023
Operating expenses on freight traffic	9,027,299
Profit on freight traffic	$2,583,724
Operating expenses on passenger traffic	$3,714,889
Receipts from passengers	3,593,966
Loss on passenger traffic	$130,928

It is to be presumed that these sworn reports are approximately correct. If so, both of these roads, by combining freight and passenger traffic at irregular and unequal rates of speed, have failed to utilize more than one-seventh of their commercial capacity. The "baggage-smashing" department of their business, in the aggregate, has proved a loss, while the commerce and producing interests have failed of adequate accommodation, and the profits of production have been eaten out by exorbitant charges on transit. What is true of these roads is approximately true everywhere. There is scarcely an exception to the general rule.

Washington is the political capital of the nation. It congregates more of interest, talent, and intellectual attraction than any other city of equal size on the globe. There is a growing desire plainly manifest for people of wealth and refinement to acquire residences in the city containing the national Capitol; but something else of much greater interest in a material or property point of view must be added. Commerce and trade, manufacturing, the mechanical industries, and a general business must be grown up. This can all be added with a rapidity that would prove astonishing, when the effort is made in the right direction and the people of the old District confer together, affiliate in enterprise, and pull together. We may increase the population in ten years to half a million, and, what is of much more importance, have the permanent foundation laid for feeding and sustaining it. Shall we try?

LORENZO SHERWOOD,
Prest. Nat. Cheap-Freight R. League.

Railroads in Italy.

At the recent opening of the railroad from Genoa to Chiavara, the Italian Minister of the Interior stated that in 1859, the length of the railroads in Italy amounted to 1180.6 miles. In 1869, the railroads will have increased to 3293.3 miles, and in 1870 to 4163.2 miles. The line running round the Gulf of Genoa, it is anticipated, will soon be completed, and form a direct connection between France and Central Italy. The road to the extreme southern point of the peninsula, it is believed, will be completed at the same time that the Mont Cenis tunnel is finished.

☞ The Owensboro and Russellville Railroad Company will, at an early day, put under contract the road as far as Livermore on Green river, and while the bridge over Green river is being built, will press on the road to Greenville, in Muhlenburg county, where it will intersect the Elizabethtown and Paducah road, some forty miles from Owensboro.

☞ The officers of the Morris and Essex Railroad Company for the ensuing year are: President, Theo. F. Randolph; Vice President, Percy R. Pyne; General Manager, John Brisbin; Chief Engineer, John Harris; Auditor, H. W. Millee.

☞ The tunnel under the Chicago river, known as the Washington street tunnel has been completed and opened to the public. The contract price was $328,500. The length of the work is about 1,605 feet; of the retaining walls of the open approach on the west side, about 320 feet, and 275 feet on the east side. The length of the main archway, or covered way, is 932 feet. There are three archways leading through the tunnel; one is for foot passengers, and two for teams and horses.

☞ The Boston and Albany Railroad Company will pay on demand at par the Albany City bonds guaranteed by the Western Railroad corporation not yet due.

Debt of Virginia.

The following is an exhibit of the debt of the State of Virginia, as it stood on the 30th of November, 1868:

OLD REGISTERED DEBT.

Registered debt Oct. 1, 1867, as per report		$22,004,298 38
Increased since:		
Converted into bonds of the State—act March 23, 1860, to date	$83,980 00	
Advertised to be redeemed by sinking fund, and not called for to date, but by act April 1, 1867, directed to be placed to credit of the parties	15,879 00	
Issued to J. Neeson, attorney, &c.	500 00	
		100,359 00
Total Nov. 1, 1868,		$22,104,657 38
Deductions since Oct. 1, 1866:		
Purchased from sale of the Dismal Swamp Canal Company's stock	$24,839 98	
Transferred to Commonwealth by Winchester and Potomac R.R. Co. (5 per cent.) and cancelled	45,000 00	
Surrendered by the Norfolk and Petersburg Railroad in part payment of loan of $300,000	60,500 00	
Surrendered by the Richmond & Danville Railroad Co., under Gen. Stoneman's order in part payment of interest due by said company	16,969 00	
		147,308 98
Balance		$21,957,348 40
The sinking fund was	$1,729,315 46	
Literary fund was	248,000 00	
		1,977,315 46
Outstanding Nov. 1, 1868		$19,980,032 94

OLD COUPON DEBT.

Five per cent. sterling, payable in London, £373,000, estimated at $5 per £		$1,865,000 00
Six per cent. bonds payable in New York	$11,108,000 00	
Lost at sea, steamer *Arctic*	145,000 00	
		10,963,000 00
Total coupon debt		$12,828,000 00
Total old registered and coupon bonds		$32,808,032 94

INTEREST FUNDED.

Dated Jan. 1, 1866:		
Coupons		$1,301,500 00
Registered		1,686,305 77
		$2,987,805 77
Dated Jan. 1, 1867:		
Coupons	$2,144,500 00	
Sterling	466,240 00	
	$2,610,750 00	
Registered	1,194,495 51	
		3,805,245 41
Total Nov. 1, 1868		$6,793,051 18

TO BE FUNDED.

Amount of coupons to be funded		$263,320 00
Registered debt to be funded		615,228 91
		$878,548 91
James River and Kanawha Company guarantees yet to be converted		230,880 00
Total Nov. 1, 1868		$1,109,428 91

BONDS GUARANTEED BY THE STATE.

James River and Kanawha Canal Co	$230,880
Chesapeake and Ohio Canal	500,000
City of Petersburg	823,500
Virginia Central Railroad	100,000
Richmond and Danville Railroad	200,000
City of Wheeling	366,000
Alexandria Canal	15,000
Total Nov. 1, 1868	$1,735,380

East Tennessee and Western North Carolina Railroad.

Let the reader draw a straight line from Louisville or Cincinnati to the nearest point on the Atlantic coast and he will find the eastern terminus of the line to be at or near Wilmington N. C., and the projected road from Johnson's depot, on the East Tennessee and Virginia Railroad, to Morganton, N. C., to constitute an important link in the great chain. Wilmington presents a fine harbor, and with this great line, connecting directly the waters of the Ohio and the Atlantic, completed, would at once become the entrepot of Western commerce and transatlantic importation. A large portion of the West will find its natural and most reliable outlet to the Atlantic by this route. The local benefits of this great enterprise, viewing it simply as a State improvement, are various and important. Aside from the fact that this rail communication will open to us the natural market for our products by a route cheaper and more direct than any other, it will tend more than any existing line to the development of the vast treasures of mineral wealth—iron, copper, lead, manganese, kaolin, steatite, &c., &c., which are known to exist in that part of the great Appalachian chain traversed by this road. Under the magic influence of such a system of improvements these mineral deposits would be developed and become the source of a large revenue both to the road and to the State. The sound of the pick and the sledge in the mines and the humming, whirring, clattering roaring machinery will be heard all along the Doe when this road is done. In all our rambles we have never seen a stream which supplied such abundant power for manufacturing purposes. With such a line completed, with the vast mineral wealth referred to existing in the contiguous mountains, with water power so abundant and so cheap, and yet, with all our vicinage to the cotton growing States, why should we not become to the rest of the South what New England is now to the Union?

The section of fourteen miles on Mr. Simmerly's road was let, we believe, last summer, and three-fourths of the work is already completed. The approaches to the tunnel, through the mountain above Elizabethtown, are finished and a regular day and night force is now engaged on each side of the tunnel. This, it is expected, will be completed and the track laid to this point by the the 1st of June next. The tunnel will be some 275 or 300 feet in length. Cross-ties are being furnished and the whole work is in a state of forwardness highly creditable to the energy an general efficiency of the president and engineers. —*Jonesboro' Flag.*

Memphis and Selma Railroad.

The great trouble in the way of building railroads, as in all other human enterprises, is the want of funds. This difficulty does not seem to embarrass the directors of the Memphis and Selma Railroad. When the gentlemen who have this great project in hand begin to reduce their calculations to a practical basis they will find that the cheapest route is the only feasible one, and that the object of the enterprise is not so much a grand railroad incorporation as to make Memphis the entrepot of the commerce between the East and the West, to give it direct communication with the growing port of Savannah, and to open up to the wealth and prosperous regions of Mississippi and Alabama her advantageous markets.

If these ends are accomplished nobody cares what are the instruments employed—whether the Mobile and Ohio Railroad, and other established roads, are made available or new roads built entire—except in this, that all interested, who are to be taxed or to subscribe stock, will insist that the cheapest and most economical route be determined upon. This common sense route, undoubtedly, is to build a direct road from Memphis to Okolona, or some other available point on the Mobile and Ohio Railroad, making use of that road to Columbus, Miss., and thence continuing connection on to Selma. This plan avails the building, at least for the present, either of far the most costly portion of the road, through hills and over streams, and in a section where the donations to the road can bear no proportionate value to the cost of construction or the absurdity of running a road nearly parallel to the Mobile and Ohio Railroad, intersecting it at Okolona and Columbus, and procuring no extra trade or advantages which would not be reached through the Mobile and Ohio Railroad. No section would be slighted or no interest injured by this plan. Monroe County, Miss., will build a branch road to the Mobile and Ohio, which will be as much of a job as the citizens of that county will care to pay for at one time; hereafter a great road running into the iron regions of Alabama will satisfy and give to Aberdeen the importance that it deserves. So much can be said in favor of this route, the rapidity with which it can be constructed, its advantages to the incorporators of the new road, its assistance to the Mobile and Ohio, the regions unexplored by the locomotive that it will penetrate, that the mere suggestion of the plan should commend it to the favor of all who are interested in this important project.—*Columbus (Miss.) Index.*

☞ The contractors for the construction of the section of the Adirondack railroad required to be completed before January 1, 1869, finished laying the tracks on Christmas day. This extension carries the road a short distance from Warrensburgh.

☞ Regular trains are now running on the Squankum and Freehold Railroad, in New Jersey, between Farmingdale and Freehold. It is operated by the Freehold and Jamesburg R. R. Co.

☞ Track laying on the St. Louis and Iron Mountain Railroad has been completed to a point three miles beyond Farmington in St. Francois county, Mo.

☞ The engineers of the Rockford, Rock Island and St. Louis Railroad have just completed the survey from Coal Valley to Macomb, a distance of 93 miles.

☞ Mr. J. J. Lawrence has been appointed General Superintendent of the Alleghany Valley Railroad.

Portland and Rutland Railroad.

At a meeting of the committee of the corporators of the Portland and Rutland Railroad Company held at Portland on the 24th of December, 1868, among other things, it was

Voted, That the Chairman and Clerk issue certificates in due form for all moneys advanced for preliminary expenses including the surveys of the line.

Voted, That in view of the importance of the Portland and Rutland Railroad to the commerce of Portland, and to the business of the whole State, it may be desirable to obtain further legislation at the next meeting of the Legislature of Maine, and Messrs. Poor, Libby and Farmer were appointed a sub committee to prepare a memorial to the City Government of Portland, asking aid to the Portland and Rutland Railroad Company.

Voted, That said committee prepare a memorial to the Legislature of Maine, asking State aid to said Railroad.

The following votes were also adopted:

Whereas, the construction of the transcontinental railway from the Atlantic to the Pacific Ocean at the widest part of the Continent, connecting Halifax, St. John, Bangor, Portland, Rutland, Buffalo, Detroit, and Chicago by the most direct practicable route, is a measure of paramount importance to the commercial interest of the whole country, shortening the transit between the Eastern nations and Europe, and changing the course of trade from China to London; and

Whereas, lines of railway are built or in progress, over the entire route from the city of Halifax, Nova Scotia, to the Pacific Ocean, with the exception of the links in Maine, New Hampshire and Vermont between Portland and Rutland, for the construction of which charters have been granted by said States, and a portion of the means already provided by individual and Municipal subscriptions; therefore it is hereby

Resolved, That as the sense of this Committee, the general Government should aid the construction of a work of such vast National and International importance as a transcontinental railway by the most direct route across the widest part of the Continent from the Atlantic to the Pacific Ocean.

Voted, That Messrs. Neal, Poor, Adams, Deering and Sweat, be a committee to prepare a Memorial to Congress, setting forth the claims of the "AMERICAN TRANSCONTINENTAL RAILWAY."

Whereas, It is desirable to call the attention of the exporters of Western produce to the advantages of Portland harbor, as the cheapest port upon the Atlantic sea board, for the reception, distribution and exportation of merchandise by its well known harbor accommodations in the shape of piers, wharves and docks, with ample railway tracks alongside sea going vessels; and

Whereas, the construction of an additional line of railroad by the direct route from Portland to the valley of Lake Champlain, will afford cheaper transportation to tide water for produce coming over roads, extending from the basin of Lake Champlain westward, than is now afforded by existing lines to Boston and New York; therefore

Resolved, That a committee be appointed on behalf of the corporators of the Portland and Rutland Railroad to visit Chicago, Detroit, Buffalo, Oswego, Rutland and other places between Chicago and Portland, with a view of concentrating public attention and directing business upon the proposed line. Said committee to have authority to fill vacancies and add to their number at their discretion.

Voted, That said Committee have authority to enter into arrangements with any other railroad company or companies for the purpose of carrying out the building of said line from Portland to Rutland, and of securing such consolidation of interests, and such co-operative action on the part of other railroad companies as to allow the working of the entire line from Rutland to Portland under one management, or in such a manner as to allow the most entire freedom of transit between Portland and the West.

Voted, That the Board of Trade of Portland be respectfully invited to take into consideration at the earliest practicable period, the question of cheap transportation between the Atlantic seaboard and the interior, and that a copy of the foregoing preamble and resolutions be respectfully laid before said Board.

The Chairman laid before the committee a despatch from Jos. A. Wing, Esq., of Montpelier, announcing the unanimous vote of that town in favor of subscribing for stock to the Montpelier and Wells River Railroad. Thereupon,

Voted, That the Chairman be instructed to assure the friends of the Montpelier and Wells River Railroad Company, that the line from Portland to the line of the Boston, Concord and Montreal Railroad will be completed, so that a connection with the Boston, Concord and Montreal Railroad at Wells River Junction will ensure a line from Montpelier to Portland.

Voted, That copies of these proceedings be also sent to the Vermont Central Railroad Company to the Boston, Concord and Montreal Railroad Company, to the New Hampshire Central Railroad Company and to the Ogdensburg and Lake Champlain Railroad Company, inviting co-operative movements so as to form a connected line of railroad between Portland and Ogdensburg by this route, which, with less line to build, has easier grades than any other line from Ogdensburg to the seaboard.

Attest: JOHN NEAL, Clerk.

☞ **The stockholders of the Concord and Manchester and Lawrence railroad companies have voted by a large majority to approve the contract made by the respective boards of directors in relation to the construction of the Suncook Valley Railroad.**

The Public Debt.

The following is a comparative statement of the Public Debt of the United States December 1, 1868, and January 1, 1869:

DEBT BEARING COIN INTEREST.

	Dec. 1, 1868.	Jan. 1, 1869.
Five per cent. bonds	$221,588,400.00	$221,589,300.00
Six per cent. bonds of 1881	283,677,300.00	283,677,400.00
Six per cent. Five-twenty bonds	1,602,570,400.00	1,602,568,650.00
Total	$2,107,836,100.00	$2,107,835,350.00

DEBT BEARING CURRENCY INTEREST.

Six per cent. Pacific R. R. bonds	$44,337,000.00	$50,097,000.00
Three per cent. certificates	58,140,000.00	55,865,000.00
Navy pension 3 p. ct.	14,000,000 00	14,000,000.00
Total	$116,477,000.00	$119,962,000.00

MATURED DEBT NOT PRESENTED FOR PAYMENT.

Three years Seven-thirty notes, due Aug. 1, 1867, June and July 15, 1868	$2,478,450.00	$2,174,900.00
Compound interest notes matured June 10th, July 15, Aug. 15, Oct. 15, and Dec. 15, 1867, and May 15, Aug. 1, Sept. 1 and 15, and Oct. 1 and 15, 1868	4,224,920 00	3,878 290.00
Bonds (Texas indemnity)	256,000 00	256,000.00
Treasury notes, (acts July 17, 1861, and prior thereto)	149,361 64	148,561 64
Bonds April 15, 1842, Jan. 28, 1847, and March 31, 1848	435,500 00	349,950.00
Treasury notes, March 3, 1863	445,492.00	445,492.00
Temporary loan	243,160.00	197,310.00
Certificates of indebtedness	13,000.00	13,000.00
Total	$8,245,883.64	$7,463,503.64

DEBT BEARING NO INTEREST.

United States notes	$356,021,073.00	$356,021,073.00
Fractional currency	33,875,268.17	34,215,715.64
Gold certificates of deposit	23,255,840.00	27,036,020.00
Total	$413,152,181.17	$417,272,808.64
Total debt	$2 645,711,164.81	$2,652,533,662.28

AMOUNT IN THE TREASURY.

Coin	$88,425,374.54	$98,763,368.91
Currency	18,253,946.13	13,063,092.12
Total	$106,679,320.67	$111,826,461.03
Debt less cash in the Treasury	$2,539,031,844.14	$2,540,707,201.25

By comparing this with the statement of December 1, it is shown that the debt bearing coin interest has decreased $750; the debt bearing currency interest has increased $3,485,000; the matured debt not presented for payment has decreased $782,380; and the debt bearing no interest has increased $4,120,627 47—making the increase in the total debt since December 1, 1868, $6,822,497 47. The amount of coin in the Treasury during the same period has increased $10,337,994 37, and the amount of currency has decreased $5,190,854 01—leaving the amount of debt less cash in the Treasury January 1, $1,675,357 11 more than on December 1.

☞ **J. C. Calhoun, Esq., hitherto Auditor of the Atlantic and Gt. Western Railway, has been appointed Auditor of all the lines of the Erie Railway Co., and will hereafter have his headquarters at the offices of the latter company in this city.**

☞ **A railroad has been projected to run from Quincy, *via* Carthage, to Galesburg, Ills.**

☞ **The last rail was laid on the Albany and Susquehanna Railroad on the 30th of December, 1868. The directors passed over the road on the 31st, making the run from Albany to Binghamton in 5 hours and 57 minutes. The road will be formally opened for through business on the 12th of January, 1869.**

☞ **The Boston, Hartford and Erie Railroad Company is contemplating the construction of a railroad from Woonsocket through Pascoag to Putnam. The distance is about twenty-five miles, six miles of which was graded some years ago by the Air Line road.**

☞ **The Ogdensburg and Lake Champlain Railroad Company will anticipate the payment of a portion of the 1st mortgage bonds of the company which mature July 1, 1869.**

☞ **Surveys and estimates for a bridge across the Ohio River at New Albany, Ind., have been made.**

☞ **The Richmond and York River Railroad is nearly completed to its terminus at West Point, Va.**

Richard Norris & Son,

LOCOMOTIVE WORKS.

The undersigned offer for sale, or on lease for a term of years, to acceptable parties their Extensive Locomotive Works, Established in 1834, consisting of Lands, Buildings and Tools, centrally situated in the City of Philadelphia on a main line of railway connecting with all others. Personal application to be made at our office

RICHARD NORRIS & SON,
4t **17th st. and Spring Garden st.**
PHILADELPHIA, Dec. 12, 1868.

To all connected with Railroads,

Superintendents, Conductors, Engineers, &c.

DO YOU WANT A TIME-KEEPER?

If so, ask your Watchmaker for a Borel & Courvoisier *Nickel Watch*. Price Medal awarded at London, Paris and Swiss Expositions, for best performance.

QUINCHE & KRUGLER, 8 & 10 JOHN ST., N.Y. (up stairs), only wholesale Agents for the Manufacturers.

TEN NEW DUMP CARS,

For Coal, Ore, or Gravel.

Body 11 ÷ 8. Corner Posts, Bottom and Sides of Iron. 33in. wheels. Gauge 4 ft. 8½ inches. Can be delivered in ten days.

WILLIAMS, PAGE & CO.,
91 Water st., Boston.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO.,
NEW YORK, Dec. 15, 1868.

AT A MEETING OF THE BOARD OF DIRECTORS of this Company, held this day, it was

Resolved, That a dividend of FIVE PER CENT., in cash, free of Government tax, be paid, on the 1st day of February next, to the holders of the full paid shares, registered on the 18th day of January next, and that the transfer books be closed on the said 18th day of January, and opened on the 5th day of February following.

THOMAS E. WALKER, Treasurer.

RAILROAD TIES.

Juniper and Cypress Railroad Ties of any dimensions for sale by

DARRELL & NASH,
6m38 **83 Pearl street.**

CEDAR TANKS

For Railroads, Factories, Private and Public Buildings, &c. Manufactured by

GEO. J. BURKHARDT & CO.,
Broad & Buttonwood Sts.,
(Opposite Baldwin Locomotive Works.)
PHILADELPHIA.
Work shipped to all parts of the United States.

THE UNION PACIFIC RAILROAD COMPANY.

OFFER A LIMITED AMOUNT OF THEIR

First Mortgage Bonds AT PAR.

NINE HUNDRED AND SIXTY MILES

Of the line West from Omaha are now completed, and the work is going on through the Winter. As the distance between the finished portion of the Union and Central Pacific Railroads is now less than 400 miles, and both companies are pushing forward the work with great energy, employing over 20,000 men, there can be no doubt that the whole

Grand Line to the Pacific

Will be open for Business in the Summer of 1869.

The regular Government Commissioners have pronounced the Union Pacific Railroad to be FIRST CLASS in every respect, and the Special Commission appointed by the President says:

"Taken as a whole, THE UNION PACIFIC RAILROAD HAS BEEN WELL CONSTRUCTED, AND THE GENERAL ROUTE FOR THE LINE EXCEEDINGLY WELL SELECTED. The energy and perseverance with which the work has been urged forward, and the rapidity with which it has been executed are without parallel in history, and in grandeur and magnitude of undertaking it has never been equalled." The Report states that any deficiencies that exist are only those incident to all new roads, and that could not have been avoided without materially retarding the progress of the great work. Such deficiencies are supplied by all railroad companies after the completion of the line, when and wherever experience shows them to be necessary. The report concludes by saying that "the country has reason to congratulate itself that this great work of national importance is so rapidly approaching completion under such favorable auspices." The Company now have in use 137 locomotives and nearly 2,000 cars of all descriptions. A large additional equipment is ordered to be ready in the Spring. The grading is nearly completed, and ties distributed for 120 miles in advance of the western end of the track. Fully 120 miles of iron for new track are now delivered west of the Missouri River, and 90 miles more are *en route*. The total expenditure for construction purposes in advance of the completed portion of the road is not less than eight million dollars.

Besides a donation from the Govt. of 12,800 acres of land per mile, the Company is entitled to a subsidy in U. S. Bonds on its line as completed and accepted, at the average rate of about $29,000 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. The Company have already received $22,158,000 of this subsidy, of which $1,280,000 was paid Dec. 6th, and $640,000 Dec. 14th.

Government Aid—Security of the Bonds

By its charter, the Company is permitted to issue its own FIRST MORTGAGE BONDS to the same amount as the Government Bonds, *and no more*. These Bonds are a First Mortgage upon the whole road and all its equipments. Such a mortgage upon what, for a long time, will be the only railroad connecting the Atlantic and Pacific States, takes the highest rank as a safe security. The earnings from the way or local business for the year ending June 30, 1868, on an average of 472 miles, were over FOUR MILLION DOLLARS, which, after paying all expenses, were much more than sufficient to cover all interest liability upon that distance, and the earnings for the last five months have been $2,386,870. They would have been greater, if the road had not been taxed to its utmost capacity to transport its own materials for construction. The income from the great passenger travel, the China freights, and the supplies for the new Rocky Mountain States and Territories must be ample for all interest and other liabilities. No political action can reduce the rate of interest. It must remain for thirty years—*six per cent. per annum in gold*, now equal to between eight and nine per cent. in currency. *The principal is then payable in gold.* If a bond with such guarantees were issued by the Government, its market price would not be less than from 20 to 25 per cent. premium. As these bonds are issued under Government authority and supervision, upon what is very largely a Government work, they must ultimately approach Government prices.

The price for the present is PAR, and accrued interest at 6 per cent. from July 1, 1868, in currency.

Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau St.,

AND BY

John J. Cisco & Son, Bankers, No. 59 Wall St.,

And by the Company's advertised Agents throughout the United States.

Bonds sent free, but parties subscribing through local agents, will look to them for their safe delivery.

A NEW PAMPHLET AND MAP WAS ISSUED Oct. 1st, containing a report of the progress of the work to that date, and a more complete statement in relation to the value of the bonds than can be given in an advertisement, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.

Dec. 15, 1868.

To Railroad Companies.

We beg to call the attention of Managers of Railways and Contractors throughout the United States and Canada to our superior facilities for executing orders at manufacturers prices for all descriptions of both AMERICAN and FOREIGN

RAILROAD IRON.

We are always in a position to furnish all sizes, patterns and weight of Rail for both Steam and Horse Roads, and in any quantities desired, either for IMMEDIATE or REMOTE delivery, at any port in the United States or Canada, and always at the very lowest current market prices. We are also prepared to supply

BESSEMER STEEL RAILS,

of American and Foreign manufacture, rolled to any desired pattern and weight per lineal yard, and of approved lengths. Contracts for both IRON AND STEEL RAILS will be made payable in United States currency for American, and in either currency or gold (at the option of the buyer) for Foreign; when desired, we will contract to supply roads with their monthly or yearly requirements of STEEL OR IRON RAILS, taking their

OLD RAILS IN TRADE FOR NEW

furnished, receiving the difference in cash, and allowing the highest market price for their Old Rails, and, if necessary, receiving the latter after the delivery of the New Rails.

Orders for Foreign Rails, both Steel and Iron, will be taken for transmission by Mail or through the Cable to our

LONDON HOUSE, 58 OLD BROAD STREET,

for execution at a fixed price in Sterling, or on commission at the current market price abroad when the order is received in London; shipments to be made at stated periods to ports in America, and at the lowest possible rates of freights. Address

New York Saturday, January 16, 1869.

Columbia, Rocheport, Boonville and Marshall Railroad Company.

This Company design constructing and operating a railroad from Columbia, in Boone county, to Marshall, in Saline county, Missouri, and have named in their Articles of Association, Rocheport and Boonville as intermediate points. It is the wish of this Company to locate this road so as to serve the best interests of the persons subscribing to the capital stock of the company; which has been fixed in the Articles of Association, at One Million Dollars, divided into ten thousand shares of one hundred dollars each. This road is to be located on the most appropriate route from Columbia to Rocheport in Boone county, thence to Boonville, this portion of the road to be located either in Cooper or Howard counties, as the Board of Directors may hereafter determine; from Boonville, in Cooper county, it is designed to locate the road on the most direct route to Marshall. It is believed that the company will secure a large subscription by locating about on the line of the old Pacific Survey, which crosses LaMine river near the mouth of Blackwater, and thereby penetrate the rich bottom lands in that vicinity, and give convenient railroad facilities to the wealthy community at Ridge Prairie. By naming Marshall as the western terminus, and Columbia as their eastern, this company secure a connection with the Boone County Railroad, and the Louisiana Railroad, and at Boonville a connection is formed with Osage Valley and Southern Kansas Railroad, and thereby with the Missouri Pacific Railroad; it becomes the most direct route for the Louisiana Railroad. And should it be thought advisable to form an alliance with other railroad companies in order to facilitate the early completion of this enterprise, these connections enable this company to secure more favorable terms.

The attention of persons interested in this enterprise is called to the importance of immediate action; and it is hoped that prompt efforts will be made to secure the early completion of the organization by subscribing to the Articles of Association.

All communications will be promptly answered, addressed to O. D. Tucker, General Agent C., R. B. and M. R. R. Co., Boonville, Cooper Co., Mo.

Lynchburg and Danville Railroad.

At a meeting of the stockholders in this road held at Lynchburg, Va., on the 7th inst., John S. Barbour, Esq., was elected President of the company. From the report which was presented at the meeting it appears that the subscriptions procured this year are as follows: Sixty thousand cross-ties at twenty-five cents each, (payable in stock,) enough for thirty miles of track, $15,000; six thousand acres of land, payable in stock, $37,000; grain and other produce to be delivered to the contractors, payable in stock, $8,000. Addition to capital stock this year, $60,000. The total assets of the company may be stated as follows: Pittsylvania county bonds, $100,000; private subscriptions procured previous to this year, $120,000; private subscriptions procured during the past year, $60,000; estimated value of rights of way contributed free of cost, $80,000. Total, $360,000. Col. W. W. Blackford was re-elected Chief Engineer of the company, and Maj. E. S. Hutter, Secretary and Treasurer.

☞ The North Pennsylvania Railroad Company have declared a dividend of 5 per cent., clear of taxes, payable in scrip, convertible into 7 per cent. mortgage bonds, in sums of not less than five hundred dollars, on May 1st next. The dividend to be credited to stockholders as they stood on the books on the 9th inst.

Philadelphia and Reading Railroad.

At the annual meeting of the stockholders of this company, held in Philadelphia on the 11th inst., the following report was presented:

To the Stockholders of the Philadelphia and Reading Railroad Company:

The managers submit the following report of the receipts and expenditures for the year ending November 30, 1868, with the Treasurer's general balance sheet, exhibiting the financial condition of the company at that date.

The following tabular statement in detail for each branch of traffic shows the comparative results of the year:

	1867.	Passengers.	1868.	Decrease.	Pr. ct.
Travel	845,970		1,005,647		
	Tons.	Passengers.		$18,041	1.8
Merchandise	1,185,896	380,836	$987,606		
Coal	3,446,826	1,220,596	1,525,551	109,828	7.2
		3,574,874	6,404,878	152,664	2.4
Mail			83,086	8,985	11.9
Miscellaneous			187,885	30,101	21.9
			107,234		
Gross receipts			$9,106,496	$314,559	3.5
Gross expenses			6,266,434	108,923	1.7
			6,162,511		
Net profits			$2,840,062	$210,636	7.4
Gross expenses, including renewal fund, rents of lateral roads, taxes, etc., in the year 1867, were 68.81 per cent. of gross receipts.			$2,629,426		
Gross expenses, including renewal fund, rents of lateral roads, taxes, etc., in the year 1868, were 70.09 per cent. of gross receipts.					

The receipts and expenses per passenger and per ton have been as follows:

	1867. Cost.	1867. Received.	1868. Cost.	1868. Received.
Per passenger	$1 81.7	$2 91.8	$1 76.8	$2 98.5
Merchandise, per ton	64.8	1 28.6	68.9	1 16.0
Coal, per ton	94.9	1 85.8	91.6	1 74.9

The result of the year's business, as condensed from Transportation and Income Account may be stated thus:

Receipts over cost of working the road		$2,629,426 14
Add balance of account, rents, etc., paid by Schuylkill Navigation Company, 1868		110,948 19
		$2,740,374 33
From which deduct:		
Interest on bonded debt	$375,156 50	
Interest on bonds and mortgages	37,850 51	
Sinking funds	68,600 00	
		$481,607 01
		$2,258,767 32
Cost of new engines and cars	$178,950 43	
Cost of new track and sidings, main line	71,164 03	
Cost of new tracks and sidings, lateral	28,435 49	
Cost of completing Eighth-street bridge at Reading	15,814 33	
Cost of completing bridge at Norristown tunnel	24,570 56	
Cost of city-avenue bridge	10,344 00	
Cost of new bridge at St. Clair	7,766 00	
Cost of new coaling stations at Palo Alto, Reading, Monocacy and Richmond	32,669 25	
Cost of new coal barges	17,225 00	
Cost of new depot at Manayunk	4,440 81	
Cost of new turn-table at Perkiomen junction	4,320 00	
Cost of new turn-table at Norristown	6,151 83	
Cost of new chutes, wharf No. 1	5,985 92	
		409,837 20
Dividend fund, 1868		$1,848,930 12
Amount to credit of reserve fund, 1867		$2,769,255 96
Deduct dividend, Jan., 1868, $1,192,805 07; and U. S. and State taxes, $122,419 47	1,315,224 54	
		1,454,031 42
Total reserve fund, 1868		$3,302,961 54
Out of which has been paid in July, 1868:		
Five per cent dividend on $25,048,909 42	$1,252,445 33	
U. S. and State taxes on ditto	128,540 44	
		1,380,985 76
		$1,921,975 78
There has been declared a dividend, payable in common stock on 25th January, 1869, of 5 per cent. on the preferred and common stock, $26,301,851 74	$1,315,067 58	
U. S. and State taxes on ditto	101,516 99	
		1,416,584 57
Balance of reserve fund		$505,891 21

The prominent feature in the business of the past year was the almost entire cessation of traffic in anthracite coal for about seven weeks in July and August, caused by differences between the proprietors of the collieries and the miners and laborers, relative to the number of hours which should comprise a day's work and the compensation therefor. This long interruption, in the season of business, generally very active, caused a heavy loss of profits, as the usual staff of employes were kept in readiness for the resumption of mining operations on any day. There was partial compensation by an unusually large traffic, at increased charges for the remaining three months, in which the coal tonnage amounted to 1,394,066 tons, showing a capacity for transportation largely in excess of any former period. Notwithstanding this interruption, the aggregate production from the three great mining districts of anthracite coal was 1,161,854 tons in excess of the previous year, thus proving that the consumption is steadily progressing.

The proprietors of lands and others interested in more fully developing the northwestern portion of the second coal field obtained a charter to build a railroad, under the title of the Enterprise Railroad Company, which was offered to this company on the condition that the work should be vigorously prosecuted. The offer was accepted, and a road six miles in length has been constructed, which connects the Minehill and Schuylkill Haven Railroad with the town of Shamokin. A large coal tonnage will be obtained from this district.

A change of ownership of the large tracts of coal lands in the immediate vicinity of Treverton, and of the railroad from that place to the Susquehanna river, formerly known as the Treverton Coal and Railroad Company, now called the Zerbe Valley Railroad, having occurred, the new proprietors tendered a large portion of their production of coal to us for transportation, provided a connection with the works of the company could be made.

Negotiations for these objects were opened, which resulted in the purchase of their railroad, fifteen miles in length, including a bridge across the Susquehanna river, for $400,000, payable in the bonds of this company due in 1893, with semi-annual interest of six per cent. free from taxes. This road has been put in good order to the point of connection with the Northern Central Railroad on the east side of the Susquehanna river, at a cost of $27,512 04.

As a part of this negotiation, a railroad eight miles in length is now being built to form a connection between the Zerbe Valley Railroad at Treverton and the Enterprise Railroad at Shamokin. When this link is completed, this company will operate continuous lines of railway from Philadelphia to the Susquehanna river at Herndon.

An extension of eight miles of the Good Spring Railroad is also being built to form a connection with the Summit Branch Railroad at Williamstown. A railroad extends from the last named place to Millersburg, on the Susquehanna river, twenty-one miles. This connection will give this company direct access to the large body of coal lands in Lyken's Valley which yield a free burning coal, much desired by some for domestic purposes.

Another railroad, called the Lebanon and Pine Grove Railroad, is also being built by this company. It extends from Pine Grove, near the western end of the first anthracite coal field, forty-two miles, to Manheim, on the Reading and Columbia Railroad, fourteen miles from Columbia, on the Susquehanna River, and passes through the flourishing town of Lebanon. The enterprising citizens of these localities, which are rapidly increasing in manufactures and population, have been dependent for their supplies of coal by a very circuitous route. The construction of this road, either under the auspices of this company or other parties, the managers have for many years past regarded as inevitable. They have therefore put the grading under contract, payable one-third in cash and two-thirds in the plain bonds of the company, bearing six per cent. interest, not secured by mortgage.

Aid has also been given to the Colebrookdale Railroad on the terms described in the last annual report as given to the Perkiomen Railroad.

The road leaves the main line at Pottstown and passes northeastwardly fourteen miles along the ore deposits at the foot of the South mountain.

It was stated in the last report that work had been resumed on the portion of the Allentown Railroad between Port Clinton and Topton. In 1860 this company acquired 7,500 shares of the stock of the Allentown Railroad Company, on which $20 per share were unpaid, amounting to $150,000, which has since been paid; with this and similar payments from other stockholders the prosecution of the work has been continued.

The Perkiomen Railroad, to which reference was made in the last report, was opened for traffic in August last, from the junction with the road of this company, twenty-five miles from Philadelphia, to Skippack, ten miles. The results demonstrate the wisdom of extending aid to develop the rich mineral and agricultural resources of the Schuylkill Valley.

The new rolling mill went into operation in April last, since which 8,971 tons of rails have been manufactured, with results, so far as they can be tested from present experience, which warrant the confident belief that all the important advantages anticipated from this investment of capital will be fully realized.

To provide for the payment of the bonds due in 1870, amounting by the last report to $2,656,000, a mortgage dated 1st April, 1868, payable in twenty-five years, with interest at seven per cent. semi-annually, free from taxation, was created, secured by the entire property of the company, subject to other prior mortgage liens. An opportunity was given to October 1st last to the holders of the bonds due in 1870 to exchange them for the new bonds, after the payment of the coupon due 1st of October last, and $2,255,000 were so exchanged, leaving but $401,600 of the bonds due in 1870 to be provided for. For this purpose the balance of the new bonds will be held.

The foregoing explanations of the changes which appear in the general account of the Treasurer, together with the statements in detail of the operations of the transportation and engineer's departments, hereto appended, are, it is believed, all that are required.

For the purposes and objects to which reference has been made, and which by the managers are regarded as of the utmost importance to the future and permanent prosperity of the company, a large portion of the profits have been required. Hence, the July and December dividends were payable in stock.

To some of the stockholders it may be gratifying to be informed that on the completion, during the coming year, of the lateral roads now being built, the coal fields naturally tributary to the works of this company will require no more expensive roads. Many more collieries will be erected, requiring only short and inexpensive branches. It may be supposed by some that a portion of these works have been constructed somewhat in advance of the necessities of the public. But it should be remembered that the land owners were impatient for revenue, enterprising miners were ready to make leases, and if your board of managers had declined to furnish the necessary facilities for transporting the coal to market, other avenues would have been sought, and thus the future prosperity of the company would have been greatly and permanently impaired.

By order of the Board of Managers.

CHARLES E. SMITH, President.

Philadelphia, January 9, 1869.

At the annual meeting of the stockholders of the Philadelphia and Reading Railroad Company, held January 11, 1869, the following resolutions were adopted;

1. *Resolved*, That the report of the Board of Managers, this day presented and read, be, and the same is hereby approved, accepted, and adopted.

2. *Resolved*, That the Board of Managers be, and they are hereby authorized, at their discretion, to carry into effect any of the measures proposed in their report, and, if in their opinion needful, to enter into any contracts or agreements for that purpose.

3. *Resolved*, That the powers and authorities

conferred upon and granted to the Board of Managers by the resolutions passed at prior annual meetings be and the same are hereby continued.

At the annual meeting of the stockholders of the Philadelphia and Reading Railroad Company, held January 11, 1869, the following gentlemen were unanimously elected officers for 1869:

President.—CHARLES E. SMITH.
Managers.—H. Pratt McKean, A. E. Borie, R. B. Cabeen, J. B. Lippincott, John Ashhurst, Stephen Colwell.
Treasurer.—SAMUEL BRADFORD.
Secretary.—WILLIAM H. WEBB.

Arrivals at Boston during 1868.

The following statement of foreign arrivals at the port of Boston during the year 1868, is from the Boston *Commercial Bulletin:*

Transportation account	239,763 17	235,138 78
Rents account.....	1,166 27	1,541 29
Accumulation of S. F.	16,250 96	17,468 21
	$811,016 22	$491,022 38
Less dividends, interest and taxes.....	574,142 07	226,374 53
Reserves Sept. 30.....	$236,874 15	$264,647 85
From this amount is to be deducted the dividend declared Dec. 9, 1868.		91,326 32
Leaving a surplus of.....		$173,321 53

The gross income from the working of the road has been $17,897 93 less than in 1867; while the expenses have been $13,273 49 less—so that the profits of transportation have been $4,624 44 less.

The income from rents has been $1,541 29; and from the accumulation of the sinking fund, $17,468 21, which latter sum was added, on the 31st of December, 1867, to the principal of the policies from the Massachusetts Hospital Life Insurance Company, which are held by the Trustee of that fund.

The balance of the interest account ($45,998 60,) the amount of net dividends declared, ($155,020 00,) and of Stockholders' United States and local taxes, ($25,355 93) had been passed to the debit of "Profit and Loss," before that account was balanced.

The net profits of the company, for the year, have amounted to $208,149 63, equal to 10¾ per cent. upon the capital entitled to dividends during the year; of this sum there has been paid to the stockholders $180,375 93, equal to 9.31 per cent., viz:

Cash	$155,020 00
Taxes	25,355 93
	$180,375 93

And $27,773 70, equal to 1.44 per cent. have been added to the Reserves.

The whole debt of the corporation is $756,844 35, viz:

Bonds bearing 6 per cent. interest...	$301,000 00
Scrip bearing 8 per cent. interest....	366,000 00
Balances of accounts.....	4,844 35
Notes payable	85,000 00
	$756,844 35

The whole cost of construction and equipment is, $2,657,500 12, viz:

Balance of cost, Sept. 30, 1867.....	$2,658,599 47
Amounts paid for depots this year,	
Land in Lowell.....	2,700 00
Land in Billerica	200 65
Land in Woburn.....	1,000 00
	$2,657,500 12

The cost of the other assets held by the company is, $532,992 08.

During the past year there has been expended in reclaiming the Flats and filling at East Cambridge, the sum of $27,123 44; so that that property now stands charged at $52,363 20. A small portion of this land is rented at $1,500 00 per annum.

Of the bonds issued in 1853, payable in 1873, which amounted to $440,000 no less than $339,000 have been converted into stock at par, agreeably to the contract on the face of the bonds.

Since the date of the last Annual Report, two dividends have been declared, one of which ($83,536 84) was payable on the 30th of June last, the other ($91,326 32) on the 31st of December.

The financial condition of the company at the close of each year was as follows:

	1867.	1868.
Cost of road.....	$2,460,961 22	$2,464,861 87
Cost of equipment..	192,638 25	192,638 25
Notes receivable....	154 38	154 38

Excess over liabilities.....		$220,534 11

The cars and other vehicles of the company have run during the year ending November 30 1868, 299,777 round trips, a total distance of 1,780,621 miles, and have carried in all 12,851,877 passengers, being an average of 4,878 miles run, and 35,210 passengers carried, for each day in the year.

Massachusetts Central Railroad.

The first survey from Northampton Mass., to the New London Northern Railroad, for the projected Massachusetts Central Railroad has been completed by Professor Miller of the Agricultural College. The distance from the Connecticut river to a point on the New London Northern about a mile and a half north of Dwight's station, in almost an air line, is 7.6 miles. Northampton and Amherst people will refuse to patronise the road unless it runs near enough to the latter place to suffice for local travel and trade. A new route is talked of from Northampton through North Hadley, to join the New London Northern, north of Amherst.

Finances of the State of New York.

EXTRACT FROM THE MESSAGE OF THE GOVERNOR.

The following is a condensed statement in relation to the finances and indebtedness of the State.

RECEIPTS AND PAYMENTS.

General Fund.

Deficiency in the revenue on the 30th of September, 1867		$2,860,586 38
Payments of the year		10,208,198 46
		$13,068,784 84
Receipts		10,112,331 30
Deficiency of the revenue on the 30th of September, 1868		$2,956,453 54

NOTE—There was due at the close of the fiscal year from the city of New York, $4,530,014 17, of which $4,000,000 has since been paid making up the above deficiency, and leaving a large surplus.

General and Other Funds.

Receipts of the year on account of all the funds, except the Canal and Free School Fund		$16,003,178 53
Balance due the Treasury on the 30th of Sept., 1867	$350,009 58	
Payments of the year	14,904,647 54	
		15,254,657 12
Balance in Treasury on the 30th of September, 1868		$748,521 41

TAXES.

The State Tax levied in 1868, was 5 4-5 mills, for the following purposes: For Schools, 1¼ mill; for General Purposes, 1¼ mill; for Canals, 1 11-195 mill; for Bounty Debt, 2 1-6 mills, and for the Whitehall and Plattsburgh Railroad, 1-18 mill—total, $10,243,317 01. The State Tax levied in 1867, amounted to $12,647,218 71.

STATE DEBT.

The total funded debt of the State September 30, 1867 and 1868, was as follows:

	1867.	1868.
General fund debt	$5,642,622 22	$4,707,826 40
Contingent	130,000 00	68,000 00
Canal	15,738,060 00	14,249,960 00
Bounty	25,862,000 00	25,943 000 00
	$48,367,682 22	$44,968,786 40

The following statement shows the amount of the State Debt on the 30th September, 1868, after deducting the unapplied balances of the Sinking Fund at that date:

	Balances of the sinking Funds, Sept. 30, 1868.	Balances of debt after applying Sinking Funds.
General fund	*$153,178 54	$4,554,647 86
Contingent	15,517 82	52,482 18
Canal	4,017,232 43	10,232,727 57
Bounty	†1,918,408 87	24,024,591 13
	$6,104,337 66	$38,864,448 74

* Includes $350,000 due Oct. 1, 1868, and since paid.

† Deducting interest accrued to October 1, 1868, payable January 1, 1869.

It appears from this statement that over $6,000,000 balances of sinking funds, have accumulated, applicable to the redemption of the debt, and that the net amount of the State's indebtedness, at the end of the fiscal year was only $38,864,448 74. The sinking funds, which there is no reason to suppose will be diminished, will, at their present rate of application, extinguish the whole debt within nine years.

CANALS.

The following statement will show the condition of the Canal Fund for the fiscal year:

Balance in the Treasury and invested October 1, 1867		$3,840,935 66
Received during the year ending 30th September, 1868		5,681,226 11
		$9,522,161 77
Paid during the year		4,823,239 33
Leaving a balance Sept. 30, 1868, of		$4,698,922 44

Statement of the revenues of the State Canals, and the expenses of collection, and ordinary repairs during the fiscal year ending 30th Sept., 1868:

RECEIPTS.

Tolls		$4,417,559 50
Rent of surplus water		750 00
Interest on current revenues		32,791 69
Miscellaneous receipts		26,444 98
		$4,477,546 17

PAYMENTS.

To Canal Commissioners for ordinary repairs	$241,647 18	
To contractors, for repairs	775,118 74	
To Superintendents, for repairs	291 02	
To Collectors, for salaries, clerk hire, pay of inspectors and expenses of collector's offices	76,761 11	
To Weighmasters	13,347 70	
For salaries chargeable to annual revenues, refunding tolls, printing and other miscellaneous payments	77,079 29	
		1,184,245 04
"Surplus revenues"		$3,293,301 18

Amounts Set Apart by Article Seven of the Constitution, viz:

To Sinking Fund, under Section 1	$1,700,000 00
To Sinking Fund, under Section 2	350,000 00
To Sinking Fund, under Section 3	1,116,242 66
For the support of Government under Section 3	127,058 48
	$3,293,301 18

Canal Debt Paying Interest 30th Sept., 1868.

	Principal.	Annual interest of
Under Art. 7, Sec. 1, of the Constitution	$2,230,700	$111,535
Under Art. 7, Sec. 3, of the Constitution	10,324,100	619,196
Under Art. 7, Sec. 12, of the Constitution	1,685,000	101,100
	$14,239,800	$831,831

There are also $10,160 of canal debt which sum is past due, and does not now bear interest; this is included in my previous statement of Canal Debt.

The aggregate balance of all the Sinking Funds applicable to the Canal Debt in the Treasury, and temporarily invested on the 30th of September, was $4,017,282 43. These Sinking Funds are pledged for the payment of the interest and the redemption of the principal of the several debts and loans incurred under Sections one, three and twelve, of Article seven, of the Constitution, in the construction and enlargement of the canals. The application of the above balance to the several debts, for the payment of which these funds have been provided and set apart, would reduce the above outstanding indebtedness to the sum of $10,307,921 24, as will more fully appear from the following statement:

	Debt 30th Sept., 1868.	Balance of Sinking Fund 30th Sept. 1868, including temporary investments.	Balance of debt after applying Sinking Funds.
Under Art. 7, Sec. 1, of the Constitution	$2,240,860 00	$2,316,053 67	$.....
Under Art. 7, Sec. 3, of the Constitution	10,324,100 00	1,122,520 12	9,201,579 88
Under Art. 7, Sec. 12, of the Constitution	1,685,000 00	578,658 64	1,106,341 36
	$14,249,960 00	$4,017,232 43	$10,307,921 24

It will be seen from the last statement which is made up by the Canal Department, that the total amount of Canal Debt is $75,193 67 in excess of the amount previously stated by me. The first statement is from the Comptroller's books. The explanation of this discrepancy is as follows:

The Canal Debt, under section 1, of article 7, of the Constitution, is	$2,240,860 00
The Sinking Fund is	2,316,053 67
Excess of Sinking Fund over debt.	$75,193 67

—which the Comptroller has included in the sinking fund applicable to the payment of the residue of the Canal Debt, and which the Auditor does not include.

The amount carried to the Sinking Fund, under section one, is fully sufficient to pay the balance due on the debt originally incurred for the construction of the canals, and known as the Canal Debt of 1846. The extinguishment of this debt makes a further annual appropriation of $1,700,000 no longer necessary, and enables the Legislature to apply the surplus revenues to the immediate payment of the General Fund Debt and Enlargement Loans, in accordance with the provisions of sections two and three of article seven of the Constitution.

The Auditor of the Canal Department reports, that the balance due on the General Fund Debt for the payment of which the canal revenues are chargeable, is $4,554,647 86. The annual appropriation of $1,500,000 hereafter required by said section two, will be sufficient to pay the principal and accruing interest of this debt in less than four years. The debt contracted by virtue of the provisions of said section three, for the enlargement and completion of the canals, amounting, on the 30th of September last, to $10,324,100, matures on an average in less than six years. To supply the sinking fund with the means to pay the interest and redeem the principal of this debt as it falls due, will require an annual appropriation of $2,340,000. Funds have been provided for the payment of all outstanding claims and liabilities against the State, except such as may have arisen during the last year for awards made by the Canal Appraisers for lands appropriated or occupied for public purposes. The amount of business transacted upon the canals, their general condition, management and supervision, compare favorably with any previous season. Their revenues have been nearly half a million in excess of those of 1867, while their current expenses, for care, superintendence, and ordinary repairs, have been over two hundred thousand dollars less than the annual average for the four preceding years.

It affords me great pleasure to congratulate the Legislature and the people of the State upon the fact that the surplus revenues of the canals for the past fiscal year have been sufficient to pay the balance of the canal debt of 1846, satisfy the other requirements of the Constitution, and contribute over a hundred thousand dollars "to defray the necessary expenses of the Government.'

Railroads of the State of Ohio.

A tabular Statement of their Capital, Length, Cost, Earnings, Expenses, Dividends, &c., for the fiscal year ending June 30, 1868.

Compiled from the Annual Reports of the Railroad Companies made to the Hon. GEORGE B. WRIGHT, Commissioner of Railroads and Telegraphs.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "§."

American Railroad Journal.

Saturday, January 16, 1869.

Stock Exchange and Money Market.

During the earlier part of the week, under review, money worked steadily in favor of the borrowing interest, on an augmenting supply both at bank and in private hands. The publication of the highly favorable bank statement on Saturday served to confirm this tendency of the market, the exhibit indicating a gain of $7,500,000 of deposits, nearly $6,750,000 of specie, and $2,250,000 of legal tender notes, with a reduction of nearly $300,000 in the loan averages, as compared with the footing of the preceding weekly return. Monday's opening dealings in money were on the basis of the legal rate on call, in currency, to responsible street houses. Late in the day, however, there was a sudden and inexplicable renewal of the pressure for accommodation, as well as of firmness in rates, which continued through the active business hours of Tuesday, and the prevailing price to even the best street borrowers was full 7 per cent. on call. Equal to 8½@10 per cent. in currency was said to have been exacted from some needy borrowers, on miscellaneous collaterals. The market was made thus stringent, chiefly by speculative manipulations, in the interest of the *bears* in bonds and stocks. A Government firm in Wall street, was represented as having called in several loans on Tuesday, in furtherance of its temporarily bear views. During the afternoon of that day, there was an unexpected relaxation in the market, with a notable increase of the offerings of capital at generally 7 per cent. on call, with exceptional instances reported of advances having been made to leading dealers in the public funds as low as 6 per cent. On Wednesday, the business was fairly active, and the governing call loan price was the legal rate in currency. In partial explanation of the recent frequent and unusual fluctuations in the price of money, street operators have emphasized the reduced greenback basis at bank, as compared with this time last year; the much higher prices for stocks, especially the railways; the wants of the Pacific Railroads for temporary accommodation in advance of the regular sales of their own mortgages, and the local speculation, for New York and Southern account, in cotton. And attention has been called to the singular strength of the market in nearly all departments of the Stock Exchange, the Gold Room and the Produce Exchange, (including cotton,) in the face of the extraordinary animation in the money line. Mercantile borrowers have been meeting with more encouragement from both banks and private lenders. Prime to good commercial paper has been, as a rule, in more request at from 8@10 per cent. per annum. The U. S. Sub-Treasury has gained a few millions in the way of cash balances, since the 6th inst. The Treasury Department entered the New Year with a cash reserve of of $111,826,461, (including $98,763,369 of coin, and $13,063,092 of currency,) of which there were $87,901,169 in the Sub-Treasury at this port. A year ago, the department held cash balances of $106,679,321.

The specie reserve of the city banks is now $27,384,730, against $19,222,856 same time last year. The city bank deposits are now $187,908,539, against $194,835,525 week ending Jan. 11, 1868. The legal tender reserve amounts to $51,141,128, against $63,753,116 same time last year. The circulation now stands at $34,344,156, against $24,094,137 same time last year. The loans are now $258,792,562, against $253,170,723 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $117,962,008 a day, against a daily average of $117,061,000 the preceding week, and $124,385,841 the week ending with Dec. 23, 1868. The current week's exchanges average about $125,981,000 a day. The city banks, last week, gained $6,648,608 of specie, $7,418,094 of deposits, and $2,244,707 of legal tender notes. They reduced their loans, $297,495; and their circulation, $35,453.

National Bank notes to the amount of $121,010 were issued last week by the Treasury Department, making the total issue to 1,685 banks thus far, amount to $311,677,926, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $11,851,747, leaving, with the existing 1,629 banks, (having an aggregate capital of $419,806,511,) an actual circulation at this date, of $299,826,179. The United States bonds held by Treasurer Spinner in trust for National Banks as

security for circulating notes amount to $342,136,400; and for the public deposits, $35,391,350—making a total of $377,527,750. The Treasury Department last week redeemed and destroyed $624,000 of worn and mutilated fractional currency, and issued $144,315 of new. The outstanding amount of fractional currency on the 1st of January, 1869, was $34,215,716, against $33,875,268 on the 1st of December, 1868.

The average amounts of the Gold Exchange Bank loans and discounts last week was $1,471,083, average amount of specie $1,214,818, average amount of deposits $1,838,523.

The U. S. Sub-Treasury receipts, week ending with Jan. 9, were $10,396,480, including $1,954,193 from customs duties; payments, $11,375,788, including $3,682,000 of coin interest; balance of the close of the week, $81,368,068, against $82,347,376, at the close of the preceding week, showing a decrease of $979,308. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $1,815,850 including $358,981 from customs; and payments, $1,982,927, including $634,332 of coin interest; on Tuesday, receipts, $1,136,058 including $491,000 from customs, and payments, $1,093,280, including $799,925 of coin interest. The balance at the close of business on Tuesday stood at $81,243,729, against $78,601,922 a week previous; and $89,937,195, on Dec. 23, 1868.

The outstanding amount of coin certificates on the 1st of Jan., 1869, was $27,036,020, against 23,255,840 on the 1st of Dec., 1868. The Sub-Treasurer at this port issued, last week, coin certificates to the amount of $3,337,000, and retired $1,862,195 through the receipts for customs. The coin certificates issued by the Sub-Treasury office, during December, reached $7,600,980.

Government revenues have been on a more liberal scale, since our last. The excises, last week, yielded about 3½ millions; customs at the port of New York, $1,954,193, and at the outports about $650,000 (in coin) more, making the grand total income for the week equal to about $7,015,650 in currency. The total receipts of the National Treasury, from excises, during the fiscal year ending with June 30, 1868, were $191,180,564. The receipts from the same source, thus far in the current fiscal year, commencing with July 1, 1868, have been about 76 millions, according to the latest Washington advices.

Gold has been rather more active, since our last, and quoted firmer in price. The warlike tenor of the recent foreign advices have tended to strengthen the speculative interest. There has been a little more call from shippers and importers, from the latter for Custom House purposes. Nearly two millions were derived by the Treasury Department from the Customs of the port, last week, and the promise is of a larger yield during the current week. Nearly three-fourths of a million were exported during the past week. The prices of the week ranged from 134⅝@135⅞. The closing figures on Wednesday were 135⅞. The exports of specie on Tuesday were $43,000, on Wednesday, $50,000. Late on Wednesday, the California steamer delivered $214,180 in gold. The Treasury Department held on the 1st inst., a coin reserve of $98,763,369, of which $71,727,349 belonged to the department, but out of this amount in the ownership of the Government, provision has had to be made for the January coin interest disbursements, amounting to about 33 millions all told. There were $27,036,020 on deposit in the department, on private account.

The customs demand for Gold last week, averaged $325,699 a day; thus far, this week, it has been equal to $424,990 a day, or equal to a weekly aggregate of $2,549,940. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $41,078 and from California, $214,180. The total customs revenue of the Government, in coin, at this port, from July 1, 1868, to date was $62,016,536, against $58,928,133 same time in the preceding fiscal year. At the port of San Francisco, $8,382,329, against $7,484,475 last year.

The total receipts of California gold at this port, since July 1, 1868, have been $12,703,511, against $16,454,402 same time in fiscal year 1867–'68, showing a decrease in the current fiscal year, of $3,750,891. The exports of specie, from this port, last week, were $645,628, against $2,940,752 same week last year; total, since July 1, 1868, $22,835,424, against $32,934,186 in 1867–'68. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $3,682,000; since July 1, 1868, $53,678,049, against $42,069,019 same time in 1867–'68. The specie exports from San Francisco, from Jan. 1, to Dec. 22, 1868, were $34,216,172, against $40,656,910 same time in 1867.

More firmness has been developed in the market for foreign exchange, on a less extensive offering of prime bills, both bankers' and merchants'. The demand, however, has not been particularly brisk, and drawers have experienced much difficulty in realizing asking prices, even on the best drafts. Bankers' prime sixty day bills on London closed on Wednesday at 109⅛@109¾, and on Paris to 5.18¾c.@5.15; sight bills on London to 110¼@110½, and on Paris to 5.13¼c. @5.11¾. The offering of produce bills has been light this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $3,376,680, against $3,912,546, same week last year; total, since July 1, 1868, $84,929,924, against $97,555,165 same time in preceding fiscal year of 1867–'68.

Government securities have been in better request and decidedly stronger in price, most of the week. On Monday and Tuesday there was temporary reaction, caused in part by the sudden tightening of money, and in part by the circulation of an utterly false report to the effect that the Treasury Department was about to market a few millions of new bonds. This report was believed to have originated with parties who were represented as *short* of bonds, and desirous of depressing values, in order to protect their outstanding contracts to deliver. Such reports, false though they be, gain temporary currency from the known or assumed power of the Treasury Department to make such further issues, even though the power be of a very limited nature. And such rumors will continue to be put in circulation and to be traded upon, as long as the Secretary of the Treasury is left even a vestige of authority to enlarge the volume of the six per cent. coin bearing obligations. This source of mischief can be disposed of by a positive and definite enactment of Congress, explicitly closing up all old authorizations of additional six per cent. gold bond issues, and as plainly prohibiting any augmentation of this form of the national securities, under any pretence whatsoever. Late on Tuesday, the market became quite brisk and buoyant again, and closed generally strong on Wednesday.

U. S. sixes of 1881 closed here on Wednesday at 112@112¼; U. S. Five-twenties of 1862, 112⅜@112½; U. S. Five-twenties of 1864 at 108¾@109; U. S. Five-twenties of 1865 at 109¾@109½; U. S. Five-twenties of 1865, consolidated, 108@108⅛; U. S. Five-twenties of 1867, 108¼@108⅜; U. S. Five-twenties of 1868, 108⅝@108¾; U. S. Ten-forties at 107½@107⅝; U. S. Six per cent. currency bonds, 100¾@100⅞.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Dec. 30	Jan. 6.	Jan. 18.
Consols	92⅜	93	92⅞
U. S. 5-20's of 1862...	74⅝	74⅞	75⅛
Erie....	26½	25¾	26
Ill. Central....	95½	95⅝	96¼

Railway and miscellaneous stocks have been in quite extensive demand through the week, opening at buoyant prices, but closing irregularly under the fluctuations in the Money line. On the whole, real values show intrinsic strength; and with assured ease in Money, must develop unusual buoyancy.

Business in Cotton has been active and excited since our last; while in most other kinds of domestic produce there has been less movement, and prices have been less buoyant, especially for Breadstuffs. Middling upland cotton closed quite briskly on Wednesday at 29½@29¾ cents per lb. The stock of cotton now here is estimated at about 34,500 bales. The receipts at the port this week, have averaged about 4,400 bales a day. The receipts at all the ports, since Sept. 1, 1868, have been 1,181,000 bales, against 1,015,000 bales same time in 1867–'8; exports, same time 579,000 bales, against 530,000 bales same time in 1867–'8; stock on hand at latest dates, 295,000 bales, against 335,000 bales same date 1868. Total crops of 1867–'8, 2,430,893 bales; total receipts at ports year ending Sept. 1, 1868, 2,240,282 bales; total exports thence, same time, 1,657,915 bales. The exports of domestic cotton goods from this port, since Jan. 1, have been 88 pkgs., against 25 pkgs., same time last year. From Boston, 696 pkgs., against 1,708 pkgs. same time in 1868. At the Live Stock markets, this week, Beeves have been in less demand and heavy at from 10@16½c. per lb.; week's receipts, 5,419. Veal calves have been quiet at 9½@12½c. per lb.; receipts, 435. Sheep and lambs less sought after at from 4¾@8c. per lb.; receipts, 22,753. Swine, scarce and wanted at from 10@10½c. per lb., all live weight; receipts, 5,022. Foreign merchandise has been generally in moderate demand without any very notable fluctuation in prices. Dry Goods have attracted more attention, and a good spring business is generally looked for, at paying rates. Groceries have been less firm, particularly raw sugars, which have been offered more freely. The total imports of foreign dry goods, last week, were $1,037,193 and the total amount marketed $1,033,218. The value of foreign merchandise imported last week, was $2,500,820—making the

grand total specie value of last week's imports of dry goods and merchandise, equal to $3,537,518, against $3,456,063 same week last year; total since July 1, 1868, $127,067,444, against $120,878,454 in 1867-'8. Freights have been rather firmer, as to rates, but the actual business transacted has been on a moderate scale. For Liverpool we quote flour at 2s.@2s. 3d. by sail, and 2s. 6d.@3s. by steamer, per bbl.; grain at 7d.@7¼d. by sail, and 8d.@8½d. by steamer, per bushel; cotton at ¼d.@$\frac{5}{16}$d. by sail, and $\frac{5}{16}$d.@⅜d. by steamer, per lb.; and heavy goods 22s. 6d.@35s. by sail, and 35s.@50s. by steamer, per ton. Total number of vessels in port on Wednesday, 523.

The New York exports, exclusive of specie, for the week ending Jan. 12, and since the beginning of the year, compare as follows:

	1868.	1869.
For the week.....	$3,912,546	$3,876,680
Prev. reported.....	2,500,234	1,926,240
Since January 1.....	$6,412,780	$5,802,920

The imports for the week ending January 9, and since the beginning of the year, have been as follows:

	1868.	1869.
Dry goods	$974,688	$1,037,193
Gen. merchandise.....	2,481,375	2,500,320
Total for the week.....	$3,456,063	$3,537,513
Previously reported....	....	....
Since January 1.....	$3,456,063	$3,537,513

The balance in the Sub-Treasury on Wednesday was $80,813,084.

Pittsburg, Ft. Wayne & Chicago Railway.

The following is a statement of the approximate earnings and expenses of this company during the month of December, as compared with the same period of the year 1867:

	1868.	1867.
From freight..	$524,844 81	$370,299 85
" passengers..... ..	178,873 52	176,416 72
" express matter...	10,651 50	8,307 00
" mail ..., ...	7,825 00	7,825 00
" rent of railway...	7,083 34	7,083 34
" miscellaneous....	1,000 00	3,794 92
Total.....	$730,278 17	$573,726 83
Expenses	575,691 27	449,685 51
Net earnings.....	$154,586 90	$124,041 32

This shows a increase in earnings of $156,551,34; with a increase in expenses of $126,005 76—making the increase in net earnings, $30,545 58.

The earnings and expenses, from January 1 to December 31, compare as follows:

	1868.	1867.
Earnings	$8,022,120 74	$7,242,125 96
Expenses	5,007,118 43	4,863,572 07
Net earnings.....	$3,015,002 31	$2,378,553 89

This shows an increase in earnings of $779,994 78; with an increase in expenses of $143,546 36—making the increase in net earnings, $636,448 42.

Journal of Railroad Law.

NEGLIGENCE OF PERSON CROSSING RAILROAD TRACK—WHEN ADMISSION OF ENGINEER WILL BE ADMITTED—AMOUNT OF DAMAGES.

This was an action on the case brought August 10th, 1864, by William J. Coyle against the Hanover Branch Railroad Company for negligence by the servants of the company in running against and breaking his wagon, injuring himself and his horses, and injuring and destroying goods in his wagon.

On the trial before Fisher, P. J., the evidence was that on the 6th of January, 1864, the plaintiff, who was a pedlar, was driving on the Carlisle road in a wagon with two horses, "so muffled up with his coat, comfort and buffalo robe," that the witness supposed he could not see the signal which he, the witness, made to him with his hand. The plaintiff was then about 5 yards from the railroad at the point where it crosses the Carlisle road, and the train was about 100 yards distant, the plaintiff's horses moving in a fast walk, and in crossing the railroad, which was the Gettysburg Railroad, the cow-catcher struck the wagon, greatly injured himself and one of his horses, and scattered and injured his goods. There was evidence given by plaintiff's witnesses that there were openings by streets and alleys in the town, by one of which the plaintiff could have seen the train when it started, and for some distance afterwards, and by the other only at the time of crossing it—the sight at one being intercepted by "Kohler's" house.

The plaintiff's witnesses also proved that the wagon hid the head and the sides of the plaintiff, but not his legs.

There was evidence also of the plaintiff having frequently crossed the railroad at that place.

The evidence was conflicting as to giving signals, and as to the train being behind time.

The opinion of the Court was delivered, July 3d, 1867, by

AGNEW, J.—Upon a careful examination of the testimony in this case, it is impossible to shut our eyes to the fact that the jury were permitted to find a verdict for the plaintiff, contrary to the evidence and the instruction of the learned judge. But the remedy was by granting a new trial, and not a writ of error. Whatever may have been the negligence of the railroad company, (and it is a question upon the evidence whether there was any,) it seems to be very clear that Coyle, the plaintiff, approached the crossing of the railroad muffled up, sitting within the covered top of his wagon, taking no notice of the railroad, which he well knew, for he had often crossed it before, and drove slowly upon the track, without stopping or looking out, so far as anything in the evidence discloses the fact to us. It also shows that at this point a traveller passing in the direction Coyle was going cannot see up and down the track, in consequence of the position of Kohler's house, until he has gotten within sixteen feet of the track. It was very manifest, therefore, that Coyle was guilty of negligence in omitting to stop and look out for the cars.

But the Court answered the first five points of the defendant, all bearing on the negligence of Coyle, in the affirmative, giving to the jury the proper instructions, which under the evidence ought to have led to a verdict for the defendants. The error was not that of the Court, but of the jury, which ought to have been corrected by setting aside the verdict. This, however, admits of no remedy here.

The defendants complain, however, that the Court qualified the answer to the 4th point in such manner as to mislead the jury. We cannot perceive any error. The Judge did not qualify the instruction, but merely submitted the facts upon which the instruction rested. It is true that he also added that negligence is a fact to be decided by a jury from the whole evidence and all the circumstances, and is the want of that care which men of common sense and common prudence ordinarily exercise in their employment and business of life. But this in no wise qualified the instruction already given; especially that part of the answer to the 4th point, which affirmed that if the jury believed Coyle neglected to take all or any of these precautions, but drove carelessly on to the crossing without stopping, paying no attention to any warnings which may have been given him until his wagon was struck by the engine, and this conduct on his part helped in any degree to occasion the accident, their verdict must be for the defendant.

The paper book discovers no bill of exceptions to the testimony referred to in the 5th assignment of error. But if it did, we cannot say that the declaration of the engineer was no part of the *res gestæ*. It was made at the time of the accident, in view of goods strewn along the road by the breaking up of the boxes, and seems to have grown directly out of, and immediately after the happening of the fact. The negligence complained of being that of the engineer himself, we cannot say that his declarations made upon the spot, at the time, and in view of the effects of his conduct, are not evidence against the company as a part of the very transaction itself.

The same remarks apply to the evidence contained in the 6th error.

That portion of the evidence admitted as stated in the 7th error, to wit, the annual amount of Coyle's sales, and the profit he made thereupon, bore directly upon the question of damages, as affording a means of computing his loss for the time he was confined by his injuries and prevented from carrying on his business. It tended to show the amount he might have earned by his employment, if he had been able to attend to it.

The action was properly brought against the defendants. The train was theirs, and the engineer their servant, and they were the carriers. The division of appropriation of the profits could furnish no criterion of liability in such a case, especially where, as here, by the very terms of the agreement between the two companies, the defendants were to suffer the loss which should be incurred by such an accident.

Finding no error in the record, the judgment is affirmed.

☞ A dispatch from Vergennes, Vt., says the parties opposed to the conversion of the mortgage bonds of the Rutland and Burlington Railroad Company into preferred stock of the new company applied for an injunction to restrain the directors from raising money to pay dividends on the preferred stock. The Court refused the injunction, with costs.

Finances of Pennsylvania.

EXTRACT FROM THE MESSAGE OF THE GOVERNOR.

The following is a carefully prepared statement of the financial condition of the State for the fiscal year ending November 30, 1868:

The reports of the Auditor General and State Treasurer show that the balance in the Treasury November 30, 1867, was.....		$4,661,836 46
Ordinary receipts during the fiscal year ending Nov. 30, 1868		5,216,049 85
Depreciated funds in the Treasury, unavailable.....		41,032 00
Total in Treasury for the fiscal year ending Nov. 30, 1868.....		$9,918,918 01
Payments, viz:		
Ordinary exp'nses during the fiscal year ending Nov. 30, 1868.	$2,454,506 09	
Loans, &c., redeemed.	4,417,463 64	
Other payments.....	12,800 00	
Interest on loans.....	1,679,690 91	
Depreciated funds, unavailable.....	41,032 00	
		8,905,492 64
Balance in Treasury, Nov. 30, 1868.		$1,013,415 37

SINKING FUND.

By an act approved April 18, 1868, the transactions of the Commissioners of the Sinking Fund were ordered to be thereafter reported annually to the 30th day of November. Their last report, therefore, includes a period of one year and three months.

The following is the "recapitulation" of the operations of the Sinking Fund, from September 3, 1867, to November 30, 1868:

Balance in fund, Sept. 3, 1867.....		$1,737,912 41
Receipts in fund from Sept. 3, 1867, to Nov. 30, 1868.....		3,418,992 31
		$5,156,904 72
Paid interest.....	$1,808,005 84	
Premiums paid as equivalent for coin.	49 98	
Loans redeemed.....	2,414,816 64	
		4,222,871 96
Balance in fund Nov. 30, 1868.....		$934,032 76

By the sixth section of the act of May 16, 1861, a special tax of one-half mill on the dollar was especially set apart for the payment of the interest and redemption of the loan created by an act of May 18, 1861, entitled "An act to create a loan and provide for arming the State.

Balance on hand Sept. 3, 1867.....	$319,933 17
The receipts from said tax and tax on gross receipts from September 3d, 1867, to November 30th, 1868, amount to.....	423,979 20
Total.....	$743,912 37
Interest paid in January and July, 1868.....	169,245 00
Balance in fund Nov. 30, 1868.	$574,667 37

CONDITION OF BALANCES.

Balance in sinking fund, Nov. 30, 1868.....	$934,032 76	
Balance in sinking fund, Nov. 30, 1868.....	574,667 37	
		$1,508,700 13
Deduct balance in Treasury Nov. 30, 1868.....		1,013,415 37
Balance in favor of sinking fund...		$495,284 76

REDUCTION OF THE STATE DEBT.

By the report of the Commissioners of the Sinking Fund for the year ending September 3, 1867, the "loans redeemed" amounted to $1,794,569 50, and by their report from September 3, 1867, to November 30, 1868, the "loans redeemed" amounted to $2,214,816 64, making a total reduction o the State debt, in two years and three

months, of four million two hundred and nine thousand three hundred and eighty-six dollars and fourteen cents.

The assets remaining in the Sinking Fund are as follows, viz.: Bonds of the Pennsylvania Railroad Company, six million four hundred thousand dollars, and bonds of the Philadelphia and Erie Railroad Company, three millions five hundred thousand dollars. These are non-interest bearing bonds, and will not mature for many years. I, therefore, recommend to the consideration of the Legislature the propriety of the passage of a law, authorizing the Commissioners of the Sinking Fund to sell these bonds at public sale to the highest bidder, and direct the proceeds to be applied to the liquidation of the State debt.

PUBLIC DEBT.

Public debt outs'ding Dec. 1, 1867		$37,704,409 77
Deduct amount redeemed at State Treasury during the fiscal year ending November 30, 1868, viz:		
6 per cent. loans	$4,354,253 64	
4½ per cent loans	63,000 00	
Relief notes cancelled	210 00	
		4,417,463 64
Public debt Dec. 1, 1868		$33,286,946 13

Statement showing the condition of the indebtedness of the Commonwealth on the first day of December, 1868:

Funded debt, viz:		
6 per cent. loans	$25,311,180 00	
5 per cent. loans	7,749,771 53	
4½ per cent. loans	112,000 00	
		$33,172,951 56
Unfunded debt, viz:		
Relief notes in circulat'n	$96,415 00	
Interest certificates outstanding	13,086 52	
Interest certificates unclaimed	4,448 38	
Domestic creditors' certificates	44 67	
Total unfunded		113,994 57
Total funded and unfunded		$33,286,946 13

Which is the amount of the State debt as before stated.

A Railroad in Persia.

The English papers state that a combination of English capitalists has received from the Shah a concession giving them, for twenty years, the exclusive right to construct railways in the country, and an agent of the concessionaries has proceeded to Teheran to break ground at once with a short six mile line from the capital to the suburban village of Rey (Shah Abd-ul Azmi) a famous weekly resort of pious Teheranlees. The ground has already been surveyed, and the report of the engineer employed estimates that the line may be constructed and stocked for a sum considerably under £100,000, on which the passenger traffic of some 40,000 devotees a week will, he reckons, yield a remunerative dividend—exclusive of an eight per cent. guarantee.

Baltimore and Potomac Railroad.

This road is now all under contract for grading, and contractors have workmen engaged along its entire length. Messrs. Crowley & Co. have the division nearest Washington. The land has been condemned, but has not been paid for, and Messrs. Crowley & Co. are prosecuting the work only by the sufferance of the owner. Messrs. [illegible] Co. are at work next to Crowley & Co. Barron [illegible] the next division under way and —Mr. Riley has [illegible] The contractors confidently Mr. Smith the next. [illegible] completed by the 1st of expect to have the road [illegible] January, 1870.

The Wool Trade.

The imports of Foreign Wool at New York during the years 1867 and 1868, have been as follows:

	1867.			1868.		
	No. of Bales.	Weight, lbs.	Ent'd Value.	No. of Bales.	Weight, lbs.	Ent'd Value.
England	11,546	4,688,941	$894,550	4,449	2,054,425	$322,196
Buenos Ayres	8,312	5,760,630	867,403	4,572	3,156,885	405,882

Cleveland and Pittsburg Railroad.

At a meeting of the stockholders of this company held at Cleveland, Ohio, on the 6th inst., J. N. McCullough, J. Gist, J. Graham Gardner, James F. Clark, E. P. Coe, of Ohio, B. F. Jones, James Strickney, of Pennsylvania, N. A. Prentiss, John D. Taylor, N. Millard and William M. Deuman, of New York were elected directors for the ensuing year. In speaking of the election, a Cleveland paper says:

In this election the issue was between the interests of "Erie" and those opposed thereto. Since the lease of the Atlantic and Great Western Railway by the Directors of the Erie road, it has been the object of the latter to effect an arrangement by which a broad gauge line could be run into the Union Passenger Depot, thereby making close connections with other lines. This could only be accomplished by securing a board of directors for the Cleveland and Pittsburgh road in the interest of Erie. This done, a third rail laid on the track of that road from Ravenna or Newburg to the city, would afford the desired facilities. It is understood that the object sought after has been gained in the election, the board chosen on Wednesday being in favor of granting to the Erie Railway the privilege of laying the third rail and running trains over the Cleveland and Pittsburgh track, into the Union Depot.

From the report of the directors it appears that the gross receipts for the year were $2,493,218 60, an increase over the previous year of $194,891 92. The expenses are given at $1,470,425 54, a decrease from 1867 of $18,382 29, notwithstanding a largely increased tonnage. The company paid during the year in mortgage interest, lease of track of Pittsburgh, Fort Wayne and Chicago Railway, and mortgage bonds of 1,900, in the aggregate $424,884 65, leaving as the net income of the year's business $597,903 41. The company added materially to its facilities during the year, and begins the year 1869 with the promise of still better results.

Finances of Maine.

From the message of the Governor we learn that the receipts into the State Treasury during the past year were $1,358,533 67; expenditures, $1,142,807 74. The public debt has been reduced $37,000. The whole now outstanding is $5,058,-500. Of this, $800,000 falls due in 1871. To meet this is the accummulating sinking fund, which, with the sums paid in on the claim against the General Government, already amount to $846,-000. On this claim has been received last year, $134,203 30. In 1867, the amount of the claim was $702,849 82. Since that time there has been allowed and paid $701,048 07. Of this $357,702 10 were paid to the United States to cancel the direct tax laid on the State in 1861, and $9,516 89 paid to settle private claims under resolve of 1868. The balance, $348,184 21, has been paid into the Treasury and applied to extinguish the war loan of 1861. The balance now remaining is very small. The interest on the loan of $3,500 00, bearing interest from April 1, 1869, for the reimbursement of municipal war debts will add one mill to the dollar in the State taxation.

International Pacific Railroad.

Information has been received at Washington that the Texas convention has passed an ordinance giving the right of way to the International Pacific Railroad from the eastern to the western border of that State, and a reservation of twenty miles on each side of the road out of which to select 10,240 acres of land to the mile, with a grant of the entire reservation of the road, which is to be completed within six years. This road is one of the connecting links of the international line from Cairo to San Blas, on the Pacific ocean.

Middlesex (Mass.) Railroad.

The earnings of this road during the year ending November 30, 1868, were: from passengers, $205,108 57; from other sources, $1,531 54—total, $206,640 11; and the expenses, $189,980 71, leaving the net earnings $16,659 40, to which add surplus from previous year $17,989 03, making the present surplus, $34,598 43. The cost of the road to the end of the fiscal year, Nov. 30, 1868, has been $367,432 34. Number of miles run during the year, 539,914; passengers carried, 3,304,-828, an increase over last year of 365,000; average number of passengers carried per passage, 17.4; average speed, 5 miles per hour. Number of cars, 47; horses, 254.

☞ The following gentlemen have been chosen directors of the Lowell and Lawrence Railroad Company for the ensuing year: Sidney Spalding, Otis Allen, Isaac Farrington, Joshua W. Daniels, William E. Livingston, Alfred Livingston, John F. Kimball. President, Sidney Spalding, Clerk and Treasurer, F. H. Nourse.

☞ The route of the projected railroad from Aberdeen, Miss., to Decatur, Ala., is now being surveyed. Major Green, of New Orleans, is Chief Engineer.

Specie Movements at New York in 1868.

The receipts of specie at New York from foreign ports in 1868, were $7,085,389; from California, $34,107,513, making a total of $41,192,902. This does not include the Sub-Treasury receipts brought from California, amounting to nearly ten millions. The exports to foreign ports have been $70,841,599, showing a loss, not reckoning the Sub Treasury movement, of $29,648,697. The following presents the movement for each month of the year:

Received from foreign ports:

In January	$136,574
February	415,875
March	1,299,776
April	871,079
May	477,485
June	838,111
July	126,442
August	846,821
September	906,558
October	554,862
November	220,816
December	391,490
	$7,085,889

Received from California:

In January	$1,949,880
February	4,132,276
March	3,670,196
April	3,760,440
May	4,216,707
June	3,359,765
July	3,511,595
August	3,244,947
September	3,347,644
October	926,725
November	1,202,914
December	784,424
	34,107,513
Total supply	$41,192,902

Exported to foreign ports:

In January	$7,349,825
February	4,203,825
March	3,694,912
April	6,095,179
May	16,936,231
June	11,823,628
July	10,584,558
August	4,690,989
September	1,954,723
October	1,608,739
November	1,181,085
December	1,717,905
	70,841,599
Loss on the year	$29,648,697

Grand River Valley Railroad.

The company having this enterprise in charge, is steadily progressing with the work of constructing. The officers in charge of the business of constructing and operating the road are: Amos Root, Esq., President; Eugene Pringle, Esq., Secretary; P. B. Loomis, Esq., Treasurer; A. K. Nash, Esq., Chief Engineer; Col. R. H. G. Minty, Esq., Superintendent.

The cars run regularly from Jackson to Charlotte, and the iron rail is laid to a point within three miles of Vermontville on the Thornapple River, in the western side of Eaton County. The distance from Jackson to Charlotte is 35 miles, and from Charlotte to Vermontville, 12 miles, and it is 14 miles from Vermontville to Hastings, the "county-seat" of Barry County. The road bed is nearly completed to Hastings. The bridge over Thornapple River, which is upward of 500 feet in length, is also nearly completed. This part of the line will soon be in readiness for the tracklayers. Like most of the Michigan roads, the road bed of this line is constructed by local aid—mostly township and county bonds.

We understand that the company's general mortgage bonds are indorsed by the Michigan Central Railroad Company, from the avails of the sales of which the rails and rolling stock are purchased. From the foregoing facts it is pretty certain that within a year or two this road will reach Grand Rapids. Its construction will materially interfere with the former calculations of Kalamazoo. But it is to be hoped that the Kalamazoo, Allegan and Grand Rapids Railroad will reach Grand Rapids at least a year ahead of the Grand River Valley. Such an event will secure to this point its share of the immense traffic to be found at Grand Rapids.—*Kalamazoo Gazette.*

Commerce of Baltimore.

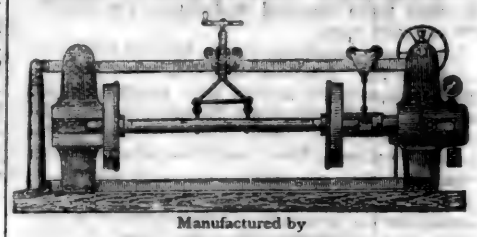
The foreign imports at the port of Baltimore for the year 1868, were $13,577,542, gold, and the exports for the same period amounted to $14,950,022, currency. These figures indicate a very large increase compared with former years, as shown by the totals for the last six years, viz:

	Imports. (Gold.)	Exports. (Currency.)
1863	$5,386,704	$9,967,903
1864	6,076,291	12,362,448
1865	6,211,257	9,614,055
1866	9,979,529	11,078,386
1867	12,042,874	12,263,617
1868	13,577,542	14,950,022

When it is considered how small were the Maryland and Ohio crops of leaf tobacco, which composed the shipments for the year 1868, and which staple usually makes up so large a portion of the exports, the above increase will be better appreciated. This increase over the year 1867, was chiefly made up by enlarged shipments of cotton, flour, oil cake, petroleum, bark, &c. The increase in value of imports from foreign countries was mainly composed of sugar, molasses, fruit, fish, iron, rice, &c. In coffee there is a slight decrease, and a heavy falling off in guano and hides. The amount of duties collected on imports at Baltimore for the past four years were as follows:

1865	$2,983,303 23
1866	4,665,064 35
1867	5,798,820 85
1868	6,217,496 41

☞ The St. Mary's *Beacon* says that the Commissioners appointed by the Maryland Legislature at its last session to survey a line for a railroad from Point Lookout to some point in Prince George's County, have completed their work, and will meet in Leonardtown, with the engineer corps, in a few days, to prepare a chart of the road and finally settle their business, in order to report to the Legislature according to the requirements of the act.



☞ The corporators of the Winterport Railroad Dompany have elected N. H. Hubbard, Job Lord, E. F. Littlefield, T. W. Vose, T. Cushing, Samuel Dillany, C. A. Cushing, Directors for 1869. The Directors made choice of N. H. Hubbard, Esq., President, and Job Lord Clerk and Treasurer.

☞ Four thousand miles of railway have been completed in Hindostan, and one thousand more are projected or commenced. The discovery of gold in Ceylon has created a demand for a line to the mettaliferous district.

☞ A charter for a railroad from Edenton, N. C. to Suffolk, Va., where it will connect with the Norfolk and Petersburg road, has been obtained from the Legislature of North Carolina.

☞ The town of Reading, Livingston County, Ill., has voted to subscribe $100,000 to the stock of the Chicago, Plainfield and Pekin Railroad.

CAR WHEEL PRESS.

Manufactured by

D. P. DAVIS,

Mechanical Engineer,

26½ BROADWAY, N. Y.

AGENT FOR

T. S. DAVIS' PATENT BALANCE PISTON VALVES, & STATIONARY ENGINES, Cut Off Operated by the Governor.

Over 14,000 horse power of Engines with this Valve are now in use, combining the greatest economy in fuel, simplicity and durability of parts, with low cost, they being cheaper than any other first-class Engine built.

Engineers desiring to adopt these improvements, either for new work or to improve the old style of Engines, will be furnished with drawings, and all information necessary to apply them in the best and cheapest manner. Circulars sent upon application therefor.

Richard Norris & Son,

LOCOMOTIVE WORKS.

The undersigned offer for sale, or on lease for a term of years, to acceptable parties their Extensive Locomotive Works, Established in 1834, consisting of Lands, Buildings and Tools, centrally situated in the City of Philadelphia on a main line of railway connecting with all others. Personal application to be made at our office

RICHARD NORRIS & SON,

4t 17th st. and Spring Garden st.

PHILADELPHIA, Dec. 12, 1868.

To all connected with Railroads.

Superintendents, Conductors, Engineers, &c.

DO YOU WANT A TIME-KEEPER?

If so, ask your Watchmaker for a Borel & Courvoisier *Nickel Watch*. Prize Medal awarded at London, Paris and Swiss Expositions, for best performance.

THE UNION PACIFIC

RAILROAD COMPANY.

OFFER A LIMITED AMOUNT OF THEIR

First Mortgage Bonds

AT PAR.

NINE HUNDRED AND SIXTY MILES

Of the line West from Omaha are now completed, and the work is going on through the Winter. As the distance between the finished portion of the Union and Central Pacific Railroads is now less than 400 miles, and both companies are pushing forward the work with great energy, employing over 30,000 men, there can be no doubt that the whole

Grand Line to the Pacific

Will be open for Business in the Summer of 1869.

The regular Government Commissioners have pronounced the Union Pacific Railroad to be FIRST CLASS in every respect, and the Special Commission appointed by the President says:

"Taken as a whole, THE UNION PACIFIC RAILROAD HAS BEEN WELL CONSTRUCTED, AND THE GENERAL ROUTE FOR THE LINE EXCEEDINGLY WELL SELECTED. The energy and perseverance with which the work has been urged forward, and the rapidity with which it has been executed are without parallel in history, and in grandeur and magnitude of undertaking it has never been equalled." The Report states that any deficiencies that exist are only those incident to all new roads, and that could not have been avoided without materially retarding the progress of the great work. Such deficiencies are supplied by all railroad companies after the completion of the line, when and wherever experience shows them to be necessary. The report concludes by saying that "the country has reason to congratulate itself that this great work of national importance is so rapidly approaching completion under such favorable auspices." The Company now have in use 137 locomotives and nearly 2,000 cars of all descriptions. A large additional equipment is ordered to be ready in the Spring. The grading is nearly completed, and ties distributed for 120 miles in advance of the western end of the track. Fully 120 miles of iron for new track are now delivered west of the Missouri River, and 90 miles more are *en route*. The total expenditure for construction purposes in advance of the completed portion of the road is not less than eight million dollars.

Besides a donation from the Govt. of 12,800 acres of land per mile, the Company is entitled to a subsidy in U. S. Bonds on its line as completed and accepted, at the average rate of about $29,000 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. The Company have already received $22,158,000 of this subsidy, of which $1,280,000 was paid Dec. 6th, and $640,000 Dec. 14th.

Government Aid—Security of the Bonds.

By its charter, the Company is permitted to issue its own FIRST MORTGAGE BONDS to the same amount as the Government Bonds, *and no more*. These Bonds are a First Mortgage upon the whole road and all its equipments. Such a mortgage upon what, for a long time, will be the only railroad connecting the Atlantic and Pacific States, takes the highest rank as a safe security. The earnings from the way or local business for the year ending June 30, 1868, on an average of 472 miles, were over FOUR MILLION DOLLARS, which, after paying all expenses, were much more than sufficient to cover all interest liability upon that distance, and the earnings for the last five months have been $2,386,870. They would have been greater, if the road had not been taxed to its utmost capacity to transport its own materials for construction. The income from the great passenger travel, the China freights, and the supplies for the new Rocky Mountain States and Territories must be ample for all interest and other liabilities. No political action can reduce the rate of interest. It must remain for thirty years—*six per cent. per annum in gold*, now equal to between eight and nine per cent. in currency. *The principal is then payable in gold.* If a bond with such guarantees were issued by the Government, its market price would not be less than from 20 to 25 per cent. premium. As these bonds are issued under Government authority and supervision, upon what is very largely a Government work, they must ultimately approach Government prices.

The price for the present is PAR, and accrued interest at 6 per cent. from July 1, 1868, in currency.

Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau St.,

AND BY

John J. Cisco & Son, Bankers,
No. 59 Wall St.,

And by the Company's advertised Agents throughout the United States.

Bonds sent free, but parties subscribing through local agents, will look to them for their safe delivery.

A NEW PAMPHLET AND MAP WAS ISSUED Oct. 1st, containing a report of the progress of the work to that date, and a more complete statement in relation to the value of the bonds than can be given in an advertisement, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.

Dec. 15, 1868.

To Railroad Companies.

We beg to call the attention of Managers of Railways and Contractors throughout the United States and Canada to our superior facilities for executing orders at manufacturers prices for all descriptions of both AMERICAN and FOREIGN

RAILROAD IRON.

We are always in a position to furnish all sizes, patterns and weight of Rail for both Steam and Horse Roads, and in any quantities desired, either for IMMEDIATE or REMOTE delivery, at any port in the United States or Canada, and always at the very lowest current market prices. We are also prepared to supply

BESSEMER STEEL RAILS,

of American and Foreign manufacture, rolled to any desired pattern and weight per lineal yard, and of approved lengths. Contracts for both IRON AND STEEL RAILS will be made payable in United States currency for American, and in either currency or gold (at the option of the buyer) for Foreign; when desired, we will contract to supply roads with their monthly or yearly requirements of STEEL OR IRON RAILS, taking their

OLD RAILS IN TRADE FOR NEW

furnished, receiving the difference in cash, and allowing the highest market price for their Old Rails, and, if necessary, receiving the latter after the delivery of the New Rails.

Orders for Foreign Rails, both Steel and Iron, will be taken for transmission by Mail or through the Cable to our

LONDON HOUSE,
58 OLD BROAD STREET,

for execution at a fixed price in Sterling, or on commission at the current market price abroad when the order is received in London; shipments to be made at stated periods to ports in America, and at the lowest possible rates of freights. Address

American Railroad Journal.

New York Saturday, January 23, 1869.

Railroads in Maine.

On the first of January, 1837, Maine had 11 miles of railroad in operation. January 1, 1842, 51 miles of new line had been added, making a total of 62 miles of railroad in operation. To the first of January, 1848, 28 additional miles had been constructed, 78 miles more to January 1, 1849, 77 miles more added in that year, making a total of 245 miles of railroad in operation January 1, 1850, 48 miles were added during 1850, 30 miles in 1851, 9 miles in 1852, 26 miles in 1853—making a total of 334 miles January 1, 1854. The mileage increased 26 miles to January 1, 1855, 69 miles of addition to the first of January, 1856, 22 miles more to January 1, 1857, 17 miles more to January 1, 1858, and 4 miles additional to the first of January, 1859—making a total of 472 miles to January 1, 1859, without including 71 additional miles of the Atlantic and St. Lawrence Railroad lying in the States of New Hampshire and Vermont, built by the capital of Maine, as a portion of her trunk line from Portland to Island Pond, making a total of 544 miles belonging to the railroad system of Maine on the first of July, 1860, costing $19,600,985.

The following table gives the existing railroads of Maine, not counting those in progress, with the cost of each to January 1, 1869, including the 71 miles of the Atlantic and St. Lawrence Railroad, 52 miles of which lie in the State of New Hampshire, and 19 miles in the State of Vermont:

	Miles.	Cost.
Androscoggin (Brunswick to Farmington & Lewiston Br.)	69	$1,252,677
Atlantic & St. Lawrence (Portland to Island Pond)	149	7,645,089
Bangor and Oldtown	13	*640,604
Calais and Baring	6	226,160
Great Falls and South Berwick	6	96,000
Portland and Kennebec (Portland to Skowhegan and Bath Branch)	110	4,000,000
Lewey's Island (Baring to Princeton)	16	345,000
Machiasport	8	120,000
Maine Central (Danville Junction to Bangor)	110	4,160,594
Oxford Central (Mechanic Falls to Sumner)	21½	423,000
Newport and Dexter	15	300,000
Portland, Saco & Portsmouth	51	1,509,000
Portland and Rochester	32	960,000
	606½	$21,669,124

* Cost to present company $247,412.

The following is a list of new enterprises now in progress:

	Miles. Built.	In progress.	Total.	City Bonds and Capital Subscribed.
European & North American (Bangor to boundary)	26	84	110	$4,000,000
Piscataquis (Oldtown to Dover)	..	40	40	950,000
Belfast and Moosehead) Belfast to Newport)	..	38	38	906,000
Somerset (Waterville to Solon)	..	34	34	680,000
Knox and Lincoln (Bath to Rockland)	..	46½	46½	1,040,000
Portland & Rochester (Alfred to N. H. Line)	..	17	17	400,000
Portland and Oxford Central	..	7	7	200,000
	26	266½	292½	$8,776,000

There is a large number of additional enterprises in contemplation, and for which charters are granted, the most promising of which are as follows:

	Miles.
Portland and Ogdensburg Railroad (Portland to State Line at Conway, N. H.)	48
Portland and Rutland Railroad (Portland to State Line at Freedom, N. H.)	38
Maine Central Extension (Danville to Portland)	28
Maine Central Bridgeton Branch	25
Winterport (Winterport to Bangor)	13
Penobscot River (Rockland to Winterport)	60
International Railroad (Milford to Princeton)	65
Houlton Branch Railroad	6

For the facts and figures in the foregoing paper, we are indebted in the main to the statements of John A. Poor, in his report to the Governor of Maine under date of October 15, 1868, and by the Governor transmitted to the Commissioner of the General Land Office at Washington for insertion in his annual report for 1868, now passing through the press.

Tebo and Neosho Railroad.

Work upon this road, which runs from Sedalia, Mo., in a southwesterly direction to Fort Scott, Kansas, has been progressing favorably for more than a year. Divisions one and two extend from Sedalia, to Clinton, a distance of 36.5 miles, and are sub-divided into 28 sections. On 16 sections the masonry, which includes six bridges of about 100 feet span—is completed. The grading is finished on 8 sections, and by the 1st of March, 6 more sections will have been completed.

The following is a synopsis of the work executed up to December 1, 1868:

Clearing and grubbing	39.66 acres.
	Cubic yds.
Earth excavation	127,778.8
Loose rock excavation	6,494.6
Solid rock excavation	328.0
2d class masonry	2,196.3
3d class masonry	2,410.1

The total amount expended for these items, and including foundation, sits and timber, is $90,880 16.

Vigorous efforts are being made to increase the stock subscriptions, and it is confidently believed by the directory, that, by the 1st of April, they will have city and county subscriptions to the amount of nearly $1,000,000, to be applied on the main stem and its branches.

Finances of Kentucky.

The Governor of Kentucky, in his annual message, presents the following exhibit of the financial condition of the State:

The public debt of the Commonwealth on the 10th October, 1867, amounted to		$4,611,199 46
Deducting the bonds consecrated to the school fund, and not redeemable		1,632,297 46
Leaving the total indebtedness of the Commonwealth subject to payment upon the 10th Oct., 1867		$2,978,902 00
During the fiscal year ending 10th October, 1868, there were redeemed by the Commissioners of the Sink'g Fund, State bonds amounting to		992,008 00
Amount of State debt on the 10th October, 1868		$1,986,894 00
Amount of State bonds redeemed from 11th October, 1868, to 31st December, 1868		80,000 00
Leaving the actual amount of State debt proper upon the 31st December, 1868		$1,906,894 00
This indebtedness consists of six per cent. bonds due and outstanding	$51,394 00	
Five per cent. bonds due and outstanding	16,000 00	
Six per cent. bonds not due	1,679,500 00	
Five per cent. not due	160,000 00	
	$1,906,894 00	
The balance in the State Treasury on the 10th October, 1867, was	$1,438,493 36	
Receipts for the year	682,788 17	
Making	$2,121,281 53	
Expenditures and disbursements for the year	1,534,081 85	
Leaving balance in Treasury on 10th October, 1868	$587,199 68	
To this balance should be added the amount loaned by the sinking fund to the revenue department proper of the Commonwealth, due and unpaid, exclusive of interest	490,849 05	
	$1,078,038 73	
To this amount must be added, as will appear by the Auditor's Report, the sum of $92,064 35 in the Treasury, belonging to the Sinking Fund, but not transferred	92,064 35	
	$1,160,103 08	
This balance is entitled to a further credit by the sum of $31,323 90, deposited with the Farmers' Bank of Kentucky, for the payment of the interest of the State debt, and not used for that purpose, and becomes a portion of the present available assets of that fund	31,323 90	
If, therefore, the amount loaned by the Sinking Fund Commissioners to the revenue department of the State be returned, the balance in the Treasury of cash on hand upon 10th October, 1868, would be	$1,191,426 98	

—which sum, if applied to the extinguishment of the outstanding debt of the Commonwealth, would leave an indebtedness (exclusive of school bonds) of $815,267 02.

To meet promptly this remnant of indebtedness, we have other resources of the Sinking Fund, consisting of bank stocks, railroad stocks, turnpike stocks, the annual rent of the penitentiary, which, in value and description, were set out so fully in my former message as to require no further enumeration at this time.

I am deeply impressed with the conviction that wisdom and sound policy alike demand the entire extinction of our State indebtedness at the earliest practicable moment.

Many of our bonds are not yet due. Some that have matured have not been presented.

I recommend, however, that the Commissioners of the Sinking Fund, be clothed with power and discretion to discharge and pay off any and all bonds that may be offered for redemption, irrespective of their maturity.

I also recommend that power and authority be given to the Sinking Fund Commissioners to dispose of the turnpike and bank stocks belonging to the State, if necessary to pay any of the outstanding State bonds which can be had.

Our State Agent at Washington is pressing with energy and zeal our unsettled claims against the General Government. We have received from him since your last adjournment the sum of $106,077 87.

I beg leave to offer a few suggestions upon the importance of a completion of the Geological Survey of the State.

This measure was commenced in 1854, and continued, annually, until 1860, when, owing to the death of the director of the survey, and the approach of civil disturbances, the appropriations were suspended, and the work discontinued.

The reports of this survey, which were published, establish the interesting fact of the exceeding richness of the two immense coal fields which give to Kentucky a greater available area of coal of good quality than is contained within the limits of any other State in the world. It proved that Kentucky has a total area of coal-bearing lands of twelve thousand eight hundred and seventy one square miles, or eight million, two hundred and thirty-six thousand nine hundred and forty acres, being nearly five thousand square miles more than the total coal-bearing area of Great Britain. In this report the thickness and quality of the seams within this coal-bearing area are quite equal to those in the English fields. It follows that in this most important source of wealth we are far richer than Great Britain, where there is raised from the earth two hundred millions of dollars' worth of coal per annum, giving employment to three hundred thousand operatives or more. The rich deposits of iron ores which accompany the coal were also shown to be equal, both in amount and quality, to the best beds of similar material in any other region.

The present need of the State is a sufficient supply of efficient labor. It can be obtained only by largely increased white foreign immigration. This is now an essential requisite to our prosperity. It lies at the root of all social and material wealth. It is a question which towers in importance at this time over any, except the revenue, upon which you will be called to act. Every step which can be taken to invite foreign immigration to Kentucky should be taken promptly. Europe is limited in soil, and groans under an excess of population, while America contains more land than she has laborers to cultivate. It only requires that an effort should be made to bring before the people of Europe the claims which Kentucky presents to the emigrant for making it his future home.

Prominent, among the questions proposed by every emigrant in search of a new home, in a new country, are those touching health, climate, its temperature, and adaptation to the production of the grand staples of food and its rate of taxation.

Our Commonwealth possesses all these advantages in an eminent degree, and to them many others might be added.

Lying in the center of the Mississippi Valley, it has been justly styled the "Garden of the American Union." Its area contains thirty-seven thousand six hundred and eighty square miles, lying between thirty-five and forty degrees of north latitude. It has a desirable climate, and is unsurpassed in health. Indian corn, tobacco, wheat, mules, horses and cattle constitute its chief surplus for export. With an inexhaustibly fertile soil, its productions of fruits, herbs, flowers, animals, and minerals, challenge competition. It abounds in forests heavily timbered; the grasses of Kentucky are justly celebrated for their nutrition, and afford pasturage to the finest sheep, cattle, horses and mules. The State is well watered, and upon its undulating slopes and southern exposures the grapevine flourishes, and is largely and profitably cultivated in certain portions of the State. Our highways, the surest indices of the condition and prosperity of a people, are multiplying. In 1835, Kentucky had but fifteen miles of railroad. She has, in 1868, eight hundred and five miles, completed. The means and mode of disseminating throughout Europe, in cheap and authentic form, the inducements Kentucky hold out to the emigrant for settlement, should coms mand your early attention.

Boston and Providence Railroad.

The earnings of this road for the fiscal years ending November 30, 1867 and 1868, were as follows:

	1867.	1868.
From passengers	$640,441 73	$657,878 18
" freight	380,301 52	467,096 96
" rents	13,631 08	15,678 50
" expresses	12,970 04	18,868 03
" mails	9,175 00	9,411 25

Premium received on 300 shares Boston and Providence Railroad stock, sold from March 2, to July 16, '68.		12,175 97
Total		$740,424 71
Dividends July 1, 1868, and January 1, 1869, 4 per cent. each		268,800 00
Balance of cost of new engine house at Roxbury		9,771 70
Balance of cost of new bridge at India Point, Providence		53,437 92
Balance to new account		408,415 09
Total, as above		$740,424 71

Compared with the previous year the gross earnings show an increase of $105,801 57; with an increase in expenses of $52,872 38—showing an increase of net income, $52,929 19. The report says:

This exhibition of the receipts and expenditures

of the road, when viewed in connection with the circumstances attending its operations during the year, present to the stockholders the most decisive and satisfactory evidence of the permanent value of their property, and the stable foundations on which its prosperity rests. These circumstances might well have led us to apprehend a much less favorable result. During the best portion of the year, in the height of the traveling season, we were compelled, against the constant protest of the Directors, and their persistent efforts to change so unwise and ruinous a policy, to submit to a disastrous competition upon all our through business between Boston and New York, and to a rate of fares and freights, which was not only unremunerative to all the parties concerned in it, but was especially disastrous to our interests. Our contract obligations and line connections rendered us powerless to avert a policy, which in addition to the losses it entailed upon us in our through business, seriously affected the receipts from our local traffic. As an illustration of its effects, it may be stated, that by the purchase of a Boston and New York through line ticket, at a rate less than our local fare between Boston and Providence, by a passenger intending to make only the local trip, our receipts between those two points alone, while we were running at these reduced rates, instead of exhibiting an increase in proportion to the increase in the number of passengers carried between those points, fell off from the receipts of the previous year, an amount exceeding the full local fare of more than ten thousand such passengers.

In addition to this serious and unlooked for drawback upon our ordinary resources, we had to encounter, in common with the other railroads in New England, a winter of such unusual severity, as to necessitate a very large and unusual expenditure in running our trains. It was not only, nor principally, the heavy masses of snow that so frequently encumbered the tracks, requiring a large and expensive force to keep them clear, but the extreme cold of the season, so long continued, subjected the road bed and superstructure, as well as the rolling stock, to an unprecedented amount of renewal and repair to maintain them in a safe and satisfactory condition. The rigidity which every portion of the road and its equipment acquired from this long and unbroken exposure to an unusually low temperature, required constant vigilance, and an unstinted use of means, to guard against the obvious casualties which such a condition of things was so liable to cause. The result has been an exceptionally thorough renewal of our road. We have laid during the year, more than one thousand tons of new rails, two hundred of which are of steel, and the remainder of the most approved and reliable quality of iron. And beside the large amount of work done in our own shops, in renewal and repair of disabled engines and cars, we have added to our rolling stock, three new locomotives of the largest class and most perfect construction, together with a large and substantial increase of our equipment, both in new passenger and freight cars.

Out of our ordinary income, in addition to these unusual outlays, we have made the final payments for our new engine house, and the permanent and costly structure of the new bridge at India Point, in Providence.

The Legislature at its last session, upon our petition, and the proofs we submitted to its committee of the unsuitableness of the place for a station, promptly repealed the act by which a previous Legislature had required us to build a new station house at Heath street, in Roxbury. Having been thus relieved of a peremptory requirement, the effect of our compliance with which would have been greatly prejudicial to our interests, and manifestly dangerous to the traveling public, the Directors lost no time in purchasing an eligible site near the centre of Roxbury, now the Highland District of Boston, and erecting thereon a commodious station house, which will accommodate a much larger portion of the people of that District, than any other point that could have been selected for the purpose. And the Directors are gratified to learn that the course they have pursued in this matter, against a most strenuous opposition, has fully justified itself in the very general approval of the new structure and its location, by the people of that District who are accustomed to the daily use of the road.

Admonished by the severe experience of the last winter, a very considerable extent of close board fencing has been erected on exposed portions of the line of the road, to protect it from the drifts of snow, the removal of which has heretofore, from this exposure, constituted a large item of our winter expenses.

Notwithstanding the drain upon our accustomed resources from the ruinous reduction of fares, before adverted to, and the payment from our ordinary receipts of the foregoing unusual expenditures, the largest portion of which are with most railroad corporations made a charge upon construction rather than income, as indeed they are so much substantial addition to the property of the stockholders—with our road bed and superstructure in the most satisfactory condition; with a more ample equipment than we have ever owned; and without incurring a dollar of debt, we have been enabled to show a net earning of the road of nearly ten per cent., and a gratifying increase in its gross receipts, over any year, with only two exceptions, and those attributable to exceptional causes, since it first went into operation.

The Directors feel justified, therefore, in congratulating the stockholders upon the present substantial condition of the affairs of the corporation, and of its well grounded ability for securing a prosperous future.

The only change in the Board of Directors that has taken place during the year, has been the resignation of Hon. Charles H. Warren, and the election of William Thomas, Esq., to fill the vacancy.

BALANCE SHEET, NOV. 30.

	1867.	1868.
Construction	$3,152,600 00	$3,152,600 00

President.—JOHN H. CLIFFORD.

Directors.—John H. Clifford, Sam'l T. Dana, Geo. W. Hallet, J. Huntington Wolcott, T. P. I. Goddard, Wm. R. Robeson, William Thomas.

Treasurer.—BENJ. B. TORREY.

Superintendent.—A. A. FOLSOM.

☞ The directors of the Frederick and Pennsylvania Line Railroad Company are: John Loats, J. Alfred Ritter, Lewis Bruner, Wm. H. Falconer, A. W. Eichelberger, Wm. Rhinedollar, John Sifford, P. B. Kunkel. President, John Loats; Treasurer David J. Markey; Counsel and Attorney, James McSherry, Jr.

Chicago and Northwestern Railway.

The earnings of this road for the fourth week in December, 1868, were $327,174 41, against $202,120 02 for the corresponding period of 1867—an increase of $125,054 39. For the month of December, 1868, the earnings were $1,001,892 56; against $879,900 39 for December, 1867—an increase of $121,992 17. From June 1, 1868, (the commencement of the fiscal year) to December 31, 1868, a period of seven months, the earnings were $8,696,069 18, against $7,926,538 75 in the corresponding period of 1867—an increase of $769,530 43. For the calendar year (January 1, to December 31, 1868,) the earnings were $13,443,765, against $11,632,737—an increase in the twelve months of $1,811,028. The following is a comparative statement of the earnings from June 1, to December 31—

	1867.	1868.
Passenger	$2,133,092 86	$2,437,367 15
Freight	5,301,388 80	5,882,724 08
Express	312,829 73	195,775 03
Mail	98,538 02	98,538 12
Miscellaneous	80,689 34	81,664 80
Total	$7,926,538 75	$8,696,069 18

South Boston Horse Railroad.

At the recent annual meeting of the stockholders of this company, the following gentlemen were elected directors: Seth Adams, E. H. Parker, Daniel L. Bradford, William Parsons, William B. Dodge, Stephen E. Westcott, George H. Everson. In the report which was presented it is stated that the cost of construction of the road has been $168,493 18; cost of equipment, $282,586 22; length of single track laid, 18,016 feet; double track, 7,975 feet; number of miles run during the year, 533,598; average cost per mile run, 85.3 cents nearly. Number of passengers carried 3,752,820; number of round trips, 93,788; average number of passengers per round trip, 40; average rate of speed, 5 miles; number of persons regularly employed, 124. Number of cars, 39; number of horses, 265. The total expenses for the year were $188,188 47 and the total earnings, $209,164 47, of which $201,279 53 was received from passengers; net earnings after deducting expenses, $20,976; surplus earning of previous year in hand $17,542 36; total surplus $38,518 36; dividends declared during the year, $38,208 82; total percentage of dividends for the year, 10 per cent.; present surplus, $314 54. The increase during the year of the capital stock paid in was $75,000; decrease of floating debt during the year, $52,289 10; increase of cost of road during the year, $1,636 50; present amount of unredeemed tickets, $1,547 06.

☞ The earnings of the Middleboro' and Taunton Railroad for 1868 were $25,903 40; and its expenses $24,891 64; leaving as profit on the year's business $1,011 76. The capital stock is $148,075; the debt $250 80; and the reserve fund $19,953 86.

☞ The earnings of the Fitchburg and Worcester Railroad for the year ending November 30, 1868, were $91,943 33. The expenses, $77,036 02 Balance as net earnings for the year $14,907 31.

☞ The Albany and Susquehanna Railroad I now in full running operation from Albany to Binghamton, and three trains are running each way daily.

Commerce of New York.

We give below from the *New York Journal of Commerce*, a statement of the Commerce of New York for 1868, in comparison with that for the five preceding years. It will be seen that the imports for 1868 were only a fraction below the corresponding total in 1867, but were fifty-five and a half millions below the total for 1866. The following is a comparison of the annual result for each year since 1850:

Year.	Dutiable.	Free Goods.	Specie.	Total.
1851.	$119,592,264	$9,719,771	$2,049,543	$131,361,578
1852.	115,336,052	12,105,342	2,408,225	129,849,619
1853.	179,512,412	12,156,387	2,429,083	194,097,652
1854.	163,494,984	15,768,916	2,107,572	181,371,472
1855.	142,900,661	14,103,946	855,631	157,860,238
1856.	193,839,646	17,902,578	1 814,425	213,556 649
1857.	196,279,362	21,440,794	12,898,033	230,618,129
1858.	128,578,256	22,024 691	2,264,120	152,867,067
1859.	213,640,363	28,708,732	2,816,421	245,165 516
1860.	201,401,693	28,006,447	8,852,330	238,260,460
1861.	95,326,459	30 353,918	37,088,413	162,768,790
1862.	149,970 415	23,291,625	1,390,277	174,652,317
1863.	174,521,766	11,567,000	1,525,811	187,614,577
1864.	204,128,236	11,731,902	2 265 622	218,125,760
1865.	212,208,301	10,410,837	2,123,281	224,742,419
1866.	284,033,567	13,001,588	9,578,029	306,613,184
1867.	238,297,955	11,044,181	3,306,339	252,648,475
1868.	232,344,418	11,764,027	7,085,389	251,193,834

In the above table, under the head of dutiable, are included the duty-paying goods entered directly for consumption, as well as those entered for warehousing; these with the free goods and specie make the total entered at the port. All the figures referirng to the imports represent only their foreign gold cost, freight and duty unpaid. To show the cost in our currency to the consumers, the total should be doubled, and the whole then increased about forty per cent.; this would represent about the selling rates in our market.

The following table will show the classification of imports at New York for the years—

	1866.	1867.	1868.
Dry goods	$126,222,855	$86,263,643	$80,905,834
Gen. mdse	170,812,300	163,078,493	168,202,611
Specie...	9,578,029	8,306,339	7,085,389
Total....	$306,613,184	$252,648,475	$251,193,834

This shows that out of two hundred and fifty-one millions imported last year, every thing known as dry goods, including all miscellaneous articles sold by that trade, amounted to less than eighty-one millions, two-thirds of the total imports being given under the head of general merchandize, including tea, coffee, sugar, metals, liquors, spices, drugs, fruits, seeds, china, etc., etc. The cash duties received in 1868, amounted to $113,296,712 62. This was collected upon $227,773,976 dutiable goods thrown upon the market.

The following is a quarterly statement of the exports from New York to foreign ports, exclusive of specie, for the years named:

Quarter.	1866.	1867.	1868.
1st.....	$60,972,531	$49.376,379	$42,038,366

The shipments of merchandize are reckoned at their market price in currency, while the exports of specie are given at their counted or tale value.

The preceding figures, and those which follow, are from the columns of the *Journal of Commerce*, perpetuated in those of the AMERICAN RAILROAD JOURNAL, and due credit has always been given by us to that paper for the same;

Foreign imports entered at New York during the years 1863, 1864, 1865, 1866, 1867, and 1868:

Maryland Coal Trade.

We are indebted to C. Slack, Esq., of Mount Savage, Md., for the following statistics of the Cumberland coal trade for 1868, compiled from official sources:

	To B. & O. R. R. Tons.	To C. & O. Canal. Tons.	Total. Tons.
Central Coal M. and M. Co	153,921	121,757	275,695
Consolidation Coal Co.	101,697	59,228	188,477
Cumberland Coal and Iron Co.	90,878	57,919	158,264
Hampshire and Balt. Coal Co	107,111	46,656	153,792
American Coal Co	88,305	109,939	148 252
Borden Mining Co	55,624	51,114	106,860
George's Creek Coal & Iron Co.	78,094	.....	78,102
Potomac Coal Co	54,961	.....	54,961
Piedmont Coal & Iron Co	46,259	.....	46,259
Atlantic and George's Creek Coal Co.	31,968	.....	31,968
Swanton Mining Co.	22,462	.....	22,462
Franklin Coal Co	17,755	.....	17,755
Allegany Coal Co	2,834	18,102	21,122
New Hope Mines	3,715	5,815	9,749
Midlothian Mines	664	6,605	7,269
Barton Coal Co.	6,350	.....	6,350
National Coal Co	.....	5,190	5,190
Savage Mt. Coal Co.	2,697	.....	2,705
George's Creek Mining Co	211	.....	211
Spruce Hill Coal Co	.....	.....	.....
Blaen Avon Coal Co.	.....	.....	.....
Total	815,506	482,325	1,330,448

This is exclusive of the local trade, amounting to 32,612 tons.

RECAPITULATION.

By Cumberland and Pennsylvania Railroad to Baltimore and Ohio Railroad		635,970
By Cumberland and Pennsylvania Railroad to Chesapeake and Ohio canal		424,406
By Cumberland and Pennsylvania Railroad to local		23,145
		1,083,521
By Cumberland Coal and Iron Co's R. R. to Baltimore & Ohio R.R.	90,878	
By Cumberland Coal and Iron Co's R.R. to Chesapeake & Ohio canal.	57,919	
By Cumberland Coal and Iron Co's Railroad to local	9,467	
		158,264
By Hampshire and Baltimore Co., (Va. Mines,) to Baltimore and Ohio R. R.		88,658
Total tons in 1868		1,330,443

Increase 136,621 tons over 1867.

Russian Railways.

The Roslavl-Orel and Kursk-Kiev Railways have been opened for traffic. They form two important links in the system of strategical line in the course of construction in Russia. The Orel-Roslavl Railway, being a portion of the Dunaburg-Orel Railway, connects the Petersburg-Warsaw with the Petersburg-Odessa line, while the completion of the Kursk-Kiev Railway leaves the distance between Kiev and Balta the only gap in the Petersburg-Odessa line.

☞ From the report of the Short Mountain Coal Co., we learn that there have been sold during the year ending Dec. 1, 1868, 129,706 tons of coal. The receipts of the company have been $380,841 14, and the operating expenses, $297,166 67—leaving as net profits the sum of $88,674 47. The balance standing to credit of Income Account, December 1, 1868, was $67,057 58.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, January 23, 1869.

Stock Exchange and Money Market.

The Money Market has been steadily working in favor of the borrowing interest during the week, the supply of funds both at bank and in private hands having been gaining on the demand which, though fairly active, has not been notably urgent from any source. The city banks added largely to their resources last week, having increased their deposits more than 7½ millions, and their specie and legal tender reserves, nearly two millions, respectively. They enlarged their loan and discount averages, about 3½ millions, while contracting their circulation, about $65,000. They now control 195½ millions of deposits, or 15 millions more than at the beginning of the year; 29¼ millions of specie or 8½ millions more than two weeks ago; and 53 millions of legal tender notes, or an addition in this line of over four millions, since the new year opened. The U. S. Sub Treasury has also augmented its cash balances to the extent of about two millions, within a week. The call loan rates closed at 6@7 per cent. on Government and miscellaneous stock collaterals; and the discount figures at from 7½ @10 per cent. per annum for choice to good business paper. The latter has been in more favor with lenders, since the relaxation in Money became assured. There have been fewer calls from remote points for currency; and some respectable remittances from the Northwest have been receievd, since our last. The promise at the close is of increased ease in the loan and discount lines.

The specie reserve of the city banks is now $29,258,536, against $23,191,867 same time last year. The city bank deposits are now $195,484,843, against $205,888,143 week ending Jan. 18, 1868 The legal tender reserve amounts to $52,927,083, against $66,155,241 same time last year. The circulation now stands at $34,279,153, against $24,071,006 same time last year. The loans are now $262,338,831, against $256,033,928 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $112,632,602 a day, against a daily average of $117,962,008 the preceding week, and $117,061,000 the week ending with Dec. 30, 1868. The current week's exchanges average about $124,500,000 a day. The city banks, last week, gained $1,873,806 of specie, $7,576,304 of deposits, and $1,785,955 of legal tender notes. They increased their loans, $3,546,269; and reduced their circulation, $65,003.

National Bank notes to the amount of $111,430 were issued last week by the Treasury Department, making the total issue to 1,685 banks thus far, amount to $311,792,356, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $11,988,073, leaving, with the existing 1,629 banks, (having an aggregate capital of $419,806,511,) an actual circulation at this date, of $299,794,283. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,366,400; and for the public deposits, $35,297,350—making a total of $377,663,750. The Treasury Department last week redeemed and destroyed $351,200 of worn and mutilated fractional currency, and issued $361,660 of new. The outstanding amount of fractional currency on the 1st of January, 1869, was $34,215,716, against $33,875,268 on the 1st of December, 1868.

The average amounts of the Gold Exchange Bank loans and discounts last week was $1,874,780, average amount of specie $1,325,238, average amount of deposits $1,960,695.

The U. S. Sub-Treasury receipts, week ending with Jan. 16, were $9,253,950, including $2,519,581 from customs duties; payments, $7,506,896, including $3,452,428 of coin interest; balance of the close of the week, $83,115,122, against $81,868,068, at the close of the preceding week, showing an increase of $1,747,052. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $1,914,391 including $501,000 from customs; and payments, $2,155,885, including $441,808 of coin interest; on Tuesday, receipts, $2,067,992 including $539,000 from customs, and payments, $1,642,783, including $441,616 of coin interest. The balance at the close of business on Tuesday stood at $83,298,837, against $81,243,729 a week previous; and $78,601,922, on Dec. 30, 1868.

The outstanding amount of coin certificates on the 1st of Jan., 1869, was $27,086,020, against $28,255,840 on the 1st of Dec., 1868. The Sub-

Treasurer at this port issued, last week, coin certificates to the amount of $3,184,000, and retired $2,424,581 through the receipts for customs. The coin certificates issued by the Sub-Treasury office, during December, reached $7,600,980.

Government revenues are again on the increase, and give promise of a steady growth, through the coming spring months. The excises, last week, yielded about three millions; customs at the port of New York, $2,519,581, and at the outports about $800,000 (in coin) more, making the grand total income for the week equal to about $7,481,434 in currency. The total receipts of the National Treasury, from excises, during the fiscal year ending with June 30, 1868, were $191,180,564. The receipts from the same source, thus far in the current fiscal year, commencing with July 1, 1868, have been about 79 millions, according to the latest Washington advices.

Gold has been in more active demand, chiefly on speculative account, and for custom house purposes, and the price in the open market has been advanced to 136⅝. The upward movement was stimulated by the unfavorable interpretation of the foreign political advices. Within the final two days of the week under review there has been a less confident speculative inquiry, and the price has been depressed, having fallen to 135¼. The closing figures on Wednesday were 135⅜@135½. The improved London and Frankfort quotations for U. S. securities weakened the speculative temper. The Government coin reserve is being augmented by the liberal yield of the customs, both at this and at the outports. The Public Debt Schedule of Dec. 31 showed $71,727,349 Gold in the ownership of the Government out of $98,763,369 on hand, and the New York Banks held $17,940,865, Dec. 26, before the collections of January Gold Interest—together $89,648,214. In addition to this other Banks and Bankers had of Gold Notes about $10,000,000. Exclusive of the last item, the present supply of Gold is about $86,573,961 as follows: In ownership of Treasury $57,315,425, and in the New York Banks $29,258,536.

The customs demand for Gold last week, averaged $419,930 a day; thus far, this week, it has been equal to $520,000 a day, or equal to a weekly aggregate of $3,120,000. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $16,694, and since Jan. 1, $58,972 against $54,889 same time in 1868. The receipts from California, last week, none. The total customs revenue of the Government, in coin, at this port, from July 1, 1868, to date was $64,541,040, against $60,467,133 same time in the preceding fiscal year. At the port of San Francisco, $8,382,329, against $7,622,827 last year.

The total receipts of California gold at this port, since July 1, 1868, have been $12,917,691, against $16,454,402 same time in fiscal year 1867–'68, showing a decrease in the current fiscal year, of $3,356,711. The exports of specie, from this port, last week, were $405,700, against $2,504,031 same week last year; total, since July 1, 1868, $22,889,327, against $33,498,217 in 1867–'68 Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $3,452,428; since July , 1868, $57,130,477, against $44,530,019 same me in 1867–'68. The specie exports from San Francisco, from Jan. 1, to Dec. 31, 1868, were $36,358,091, against $48,224,237 same time in 1867.

The foreign exchange market has shown less firmness, under rather more liberal offerings, and a restricted inquiry from all sources. Bankers' prime sixty day bills on London closed on Wednesday at 109⅜@109⅝, and on Paris to 5.18¾c.@5.15; sight bills on London to 110@110⅜, and on Paris to 5.13¼c.@5.11¾. The offering of produce bills has been limited this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $2,688,096, against $3,678,601 same week last year; total, since July 1, 1868, $87,618,020, against $101,233,766 same time in preceding fiscal year of 1867–'68.

There has been much more animation in the Public Funds, since our last, and higher prices have been established all through the list. The home demand has been quite extensive, and there has been likewise a partial revival of the export inquiry, chiefly for the favorite Five-twenties. We learn that about two millions worth of the 1862, old 1865, and the 1867 Five-twenty six per cent., went out to Europe, during the week. Some spasmodic efforts have been made to *bear* values, by *short* sales, mainly in the 1862 and 1867 Five-Twenty line, but the offerings in this interest were all very promptly taken at the going rates, and much heavier amounts could have been easily marketed at the same prices.

U. S. sixes of 1881 closed here on Wednesday at 112⅛@112¼; U. S. Five-twenties of 1862, 113@113⅛; U. S. Five twenties of 1864 at 109⅛@109⅜; U. S. Five-twenties of 1865 at 109⅞@110; U. S. Five-twenties of 1865, consolidated, 108¼@108⅜; U. S. Five-twenties of 1867, 108⅝@108¾; U. S. Five-twenties of 1868, 108⅞@109⅛; U. S. Ten-forties at 107¾@107⅞; U. S. Six per cent. currency bonds, 101⅜@101½.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 6.	Jan. 13.	Jan. 20.
Consols	93	92⅞	93⅛
U. S. 5-20's of 1862	74⅞	75⅛	75¾
Erie	25¾	26	26⅛
Ill. Central	95⅝	96¼	93¼

Railway and miscellaneous share property has been in brisk demand, and higher in price generally, though there have been frequent fluctuations as usual, on an excited market. State bonds have been very freely purchased at buoyant prices in most instances.

General business has been on a moderate scale, at easier prices for cotton and breadstuffs, and variable figures for provisions. Middling upland cotton closed heavily on Wednesday at 29¼@29¼ cents per lb. The stock of cotton now here is estimated at about 40,000 bales. The receipts at the port this week, have averaged about 4,700 bales a day. The receipts at all the ports, since Sept. 1, 1868, have been 1,240,000 bales, against 1,109,000 bales same time in 1867–'8; exports, same time 621,000 bales, against 593,000 bales same time in 1867–'8; stock on hand at latest dates, 312,000 bales, against 354,000 bales same date 1868. Total crops of 1867–'8, 2,430,893 bales; total receipts at ports year ending Sept. 1, 1868, 2,240,282 bales; total exports thence, same time, 1,657,015 bales. The exports of domestic cotton goods from this port, since Jan. 1, have been 342 pkgs., against 180 pkgs., same time last year. From Boston, 795 pkgs., against 1,807 pkgs. same time in 1868. At the Live Stock markets, this week, Beeves have been in moderate demand at from 10@17½c. per lb.; week's receipts, 6,215. Veal calves have at 9½@13c. per lb.; receipts, 554. Sheep and lambs at from 5@8¼c. per lb.; receipts, 25,969. Swine, at from 11⅛@11½c. per lb., all live weight receipts, 7,742. Foreign merchandise has attracted more attention. Dry goods have been on the advance. The total imports of foreign dry goods, last week, were $1,369,336 and the total amount marketed $1,367,780. The value of foreign merchandise imported last week, was $4,379,002—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $5,748,338, against $3,587,491 same week last year; total since July 1, 1868, $129,689,333, against $124,460,945 in 1867–'8. Freights have been depressed and lower. For Liverpool we quote flour at 1s. 9d.@2s. by sail, and 2s. by steamer, per bbl.; grain at 6d.@6½d. by sail, and 7d.@7½d. by steamer, per bushel; cotton at $\frac{3}{16}$d.@¼d. by sail, and ¼d.@$\frac{5}{16}$d. by steamer, per lb.; and heavy goods 20s.@40s. by sail, and 25s.@50s. by steamer, per ton. Total number of vessels in port on Wednesday, 526.

The New York exports, exclusive of specie, for the week ending Jan. 19, and since the beginning of the year, compare as follows:

	1868.	1869.
For the week	$3,678,601	$2,688,096
Prev. reported	6,412,780	5,302,920
Since January 1	$10,091,381	$7,991,016

The imports for the week ending January 16, and since the beginning of the year, have been as follows:

	1868.	1869.
Dry goods	$1,541,326	$1,369,336
Gen. merchandise	2,046,165	4,379,002
Total for the week	$3,587,491	$5,748,338
Previously reported	3,456,063	3,537,513
Since January 1	$7,043,554	$9,285,851

The balance in the Sub-Treasury on Wednesday was $83,922,478 22.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Summit Branch Railroad.

The whole capital stock of this company is $2,750,000, of which the company own $248,487 50—leaving the net amount, $2,501,512 50. The total bonded debt is $620,000, of which $92,000 belong to the sinking fund, leaving the net amount $528,000, a decrease from the previous year of $31,000, that amount having been purchased by the Trustees of the sinking fund during the year. There have been shipped from the colliery during the past year, 180,804 tons of coal. The net profits of the company have been $249,869 73, to which amount should justly be added many permanent improvements which have been charged to expense account. The colliery is in excellent condition, and the railway, which is owned by the company, is in thorough working order.

OFFICE OF THE ROCKFORD, ROCK ISLAND AND ST. LOUIS RAILROAD COMPANY, 12 WALL ST:

The COUPONS from the Bonds of this Company, maturing February 1st, proximo, will be paid on and after that date at this office in United States GOLD COIN, *Free of Government Tax.*

H. H. BOODY, Treasurer.

NEW YORK Jan. 14, 1869.

THE FIRST MORTGAGE, FIFTY-YEAR CONVERTIBLE BONDS of the ROCKFORD, ROCK ISLAND and ST. LOUIS RAILROAD COMPANY, pay the PRINCIPAL AND SEVEN PER CENT. INTEREST—1st FEB. and 1st AUG.—IN GOLD COIN, *Free of Government Tax.*

The bonds are offered at 97½ and accrued interest in currency. Persons subscribing now will save the premium on the coupon payable Feb. 1st, proximo, equal to a reduction of one per cent. in the price of the Bonds.

Pamphlets with maps giving full information, sent on application.

All Bonds subscribed for sent by Express free of charge.

The Bonds may be had of H. H. BOODY, Treasurer, 12 Wall street, or of HENRY CLEWS & CO., Bankers, 32 Wall street, New York.

☞ We invite attention to the Advertisement of the California Pacific Railroad Company, in another column. Circulars, containing full information can be had upon application.

Morris and Essex Railroad.

The new directors of the Morris and Essex Railroad made a trip over the road last week to examine the bridges and line generally. Among contemplated improvements, it is stated, is the putting down, without delay, of a third rail of narrow gauge, between Scranton and New Hampton, a distance of 83 miles, so that narrow gauge cars may run over the whole length of their works, from Northumberland to Hoboken—227 miles. The laying of a third rail, six miles east of the Morris and Essex Junction at Washington, to the Central New Jersey Junction at New Hampton, will also establish a narrow gauge communication *via* Scranton, from Northumberland to and with the Central Railroad to Jersey City, as well as with the Morris and Essex to Hoboken.

☞ The St. Joseph (Mich.) *Traveller* says that the contract has just been let for the construction of a new bridge across the St. Joseph river at that place. The length of the bridge to be constructed is 574 feet, 132 feet of which is to be a swing across the channel. The price paid is $9,980. The entire work is to be completed by April next, and one track is to be done by March 15. The contractor is to furnish all the material.

☞ Surveys for laying the track of the Troy and Boston Railroad, from North Adams to the west end of the tunnel, a distance of half a mile have been made by A. R. Field of Greenfield, and the work is under contract for immediate completion.

Journal of Railroad Law.

THE EXERCISE OF A PUBLIC RIGHT OVER A PUBLIC WAY.—THE RIGHT OF A RAILROAD COMPANY TO LAY ITS TRACK IN A PUBLIC STREET IN FRONT OF PRIVATE PROPERTY.

The facts in the action of Snyder *vs.* Penn. R. R. Co., (55 Penn. 340) which has been lately decided are stated in the following opinion of the court by

WOODWARD. C. J.—If the insufficiency of the report of the viewers be overlooked, and we take the case, not merely as it appears of record, but as the appellant alleges it to be, it is evident that what is complained of is the occupancy of a public street by the railroad company, and not the taking of any of the appellant's land within the meaning of the constitutional provision of the acts of Assembly incorporating the company. Whether Snyder's lot extended to the middle of Front street would depend upon his title papers, which are not exhibited to us, but assuming that it does, it had long been subject to the servitude of a public street, and of a railroad in that street, built originally under the direct authority of the commonwealth, for her own convenience and benefit. The State sold its railroad to the Pennsylvania Company, and without taking it out of the boundaries of the street they have removed it nearer to, without touching the apellant's lot. This is the gist of the complaint. For this he claimed and obtained an assessment of damages, which, however, the court set aside.

We think the court were right. Nothing was taken from the appellant of which he has a right to complain. The public, to whom the street belonged for purposes of travel and transportation, had a right, for their own convenience, to remove rails, which had been lawfully laid, to another part of the street.

I say the public had a right to do this; and because the railroad company acted by public authority, they had the same right; and if this exercise of a public right over a public highway brought the rails nearer to the complainant than was agreeable, it was *damnum absque injuria*. As it was not a taking of any of his property within the meaning of the acts of incorporation, so it was not such an entry as would be a trespass at common law, and therefore the acts of Assembly cannot be extended to embrace it, for the legislature evidently meant to provide for nothing that was not remedial at common law. Zimmerman *vs.* The Union Canal Co., W. & S. 352; Watso *vs.* Pittsburg and Connellsville R. R. Co., 1 Wright 480.

It was suggested in argument that the 10th section of the General Railroad Law of 1849 covers the case, but it is believed that the Pennsylvania Central Company is not subject to that act, but stands on its own acts of incorporation, which antedate the general law. If this be not so, the complainant did not bring his case within the provisions of the act, for he does not complain that the entry was made into lands adjoining or in the neighborhood of the road to take materials therefor, nor did he complain of damages by reason of any excavation or embankment made in the construction of the road. What he complained of was, that the company had constructed a railroad over and through his property and lot of ground, and that in the construction of said road they had occupied the pavement and public street in front of said lot of ground. There was some evidence that the new tracks had been raised 3 or 4 inches in the street, and that there was some filling done in front of Snyder's property *by agreement with him*, but neither excavation nor filling was the *gravamen* of the complaint which he brought into court. His case, therefore, cannot be treated upon the act of 1849, and we have already said that the acts of incorporation cannot be extended to embrace it, and without the sanction of an Act of Assembly such an injury as he complains of is not a subject-matter of damages. As was said of the lot owner in the case of the Philadelphia and Trenton Railroad Co., 6 Wh. 45, "even agreeing that his ground extends to the middle of the street, the public have a right of way over it. Neither the part used for a street, nor the part occupied by himself is taken away from him; and as it was dedicated to the public use without restriction, he is not within the benefit of the constitutional prohibition, which extends not to matters of mere annoyance. The injury of which he complains is not direct, but consequential;" see also the Monongahela Navigation Co. *vs.* Coons, 6 W. & S. 101; Henry *vs.* Pittsburg and Allegheny Bridge Co, 8 W. & S. 85. In the late case of Harvey *vs.* The Lackawanna and Bloomsburg Railroad Co., damages were denied to an owner of the soil over which a state road had been laid and used for many years as a public highway, but which the railroad company had appropriated for the bed of their railroad, to the injury of tramways which the owner had laid from his coal mine across said highway to a public navigation.

To entitle an owner of the soil to damages for a change by public authority of a highway across his land from one kind of passage to another he must ground his claim in an Act of Assembly, and the appellant having failed to show any act that authorized the assessment of damages, the court was right in setting it aside.

The decree is affirmed.

Anthracite Tonnage of Eight Lines to Tide-water Markets.

The following statement of the quantity of anthracite coal forwarded from the mining districts towards and to the general markets, *via* the Schuylkill, the Lehigh, and the Lackawanna, for the years 1867 and 1868, is from the *U. S. R. R. & Mining Register*.

	1867 tons.	1868 tons.
Philadelphia & Reading R.R.	3,446,826	3,574,874
Deduct Bituminous	347,246	302,457
Total anthracite	3,099,580	3,272,417
Schuylkill Canal	1,029,178	986,444
Lehigh Valley Railroad	1,948,385	2,225,630
Lehigh Canal	1,006,604	989,947
Lehigh & Susquehanna R.R.		535,750
Delaware, Lack. & West. R.R.	1,719,321	1,728,785
Delaware and Hudson Canal	1,507,487	1,687,873
Pennsylvania Coal Company	861,730	953,855
Total by eight lines	11,172,285	12,380,701

The quantity forwarded in 1866 was 10,961,998 tons, and in 1865, 8,523,616—showing an increase for 1868 over 1867 of 1,208,416 tons; and 1868 over 1865 of 3,857,085. The average annual increase for the last three years is 1,285,695 tons.

☞ There are 24 lines of railroad in operation in Russia, of a total length of 5,739 versts. The lines in course of construction are 17 in number, and embrace 4,817 versts. There are 20 other lines projected.

Finances of Massachusetts.

EXTRACT FROM THE MESSAGE OF THE GOVERNOR.

A brief statement of the public finances will be both gratifying and instructive—gratifying, because under the provident policy of the Commonwealth the redemption of her entire funded debt at maturity is insured by liberally endowed sinking funds; which, with their certain accummulations, will be more than enough without the necessity of further taxation for that purpose; and instructive, as indicating the wisdom of providing at the outset for every important expenditure, without the entailment of pecuniary burden. Such, practically, is the present financial condition of the State; while the unfailing payment of her bonds, principal and interest, in gold, has given her an enviable credit among the commercial States of the world.

The existing debt or the Commonwealth may be summarily stated as follows:

Funded liabilities, Jan. 1, 1869	$26,807,420 00
Temporary loans, Jan. 1, 1869	928,450 05
Total	$27,735,870 05
Total am't of the debt, Jan. 1, 1868	26,572,565 12
Increase during the year	$1,163,314 93

The following statement will show the manner in which the debt has been increased:

Scrip issued to fund the amount paid from the Treasury for the Troy and Greenfield R.R. & Hoosac Tunnel	£610,000
Scrip loaned Boston and Albany Railroad to redeem in part maturing bonds	£312,000
Scrip loaned Boston, Hartford and Erie Railroad	£80,000
Total	£982,000
Or, at $4.84	$4,752,800 00
From this are to be deducted several payments on account of temporary loans, and (including $2,286,900 to the Western Railroad scrip and $75,000 to the Eastern Railroad scrip) all amounting to	3,589,565 07
	$1,163,314 93

The public debt may be classified as follows:

Railroad debt	$9,142,176 00
Ante-war debt	1,092,000 00
War debt	16,573,244 00
Temporary debt	928,450 05
	$27,735,870 05

The railroad debt is composed of the following items:

Western Railroad	$3 578,696 00
Eastern Railroad	200,000 00
Norwich and Worcester Railroad	400,000 00
Boston, Hartford and Erie Railroad	290,400 00
Troy and Greenfield Railroad and Hoosac Tunnel, including Southern Vermont Railroad	4,673,080 00
	$9,142,176 00

Of the funded liabilities, the payment of all but $352,000 is fully secured by sinking funds, while the surplusage of their accummulation will be more than sufficient for the liquidation of the entire amount remaining unprovided for.

The funds thus specially established for the liquidation of the funded debt of the State, now amount to more than nine and a half millions of dollars, while the market value of the securities in which they are invested is more than one and a quarter million of dollars in excess of their original cost. But without this enhanced market value of their securities, these funds at their par value, with their legitimate accumulation of increase, will be more than enough to meet the lia-

bilities for whose pay they are held, as they mature in convenient instalments from the present year to the year 1900. In addition to these funds, there are appropriated for the extinguishment of this debt, any receipts which may be received from sales of lands in the Back Bay, which are estimated to be at least $1,500,000 in value; also, whatever may be received from the balance of our unsettled claims against the United States Government, which are estimated at $200,000. The ordinary expenses of the State for the year ensuing are estimated at $5,000,000. In addition to this the temporary loan, amounting to $928,450, is to be provided for, making a total of $5,928,450. The estimated receipts of revenue from all sources other than by taxation, are $1,500,000; from the issue of the balance of scrip, authorized for funding the Troy and Greenfield Railroad and Hoosac Tunnel debt, $500,000; cash on hand applicable to the payment of ordinary expenses, $1,000,000; making a total of $3,000,000, and showing a deficiency of $2,928,450.

It will be seen from this statement that a tax of three millions of dollars is necessary, unless provision is made for funding the temporary debt. As this debt has been incurred for purposes other than the ordinary expenses of the government, and as at the time the debt was contracted, it was the expectation that provision would be made for funding it, I see no reason why it should be included in the yearly tax. Leaving this amount out of the estimate, it does not seem necessary for the ordinary expenses of the State to raise more than two millions of dollars by taxation. This sum, however, is only sufficient for the expenses of the year, even with the most rigid economy. Appropriations for other objects than those usually required must be met by additional taxation, or provided for by loans, for which ample provision should be made in the usual form of sinking funds.

Railroads of Missouri.

We are pleased to learn from a reliable source that contracts have been made for building the Lexington and St. Louis Railroad, and that the work will be immediately commenced. It is, in fact, begun already, the engineer being at work with his party locating and correcting former surveys. This will be another branch for our Missouri Pacific, and give us the trade of the rich County of Lafayette, and add also the trade of northern Johnson and Pettis Counties, concentrating upon St. Louis a large and valuable commerce from these rich counties, and bringing us in close relations with an intelligent and thrifty population. It is understood that Daniel R. Garrison, of this city, has undertaken to build this road, which guarantees its speedy construction.

This reminds us that the Osage Valley and Southern Kansas road is finished and running from Boonville to Tipton—twenty-five miles—opening a beautiful country and pouring into St. Louis the riches of one of the very finest counties of the State.

Much consultation has been had upon the project of a road, starting from Boonville *via* Arrow Rock to Marshall, in Saline County. The parties are interesting themselves greatly in the matter, and will, doubtless, soon announce something tangible.

The Atchison and Leavenworth branch, reaching from the one city to the other, joins, by a link of twenty-two miles, several important interests; thus the Missouri Pacific to Kansas, the Missouri River Railroad to Leavenworth, Atchison and Leavenworth to Atchison, there joining the Central Pacific, now built 120 miles and progressing to Fort Kearney.

These several projects have engaged much of the attention of our Pacific Railroad directors, and been encouraged by them, and, in some instances, materially assisted. They are quietly pursuing a policy that tends to the extension of the usefulness of the Pacific of Missouri, by adding these branches as rapidly as they can be built, thereby realizing the intentions of the original projectors of making it the grand trunk of all on the south side of the river. We commend the policy, and shall at all times willingly lend our aid to its further extension.—*St. Louis Republican.*

Iron Trade of Lake Superior.

The following is a complete summary of the Iron business of Lake Superior for the year 1868:

IRON ORE MINED.

	Gross tons.
Jackson Iron Company	129,231
Lake Superior Iron Company	105,962
Cleveland Iron Company	101,669
New York Iron Company	45,750
Washington Iron Company	31,962
Pittsburgh and Lake Angeline Company	24,000
Edwards Mine	17,028
Barnum Mine (Iron Cliff)	14,021
Marquette Iron Company	8,951
New England Mine	7,199
Champion Mine	6,517
Iron Mines and Foster (estimated)	1,000
Total	493,290
Product of 1867	469,320
Increase	23,970

The aggregate product would have been at least 50,000 tons greater, but for the disastrous fire in June, by which three of the four large shipping docks were destroyed. To this lack of shipping facilities is to be attributed the decrease of product which some mines show, as compared with all the circumstances, this exhibit seems truly astounding:

PIG IRON.

Bancroft furnace	3,700
Collins furnace	4,150
Morgan furnace	4,150
Pioneer furnace (two stacks)	9,500
Michigan furnace	4,452
Greenwood furnace	1,437
Champion furnace	4,200
Fayette furnace	2,500
Deer Lake furnace	600
Schoolcraft furnace	1,736
Northern	....
Total	36,425
Product of 1867	30,911
Increase	5,514

The working of the furnaces has, as a whole, been satisfactory. There have been four more furnaces—Champion, Deer Lake, Fayette and Schoolcraft—in operation than in 1867, but some of them have done but a few months' work while the Northern has been out of blast the entire year, and the Greenwood has been rebuilt. The average daily product of several of the furnaces has been considerably increased.

There are two furnaces, one at the Rolling Mills and one at Lake Fairbanks, being built by the Iron Cliff Company, which are yet in process of construction. They will both be completed so as to be ready to go into blast next spring.

The following comparative table exhibits the amount and value of the iron product of Marquette county, from 1858 to 1868, inclusive:

Year.	Tons Iron Ore.	Tons Pig Iron.	Value.
1858	31,035	1,629	$249,202
1859	65,679	7,258	575,529
1860	116,998	5,660	736,496
1861	45,430	7,970	419,401
1862	115,721	8,590	984,977
1863	185,257	9,813	1,416,935
1864	235,123	13,832	1,867,315
1865	195,256	12,283	1,590,430
1866	296,872	18,437	2,405,960
1867	469,320	30,911	3,475,700
1868	493,290	36,425	3,676,705

☞ The cars are now running on the Henderson and Nashville road from Hanson's station, seven miles from Madisonville, to Henderson.

French Railways.

The entire extent of railway in operation in France September 30, 1868, was 9,934 miles as compared with 9,761 miles September 30, 1867, showing an increase of 263 miles. Of the 9,934 miles of line in operation, all but 244 miles were in the hands of the six great companies. At the corresponding date of 1867 the small miscellaneous French Companies had 183 miles in working. Of the 263 miles of new line opened, 142½ miles referred to the Orleans, 55½ miles to the Paris, Lyons, and Mediterranean, and 3¾ miles to the Northern of France. To the miscellaneous new mileage the Charentes contributed 29½ miles; the Lille and Bethune, 2½ miles; the Vislaines and Bethune, 6¼ miles; and the Vitre and Fougeres, 23 miles.

The entire amount earned on all the French railways from January 1, to September 30, 1868, was £19,684,405, as compared with £19,424,998 in the corresponding nine months of 1867, showing an increase of £259,407 in 1868. This increase was entirely attributable to the new network and the miscellaneous lines, the old network presenting a decrease in the first nine months of 1868, £188,156. The general result of the working of the French lines for the first three quarters of 1868, was a decrease of 4.78 per cent. per mile worked, as compared with the corresponding period of 1867.

The taxation imposed on French Railway Companies by the French Government produced for the first nine months of 1868, £536,698 as compared with £1,008,403 in the corresponding period of 1867.

Chesapeake and Ohio Railroad.

The Lynchburg *Virginian* learns from Major J. S. Rudd, of the corps of engineers, who is on a brief visit to that city, that the work between Covington and the White Sulphur Springs is progressing rapidly, and will be completed in July. Seven hundred and fifty hands are now engaged on it. The long tunnel through the Alleghany mountain, made before the war, has been cleared out, leveled down, and the road bed through it prepared. The mud tunnel, near Covington is very troublesome on account of the nature of the material through which it passes. Major R. thinks that by the time the present contract has been completed the company will be ready to begin the work on the western extension. They are making satisfactory negotiations for funds in London and elsewhere. This is one of the greatest enterprises of the day, and we hope that its progress will not be retarded by any untoward event. Its success will be a magnificent achievement for Virginia and will do more for her prosperity than anything that is likely to occur save the completion of the canal.

☞ At the annual meeting of the Southern Pacific Railroad stockholders in San Francisco on the 15th inst., an entire new set of directors was elected. Lloyd Levis was elected President. The first section of the road, fifteen miles from San Jose has been completed and thrown open for business. The new company promises to push the work vigorously.

☞ Three different routes have been proposed for the Exeter Railroad. Two of them, east of Exeter, have already been surveyed.

New York Central Railroad.

The following is the report of Messrs. Peckham, Stebbins and Griswold, the committee appointed to examine the stock matters of the New York Central Railroad Company:

At a meeting of the Directors of the New York Central Railroad Company held at the office of the company in the Exchange, in the city of Albany, on the 9th day of December, 1868, it was

Resolved, That although the Board of Directors of this company have full confidence in the correctness of the stock account of the company, and have no doubt as to the validity of every share outstanding, they do, nevertheless, for the greater satisfaction of the stockholders, invite the Hon. Rufus W. Peckham, of Albany; the Hon. Charles Stebbins, of Cazenovia, and the Hon. John A. Griswold, of Troy, to act as a committee to examine the stock books of the company and report thereon.

Pursuant to the foregoing resolution we have examined the stock books of the New York Central Railroad Company and find that by the consolidation agreement of May, 1853, the capital stock of said company was fixed at $23,085,600, being the amount of the capital and convertible bonds of the several companies consolidated. Of these convertible bonds $18.800 were paid off and never converted, leaving the amount of capital under said consolidation agreement $23,067,400. This amount was subsequently increased by the addition of the capital of the Buffalo and Niagara Falls, the Lewiston and the Rochester and Lake Ontario roads, $932,600, making the entire capital on the 8th of August, 1859, $24,000,000. Since that time the following issue of convertible bonds, and none others, have been authorized and made by the company, viz:

First—An issue of $3,000,000, payable in 1864, with a convertible privilege for a certain period. None of these bonds were ever converted, but were paid in cash at maturity.

Second—An issue of $2,990,000, payable Aug., 1876, and convertible until August, 1869. Of the convertible bonds thus issued there have been converted into the capital stock of the company:

In the year ending September 30, 1863.	$209,000
In the year ending September 30, 1864.	177,000
In the year ending September 30, 1865.	205,000
In the year ending September 30, 1866.	210,000
In the year ending September 30, 1867.	1,736,000
In the year ending September 30, 1868.	243,000
Total	$2,780,000

Thus adding to the capital stock of the company $2,780,000; the capital of the Athens road added, being $2,000,000, makes the entire capital stock of the company, as shown by its report on the 30th day of September, 1868, $28,780,000. Since the 30th of September, 1868, $15,000 more of these bonds have been converted, leaving now outstanding $195.000. In regard to any apprehension that may be entertained of an overissue of stock, we deem it proper to state that in our opinion the regulations governing the issue and transfer of the certificates of stock of this company are as perfect as such regulations can be made. They provide that all the stock registered in New York at the transfer office now kept by Duncan, Sherman & Co., shall also be registered at another office, now the Union Trust Company, and all certificates be signed by both the Transfer Agent and Register, in addition to the signatures of the President and Treasurer of the company, and that no share of the stock shall be transferred on the books more than once in each day. The Register in no case signs a certificate of stock without the surrender to and cancellation by him of a previously issued certificate for the given number of shares. A like system is in operation at the Albany office, by which all certificates of stock issued at that office are also registered and signed by the Union Trust Company in New York. For the purpose of testing the accuracy of the stock books we have examined the dividend books made and used for the payment of dividends for the last five semi-annual dividends, both at the Albany and New York offices, where alone dividends are now paid, and find that the number of shares borne upon these books in the aggregate correspond exactly with the number of shares outstanding at the time of each dividend, as shown by the stock books of the company. From the examinations made by us we find, and therefore report, that the amount of the capital stock of the New York Central Railroad Company outstanding on the 16th day of December, 1868, was $28,795,000, and in our opinion it is scarcely possible that there can be any error in this statement of the amount.

R. W. PECKHAM,
C. STEBBINS,
JOHN A. GRISWOLD.

ALBANY, Jan. 12, 1869.

☞ Proposals will be received at Manch Chunk, Pa., until February 17, 1869, for the Graduation and Masonry of the Nesquehoning Valley Railroad, including the approaches of Nesquehoning Tunnel. Specifications and information as to the work in detail may be obtained on application at the Engineer's Office, Manch Chunk, Pa.

☞ At a special meeting of the directors of the Boston and Providence Railroad Company on the 13th inst., a vote was submitted referring to the directors the subject of aiding in the construction of the Mansfield and Framingham Railroad, with full powers. This vote was unanimously passed.

☞ Trains are now running on the Central Pacific Railroad to Carlin, in the northeast corner of Nevada, a distance of 600 miles. The tracklayers are at Humboldt Cannon 25 miles further east. So far no interruption has occurred from snow. The twenty-two miles of snow sheds, at the summit of the Sierras, are working satisfactorily. The commercial business of the road for December exceeded $340,000.

☞ A corps of engineers of the Philadelphia and Reading Railroad Company are now engaged in surveying and locating the route of the proposed Pickering Valley (Chester County, Pa.) railroad. The Westchester Village *Record* says the Reading Company offer to subscribe to three-fifths of the stock, and to guarantee the bonds for all money that it is necessary to borrow; they will also equip and run the road.

☞ The California Pacific Railway, extending from Vallejo to Sacramento, sixty miles, was finished November 7th, except the last six miles, which has a temporary track. This road has been built under the supervision of Robert L. Harris, Esq., chief engineer.

☞ The income of the Old Colony and Newport Railroad for the year ending November 30, 1868, was $1,295,041 69, of which $769,911 17 was received from passengers; the total expenses were $765,072 14, and the net income, $310,141 66. The surplus on hand, after the payment of two dividends of 3 per cent. each, reducing the debt $67,000, and paying all expenses, is $254,646 38.

☞ A new railroad project has been organized, with a capital stock of $200,000, which has been already taken, to build a railroad from Portage Lake, Michigan, starting near the Pewabic stamp works, passing through part of the Concord property, and the Acadian, thence to the Calumet and Hecla mines. It may be extended as far as the Central and Copper Falls.

☞ The Chester Creek Railroad which connects the Baltimore Central with the Phila., Wil. and Balt. Railroad, has been so far completed as to admit the passage of cars along its whole length. It will be opened in a few weeks to public travel.

Notice to Bridge Builders.

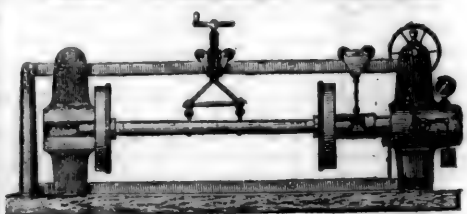
DEPARTMENT OF SURVEYS,
JANUARY 11, 1869.

In conformity with an ordinance of the Select and Common Councils of the City of Philadelphia—

I hereby invite the presentation of Plans and Estimates for an Iron Truss Bridge suitable to be erected over the River Schuylkill, on the site of the present Suspension Bridge at Fairmount, in said city. The abutments are now erected with a clear span of three hundred and forty (340) feet. The width of Bridge from out to out of footways to be fifty (50) feet, which footways will be not less than eight feet in the clear.

It must be provided with an upper and lower carriageway, the upper to be not more than 35 feet above the bottom of lower chord, or less than 28 feet above the lower roadway—the lower roadway to be not more than seven feet above the bottom of lower chord or it may rest upon the lower chords.

The entire structure to be of iron, excepting the flooring of the road and footways; to be proportioned for a weight of seventy-five pounds per square foot upon each roadway, including the footways. All wrought iron to be proportioned to resist a tension of 60,000 pounds, with a factor of five for security in large bars, and six for the small bars or rods.



A full and detailed estimate of quantities and cost will be required to accompany each plan.

The conditions of the Ordinance are, that the plans herein called for shall be submitted to a Commission of three Civil Engineers, in conjunction with the Chief Engineer and Surveyor of the city of Philadelphia—the best three of the plans to be retained by and become the property of the city of Philadelphia, for which they will be paid in order of merit, as may be determined by the Commission—800, 500, 300 dollars respectively. No design for a Portal will be required.

All plans must be deposited with the subscriber on or before the 1st day of April, 1869, at the Department of Surveys, 124 SOUTH FIFTH STREET, Philadelphia, with letter, giving the address of the Designer. Map and Profile of location may be seen at the Department of Surveys.

STRICKLAND KNEASS,
3t4 Chief Engineer and Surveyor.

CAR WHEEL PRESS.

Manufactured by
D. P. DAVIS,
Mechanical Engineer,
26½ BROADWAY, N. Y.
AGENT FOR
T. S. DAVIS' PATENT BALANCE PISTON VALVES, & STATIONARY ENGINES, Cut Off Operated by the Governor.

Over 14,000 horse power of Engines with this Valve are now in use, combining the greatest economy in fuel, simplicity and durability of parts, with low cost, they being cheaper than any other first-class Engine built.

Engineers desiring to adopt these improvements, either for new work or to improve the old style of Engines, will be furnished with drawings, and all information necessary to apply them in the best and cheapest manner. Circulars sent upon application therefor.

California Pacific Railroad Company.

FIRST MORTGAGE TWENTY-YEAR SEVEN PER CENT.

GOLD BONDS,
PRINCIPAL AND INTEREST PAYABLE IN GOLD COIN.

COUPONS PAYABLE FIRST JANUARY AND JULY, AT NATIONAL PARK BANK, NEW YORK, FREE OF GOVERNMENT TAX.

THE UNDERSIGNED NOW OFFER FOR SALE A LIMITED NUMBER OF THE ABOVE DESIRABLE BONDS, AT PAR, WITH ACCRUED INTEREST IN CURRENCY.

The total amount of Bonds authorized to be issued is

$2,350,000,

LESS THAN $22,000 PER MILE.

THE LARGER PORTION OF THIS ISSUE HAS ALREADY BEEN SOLD.

THESE BONDS ARE SECURED BY A FIRST MORTGAGE ON THE ENTIRE PROPERTY OF THE COMPANY,

including their valuable LANDS, WHARVES and WATER PRIVILEGES at Vallejo and elsewhere.

Total length of road, 105 miles.

Finished, fully stocked and equipped, and now running from Vallejo to Sacramento, 60 miles.

The monthly earnings on this portion of the road *are now nearly three times the monthly interest on the entire issue of Bonds.*

This road is the most direct route between San Francisco and Sacramento, reducing the time between these two cities to three and one-half hours.

The Marysville line is in process of construction; the grading nearly completed, one-third of the iron on hand, and the balance purchased, shipped, and expected to arrive in February. The road will be completed early this season, and, when finished, the total net receipts should amount to at least $3,000 (gold) per day.

The road bed is of most substantial character—permanent, solid and completely ballasted. The iron is of the best quality. The rolling stock and equipment are in every respect first class.

The country through which this road runs is entirely exempt from either snow, ice or frost, and its agricultural resources surpass those of any portion of the State.

From unqualified assurance and satisfactory proofs, received by us from reliable parties in California, of the great present value and future prospects of this road, we do most unhesitatingly recommend these securities to our friends and the public as a first class investment—safe, and in every respect desirable.

Either of the undersigned will receive subscriptions and deliver Bonds.

Government securities, at market rates, will be taken in exchange for these Bonds.

Circulars, maps and other information can be had on application to either of the subscribers.

THE UNION PACIFIC
RAILROAD COMPANY.

OFFER A LIMITED AMOUNT OF THEIR

First Mortgage Bonds
AT PAR.

NINE HUNDRED AND SIXTY MILES

Of the line West from Omaha are now completed, and the work is going on through the Winter. As the distance between the finished portion of the Union and Central Pacific Railroads is now less than 400 miles, and both companies are pushing forward the work with great energy, employing over 30,000 men, there can be no doubt that the whole

Grand Line to the Pacific

Will be open for Business in the Summer of 1869.

The regular Government Commissioners have pronounced the Union Pacific Railroad to be FIRST CLASS in every respect, and the Special Commission appointed by the President says:

"Taken as a whole, THE UNION PACIFIC RAILROAD HAS BEEN WELL CONSTRUCTED, AND THE GENERAL ROUTE FOR THE LINE EXCEEDINGLY WELL SELECTED. The energy and perseverance with which the work has been urged forward, and the rapidity with which it has been executed are without parallel in history, and in grandeur and magnitude of undertaking it has never been equalled." The Report states that any deficiencies that exist are only those incident to all new roads, and that could not have been avoided without materially retarding the progress of the great work. Such deficiencies are supplied by all railroad companies after the completion of the line, when and wherever experience shows them to be necessary. The report concludes by saying that "the country has reason to congratulate itself that this great work of national importance is so rapidly approaching completion under such favorable auspices." The Company now have in use 137 locomotives and nearly 2,000 cars of all descriptions. A large additional equipment is ordered to be ready in the Spring. The grading is nearly completed, and ties distributed for 120 miles in advance of the western end of the track. Fully 120 miles of iron for new track are now delivered west of the Missouri River, and 90 miles more are *en route*. The total expenditure for construction purposes in advance of the completed portion of the road is not less than eight million dollars.

Besides a donation from the Govt. of 12,800 acres of land per mile, the Company is entitled to a subsidy in U. S. Bonds on its line as completed and accepted, at the average rate of about $29,000 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. The Company have already received $22,158,000 of this subsidy, of which $1,280,000 was paid Dec. 6th, and $640,000 Dec. 14th.

Government Aid—Security of the Bonds.

By its charter, the Company is permitted to issue its own FIRST MORTGAGE BONDS to the same amount as the Government Bonds, *and no more*. These Bonds are a First Mortgage upon the whole road and all its equipments. Such a mortgage upon what, for a long time, will be the only railroad connecting the Atlantic and Pacific States, takes the highest rank as a safe security. The earnings from the way or local business for the year ending June 30, 1868, on an average of 472 miles, were over FOUR MILLION DOLLARS, which, after paying all expenses, were much more than sufficient to cover all interest liability upon that distance, and the earnings for the last five months have been $2,386,870. They would have been greater, if the road had not been taxed to its utmost capacity to transport its own materials for construction. The income from the great passenger travel, the China freights, and the supplies for the new Rocky Mountain States and Territories must be ample for all interest and other liabilities. No political action can reduce the rate of interest. It must remain for thirty years—*six per cent. per annum in gold*, now equal to between eight and nine per cent. in currency. *The principal is then payable in gold.* If a bond with such guarantees were issued by the Government, its market price would not be less than from 20 to 25 per cent. premium. As these bonds are issued under Government authority and supervision, upon what is very largely a Government work, they must ultimately approach Government prices.

The price for the present is PAR, and accrued interest at 6 per cent. from July 1, 1868, in currency.

Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau St.,

AND BY

John J. Cisco & Son, Bankers,
No. 59 Wall St.,

And by the Company's advertised Agents throughout the United States.

Bonds sent free, but parties subscribing through local agents, will look to them for their safe delivery.

A NEW PAMPHLET AND MAP WAS ISSUED Oct. 1st, containing a report of the progress of the work to that date, and a more complete statement in relation to the value of the bonds than can be given in an advertisement, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.
Dec. 15, 1868.

To Railroad Companies.

We beg to call the attention of Managers of Railways and Contractors throughout the United States and Canada to our superior facilities for executing orders at manufacturers prices for all descriptions of both AMERICAN and FOREIGN

RAILROAD IRON.

We are always in a position to furnish all sizes, patterns and weight of Rail for both Steam and Horse Roads, and in any quantities desired, either for IMMEDIATE or REMOTE delivery, at any port in the United States or Canada, and always at the very lowest current market prices. We are also prepared to supply

BESSEMER STEEL RAILS,

of American and Foreign manufacture, rolled to any desired pattern and weight per lineal yard, and of approved lengths. Contracts for both IRON AND STEEL RAILS will be made payable in United States currency for American, and in either currency or gold (at the option of the buyer) for Foreign; when desired, we will contract to supply roads with their monthly or yearly requirements of STEEL OR IRON RAILS, taking their

OLD RAILS IN TRADE FOR NEW

furnished, receiving the difference in cash, and allowing the highest market price for their Old Rails, and, if necessary, receiving the latter after the delivery of the New Rails.

Orders for Foreign Rails, both Steel and Iron, will be taken for transmission by Mail or through the Cable to our

LONDON HOUSE,
58 OLD BROAD STREET,

for execution at a fixed price in Sterling, or on commission at the current market price abroad when the order is received in London; shipments to be made at stated periods to ports in America, and at the lowest possible rates of freights. Address

New York Saturday, January 30, 1869.

Intercolonial Railway.

Sealed tenders addressed "To the Commissioners of the Intercolonial Railway," will be received at their office in Ottawa, up to 4 o'clock on the 8th of February next, for the construction of the following four sections of the line:

SECTIONS No. 1 and 2 embrace about forty miles from a junction with the Grand Trunk Railway, near Riviere du Loup, and each section will be about twenty miles in length.

SEC. No. 3 will be about twenty-six miles in length, and lies between the east side of Restigouche River to near Dalhousie, in New Brunswick.

SEC. No. 4 will be about twenty-four miles in length, and lies between Amherst and River Phillip in Nova Scotia.

Plans and profiles, with specifications and terms of contract, are now on exhibition at the offices of the Commissioners in Ottawa, Riviere du Loup, Dalhousie, St. John and Halifax. The Commissioners are: A. Walsh, E. B. Chandler, C. J. Brydges, and William F. Coffin.

The Montreal *Gazette* says that an amendment has been made by the Commissioners, in the form of tenders to be received. In the first place, the forms, as prepared by the engineer, provided for tenders on details of specifications only. The amendment provides that the contractor shall make his own calculations of quantities, and make his tender for a fixed sum per mile, to cover everything, without any extras whatever. It is believed the Commissioners, in this way, will know much better what they are doing, and that there will be no door open for any misunderstanding or any after-clap. The details of specifications, and the profile drawings made by the engineers, will be the guide of the contractors in making their tenders—of the Commissioners in deciding to receive them.

Wooden Railways.

A correspondent of the Montreal *Gazette* gives the following description of a wooden railway now in operation at Clifton, in Northern New York, near the canal line, and on which immense quantities of iron ore are transported from the Adirondack mines:

"The grading is the same as for an iron road, except that stiffer grades can be ascended. The ties are of the ordinary description, but are not squared on any side, and on the Clifton road are placed at the usual distance of three feet apart, except on the trestles, where there are three ties to every two yards. In future, however, the engineer intends to put the three ties to every two yards, as he proposes heavy engines.

"The rails are of maple, six inches by four; but in future their shape will be altered a little, without increasing the quantity of timber, making them three and a half inches on top by seven inches deep, so as to be better adapted to the increased weight of engines (fourteen tons instead of ten.) Notches are cut in the round ties to such a depth as to keep the bottom of the rail about two inches from the ground after the road is ballasted, and the rails project sufficiently above the notched tie to allow the flange of the wheel to pass. The rails are fastened to the ties by a couple of hard wood wedges, driven in opposite directions on the outside of the rail, within the notch. This has the effect of making the whole superstructure one solid mass, without the addition of any spikes or pins.

"In making the curves the rail itself is bent to the required shape, so that there is no angularity whatever in the lines of rails. The trestles are of the simplest description. They consist of two upright sticks of square timber immediately under the rails, let into a transverse stick, which are braced to the sticks of timber laid lengthwise, from one trestle to another, immediately under the line of rails, in each direction. This is further supported by a similar stick of timber at each side, from the head of the trestle to the base, in a slanting direction, the whole of which is let into a squared log at the base. The wooden rail is not a new invention, but Mr. Hulbert, the engineer, has succeeded in making it available without using a particle of iron in the whole structure, and has, moreover demonstrated that such railways can be used for long distances at a moderate cost, and this through a country where an iron line, as ordinarily constructed, would be practically an engineering impossibility.

"Mr. Hulbert says that he is willing to contract to lay the superstructure of a wooden railway of his own improved construction at the rate of $1,500, American currency, a mile, where maple and hemlock can be obtained at reasonable rates.

Finances of Delaware.

From the biennial Message of the Governor of this State, it appears that the aggregate indebtedness of the State is $1,456,000. The State's investments as an offset to this debt, both real and apparent, amount to $850,150—leaving a balance of indebtedness against the State over and above her investments of $605,850. This includes $431,000 loaned to railroad companies in the State, exclusive of $25,000 loaned to the New Castle and Frenchtown Turnpike and Railroad Company. Deducting these investments, the real debt of the State would be $149,850 that has not been created to assist in the construction of railroads in the State. The Governor urges the Legislature to make provision for the early extinguishment of the whole debt. The interest on the bonds of the State has been fully met and paid up to September last, by the provision made therefor, and a balance of $73,993 09 remained in the hands of the Treasurer. The receipts from licenses, commissions, &c., taxes on railroads and banks, dividends and stocks, during the fiscal year ending December 1st, 1868, have amounted to $36,249 51. The expenditures of the State for the same time are $14,903 20—leaving a balance of $21,346 22, which, added to that previously in hand, makes a total unappropriated balance of $37,796 81.

The Governor recommends a direct State tax, to include bonds, mortgages and machinery, and a tax which will reach the national banks.

Finances of Michigan.

The amount received into the State Treasury of Michigan during the year ending November 30, 1868, (including $582,113 96 from the previous year,) was $2,804,741 43; and the disbursements therefrom, $1,674,511 76—leaving a balance in the Treasury, November 30, 1868, of $1,130,229 67.

The present condition of the State debt, both funded and fundable, is as follows:

STATE DEBT.

Sault Canal bonds, 6s, due July 1, 1879	$86,000 00
Renewal Loan bonds, 6s, due July 1, 1888	200,000 00
Two Million bonds, 6s, due January 1, 1873	494,000 00
Two Million bonds, 6s, due January 1, 1878	484,000 00
Two Million Loan bonds, 6s, due Jan. 1, 1883	750,000 00
War Loan bonds, 7s, due Jan. 1, 1885	1,081,500 00
War Bounty Loan bonds, 3s, due May 1, 1890	463,500 00
Adjusted bonds, past due	3,000 00
Full paid Five Million Loan bonds, past due	3,000 00
War Loan bonds	600 00
Two Million Loan bonds, due January 1, 1868	3,000 00
57,000 Unrecognized Five Million Loan bonds, adjustable at	32,978 49
Total bonded debt, Nov. 30, 1868	$3,614,078 49

TRUST FUND DEBT.

The following items constitute this debt, to wit:

Primary school fund	$1,493,243 80
Five per cent. Primary School fund.	185,600 00
University fund	305,962 56
Normal School fund	44,461 95
Railroad deposits	2,157 32
Light House deposits	15 00
Total	$2,031,440 63

SINKING FUNDS.

During the past fiscal year the following sums have been set apart for the several sinking funds, amounting to $380,774 95.

War Loan Sinking Fund, 1-16 mill tax.	$19,247 87
War Loan Sinking Fund, from surplus taxes levied for interest	11,274 50
Two Million Loan Sinking Fund, 1 8 mill tax	88,493 73
Two Million Loan Sinking Fund, from discount on bonds purchased	213 75
Primary School fund receipts from July 1, 1867, to July 1, 1868	92,650 60
Five per cent. School fund, receipts from July 1, 1867, to July 1, 1868	13,936 45
University fund, receipts from July 1, 1867, to July 1, 1868	14,326 80
Normal School fund, receipts from July 1, 1867, to July 1, 1868	1,728 40
United States Treasurer, war expenses refunded	188,900 85
Total	$380,774 95

The claim of the State upon the General Government for expenses incurred on account of the war, has been adjusted and settled, and the sum of $188,900 85 collected as the amount due the State.

A settlement has also been effected with the Land Office at Washington of the claim of the State for swamp lands sold by the General Government after they had been ceded to the State by act of Congress, whereby 19,349.87 acres have been selected from the unsold Government lands, and for which patents will very soon be received. The State has also received in cash on the same account, $10,475 82.

The State debt has been reduced during the year by the sum of $365,842 76.

The Corn and Cotton Crops of the United States.

The monthly report of the Department of Agriculture, now in press, contains the following estimates of the corn and cotton crops of the several States—except those on the Pacific coast, which raise little corn and no cotton—in the year just closed. The figures of the corn crop of 1867 are also given, to show the increase or decrease of the respective States, a few States showing a decline, though the aggregate increase is over 137,000,000 bushels.

THE CORN CROP.

	1867.	1868.
Maine	1,575,000	1,590,000
New Hampshire	1,413,000	1,511,000
Vermont	1,520,000	1,672,000
Massachusetts	2,368,000	2,392,000
Rhode Island	340,000	346,000
Connecticut	2,242,000	2,152,000
New York	19,500,000	20,210,000
New Jersey	9,730,000	10,216,000
Pennsylvania	30,457,000	31,676,000
Delaware	3,639,000	3,275,000
Maryland	11,650,000	12,349,000
Virginia	18,490,000	19,969,000
North Carolina	17,974,000	23,366,000
South Carolina	7,834,000	9,870,000
Georgia	20,037,000	27,294,000
Florida	2,500,000	2,950,000
Alabama	35,000,000	31,240,000
Mississippi	19,657,000	35,519,000
Louisiana	9,535,000	17,397,000
Texas	20,711,000	21,337,000
Arkansas	21,243,000	32,449,000
Tennessee	50,250,000	54,772,000
West Virginia	6,500,000	7,695,000
Kentucky	46,550,000	58,187,000
Missouri	50,437,000	60,967,000
Illinois	109,091,000	134,363,000
Indiana	80,757,000	90,832,000
Ohio	64,000,000	74,040,000
Michigan	15,118,000	18,815,000
Wisconsin	9,885,000	12,565,000
Minnesota	4,500,000	8,256,000
Iowa	53,330,000	65,332,000
Kansas	8,152,000	6,487,000
Nebraska	2,325,000	3,185,000
Total	767,820,000	905,178,000

THE COTTON CROP.

The cotton crop, which in the early part of the season promised a large falling off from that of 1867, was so much favored by the fall weather, in the Gulf States especially, as to warrant the belief that the market receipts will fall little below the figures for the crop of the preceding year, which will be equal to half the amount of the great crop of 1860, and will bring an equal or greater sum of money to the planters. The following are the department estimates, and the crop is more likely to run over than under these figures:

	Bales.
North Carolina	140,000
South Carolina	180,000
Georgia	290,000
Florida	35,000
Alabama	285,000
Mississippi	400,000
Louisiana	250,000
Texas	260,000
Arkansas	265,000
Tennessee	200,000
Other States	75,000
Total	2,380,000

The department estimate for 1867, was 2,340,000 bales, while the actual receipts proved to be 2,450,000 bales. The estimate for 1866, was 1,835,000 bales, and the actual receipts were about 1,900,000 bales.

Providence and Worcester Railroad.

The earnings of this road for the fiscal years ending November 30, 1867 and 1868, were as follows:

	1867.	1868.
From passengers	$295,548 92	$287,473 25
" merchandize	380,130 14	419,537 98
" mails	9,157 50	5,157 50
" rents	4,728 18	4,793 71
" express	6,000 00	6,425 57
" interest received	1,881 85	.....
	$692,946 59	$723,388 01
Expenses, viz:		
Fuel	$52,961 68	$73,688 28
Oil	7,313 55	7,126 83

Passenger department	35,954 79	43,215 02
Local taxes	26,894 03	26,497 69
U. S. revenues taxes	15,502 91	18,224 19
Interest	.....	2,373 25
Miscellaneous	47,716 69	51,533 44
	$542,517 35	$564,391 23
Net earnings	$150,429 24	$158,996 78

Compared with 1867 the gross earnings of 1868 show an increase of $30,441 42; with an increase in expenses of $21,873 88—making the increase in net earnings, $8,567 54. The President in his report for 1868, says:

Stockholders will be gratified to notice, by the foregoing report, that amid the depression of almost all kinds of business, particularly the manufacturing business which interests this road so much, there has been a handsome increase, the past year, in its gross earnings. The double track has been finished to Albion, and is being used; but the laying down of the superstructure was suddenly interrupted by a strike at the works which had contracted to deliver the rails. Supposing this would continue but a short time, and the contract being, at that time, a favorable one, no other iron was immediately looked for; but after waiting weeks and months, and finding the strike still to continue, the Board was compelled to purchase elsewhere. The grading was continued and about completed, but the iron arriving late, it was deemed best to defer laying it down until the coming spring. That and all the other materials, for finishing the double track to the State line at Blackstone, are upon the line of the road, ready to be laid as soon as the weather will permit. Although it would have been convenient to have had the use of this track during the fall months, the business of the road has not suffered, to any extent, for the want of it.

The equipment has been increased by the addition of seven new elegant passenger cars, two new locomotives of greater power than any upon the road, and sixty-four freight cars, costing in the aggregate more than $100,000, besides building two passenger cars, ten platform and thirty-five coal cars to cover depreciation. Notwithstanding this large increase in the equipment, the business of the road calls for more; and there are now being built at Mr. Osgood Bradley's shop, at Worcester, fifty additional merchandise cars, whilst the company's shops, at Providence, are engaged to their full capacity in building coal cars and two passenger cars. A new locomotive is also being built at the Rhode Island Locomotive Works. Although the equipment of this road is already fuller perhaps than any other road in the country, in proportion to its length, it has proved insufficient, during portions of the past year; but when all in process of construction is placed on the road, it is thought this deficiency will be remedied.

Since the last report it will be noticed that 1,000 shares of the capital stock of the road have been sold, at a fair premium, together with such of the

real estate on South Water street as was not wanted for the use of the road. This, it will be recollected, the road was compelled to purchase, in order to get control of the wharves opposite, and the advance in real estate since reduces the cost of the wharf estate to a moderate sum. The proceeds from these sales have been applied towards paying for the new equipment and to the building of the double track.

During the past year, a lease has been taken of the short road built by the Milford & Woonsocket Railroad Co., at a yearly rental of $5,000, and was opened for business in August last, thus giving to this city a railroad connection with the busy and flourishing town of Milford, with its 10,000 inhabitants. The business done over this road, thus far, has fully met the expectation of the board, and it is not doubted it will increase largely. As the projected branch, to connect the main road with tide water by steam, passes through a portion of the State of Massachusetts, application was made last winter, to the Legislature of that State, for permission to build it, and for an increase of the capital stock of $1,000,000, which, after considerable opposition and delay, was granted in June last. A similar application will be made to the Legislature of this State, at its approaching session, but if granted, how much of the stock will be issued, or how soon, will depend on the vigor with which the Board may decide to push the double track beyond the state line, or build the Branch Road. Surveys of routes, and estimates of cost have been made by the engineer of the road, but no definite terminus has been fixed. The present high price of materials and labor, does not warrant any large outlay that can be reasonably deferred. The dummy engine, now building, will be placed on the South Water street track, early in the ensuing spring. There still remains unsold 1,000 shares of the old capital stock, part of which will be sold at auction during the present month, and the remainder, in July next. This will carry the capital stock to its authorized limit of $2,000,000.

Semi-annual dividends of 4 per cent. have been declared, from the earnings of the road, free from Government State, or local taxes, leaving a moderate surplus after a heavier expenditure, in repairs of the road and equipment, than will be required another year.

In handing in their lists of property for assessment, Stockholders should recollect that the stock of this road is not assessable on them, the Corporation paying taxes in Rhode Island and in Massachusetts on an amount considerable more than its capital stock, thus rendering it a desirable investment, beyond its dividends, to the extent of such taxes.

The receipts of the company from all sources, for the year ending November 30, 1868, have been as follows:

Net earnings as above	$158,996 78
Cash received for sales 1,000 shares of the stock of this company	128,035 00
Materials on hand Nov. 30, 1867	56,196 10
Cash on hand Nov. 30, 1867	36,262 45
Received for real estate sold	44,371 64
Received for the company's note	50,000 00
	$473,861 97

Accounted for as follows:

Materials and labor constructing second track		$52,136 79
Locomotives and cars		106,520 00
Dividend payable Jan. 1, 1868		72,000 00
" " July 1, 1868		76,000 00
Previous dividends		620 00
Materials on hand Nov. 30, 1868		144,639 36
Cash in bank	$131,960 80	
Note on hand	280 00	
	$132,240 80	
Less due connecting lines	110,294 98	
		21,945 82
Total, as above		$473,861 97

The company have 21 locomotives, 23 first class and 4 second class passenger cars, 155 eight wheel and 46 four wheel merchandize cars, 101 eight-wheel lumber cars, and 450 four wheel coal cars.

Miles run by passenger trains, 161,380; by freight trains, 156,535; by other trains, 33,145—total miles run, 351,060. Number of passengers carried, 1,162,152; do., carried one mile, 10,423,316. Tons of merchandise carried, 332,760; do., carried one mile, 10,439,958. Length of road, 43.41 miles. Length of double track, 12.41 miles. Length of branch 1 mile. Aggregate length of sidings, 11 miles. Weight of rail, 56 to 63 lbs.

Treasurer and Clerk.—JOHN R. BALCH.

Superintendent.—WILLIAM D. HILTON.

Canadian Railways.

The earnings of the Canadian Railways for the years ending December 31, 1867 and 1868, are officially stated as follows:

	1867.	1868.
Great Western	$3,725,169	$3,710,221
Grand Trunk	6,506,966	6,906,023
London and Port Stanley.	42,759	38,027
Welland	68,615	77,482
Northern	562,893	550,621
Port Hope, Beaverton, etc.	233,475	232,904
Brockville and Ottawa	135,824	173,373
St. Lawrence and Ottawa.	105,410	117,471
New Brunswick & Canada.	79,781	103,348
European & N. American.	162,561	175,456
Nova Scotia	232,778	279,941
Totals	$11,856,232	$12,364,867

Baltimore City Passenger Railroad.

At the recent annual meeting of the stockholders of this company, the following gentlemen were re-elected officers for the ensuing year: President, Henry Tyson; Directors, Thomas M. Smith, William Kennedy, Thos. Whitridge, Gabriel D. Clark, E. B. Edwards, Conrad S. Grove. Mr. Richards C. Smith was re-elected Treasurer.

The report of the operations of the road during the past year was read, from which the following interesting statistics are taken: Number of horses used on the lines 479, number of cars 73, number of miles traveled during the year 1,709,952, number of passengers carried during the year 10,200,872, increase of passengers over preceding year 1,800,000. Two semi-annual dividends of 3 per cent. each were declared. The park tax, one-fifth of the gross receipts of the company, which it should be kept in mind is paid actually by the public, though ostensibly by the company, amounted to $93,009 26, which has been paid over to the city register. A gratifying feature in the report is the statement that during the entire year no loss of life or limb, to either passenger or citizen, occurred on the road.

Cairo and Fulton Railroad.

General M. Brayman, President of this road, is in receipt of encouraging letters from the east, in reference to the early commencement of work on the line of the route. But two things remain to be done says Mr. Potts, a leading New York capitalist interested in the success of the enterprise, in order to remove all anxiety existing in the minds of those representing the company on financial questions, and to enable them to secure all the capital needed. First, a certificate that the road is accepted, and that State aid will be forthcoming so soon as the requirements of the law are complied with. Second, that the payment of the outstanding indebtedness of the State shall be so provided for as to render the bonds of some marketable value, by enhancing the value of our state credit. Arrangements are, however, being made to complete the first twenty miles by the last of July next, when the United States land grants will expire by the terms of the grant, unless this much is completed. It is the intention to commence on White River and build toward the Missouri line, where the road will be met, when completed, by the St. Louis and Cairo line. Capt. Leverett, Secretary, B. C. Potts, Contractor, and Major Rombaugh, Engineer, have already gone to Jacksonport for that purpose, and General Brayman thinks the work will be commenced before the close of next month.—*Arkansas Gazette.*

Great Western (Ca.) Railway.

The revenue statement of this company for the month of November, 1868, shows that the gross traffic earnings amounted to $306,067; the working expenses, including renewals, to $162,449, or 53.07 per cent.; and the net earnings to $143,618. The gross traffic receipts for the month of November, 1867, amounted to $316,548, the working expenses and renewals to $142,649, or 45.06 per cent., and the net earnings to $173,899, showing a decrease in the gross receipts of $10,481, an increase of $19,800 in the working expenses and renewals, and a decrease of $30,281 in the net earnings of November last. The gross traffic for the four months ending 30th November, 1868, amounted to $1,383,173, the working expenses and renewals to $643,740, or 46.54 per cent., and the net earnings to $739,433; against $1,865,919 gross traffic receipts in the corresponding four months of 1867; $612,928, or 44.87 per cent. for working expenses and renewals, leaving $752,990 net earnings, showing an increase in the gross receipts for the four months of $17,254, and in the working expenses, &c., of $30,812, but a decrease of $13,557 in the net earnings. The above is subject to loss by the exchange of American currency.

Providence, Warren and Bristol Railroad.

At the annual meeting of this company in Providence, R. I., on the 25th inst., the following named gentlemen were elected Directors for the ensuing year: Robert H. Ives, Amos D. Smith, William Goddard, Charles T. Childs, Sam'l W. Church, Marshall Woods, Thomas G. Turner, Leon Chappotin, and Earl P. Mason. Subsequently the Board of Directors elected Charles T. Childs President, and L. M. E. Stone Superintendent. The total receipts of the road for the past year have been $112,571 62, total expenditure, including interest, $91,030 19.

Quarterly Report of the New York Post Office.

The following statements show the business transacted at the New York Post Office in the Foreign Department with Europe and the West Indies for the quarter, ending December 31, 1868:

Pittsburg Bridge and Street Railway Receipts.

The following is a statement of the gross receipts of the various bridges and street railways of Pittsburg for the year 1868, as returned to the U. S. Assessors. On the bridge returns a tax of 2½ per cent is collected, and on street railway returns 2 per cent:

BRIDGES.

St. Clair street	$50,452
Hand street	17,881
Mechanics street	10,952
Sharpsburg	10,093
Monongahela Suspension	37,368
Birmingham	21,105
Total	$147,851
Total tax	$3,696 25

RAILWAYS.

Citizens	$135,921
Allegheny and Manchester	132,258
Birmingham	70,672
Oakland	45,942
Minersville	11,310
Total	$396,098
Total tax	7,927 86

New Jersey Railroads.

During the past fiscal year the transit duties paid into the treasury of the state of New Jersey were as follows: Camden and Amboy Railroad Company, $140,985 91; Delaware and Raritan Canal and Transportation Company, $78,185 80; New Jersey Railroad and Transportation Company, $50,350 88; Belvidere Delaware Railroad Company, $79 06; Freehold and Jamesburg Railroad Company, $11 81. Total, $269,613 46. In 1867 these duties, including $26,724 51 due the previous year, were $268,269 96. Excess of 1868, $1,353 50.

Tax on capital paid in by corporations mentioned below were: Central Railroad Company, $38,540 40; Morris and Essex Railroad Company, $34,869 66; New Jersey Railroad and Transportation Company, $28,437 50; Paterson and Ramapo Railroad Company, $1,240; Warren Railroad Company, $10,295 25. Total, $113,382 81. Total for 1867, $99,971 15. Increase in 1868, $13,411 66

New York State Canals.

EXTRACTS FROM THE REPORT OF THE AUDITOR.

The care with which our present Constitution guards the State Treasury is one of its most valuable provisions. The seventh article of that instrument is admirably framed to check the debt-creating spirit of our people. The twelfth section provides, that, except to meet casual deficits, or failures in revenues to a limited amount, or to repel invasion, no debt shall be created, unless the law authorizing the same shall provide for levying a direct annual tax sufficient to pay the interest, and redeem the principal thereof in eighteen years. The yearly sums thus raised and set apart, constitute a Sinking Fund for that debt. The Canal Debts have been contracted at different periods, and under different circumstances.

Four separate and distinct Sinking Funds have been provided under as many different provisions of the Constitution, for the payment of these debts. Three of these Sinking Funds are dependent upon the surplus revenues of the canals for which they were established.

The means required to supply the fourth is derived from taxation.

The order and priority in which these Sinking Funds perform their functions are as follows:

1. *The Sinking Fund to pay the Canal Debt, under section one of article seven*, requires an annual contribution from the canal surplus revenues of $1,700,000. The contribution of 30th September last make this Sinking Fund sufficient to fully discharge its remaining obligations. No further contributions to this fund will be required. The functions of this Sinking Fund will, in future, be to hold the money and temporary investments, and apply the same to the payment of the interest and principal of the outstanding Canal Debt of 1846, as it becomes due, or to purchase and cancel the stock as fast as the same can be obtained.

The condition of this fund at the close of the last fiscal year was as follows:

The balance on hand 30th September, 1868 was $2,316,053 67. The outstanding stock debt, for which this fund is chargeable, was, $2,240,860, and matures as follows:

6's 1 July, 1867	$160 00	
5's 1 October, 1868	194,900 00	
5's 1 January, 1874	2,035,800 00	
	$2,240,860 00	
Since the 30th September there has been paid on the above debt	892,180 00	
Leaving a balance now outstanding of	$1,348,680 00	

2. *The Sinking Fund for the General Fund Debt* required an annual contribution from the canal revenues of $350,000 to pay the interest on said debt, until the accumulations of the Sinking Fund, under section one, shall be sufficient to pay that debt; thereafter the sum of $1,500,000.

As has been shown, the contributions to the fund, under section one, are now sufficient to pay that debt, therefore the sum of $1,500,000 must hereafter be contributed annually from the canal revenues to the General Fund Debt Sinking Fund, until a sum sufficient shall have accumulated to pay the principal and interest of that debt.

The management of this debt is in the charge of the Comptroller.

The annual contributions thereto from canal revenues are paid to that officer, who reports the balance due thereon 30th Sept. 1868	$4,707,826 40
The balance in the General Fund Debt Sinking Fund after payment of the $350,000—from surplus of canal revenues due 30th September, 1868, and since paid, was	153,178 54
Balance of debt to be paid from canal revenues	$4,554,647 86

3. *The Sinking Fund established under section three for the payment of the enlargement debt*, requires an annual contribution of $1,116,242 66.

On account of the prior claims upon them, the canal revenues have, for several years, been insufficient to make a full or in some years even a partial contribution to this Sinking Fund.

These deficiencies in the aggregate amount to $7,781,544 84.

A portion of this deficiency, namely, $3,381,776 61, has been supplied by taxation, as will fully appear by the following statement showing the constitutional charges on the canal revenues in favor of the debt created under Art. 7, Sec. 8, the amount realized therefrom, and the deficiencies from 1854 to 1868 inclusive:

	Amount required under Sec. 8.	Amounts contributed from Tolls.	Deficiencies.
1854..	$94,861 72	$94,861 72	.....
1855..	414,396 14	.....	$414,396 14
1856..	773,702 71	.....	773,702 71
1857..	1,034,230 24	.....	1,034,230 24
1858..	1,112,523 46	.....	1,112,523 46
1859..	1,116,242 66	.....	1,116,242 66
1860..	1,116,242 66	.....	1,116,242 66
1861..	1,116,242 66	645,842 16	470,400 50
1862..	1,116,242 66	1,146,242 66	.....
1863..	1,116,242 66	1,116,242 66	.....
1864..	1,116,242 66	1,116,242 66	.....
1865..	1,116,242 66	.....	1,116,242 66
1866..	1,116,242 66	824,756 39	291,486 72
1867..	1,116,242 66	780,165 14	336,077 52
1868..	1,116,242 66	1,116,242 66	.....
	$14,592,140 87	$6,840,596 05	$7,781,544 82

Taxes were levied and collected during above period on account of the above "deficiences," as follows:

In 1856	$232,500 00
1859	680,000 00
1862	1,580,742 61
1863	198,534 00
1866	690,000 00
	$3,381,776 61

The outstanding stock debt on the 30th September, 1868, for which this fund must provide, was $10,324,100, and matures as follows:

5s, 1 January, 1871	$25,000 00
6s, 1 July, 1872	1,822,300 00
6s, 1 January, 1873	943,500 00
6s, 1 July, 1873	2,615,500 00
6s, 1 November, 1873	2,167,800 00
6s, 1 October, 1874	2,250,000 00
6s, 1 October, 1875	500,000 00
	$10,324,100 00

The stocks dependent on this Sinking Fund for payment mature in less than six years; hence, it now becomes necessary to supply these deficiencies from the canal revenues so make this fund sufficient to perform its functions.

Two plans are suggested to accomplish this purpose.

a. After making the required contribution to the General Fund Debt, apply the entire balance of the surplus revenues to make good this deficiency.

b. After contributing to the General Fund Debt as above, make an annual contribution to the Sinking Fund in question of $2,340,000 which will give it the means to liquidate the debt without further resort to taxation.

4. *The Sinking Fund for the payment of the Float-*

ing Debt Loans by virtue of the provisions of section twelve was created to secure the payment of $2,500,000 borrowed to pay claims against the State arising from the enlargement and completion of the canals, and is to be supplied by a direct annual tax upon the people of $187,500.

The balance due on this debt on the 30th Sept. was	$1,685,000 00
Balance of Sinking Fund, same date	578,658 64
	$1,106,341 36

The application of the tax, now in process of collection will pay one year's interest on this debt, and reduce the principal about $100,000 below this sum.

Stocks issued and secured by this Sinking Fund are as follows:

Six per cent. due 1st July, 1872	$785,000 00
Six per cent. due 1st Dec., 1877	900,000 00
Total	$1,685,000 00

The application of the balance now in all the Sinking Funds to the payment of the several canal debts for which these funds were provided and set apart, would reduce them to $10,807,921 24 as will more fully appear by the following:

Statement of the Canal Debt on the 30th Sept., 1868, the balance in the Sinking Funds, and the amount of the debt after deducting the balances applicable thereto:

	Debt 30th Sept., 1868.	Balance of Sinking Fund 30th Sept. 1868, including temporary investments.	Balance of debt after applying Sinking Funds.
Under Art. 7, Sec. 1, of the Constitution	$2,240,800 00	$2,316,053 67	$.....
Under Art. 7, Sec. 3, of the Constitution	10,324,100 00	1,122,520 12	9,201,579 88
Under Art. 7, Sec. 12, of the Constitution	1,685,000 00	578,658 64	1,106,341 36
	$14,249,900 00	$4,017,232 43	$10,307,921 24

The following statement shows the entire receipts and revenues from all sources other than taxation of all the canals for the last fiscal year, and the expenditure and payments for the same period. It also shows the application of the surplus revenues in accordance with the requirements of the Constitution:

RECEIPTS.

Tolls	$4,417,559 50
Rent of surplus water	750 00
Interest on current revenues	32,791 69
Miscellaneous receipts	26,444 98
Total	$4,477,546 17

PAYMENTS

To Canal Commissioners for ordinary repairs	$241,647 18	
To contractors for rep'rs	775,118 74	
To superintendents for repairs	291 02	
To collectors for salaries, clerk hire, pay of inspectors and expenses of collectors' offices	76,761 11	
For salaries chargeable to the annual reven'es, refunding tolls, printing and other miscellaneous payments	77,079 29	
		1,184,245 04
"Surplus revenues,"		$3,293,301 13

Amounts set apart by article seven of the Constitution, viz.:

To Sinking Fund under section 1	$1,700,000 00
" " " 2	350,000 00
" " " 3	1,116,242 66
For the support of governm't, sec. 3	127,058 47
	$3,293,301 13

The item of $291 02 to superintendents of repairs was for outstanding claims for services rendered prior to June 1, 1867, but paid in 1868. No superintendents of repairs were employed or paid during 1868, as has been previously stated.

The aggregate receipts and payments on account of the canals for the last four years, are as follows:

	1865.	1866.	1867.	1868.
Receipts from tolls, etc.	$3,577,465.45	$4,309,746.12	$4,050,357.79	$4,477,546.17
Payments to superintendents & contractors for rep'rs	$1,505,671.85	$978,258.69	$761,196.03	$775,409.76
Payments by Canal Commissio'rs for repairs	186,412.14	255,265.20	318,681.88	241,647.18
Payments to collectors, weigh-masters, and assistant collectors	77,122.55	85,890.65	87,993.00	90,108.81
Refunding tolls, salaries, etc.	68,167.05	58,121.98	57,321.74	77,079.29
Over draft on Champlain Canal	.....	62,463.21	.....	.....
Total expense	$1,927,378.59	$1,434,989.73	$1,220,192.65	$1,184,245.04
Net receipts	$1,650,091.86	$2,874,756.39	$2,830,165.14	$3,293,301.13

An analysis of this comparative statement shows that the receipts of 1868 exceed either of the above named years.

Receipts of 1868 exceed those of	1867.		$427,188 38
1868	"	1866.	167,800 05
1868	"	1865.	900,080 72
1868 exceed the average of the preceding three years			498,356 38

The expenses of 1868 are less than either of the years above named.

The exps. of 1868 are less than	1867.		$35,947 61
" 1868 "	1866.		250,744 69
" 1868 "	1865.		743,128 55
The exps. of 1868 are less than the average of the preceding three years			343,273 62

The net receipts of 1868 exceed those of either the years above named.

The net receipts of 1868 exceed those of 1867	$463,135 99
The net receipts of 1868 exceed those of 1866	418,544 74
The net receipts of 1868 exceed those of 1865	1,943,209 27
The net receipts of 1868 exceed the average of the preceding three years	841,630 00

In accordance with the usual custom of this Department, the Auditor submits estimates of revenue from canal tolls for the next fiscal year as follows:

Actual receipts from 1st Sept., 1868, to the close of navigation	$1,983,968 97
Estimated receipts of tolls from opening of navigation to 1st Sept., 1869	2,300,000 00
Say in round numbers	$4,280,000 00
From which deduct the estimated cost of maintenance and ordinary repairs	1,000,000 00
Estimated surplus revenue	$3,280,000 00
Applicable to the Debt Sinking Funds as follows:	
Under section 2, article 7	$1,500,000 00
Under section 3, article 7	1,780,000 00
	$3,280,000 00

Railroad in West Virginia.

A convention is to be held at Moorfield, Hardy County, West Virginia, on the 22d February next, to take into consideration the propriety of organizing a company to construct a railroad from some suitable point on the Baltimore and Ohio Railroad up the south branch of the Potomac, through the Counties of Hampshire, Hardy, Grant, Mineral and Pendleton, in West Virginia.

In view of this meeting the people of Highland County, Va., met at Monterey, on the 14th inst., appointed delegates to the convention, and adopted the following resolutions:

Resolved, That we, the people of Highland Co., Virginia, believe the contemplated project to be a work of the highest importance, in that it will tend to develop the resources of a very large section of country, rich in all the products of agriculture, cattle, sheep and hogs—a country hitherto isolated from all the public channels of communication.

Resolved, That we consider the extension of such road up the south branch of the Potomac to its head and source, in the County of Highland, thence down Jackson's River, one of the main tributaries of the "James," to a point on the Chesapeake and Ohio Railroad, at or near Covington, or at the White Sulphur Springs, to be a route more practicable for the construction of such a road than any that can be found in the direction in which such a road ought to be extended in order to reach an eligible point of communication between the great West and a vast region of country eastward, lying between the leading lines of railroad now in operation between the East and the West.

It is believed that even the most sparsely populated sections through which this road would pass, the almost endless variety of forest timber, of the most valuable kinds, now so much demanded in other sections consequent upon the rapidly increasing population of the country, would furnish an item for transportation of untold value.

Wooden Railroads.

The following description of the Wooden Railroad recently constructed for the Clifton Iron Company, between Clifton and the Adirondack mines in this State, is from the pen of Mr. C. G. Myers, late President of the company:

The rails are of hard maple scanting, 4x6 inches, set on round ties, on which are framed slots 6x4. The rails, set on edge and keyed in the slots by two wooden wedges driven against each other, project two inches above the ties. The rails admit of bending sufficiently to make the curves. The ties are laid on the earth and ballasted in the usual manner to two inches of the bottom of the rail. It takes 21,120 feet, board measure, of scantling for a mile, and 1,760 ties at three feet apart. Our road is a very rough one. We have a great deal of trestle work, some of it over thirty feet high, which is vastly more expensive than a level route. The engines used weigh from ten to fourteen tons. The rails will probably last about five or six years. An engine will move about thirty tons of freight at about six to eight miles an hour, with heavy grades and sharp curves. The company expects to move over the road next year from 50,000 to 100,000 tons freight. Trains have passed over the road, light, at the rate of twenty miles an hour; but this would not do for freight.

☞ The Milwaukee and St. Paul Railway Company will pay on the 15th of February next, a cash dividend of seven per cent. on their preferred stock, and will divide in common stock ten per cent. to their preferred stockholders, and fourteen per cent. on their common stockholders, according to the list of stockholders, on Jan. 30,

American Railroad Journal.

Saturday, January 30, 1869.

Stock Exchange and Money Market.

Money has been in more liberal supply, since our last, the offerings of capital to responsible houses through private channels especially having been considerably enlarged. The demand for accommodation has been active, most of the week, but has been as a rule, quite promptly met at the prevailing rates of 6@7 per cent. on call, and 7@9 per cent. per annum, in the discount form. The city banks have added over a million to their legal tender reserve, and about 1⅝ millions to their deposit line, while they report a loss of less than half a million of specie. They have added about 2⅝ millions to their loan and discount averages, and reduced their circulation a little. Their daily exchanges at the Bank Clearing Houses were not up to the average of the preceding week. They now hold over 54 millions of legal tender notes, against 48⅞ millions at the beginning of the year, and they control over 197 millions of deposits, against 180½ millions on the 2d inst. Their specie stock is now nearly 29 millions, against 27⅜ millions at the beginning of the current month. The enlargement of the loan item, since Jan. 1, has been about 5¾ millions. The U. S. Sub-Treasury has added more than 8½ millions to its cash balances, during the week, and about 8¼ millions since the close of December, now controlling a cash reserve of about 87 millions, as against 78⅝ millions on Dec. 30, 1868.

The specie reserve of the city banks is now $28,864,197, against $25,106,800 same time last year. The city bank deposits are now $197,101,163, against $210,063,084 week ending Jan. 25, 1868. The legal tender reserve amounts to $54,022,119, against $67,154,161 same time last year. The circulation now stands at $34,265,946, against $34,082,762 same time last year. The loans are now $264,954,619, against $258,392,101 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $111,872,424 a day, against a daily average of $112,682,602 the preceding week, and $117,962,008 the week ending with Jan. 6, 1869. The current week's exchanges average about $112,438,376 a day. The city banks, last week, lost $394,339 of specie, while they gained $1,616,320 of deposits, and $1,095,036 of legal tender notes. They increased their loans, $2,615,788; and reduced their circulation, $13,207.

National Bank notes to the amount of $134,470 were issued last week by the Treasury Department, making the total issue to 1,685 banks thus far, amount to $311,926,826, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $12,180,060, leaving, with the existing 1,626 banks, (having an aggregate capital of $418,858,931,) an actual circulation at this date, of $299,746,766. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,447,600; and for the public deposits, $35,247,350—making a total of $377,694,950. The Treasury Department last week redeemed and destroyed $582,428 of worn and mutilated fractional currency, and issued $470,833 of new. The outstanding amount of fractional currency on the 1st of January, 1869, was $34,215,716, against $33,875,268 on the 1st of December, 1868.

The general abstract of the condition of the 1,626 National Banking Associations of the United States on the morning of the first Monday of the present month, before the commencement of business, embraces the following items, under resources, viz:

Loans and discounts	$643,090,736
United States bonds to secure circulation and deposits	372,828,300
Due from banks, &c	48,790,525
Cash items	142,405,590
Specie	29,590,960
Legal tender notes	87,980,726

Among the liabilities are:

Capital stock	418,858,931
Profits	116,439,650
Bank notes outstanding	297,000,000
Deposits	584,857,850
Due to banks, &c	121,431,000
Aggregates	1,589,669,920

The average amounts of the Gold Exchange Bank loans and discounts last week was $1,882,178, average amount of specie $1,247,932, average amount of deposits $1,739,013.

The U. S. Sub-Treasury receipts, week ending with Jan. 23, were $13,940,717, including $2,601-

325 from customs duties; payments, $10,455,285, including $2,386,210 of coin interest; balance of the close of the week, $86,600,554, against $83,115,122, at the close of the preceding week, showing an increase of $3,485,431. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $1,207,981 including $311,315 from customs; and payments, $957,721, including $368,300 of coin interest; on Tuesday, receipts, $1,029,109 including $402,000 from customs, and payments, $902,742, including $295,199 of coin interest. The balance at the close of business on Tuesday stood at $86,977,180, against $83,298,837 a week previous; and $81,243,729, on Jan. 6, 1869.

The outstanding amount of coin certificates on the 1st of Jan., 1869, was $27,036,020, against 23,255,840 on the 1st of Dec., 1868. The Sub-Treasurer at this port issued, last week, coin certificates to the amount of $2,699,000, and retired $2,505,825 through the receipts for customs. The coin certificates issued by the Sub-Treasury office, during December, reached $7,600,980.

Government revenues have been yielding comparatively well, since our last, particularly in the customs form. Washington advices intimate that the customs revenue of the Government at all the ports of entry this current month of January, will yield about 18 millions in coin. The New York Customs are yielding unexpectedly well, which circumstance tends to strengthen street confidence in the public credit. The excises, last week, yielded about 2¾ millions; customs at the port of New York, $2,601,325, and at the outports about $850,000 (in coin) more, making the grand total income for the week equal to about $7,495,571 in currency. The total receipts of the National Treasury, from excises, during the fiscal year ending with June 30, 1868, were $191,180,564. The receipts from the same source, thus far in the current fiscal year, commencing with July 1, 1868, have been about 81½ millions, according to the latest Washington advices.

Gold has been in more active request, since our last, for shipment and Custom House purposes, as well as on speculative account, at advanced figures, the range having been from 135⅜@136⅞, and the closing quotation on Wednesday 136½. The Custom House drain at this port last week was up to 2⅝ millions, and export call exceeded a million. The exports thus far in the current week have been as follows: On Tuesday, $558,000, and on Wednesday, $55,000. The Sub-Treasury coin interests disbursements, last week, averaged $397,702 a day; thus far, this week, they have been on the basis of a daily average of $331,750.

The customs demand for Gold last week, averaged $433,554 a day; thus far, this week, it has been equal to $356,657 a day, or equal to a weekly aggregate of $2,139,942. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $110,933, and since Jan. 1, $169,905 against $95,049 same time in 1868. The receipts from California, last week, were $532,419. The total customs revenue of the Government, in coin, at this port, from July 1, 1868, to date was $67,155,724, against $62,042,133 same time in the preceding fiscal year. At the port of San Francisco in 1868, $8,382,829, against $7,622,827 in 1867.

The total receipts of California gold at this port, since July 1, 1868, have been $18,450,110, against $17,413,017 same time in fiscal year 1867–'68, showing a decrease in the current fiscal year, of $3,962,907. The exports of specie, from this port, last week, were $1,100,144, against $1,069,300 same week last year; total, since July 1, 1868, $23,989,471, against $34,367,517 in 1867–'68. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $2,386,210; since July 1, 1868, $59,516,687, against $46,433,019 same time in 1867–'68. The specie exports from San Francisco, from Jan. 1, to Dec. 31, 1868, were $36,358,091, against $48,224,237 same time in 1867.

Foreign Exchange stiffened a fraction in price, during the week, on a quite moderate offering of bonds, and a fair inquiry for prime bills, particularly in the sterling form. Toward the close, however, the market exhibited less buoyancy, on a diminished call from purchasers. Bankers' prime sixty day bills on London closed on Wednesday at 109⅛@109¾, and on Paris to 5.18¾c. @5.15; sight bills on London to 110@110⅜, and on Paris to 5.12½c.@5.11¼. The offering of produce bills has been moderate this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $3,080,903, against $3,269,323 same week last year; total, since July 1, 1868, $90,698,923, against $104,503,089 same time in preceding fiscal year of 1867–'68.

An enlarged volume of business has been transacted in Government securities, since our last, at generally advanced prices, on much reduced offerings. The main call has been for the several issues of the Five-twenty, and the Ten-forty loans, both coupon and registered. The demand has been chiefly on investment account, from banks, bankers and private buyers. The growing ease in money and the rise in gold have tended to stimulate purcoases, as they give assurance of augmented buoyancy in values, particularly in view of the comparatively light offerings of all issues. At the close of Wednesday, some efforts were made to depress prices, but without success, the market having stubbornly resisted all the pressure from the *bear* interest.

U. S. sixes of 1881 closed here on Wednesday at 112⅜@112½; U. S. Five-twenties of 1862, 113½@113⅝; U. S. Five-twenties of 1864 at 109⅛@109¾; U. S. Five-twenties of 1865 at 110½@110⅝; U. S. Five-twenties of 1865, consolidated, 108⅝@108¾; U. S. Five-twenties of 1867, 108¾@108⅞; U. S. Five-twenties of 1868, 109⅛@109⅜; U. S. Ten-forties at 108⅛@108¼; U. S. Six per cent. currency bonds, 101½@101¾.

One thousand miles of the Union Pacific Railroad are now finished and in operation, and the Central Pacific Railroad Company having built five hundred miles, but two hundred and sixty-seven miles remain to be built. There is now no doubt that the entire line to the Pacific will be opened early this season. The earnings of the Pacific Railroad for the year 1868, are officially reported at $5,600,651.

The Central Pacific Railroad is completed five hundred miles east from Sacramento, within 26 miles of Humboldt Wells. The road will probably be finished before the 15th of April.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 13.	Jan. 20.	Jan. 27.
Consols	92⅞	93⅛	78¼
U.S. 5-20's of 1862	75⅛	75¾	75⅝
Erie	26	26⅛	26⅛
Ill. Central	96¼	93¼	92¾

Railway and miscellaneous stocks have been in quite active request, and generally strong and buoyant in price, though there have been frequent fluctuations in both the magnitude of the dealings, and in the ruling values.

At the regular monthly sale of Scranton Coal on Wednesday, the bidding evinced less spirit, and prices were lower, the principal change having been a decline of 25@47½ct. per ton long ton in the value of stove coal. Total amount sold 66,000 tons at from 4.10@6.82½ for the range of qualities, per 2,240 lbs., deliverable at Elizabethport, N. J.

A more generally active movement has been noted in the leading kinds of domestic produce, but at variable prices. Cotton and provisions closing buoyantly, while breadstuffs leave off in favor of purchasers, as a rule. Middling upland cotton closed buoyantly on Wednesday at 29@ cents per lb. The stock of cotton now here is estimated at about 47,500 bales. The receipts at the port this week, have averaged about 8,000 bales a day. The receipts at all the ports, since Sept. 1, 1868, have been 1,284,000 bales, against 1,179,000 bales same time in 1867–'8; exports, same time 647,000 bales, against 652,000 bales same time in 1867–'8; stock on hand at latest dates, 320,000 bales, against 351,000 bales same date 1868. Total crops of 1867–'8, 2,430,893 bales; total receipts at ports year ending Sept. 1, 1868, 2,240,282 bales; total exports thence, same time, 1,657,015 bales. The exports of domestic cotton goods from this port, since Jan. 1, have been 517 pkgs., against 511 pkgs., same time last year. From Boston, 801 pkgs., against 1,828 pkgs. same time in 1868. At the Live Stock markets, this week, Beeves have been moderately inqured for at 10@17½c. per lb.; week's receipts, 5,509. Veal calves in fair request at 9½@13c. per lb.; receipts, 292. Sheep and lambs at 6@8¼c. per lb.; receipts, 34,500. Swine, less active at 11⅛@11⅝c. per lb., all live weight; receipts, 7,389. There has been more animation in foreign merchandise, which has been generally held with increasing confidence in anticipation of a lively and remunerative trade, through the coming season. The total imports of foreign dry goods, last week, were $2,520,259, and the total amount marketed $2,246,998. The value of foreign merchandise imported last week, was $3,550,077—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $6,070,336, against $2,514,435 same week last year; total since July 1, 1868, $135,760,051, against $126,975,380 in 1867–'8. The ocean freight market has shown more firmness toward the close, on an increasing offering of produce. For Liverpool we quote flour at 1s. 6d.@1s. 9d. by sail, and 1s. 6d.@2s. by steamer, per bbl.; grain at 6½d.@7d. by sail, and 7d. by steamer, per bushel; cotton at ⅛d. by sail, and ⅛d.@$\frac{3}{16}$d. by steamer, per lb.; and heavy goods 17s. 6d.@30s. by sail, and 25s.@50s. by steamer, per ton. Total number of vessels in port on Wednesday, 503.

The New York exports, exclusive of specie, for the week ending Jan. 26, and since the beginning of the year, compare as follows:

	1868.	1869.
For the week.....	$3,269,323	$3,080,903
Prev. reported.....	10,091,381	7,991,016
Since January 1.....	$13,360,704	$11,071,919

The imports for the week ending January 23, and since the beginning of the year, have been as follows:

	1868.	1869.
Dry goods	$1,281,490	$2,520,259
Gen. merchandise.....	1,232,945	3,550,077
Total for the week.....	$2,514,435	$6,070,336
Previously reported....	7,043,554	9,285,851
Since January 1.....	$9,557,989	$15,356,187

The balance in the Sub-Treasury on Wednesday was $87,465,657 83.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

OFFICE OF THE ROCKFORD, ROCK ISLAND AND ST. LOUIS RAILROAD COMPANY, 12 WALL ST:

The COUPONS from the Bonds of this Company, maturing February 1st, proximo, will be paid on and after that date at this office in United States GOLD COIN, *Free of Government Tax.*

H. H. BOODY, Treasurer.

NEW YORK Jan. 14, 1869.

THE FIRST MORTGAGE, FIFTY-YEAR CONVERTIBLE BONDS of the ROCKFORD, ROCK ISLAND and ST. LOUIS RAILROAD COMPANY, pay the PRINCIPAL AND SEVEN PER CENT. INTEREST—1st FEB. and 1st AUG.—IN GOLD COIN, *Free of Government Tax.*

The bonds are offered at 97½ and accrued interest in currency. Persons subscribing now will save the premium on the coupon payable Feb. 1st, proximo, equal to a reduction of one per cent. in the price of the Bonds.

Pamphlets with maps giving full information, sent on application.

All Bonds subscribed for sent by Express free of charge.

The Bonds may be had of H. H. BOODY, Treasurer, 12 Wall street, or of HENRY CLEWS & CO., Bankers, 32 Wall street, New York.

☞ Proposals will be received until the 6th of February, for the graduation culverts, bridges and track of the Hackensack and New York Extension Railroad, to a point near the New York State line, a distance of about 9¼ miles. Specifications, etc., may be seen at the office of L. W. Post, in Hudson City, N. J., until February 3d, and afterwards at the Essex street depot in Hackensack. Address D. P. Patterson, President, Hackensack, N. J.

British Finances.

The following will show the gross public revenue of the United Kingdom of Great Britain and Ireland for the fiscal years ending in 1867 and 1868:

	1867.	1868.
Customs	£22,303,000	£22,650,000
Excise	20,670,000	20,162,000
Stamps	9,420,000	9,541,000
Taxes	3,468,000	3,509,000
Income tax	5,700,000	6,177,000
Post office	4,470,000	4,630,000
Crown lands	330,000	845,000
Miscellaneous	3,073,568	2,586,218
Total revenue	£69,434,568	£69,600,218

This is given in pounds sterling, and is equivalent to about three and hundred and forty million dollars annually. We annex a statement of the expenses for the same period:

	1867.	1868.
Public debt	£26,081,778	£26,571,750
Civil list	10,523,019	11,193,757
Army	14,675,540	16,418,582
Navy	10,676,101	12,168,949
Collecting revenue	4,823,958	4,883,204
Total expenses	£66,780,396	£71,236,242

There were two million pounds sterling included in last year's "supplementary" expenses for the Abyssinian expedition, which we have divided equally between the army and navy, although the actual account may show a different arrangement when the details are compiled. It will be seen that the total expenses thus increased by that expedition are in excess of the receipts about seven million dollars.

The revenue from customs is chiefly from seven or eight simple articles. The largest item is tobacco; the next sugars and molasses; then spirits and tea. The total from customs is about one hundred million dollars per annum, or not quite two-thirds as much as the present customs revenue of the United States. We annex a statement of particulars:

	1867.	1868.
Sugar and molasses	£5,647,787	£5,582,473
Tea	2,658,716	2,827,317
Coffee	397,190	390,161
Corn, meal and flour	797,639	869,323
Spirits	4,173,027	4,298,403
Wine	1,391,192	1,468,993
Tobacco and snuff	6,455,011	6,542,250
Other imports	577,666	581,481
Sundries	200,838	104,580
Total customs	£22,299,066	£22,664,981

We add also a summary of the separate receipts from excise, which are nearly as large as the cash duties:

	1867.	1868.
From spirits	£10,855,849	£10,511,530
" malt	6 816,385	6,302,419
" licenses	2,304,318	2,640,287
" all other	731,771	736,152
Total excise	£20,708,323	£20,190,338

The revenue from stamps is not all paid over as collected, so that the accounts lap over and remain unclosed from year to year. We have thrown together the items for the fiscal years ending in 1866 and 1867, which differ slightly from the total paid into the exchequer, but are near enough for all practical purposes:

	1866.	1867.
Deeds and other instruments	£1,633,923	£1,619,313
Probate of wills	1,580,776	1,623,273
Legacies and successions	2,604,332	2,568,044
Insurances, fire	1,178,385	952 338
Do., marine	472,562	482,167
Bills, notes, &c	900,705	859,731
Receipts and drafts	531,324	547,583
All others	703,498	718,214
Total from stamps	£9,605,505	£9,885,663

We propose some day to give a variety of details in regard to the income tax. The rate has been four pence per pound until last year, when it was temporarily raised to five pence on account of the extraordinary expenses in the expedition referred to above. This is about two per cent., and it is applied on all incomes above one hundred pounds, with an abatement of sixty pounds on incomes less than two hundred per annum.

We annex also the total imports and exports of the United Kingdom for the two fiscal years named, exclusive of specie:

	1866.	1867.
Imports	£295,290,274	£275,249,853
Exports	238,905,682	226,057,186

The total of this belonging to the trade with the United States for the last named period is not yet compiled in detail, but in 1866 the import from the United States amounted to £46,854,218, and the exports to this country added up £31, 843,836, all these items exclusive of specie. We propose in a few days to contrast some of these items with the corresponding totals of the revenue and commerce of the United States.—*Journal of Commerce.*

Journal of Railroad Law.

COMMON CARRIERS MAY LIMIT THEIR LIABILITY BY SPECIAL CONTRACT—WHEN PRESUMPTION OF NEGLIGENCE ARISES FROM LONG SILENCE ON THE PART OF A COMPANY TO WHOSE CARE HAVE BEEN ENTRUSTED GOODS FOR TRANSPORTATION.

The case of The American Express Co. *vs.* Sands, (55 Penn. St, 140,) was brought by Sands against this company to recover the value of a barrel saw shipped by them with the said express company from Pittsburg to Irvine, Pa. When the saw arrived at Irvine, it was cracked from 8 to 10 inches. On account of being thus broken, the defendants refused to receive it. It was received at Irvine by the agent of the express company, Dec. 12th, 1864, and remained there until Sept. 12th, 1865, when the agent resigned, and knew nothing more about it.

The opinion of the Court was delivered by THOMPSON, J.—The principles involved in this case were all discussed in an opinion delivered at this Term in Farnham *vs.* The Camden and Amboy Railroad Co. It was then held that the company might limit the extent of liability in case of loss or injury, by a special contract or special acceptance of the goods to be carried, and thus become subject to the laws of bailment only; but that there could be no limitation of liability where the loss or injury resulted from the negligence of the company or its servants.

Was there negligence in the case before us? There are numerous authorities cited in the case referred to, to show that when goods are lost or damaged while in the custody of the carrier under a special contract, and he gives no account of how it occurred, a presumption of negligence will follow of course. That is just the case before us, and hence it was right to hold the company liable to the extent of the full value of the saw. Had they been able to have shown a *prima facie* case of injury, without fault on their part, they would not have been liable beyond the limit fixed, unless the plaintiff could have established negligence against the company as to the manner of the injury, but their silence was reconcilable with nothing but negligence or wilfulness, either of which would be followed by liability to the full extent of the loss. We see no error in the instructions given to the jury, and the judgment is to be affirmed.

The Cincinnati, Hamilton and Dayton, Atlantic & Gt. Western and Erie Companies.

The terms of agreement between these companies, as signed by their respective Presidents in this city on the 11th inst., are as follows:

1. The Cincinnati, Hamilton and Dayton Company, party of the first part, agrees to lease to the Atlantic and Great Western Railway Company, party of the second part, the Cincinnati, Hamilton and Dayton, the Dayton and Michigan and the Cincinnati, Richmond and Chicago Railroads for the period of fifty years, commencing on the 31st day of March, 1869, with all the property thereto belonging. The said lease to carry with it every right and advantage, by way of contract or otherwise, which the party of the first part has in any other road or property or franchise whatsoever. And the Erie Railway Company, party of the third part, agrees to guarantee the obligations of the Atlantic and Great Western, party of the second part.

2. The party of the second part is to pay the interest on all the mortgage bonds on the Cincinnati, Hamilton and Dayton, the Dayton and Michigan, and the Cincinnati, Richmond and Chicago Companies now issued, and also an amount equal to eight per cent. on the capital stock of $3,500,000 of the Cincinnati, Hamilton and Dayton Company, free of Government and all other taxes, for the first three years; and thereafter, for forty-seven years, an amount equal to ten per cent. net. For the Dayton and Michigan and Cincinnati, Richmond and Chicago Companies the party of the second part is also to pay the interest on $765,000 of bonds to be issued, the proceeds of which are to discharge their liabilities to the Cincinnati, Hamilton and Dayton Company for amounts heretofore expended in construction; and after three years to pay six per cent. per annum on the capital stock of the two companies, amounting to $2,950,000 free of all taxes of every character. Also to pay an annual sum of $10,000 to defray the expenses of keeping up the several organizations of the companies whose roads are hereby leased. They are also to pay, in cash, at cost price, on taking possession of the roads, for all supplies and materials on hand for repairing and operating the several roads, not including old rails, and not exceeding in amount $150,000. The payments are to be made monthly; and in case any part is not paid as agreed, the party of the first part may forthwith, after the expiration of sixty days from such default, re-enter and take possession of said road leased, without notice or legal process, the parties of the second and third parts being responsible for any damages. And, as a further security for the performance of the stipulations of the party of the second part, the Erie Company agrees that, within the period of one year from March 31, 1869, it will complete the second track of the Cincinnati, Hamilton and Dayton road from Cincinnati to Hamilton, and within five years to Dayton, at its own proper cost.

3. The party of the second part is to assume all obligations of the party of the first part to other roads, for rentals and all contracts with warehousemen, shippers and others, for which the said first party is bound; and the party of the second part is to have all benefits arising from such rentals, contracts, &c.

4. The party of the second part is to keep the property insured in good and solvent companies for the same amount as the property may be insured when possession is given to them, and is to pay all taxes levied on the roads and property herein leased, as well as on the income. The party of the second part is to keep the several roads in good repair, and to leave the same in as good condition as received, and in the lease proper provision is to be made for that purpose by a clause binding the second party and giving the first party power to repair the roads and other property at the expense of the party of the second part, if there be a neglect on their part to keep the same in good condition and repair in all respects.

5. The party of the second part agrees to develop and increase both the local and through business of the several roads, in the best way practicable.

6. The franchise is to be conveyed by the proposed lease to the party of the second part, so far as may be necessary for the operating, maintaining and extending said roads.

7. It shall mutually be agreed that if any difference of opinion should arise as to the true intent and meaning of the lease, the same shall be arbitrated by persons competent and disinterested, to be chosen in the usual manner.

8. The lease to be submitted to the stockholders of the parties of the first and second parts, and is not to be binding unless approved by the said stockholders, as provided by their charter and the laws of the States under which said corporations were created.

Signed by the Presidents of the Cincinnati, Hamilton and Dayton, Atlantic and Great Western and Erie Companies, in New York, January 11, 1869.

Important Telegraph Decision.

COMPETING WIRES TO BE ALLOWED ON THE SAME POLES.

Judge Jameson, presiding in the Chancery branch of the Superior Court at Chicago on the 5th inst., delivered his opinion and made his decision in the matter of the rights of the Western Union Telegraph Company and the Pacific and Atlantic Telegraph Company, as to the use of the poles erected by the Great Eastern Railway Company by the Atlantic Telegraph Company. In this case there was a bill by the Pacific Company to restrain the tearing down of its wires upon these poles. There was also a cross bill to restrain the Pacific from stretching its wires upon the poles which, under a contract, the Western Union claimed as its own. The motion was to dissolve the latter injunction.

The facts are that in November, 1864, the Western Union Telegraph Company made a contract with the Great Eastern Railway, (which afterward, by change of name, became the Chicago, Columbus and Indiana Central Railway Company,) by which a set of telegraph poles were stretched along the line of the railway, for the use of the railway company and the telegraph company. The agreement, made on the 21st day of November, among other things, provided for an exclusiveness of right on the part of the telegraph company as against other similar companies; the setting up of instruments by the telegraph company, the stretching of a wire for the use of the railroad, and that at places where a railroad operator was stationed, where there was no agent of the telegraph company, the railroad employee should act, to receive commercial despatches, one-half of the price to go to the two companies, the railroad company binding itself to send no commercial despatches over its line from stations where the telegraph company should be represented.

Under this contract the Western Union placed its wires upon the poles, and since this was done it had been in occupancy and use of them.

On the 23d of May, 1868, the Pacific and Atlantic Telegraph Company sought to procure permission or license to make use of the same poles, and the company, by its President, accorded leave, provided the leave did not affect the privileges already granted so as to make the railroad company responsible, the permission being upon the ground that the telegraph company should assume the liability of a violation of the contract already stated.

The Pacific and Atlantic Company availed itself of the privilege thus accorded and stretched its wire from a point in Indiana into Illinois, placing its wires upon cross bars four feet in length, some three feet beneath the brackets of the Western Union. The fact was discovered and the Union line displaced these wires. Thereupon an injunction was sued out to restrain this destruction. The injunction was granted and the Western Union came in with a cross bill for an injunction to restrain the placing of the wires upon the poles it claimed to be its own. The latter injunction was refused. The case went to the Supreme Court, where an injunction was issued upon a confession of error, the injunction to be decided upon by this Court.

Two preliminary questions were raised in the case; neither of these touching the merits of the cause. The first was that as the injunction had been granted in the Supreme Court this inferior Court was precluded from acting. The Court decided this point to be bad, because, as he understood it, the order of the Superior Court provided for this very consideration. The second of these objections was that the Western Union held an exclusive privilege, and that if license had been granted to the competing line, then that by a letter of a later date the railroad company had revoked it.

The Court examined the letter claimed to be the act of revocation and found that it was not equivalent to such a revocation; there was in it no prohibition of the act of stretching the wires upon these poles—it contained the mere request that the new company should suspend its operations until some amicable arrangement should be made between the contending parties; then they gave a lawyer's construction of the contract. There was no denial of the license, and it was for the Court to consider whether such license had been given, and whether, if it was so given, the revocation did not come too late. The fate, therefore, of the motion must turn in some measure upon the force of the original contract.

The Court proceeded to consider the effect of the contract of the railroad company with the telegraph corporation, resolving that it was illegal by reason of the fact that it calculated an unwarranted partnership between two corporations chartered to carry on different business and limited in the scope of their action by the language of their charters.

But the Court would not dissolve the injunction upon these grounds, but would consider the relative situation of the parties, disregarding what be considered to be the illegal contract. Then it was to be considered whether an irreparable damage was to be done to the Western Union Company. The Court did not think that it could be said that a monopoly was to be created which should call for the interference of a chancellor. That question, if it arises at all, might justly arise in some subsequent proceeding, and therefore it was only to be considered whether the use of the poles, owned by the railroad company and used by the telegraph company under an invalid agreement by the contending corporation, would work an irreparable injury to the existing company. The Court thought that no such injury could occur, because, even in this case statistics had been produced showing the moments of lost time by the accidents of telegraphy. He thought where these were shown there could be no difficulty in showing the value of service so as to make a case at law. Such a case being able to be made it was not his duty, as Chancellor, to interfere. The Court thought this was only a quarrel between two persons engaged in the same business. If each was courteous to the other no irreparable injury could occur, wherefore he decided that it was not his province to act. The injunction was ordered to be dissolved.

Railroads of Arkansas.

The following railroad companies have filed applications regularly according to law for the proposed State aid of $10,000 per mile, to their respective roads:

The Little Rock and Fort Smith Railroad Company, C. G. Scott, President; J. H. Haney, Secretary. Office at Little Rock.

The Memphis and Little Rock Railroad Company, R. C. Brinkley, President; W. B. Waldran, Secretary, office at Memphis.

The Memphis and St. Louis Railroad Company, E. H. Porter, President; office at Memphis.

The Cairo and Fulton Railroad Company, M. Brayman, President; W. W. Leverett, Secretary; at office at Little Rock.

The Pacific and Great Eastern Railroad Company, Stephen K. Stone, President; D. D. Stark, Secretary, office at Fayetteville, Arkansas.

There are a number of other projected routes which it is understood will become applicants for State aid, but they have not as yet presented their claims.

The terminal points of the Pacific and Great Eastern Railroad, as at present contemplated are Fayetteville, Arkansas, and a point nearly due east on the Mississippi River below New Madrid, Missouri. It will thus traverse the Counties of Greene, Marion, Izard, Searcy, Newton, Madison and Washington. The design is eventually to push the enterprise westward to the Pacific. Until that consummation is attained, a completion of the portion contemplated would certainly prove successful from the fine section of country traversed.

Morris Canal and Banking Company.

This company have declared a dividend of ten per cent. on the amount of the Preferred Stock, payable in scrip redeemable in twenty years from the first day of February next bearing interest at the rate of seven per cent. per annum, payable semi-annually upon the first Tuesday of August and the first Tuesday of February then following. Certificates of this scrip will be delivered to the holders of the Preferred Stock on the first Tuesday (the 2d) in February next. This dividend, says the Philadelphia *Ledger*, is intended to cover the dividend passed at the last August semi-annual period and that to be passed at the coming February semi-annual period. As this company is bound to pay 10 per cent. annual interest on its preferred shares before it can pay anything on the common stock, it becomes a proper inquiry with the preferred shareholders whether this scrip dividend is a *payment* of 10 per cent. until the scrip itself is paid. If not, then the twenty years that the scrip is to run to maturity, looks like the period fixed by the Company for the suspension of dividends on the common stock.

☞ The following gentlemen have been elected directors of the Buffalo, Corry and Pittsburg Railroad: Jay Gould, James Fisk, Jr., Frederick A. Lane, L. D. Rucker, J. C. B. Davis, Thomas Struthers, William H. Seward, William H Whiteside, John F. Phelps, Mathew P. Bemis, Daniel Williams, Amos K. Warren, George W. Gifford, Jay Gould was elected President, Thomas Struthers, Vice President, and M. P. Bemis, Secretary and Treasurer.

Nebraska.

The Governor of this State, in his recent message to the Legislature, recommended the encouragement of immigration, a liberal free-school system, and land grants for the erection of bridges across the Platte river at Ashland, Columbus, Grand Island and North Platte. These bridges will enable the people of a rich portion of Southern Nebraska to avail themselves of the section of the Pacific railroad, from which the river is now entirely cutting them off. The State will soon have control over three millions and a quarter acres, and a quarter of a million acres of these lands will be sold within the next two years. The Governor also urges the immediate erection of a State university and agricultural college.

Debt of Arkansas.

The aggregate State debt of Arkansas, as completely and as accurately as it can be ascertained, is as follows:

Bonds outstanding on account of the real estate bank	$843,000
Bonds outstanding on account of the State bank	441,000
Unpaid interest on both, about	2,000,000
Amount borrowed and interest on the 500 hypothecated bonds	300,000
Total (about)	$3,584,000

Tehuantepec Route.

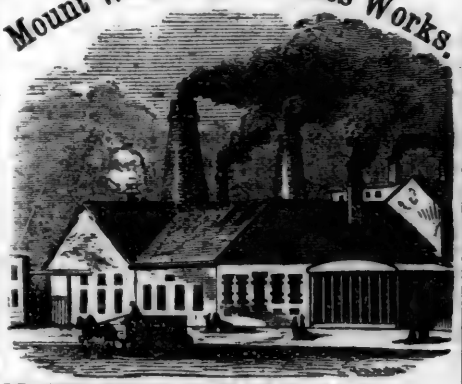
A letter to the N. Y. *Times* dated Mexico, Jan. 9, says: The most important of the recent acts of the Mexican Congress is the modification of the decree which was issued on the 6th of October, 1867, and which granted to Mr. Emilio La Sere, and the company organized by him, the right to construct a railroad across the Isthmus of Tehuantepec. The new decree obliges the La Sere Company to complete the work in four years and a half. It will be commenced forthwith. The line, it is supposed, will commence where navigation on the Coatzacoalcos River ceases, and run across the isthmus to the port of Ventosa. Pending the completion of the work, the company is obliged, by the terms of the decree, to establish communications across Tehuantepec by means of a wagon road.

Brooklyn Horse Railroads.

The following are the gross receipts of the Brooklyn Railroad Companies for the six months ending December 31, 1868, as returned to the Revenue department:

Brooklyn City	$623,930
Broadway	60,797
Grand street and Newtown	39,551
Atlantic Avenue	107,528
Brooklyn, Bath and Coney Island	18,594
Coney Island	56,422
Brooklyn and Rockaway Beach	10,761

☞ The Albany and Susquehanna Railroad Company have made a contract with the Delaware, Lackawanna and Western Railroad and Coal Company to transport coal to Albany. The first train of 22 cars arrived at Albany on the 25th inst.



☞ The receipts of the Sixth Avenue Railroad in 1868, were $618,570 51; those of the Eighth Avenue Railroad, $783,288 79.

☞ The Pennsylvania Railroad bridge spanning the Susquehanna river at Columbia has been opened for travel.

☞ The Centreville (Md.) *Observer* states that the work on the Queen Anne's Railroad is progressing. The board of directors have ordered a survey to be made from Centreville to Queenstown. The road from Massey's Cross roads to Carville's is now nearly ready to lay the track upon. The road from Townsend to Massey's is also nearly completed.

☞ The value of the property owned by the Union (Mass.) horse railroad company, is said to be $262,534 05, divided between seventy-four cars, four hundred and forty-nine horses, and real estate to the value of $145,580 05. The whole number of persons employed by the company is two hundred and forty.

Mount Washington Glass Works.

MANUFACTURER OF GLASS IN ALL ITS FORMS and varieties. The attention of Railroad Men is called particularly to the *Lantern Globes and Chimnies* produced, which for general good qualities are unexcelled. Railroad Companies, Purchasing Agents, and those interested, would do well to look at sample of these Goods, which will be sent on application. Orders solicited, and all such executed promptly and satisfactorily.

Address,

W. L. LIBBEY,

61 Milk-St., Boston, Mass

Notice to Bridge Builders.

DEPARTMENT OF SURVEYS,

JANUARY 11, 1869.

In conformity with an ordinance of the Select and Common Councils of the City of Philadelphia—

I hereby invite the presentation of Plans and Estimates for an Iron Truss Bridge suitable to be erected over the River Schuylkill, on the site of the present Suspension Bridge at Fairmount, in said city. The abutments are now erected with a clear span of three hundred and forty (340) feet. The width of Bridge from out to out of footways to be fifty (50) feet, which footways will be not less than eight feet in the clear.

It must be provided with an upper and lower carriageway, the upper to be not more than 35 feet above the bottom of lower chord, or less than 28 feet above the lower roadway—the lower roadway to be not more than seven feet above the bottom of lower chord or it may rest upon the lower chords.

The entire structure to be of iron, excepting the flooring of the road and footways; to be proportioned for a weight of seventy-five pounds per square foot upon each roadway, including the footways. All wrought iron to be proportioned to resist a tension of 60,000 pounds, with a factor of five for security in large bars, and six for the small bars or rods.

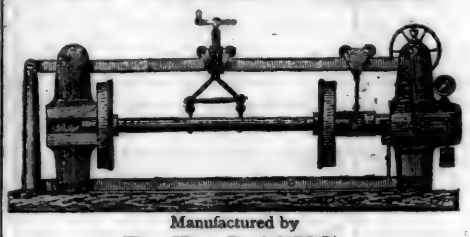
A full and detailed estimate of quantities and cost will be required to accompany each plan.

The conditions of the Ordinance are, that the plans herein called for shall be submitted to a Commission of three Civil Engineers, in conjunction with the Chief Engineer and Surveyor of the city of Philadelphia—the best three of the plans to be retained by and become the property of the city of Philadelphia, for which they will be paid in order of merit, as may be determined by the Commission —800, 500, 300 dollars respectively. No design for a Portal will be required.

All plans must be deposited with the subscriber on or before the 1st day of April, 1869, at the Department of Surveys, 234 SOUTH FIFTH STREET, Philadelphia, with letter, giving the address of the Designer. Map and Profile of location may be seen at the Department of Surveys.

STRICKLAND KNEASS,

3t4 Chief Engineer and Surveyor.



Union Pacific Railroad.

The gross earnings of this road for the year 1868, from way business only, on an average of less than 700 miles in operation, were as follows:

From passengers	$1,024,005 97
From freight	2,040,233 19
From express	51,423 08
From mails	136,235 59
From miscellaneous	91,626 27
From Government troops	104,077 77
From Government freight	449,440 33
From contractors' men	201,179 09
From contractors' material	968,430 32
Total	$5,006,651 61

One thousand miles of this road are now completed; and as 500 miles of the western portion of the line, beginning at Sacramento, are also done, but 267 miles remain to be finished to open the grand through line to the Pacific. This opening will certainly take place early this season, when it is estimated that the earnings of the road will be from fifteen to twenty millions a year.

CAR WHEEL PRESS.

Manufactured by

D. P. DAVIS,

Mechanical Engineer,

26½ BROADWAY, N. Y.

AGENT FOR

T. S. DAVIS' PATENT BALANCE PISTON VALVES, A STATIONARY ENGINES, Cut Off Operated by the Governor.

Over 14,000 horse power of Engines with this Valve are now in use, combining the greatest economy in fuel, simplicity and durability of parts, with low cost, they being cheaper than any other first-class Engine built.

Engineers desiring to adopt these improvements, either for new work or to improve the old style of Engines, will be furnished with drawings, and all information necessary to apply them in the best and cheapest manner. Circulars sent upon application therefor.

THE UNION PACIFIC RAILROAD COMPANY.

OFFER A LIMITED AMOUNT OF THEIR

First Mortgage Bonds AT PAR.

NINE HUNDRED AND SIXTY MILES

Of the line West from Omaha are now completed, and the work is going on through the Winter. As the distance between the finished portion of the Union and Central Pacific Railroads is now less than 400 miles, and both companies are pushing forward the work with great energy, employing over 30,000 men, there can be no doubt that the whole

Grand Line to the Pacific

Will be open for Business in the Summer of 1869.

The regular Government Commissioners have pronounced the Union Pacific Railroad to be FIRST CLASS in every respect, and the Special Commission appointed by the President says:

"Taken as a whole, THE UNION PACIFIC RAILROAD HAS BEEN WELL CONSTRUCTED, AND THE GENERAL ROUTE FOR THE LINE EXCEEDINGLY WELL SELECTED. The energy and perseverance with which the work has been urged forward, and the rapidity with which it has been executed are without parallel in history, and in grandeur and magnitude of undertaking it has never been equalled." The Report states that any deficiencies that exist are only those incident to all new roads, and that could not have been avoided without materially retarding the progress of the great work. Such deficiencies are supplied by all railroad companies after the completion of the line, when and wherever experience shows them to be necessary. The report concludes by saying that "the country has reason to congratulate itself that this great work of national importance is so rapidly approaching completion under such favorable auspices." The Company now have in use 137 locomotives and nearly 2,000 cars of all descriptions. A large additional equipment is ordered to be ready in the Spring. The grading is nearly completed, and ties distributed for 120 miles in advance of the western end of the track. Fully 120 miles of iron for new track are now delivered west of the Missouri River, and 90 miles more are *en route*. The total expenditure for construction purposes in advance of the completed portion of the road is not less than eight million dollars.

Besides a donation from the Govt. of 12,800 acres of land per mile, the Company is entitled to a subsidy in U. S. Bonds on its line as completed and accepted, at the average rate of about $29,000 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. The Company have already received $22,158,000 of this subsidy, of which $1,280,000 was paid Dec. 6th, and $640,000 Dec. 14th.

Government Aid—Security of the Bonds.

By its charter, the Company is permitted to issue its own FIRST MORTGAGE BONDS to the same amount as the Government Bonds, *and no more*. These Bonds are a First Mortgage upon the whole road and all its equipments. Such a mortgage upon what, for a long time, will be the only railroad connecting the Atlantic and Pacific States, takes the highest rank as a safe security. The earnings from the way or local business for the year ending June 30, 1868, on an average of 472 miles, were over FOUR MILLION DOLLARS, which, after paying all expenses, were much more than sufficient to cover all interest liability upon that distance, and the earnings for the last five months have been $2,386,870. They would have been greater, if the road had not been taxed to its utmost capacity to transport its own materials for construction. The income from the great passenger travel, the China freights, and the supplies for the new Rocky Mountain States and Territories must be ample for all interest and other liabilities. No political action can reduce the rate of interest. It must remain for thirty years—*six per cent. per annum in gold*, now equal to between eight and nine per cent. in currency. *The principal is then payable in gold.* If a bond with such guarantees were issued by the Government, its market price would not be less than from 20 to 25 per cent. premium. As these bonds are issued under Government authority and supervision, upon what is very largely a Government work, they must ultimately approach Government prices.

The price for the present is PAR, and accrued interest at 6 per cent. from July 1, 1868, in currency.

Subscriptions will be received in New York

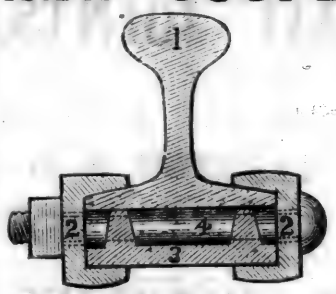
At the Company's Office, No. 20 Nassau St.,

AND BY

John J. Cisco & Son, Bankers,

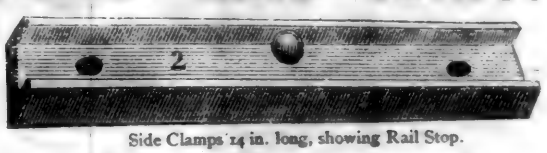
No. 59 Wall St.,

And by the Company's advertised Agents throughout the United States.



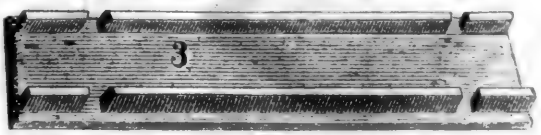
Bonds sent free, but parties subscribing through local agents, will look to them for their safe delivery.

A NEW PAMPHLET AND MAP WAS ISSUED Oct. 1st, containing a report of the progress of the work to that date, and a more complete statement in relation to the value of the bonds than can be given in an advertisement, which will be sent free on application at the Company's offices or to any of the advertised agents.



JOHN J. CISCO, Treasurer, New York.

Dec. 15, 1868.



THE PHŒNIX IRON COMPANY'S NEW SUSPENSION RAIL JOINT.

Cross Section of Rail Joint.

Side Clamps 14 in. long, showing Rail Stop.

Bottom Ribbed Plate, 14 in. in length.

The above diagrams show the general design of this new ***Suspension Rail Joint***, which, after long and successful trial on the Philadelphia, Wilmington and Baltimore, and other Railways, is now offered to Railway Companies. The cut on the left gives a cross section of the finished joint, showing the rail (*1*) resting upon the ribs of the bottom plate (*3*,) with the flanges of the rail and the bottom plate embraced by the side clamps (*2*,) and held firmly in place by bolts (*4*.) In screwing up these bolts, the bite or grip between the bevel on the side clamps corresponding with the bevel on the flanges of the rail, insures great vertical and lateral rigidity to the joint.

Several careful tests have proved that the deflection of two pieces of rail thus fastened at their joints and subjected to a transverse strain between supports five feet two inches apart, was but a trifle more than that of the same rail uncut, tested in the same way. The value of the joint in this respect was 85 per cent. of that of the solid rail, while the best fish joints, similarly tried, gave less than 50 per cent.

No holes are required to be punched through the neck of the rail, nor slots in the flanges, only a quarter circle notch of about half an inch radius is necessary to be cut out of the corner of one of the flanges of the rail to fit the "stop" shown in the upper right hand cut. This is a very important consideration, as holes punched or drilled in the neck are apt to split the rail longitudinally, and in *Steel Rails particularly*, is the principal cause of breakage.

All that portion of the joint, shown in the cut of cross section, below the bottom of the rail, bears endwise against the cross ties, and prevents any creeping of the track. It makes a very firm joint, does not get out of order, and can be fitted to any size of rail. When ordering, send a sample piece of rail two feet long. Address,

To Railroad Companies.

We beg to call the attention of Managers of Railways and Contractors throughout the United States and Canada to our superior facilities for executing orders at manufacturers prices for all descriptions of both AMERICAN and FOREIGN

RAILROAD IRON.

We are always in a position to furnish all sizes, patterns and weight of Rail for both Steam and Horse Roads, and in any quantities desired, either for IMMEDIATE or REMOTE delivery, at any port in the United States or Canada, and always at the very lowest current market prices. We are also prepared to supply

BESSEMER STEEL RAILS,

of American and Foreign manufacture, rolled to any desired pattern and weight per lineal yard, and of approved lengths. Contracts for both IRON AND STEEL RAILS will be made payable in United States currency for American, and in either currency or gold (at the option of the buyer) for Foreign; when desired, we will contract to supply roads with their monthly or yearly requirements of STEEL OR IRON RAILS, taking their

OLD RAILS IN TRADE FOR NEW

furnished, receiving the difference in cash, and allowing the highest market price for their Old Rails, and, if necessary, receiving the latter after the delivery of the New Rails.

Orders for Foreign Rails, both Steel and Iron, will be taken for transmission by Mail or through the Cable to our

LONDON HOUSE,

58 OLD BROAD STREET,

for execution at a fixed price in Sterling, or on commission at the current market price abroad when the order is received in London; shipments to be made at stated periods to ports in America, and at the lowest possible rates of freights. Address

Improvement of the Telegraph.

One of the great drawbacks heretofore in the efficiency of the Telegraph has been defective insulation. To work a circuit that is free and clear of escape is always an agreeable and pleasant occupation, while operating one that is ever changing and requiring continued adjustment of magnets is one of the most annoying and patience trying. Many of our railroads have improved their telegraphs during the past season by the use of the Brooks Insulators. With this invention much of the time formerly spent in adjusting the magnet can be devoted to other, and clerical duties, besides the liability to error is infinitely lessened. The galvanometrical tests and measurements of the amount of leakage show not as much escape over a line of one hundred miles in length, where the Brooks Insulators are used in a very wet day as over one insulator of the ordinary kind, and that there is more leakage over the ordinary insulator in a clear frosty day than over the Brooks in the most humid weather.

Richmond and Danville Railroad.

The earnings of this road for the fiscal years ending September 30, 1867 and 1868, were as follows:

	1866–'67.	1867–'68.
From passengers	$200,428 91	$182,650 63
" freight	399,500 93	368,000 92
" express freight	23,544 15	18,911 54
" U. S. mail	13,072 58	13,462 48
" telegraph line	3,115 66	994 82
	$639,662 23	$574,020 39
The ordinary expenses were:		
Repairs of road	$102,751 47	$98,898 02
" bridges	9,287 41	11,837 01
" buildings	5,691 66	5,537 45
" locomotives	17,646 64	17,122 07
" cars	22,575 01	28,699 29
" machinery	4,795 25	4,274 14
Passenger train exp	21,001 27	17,982 04
Freight train expenses	23,762 62	23,081 24
Fuel account	30,657 07	31,775 27
Oil, tallow and waste	5,025 18	3,977 75
Depot expenses	47,910 85	47,373 23
Telegraph expenses	7,254 14	4,253 85
Miscellaneous exp.	20,230 85	23,953 99
Losses and damages	9,649 88	6,191 24
Salaries of officers, etc.	15,778 01	17,750 10
Insurance	6,070 06	6,123 68
Internal revenue tax	9,363 82	6,099 32
	$359,451 19	$354,929 69
Earnings less expenses	$280,211 04	$219,090 70

The extraordinary expenses of 1866–'67, not included in the above, were $123,618 44—making the total expenses for that year $483,069 63. The expenses of 1867–'68, as above stated, include the following amounts on extraordinary account:

New depots and fixtures to replace those destroyed during the war	$8,119 94
New rails, spikes, chairs, and labor relaying track	16,149 85
New bridges	804 28
Total	$25,074 07

It will be seen that the total expenses of the past year are less than the ordinary working expenses of the previous year by $4,521 50; and are less than the ordinary and extraordinary expenses of that year combined by $128,139 94. The net earnings, therefore, notwithstanding a falling off of $65,641 84 in the gross receipts, show an increase of $62,498 10. The President in his report says:

The usual and necessary improvements of track and roadway have been effected, maintaining the progress heretofore made towards the restoration of the line to that standard of thorough repair which is regarded indispensable to its safe and economical operation. About 90,000 cross ties have been put on the line during the year, being about 20,000 more than the average quantity ordinarily required for the same period. About three miles of new rail have been put down during the year east of Powhatan station, and the track materially repaired on various other sections of the road. The large and costly Howe truss bridges erected since the war over the James, Appomattox, Roanoke, and Staunton Rivers, which have heretofore remained uncovered on account of the company's limited resources, have, during the present fall, been put under cover, and will in a few weeks be entirely protected, and in a condition of completeness and safety. Heavy trestles have been replaced at Belle Isle, the State Line, and other portions of the work. The depots and fixtures along the entire line south of Richmond have been refitted, refurnished, and improved to a condition adequate to the wants of the business everywhere.

Additional sheds and depot facilities at Richmond have been made; with some further extension of these as recommended by the Superintendent in his report, further expenditure in depot construction need not be made until such time as the convenience of the company will allow it.

In reference to the financial interests of the company, the Board are gratified to be able to present to the stockholders a much more satisfactory condition than has existed at any time since the reorganization of the company after the war.

The large and oppressive floating debt which was found to exist, and which had to be made active, has been nearly all paid or funded in the permanent securities of the company. The policy heretofore inaugurated by the Board, with the assent of the stockholders, of the conversion of the old funded debt in its different forms, and of the new floating debt into a single first mortgage consolidated debt, has been successful to a most satisfactory extent. The new consolidated security having nearly absorbed the entire liabilities intended to be embraced by it; thus relieving the company not only from the high rates of interest which it was compelled to pay upon its large floating liabilities as they then existed, but what is of greater consequence to the stockholders, permanently securing its credit from that perilous exposure which it necessarily suffered in every monetary panic under the burden of current demands of so large an amount.

Under directions of the Board and the personal supervision of the President, sales of the new consolidated bonds were effected in the early part of the year to an amount which, together with

the business income of the road, enabled the company to sink its floating debt to a sum manageable at the pleasure of the company; the balance on account of bills payable and receivable, as appears from the Auditor's report, being on the 30th day of September, 1868, $47,979, so that for some months past the company has been fully, and it is hoped forever, relieved from the dangerous necessity of dependence upon the current market as a borrower of large sums upon its own securities, as collaterals, involving the risk of great loss from unforeseen pressures, and even of insolvency from combinations against its credit. The aggregate amount of these bonds issued and disposed of for this purpose, is $760,500, at rates averaging from 64 to 70.

The general result to the company's credit from this permanent adjustment of its liabilities, effected as it has been under circumstances of almost unparalleled difficulty, has been to establish a fixed market demand for its securities as desirable investments, and sensibly to strengthen the demand for the stock also. The arrearages of annuity to the State which the company have been unable heretofore to touch since the war, accumulated from the first day of January, 1865, to the first day of July, 1868, inclusive, amounted to the sum of $168,000; of which during the present year and up to the present time, $126,000 has been satisfied by payments from the business income of the company.

The following statement is intended to represent a complete exhibit of the financial condition of the company at the close of the present fiscal year:

For Funded Debt:		
Consolidated first mortgage bonds issued		$1,706,500 00
Guaranteed and other mortgage bonds convertible into same		251,700 00
Bonds to Roanoke Valley Railroad not mortgaged		160,800 00
Annuity to State of Virginia of $42,000, to run until 1887, 2d mort.		
		$2,119,000 00
For Unfunded Liabilities:		
Bills payable	$52,491 21	
Amount due for old dividends	7,983 99	
Interest due on part of mortgage bonds uncalled for	56,621 22	
Balance due State of Virginia on account of unpaid annuity	56,773 79	
		178,870 21
		$2,292,870 21
Less—		
Cash on hand Sept. 30,'68.	$9,047 08	
Bills receivable	4,512 21	
Balance due from Piedmont Railroad Co.	186,263 01	
Balance due company on sundry accounts, per ledger	27,692 17	
Balance due from State of Virginia on subscription	11,401 50	
		238,915 97
Balance of debt to date.		$2,053,954 24
To which may be properly credited:		
The present value of 186 shares in the Richmond and Danville Railroad Company now held by the company	$3,360 00	
14,885 shares of stock in Piedmont R. R. Co.	1,488,500 00	
		1,491,860 00
		$562,094 24

It will be observed, that notwithstanding the aggregate tonnage has increased 7,041 tons over that of last year, the gross earnings from tonnage have decreased $36,500.

This results from the reduction of the tariff of tolls that went into effect on the first of March, 1868. It will be remembered that at the meeting of stockholders in December, 1866, a committee was appointed to take into consideration the subject of tariff charges, and report to the next annual meeting.

This committee submitted their report at the meeting of December, 1867, urging a further reduction of rates, which was adopted. In compliance with this expression of the wishes of the stockholders, the general rates were in March last materially reduced, as far at least as was deemed by the Board compatible with the important interests of the company, and with reference as a paramount consideration, to maintaining the income of the company at a standard of self-support.

The results of the year show, that the concessions thus required to be made for the relief of the country, have been carried as far as a prudent regard for the safety and good management of the company and its credit will allow. The existing rates compare favorably in cheapness and uniformity with any that have prevailed on the road at any period, and with those which now prevail on any well managed line in the South.

The condition of the country on which your road is dependent for earnings, in common with other sections of the Southern States, is anomalous and difficult, and its business consequently variable in character and reduced in amount; indeed, altogether incapable at present of its ordinary maximum production.

It is hoped and expected, that this state of things is soon to be exchanged for one of restored confidence and renewed energy in all the departments of industry.

This necessarily brings with it the fruits of increased business and income to your road.

A review of the last three years shows a steady increase of the business of the company through each successive year, and this, notwithstanding the seasons have continued most unfavorable for the production of all the crops that largely make up your tonnage, except only tobacco; this alone has yielded something like its ordinary volume of business. The wheat tonnage has materially increased during the past year; of which however a large part has been drawn from Southwest Virginia and Tennessee, out of which this road receives only a short and cheap transportation.

The indications are, that with a return of the ordinary seasons, the wheat tonnage of the line will be heavily and permanently increased. During the past fall a much larger surface has been seeded in the country tributary to your road, and more attention bestowed on the character of the seed and other circumstances, which give promise of the usual profitable yield. From the enlarged district of country now drained by the line, extended as it is for fifty miles in the State of North Carolina, the wheat transported over this road to the city of Richmond should not be less than 500,000 bushels in a season of ordinary fruitfulness of this important cereal. In 1867, the entire wheat transportation was 53,338 bushels, and during the past year 163,735 bushels. It is hoped that this amount will be more than doubled in the business of the ensuing year.

The Piedmont road is continued to be operated under lease to this company, on the same terms and in the same manner as heretofore reported to and approved by the stockholders. No reason exists for the interruption or modification of this arrangement, and its continuance is therefore recommended. The business derived to the company through the connections of the Piedmont road has not as yet approximated the proportions and value which must ultimately be realized from it. The causes which have retarded it are being constantly removed, and, as far as practicable, through the co-operation of this Board. Success in developing these connections is of paramount importance to your interests in the future. When developed, their value to this road cannot well be computed. Details of the prospects in this regard cannot be appropriately here given; but it is not doubted that, under the policy being pursued by the Piedmont Company, in connection with other lines South having a common interest with us, the day is not remote when the Piedmont line will yield an immense contribution as well to your tonnage as your travel.

Within a few weeks past the Richmond and York River Company have resumed active work in replacing their track between the White House and West point, with every prospect of ability to continue it to completion up to West Point, within a reasonably short period. With this prospect, the mutual interests of both companies require that a track connecting their respective depots shall be built. Under authority heretofore conferred by the stockholders, the Board of this company have agreed to construct such connecting track, with a view to continuous transportation over the two roads, both being now of corresponding gauge. Preliminary surveys have been made, and it is deemed the interest of this as well as of the York River Company, that this work shall be commenced at once. Its value and importance to us need not be at present further enforced.

In roadway, buildings and equipment, the entire line from Richmond to Greensboro' may now justly be said to be in a condition of thorough efficiency for service, and capacity for economical operation. What is now wanted is business—more tonnage and more travel. To secure this, an intelligent management will direct its best energies.

In respect of local and wayside business, there is every reason to expect that the supporting country will continue to afford an increase of contributions in a ratio greatly accelerated over that of the last two years. Industry of almost every kind is getting into better organized and more successful operation. Population and capital from adjacent and foreign States have commenced their long desired advent and settlement among us; and as the cloud of disordered politics passes away, the light of renewed confidence, free circulation of capital, and hopeful energetic enterprise reappears, with its invariable sequel of general prosperity and content.

In respect of foreign or through business, your line is entitled by position to a still more rapid growth. To develope it in its natural and legitimate proportions, no practicable effort has been spared during the last three years. Much has been accomplished towards ultimate success; but much yet remains to be done. The magnitude of the interests at stake should allow no remission of effort. The recent opening of the Columbia and Augusta road from Columbia, South Carolina, to Graniteville, a point on the South Carolina road, twelve miles east of Augusta, has already given you the short line by about 70 miles between Southern and Central Georgia, and adjacent localities, and Richmond, and the Northern cities. When so organized as to give this line a fair competition for the travel, this improvement must afford a valuable accession to your business.

But a still more important development to us is the Air Line road between Atlanta, Georgia and Charlotte, North Carolina. This work is rapidly assuming, in the public regard, its just proportions of a great inter-state enterprise of immense value and importance to great and vital interests, both local and general. These most reasonably look to its construction with increasing interest, as destined to afford, with its connections—of which your line is a leading part—a channel of communication unrivalled in directness, grades and climate: one by which, not only are the trade relations of the great commercial centres of the North with the interior and remote South to be placed under new and most beneficial forms, but also a great interior development to be effected, and a grand trunk thoroughfare organized for six hundred miles, through the heart of the Piedmont Atlantic slopes—a country the most desirable for reasonable thrift and social happiness

that the white man has yet found on this continent.

This important work it is expected will soon be in active progress, and in such relations to this company as to secure forever your impartial access to the immense business it is destined at some time in the future to contribute to its eastward connections.

In conclusion, the Board think the period of poverty and extreme peril to your corporate interests has passed, and the dawn of a permanent and increased prosperity arisen. They have labored diligently to hasten its advent, and expect to rejoice with you in its noontide beneficence.

The length of the Main Line between Richmond and Danville is 140.5 miles. Branch to coal yards at Rockett's 1.52 miles. Sidings and turnouts laid 11.25 miles. Total equivalent single track 153.27 miles. The length of the Piedmont Railroad (leased) from Danville, Va., to Greensboro', N. C., is 48.5 miles, or including sidings and turnouts (1.98 miles) 50.48 miles. Total length of main and branch line operated by company 190.52 miles. Total miles of iron, 203.75.

The company have 23 locomotives, 16 passenger, 6 baggage and mail, and 263 freight, etc., cars. Miles run with passenger trains, 138,893; with tonnage trains, 116,091; mileage on road service, 29,536—total, 284,520.

Total number of passengers carried, 85,662; do., carried one mile, 4,086,393. Average amount received per passenger per mile, 4.49 cents; average cost per passenger per mile, 3.28 cents. Aggregate miles run by all passenger, baggage and express cars, 639,969. Estimated weight of passenger trains, including passengers, etc., but exclusive of engine and tender, hauled one mile during the year, 9,595,212 tons. Earnings of do. per ton per mile, 2.188 cents; do., per mile run, $1 50. Average expenses per mile run by passenger trains, 96.60 cents. Total earnings of passenger trains, $210,024 65; expenses allotted to passenger transportation, $134,171 93—net revenue from do., $75,852 72.

Total number of tons of freight carried, 88,679; do., hauled one mile, 6,123,789. Average amount received per ton per mile, 6.05 cents; average cost per ton per mile, 3.60 cents. Aggregate miles run by all tonnage trains, 116,091. Estimated weight of tonnage trains, including freight, but exclusive of engine and tender, hauled one mile during the year, 17,765,987 tons. Earnings of do., per ton per mile, 2.04 cents; do., per mile run, $3 12.68. Average cost per mile run by tonnage trains, $1 90.15. Total earnings from tonnage, $363,000 92; expenses allotted to freight for the year, $220,757 76—net revenue from do., $142,243 16.

Gross receipts per mile run by all trains, $2 01.75; expenses, do., $1 39.15—net earnings, 62.60 cents. Per cent. of expenses, including internal revenue tax on gross earnings, 61.8; per cent. of earnings, 38.2.

The receipts of the company from all sources, during the year (including $9,172 85 from the previous year,) were $922,460 12; and the disbursements, $913,413 04—leaving a balance of $9,047 08.

The following is a statement of receipts, disbursements and liabilities of the company from its organization, November 20, 1847, to September 30, 1868:

Receipts.		
Capital stock		$4,000,000 00
Loan of the State of Virginia redeemable in about 34 years from April 3, 1853, to Sept. 30, 1854, by payment of annuity of 7 per cent.		600,000 00
Bonds guaranteed by State of Va. due 1875 and 1878		161,600 00
Bonds extended, due 1863		8,000 00
Bonds 4th mort., registered, due '73		53,000 00
Bonds 4th mort., coupons, due 1875		15,000 00
Bonds for funding interest, due 1869 and 1876		14,100 00
Bonds consolidated mortgage, coupons, due 1875 and 1890		1,298,000 00
Bonds consolidated mortgage, registered, due 1875 and 1890		408,500 00
Bonds for Roanoke Valley Railroad Company, due 1869 and 1876		160,800 00
Transportation to Sept. 30, 1867		7,838,794 66
Transportation for the year ending Sept. 30, 1868		574,020 89
Liabilities:		
Interest due on bonds	$56,621 22	
Interest due Board of Public Works as ann'ty	56,773 79	
Dividends	7,983 99	
Bills payable	52,491 21	
Sundry accounts	44,568 93	
		218,439 14
		$15,350,254 19

Disbursements.		
Increase of capital stock		$2,000,000 00
Cost of road and property to 1868.		4,929,000 00
Cost of transportat'n to Sept. 30, '67		5,277,429 48
Cost of transportation for the year ending Sept. 30, 1868, viz:		
Maintenance of roadway and real estate	$118,985 75	
Maintenance of mach'y	50,137 70	
Operating expenses	174,954 10	
Insurance	6,123 68	
Internal revenue tax	6,099 82	
Interest	148,328 83	
Salary	17,750 10	
Lease of Piedmont R. d. 12 months	45,000 00	
		567,379 48
Discount on bonds sold		230,127 68
Dividend account		480,123 10
Fund for redemption of loan of $600,000		86,908 65
Company's stock		7,301 00
State of Virginia due on subscript'n		11,401 50
Piedmont Railroad Co. stock acc't.		1,488,500 00
Piedmont Railroad Co., balance due		186,263 01
Bills receivable		4,512 21
Sundry accounts, per ledger		72,261 10
Cash in banks		9,047 08
		$15,350,254 19

President.—A. S. Buford.

Directors on the part of the State.—W. T. Sutherlin, A. Y. Stokes, Thos. Branch. *Directors elected by Stockholders.*—Wood Bouldin, J. R. Edmunds.

Superintendent.—Thomas Dodamead.

Secretary and Auditor.—John D. Blair.

Treasurer.—E. A. Barber.

Eastern Railroad.

At the annual meeting of this company held in Boston on the 1st inst., the following gentlemen were elected directors for the ensuing year: Geo. M. Browne, Samuel Hooper, Nathaniel Thayer, Franklin Haven, and Benjamin E. Bates, of Boston; Wm. L. Dwight, of Portsmouth; and Henry L. Williams, of Salem. The annual report of the directors was accepted, and placed on file, and a resolution passed authorizing the directors "to issue bonds to an amount not exceeding $1,000,000, in conformity with the statute, for the purpose of providing means to meet the indebtedness of the company."

Supreme Court Decisions.

We give elsewhere the opinion of Mr. Justice Nelson in the case of the Northern Central Railway *vs.* Jackson. In this case the plaintiffs sought to exact from a non-resident alien holder of their stocks the five per cent. income tax imposed by the act of Congress, and a three mills tax authorized and imposed by the State of Pennsylvania, under an act of the Legislature consolidating a Pennsylvania corporation with a Maryland one. The Court held that the internal revenue act does not contemplate the payment of such a tax by non-resident foreign holders; and that the State of Pennsylvania did not have jurisdiction to impose the tax levied in this case, because the corporation was created under the laws of Maryland, and was therefore beyond her jurisdiction.

Mr. Justice Swayne delivered the opinion of the Court in the case of the Pacific Insurance Company *vs.* Frank Soule; on a certificate of division in opinion between the judges of the Circuit Court of the United States for the district of California. In this cause the Court held that it was the duty of the assistant assessors to reduce to their value in currency all returns made in coin, and that the person or the corporation making such return is liable to pay income tax on the amount thus rendered in currency, and that such income tax is not a direct tax, but a duty or excise, and as such obligatory and valid.

In the New York Bank cases, the opinion of the Court was delivered by Mr. Chief Justice Chase. In this cause the Court held that certificates of indebtedness and United States notes or greenbacks, are binding obligations of the Government, and are therefore "securities" in such a sense as exempt them from State taxation, thus reversing the decision of the Court of Appeals of the State of New York.

Railroad from St. Louis to Galveston.

The St. Louis *Republican* says that a proposition is on foot to give St. Louis a new southern railroad connection by building a railroad from St. James, near Rolla, on the southwest Pacific road, through Dent, Shannon, Texas and Howell Counties, in Missouri, thence by Cairo and Fulton Railroad survey, to Little Rock, Arkansas, and thence to Galveston. The authorities of the counties named have signified their willingness to make subscriptions of $2,000 or $3,000 per mile for the line in that State, and subscriptions are being circulated preparatory to organizing a company under the general railroad laws of the State. Such a road, even if it did not promise a through route to the Gulf, would still be of great importance to St. Louis in opening up a portion of the State, now without an outlet for its produce, as well as aiding the development of the iron deposits of Dent County, which are reported to be as rich as the famous ores of Iron Mountain and Pilot Knob. This new route will strike the Cairo and Fulton road near its northern terminus and follow it to Red River, whence it will branch off to Galveston, the prospective route of the Cairo and Fulton, which is but a link in the great International Pacific Railroad to San Blas on the Pacific coast, with a branch from the crossing of the Rio Grande to the city of Mexico.

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of January, were:

ENTERED FOR CONSUMPTION.

	1868.	1869.
Manufactures of wool.....	$573,838	$920,675

The Guaymas Railroad.

The American and Mexican Railway Company has had its concession renewed by the Mexican government. The bill was signed by the President on the 13th of January. This concession was revoked by President Juarez in 1866 under plea of non-fulfillment of terms on the part of the company. It was proven, however, before the Mexican Congress that the terms were fulfilled, and therefore the company is restored to its old footing. The route is two-thirds surveyed, and will run from Guaymas to Presidio del Norte, on the Texas frontier, making with any road that connects with it from the east, a shorter line to the Pacific by 400 miles than that to San Francisco.

Exports of San Francisco.

The exports of merchandise from San Francisco to domestic, Atlantic and foreign ports, during the year 1868, amounted to $22,844,235, making a total since January 1, 1848, of $165,369,926. The exports of treasure for the past year amounted to $36,358,096, making a total since January 1, 1848, of $897,968,267. Adding merchandise and treasure, the exports for the 21 years ending December 31, 1868, reach the enormous aggregate of $1,063,338,193. The details for each year have been as follows:

	Merchandise.	Treasure.	Total.
1848-50*.	$2,000,000	$66,000,000	$68,000,000
1851	1,000,000	45,989,000	46,989,000
1852	1,500,000	45,779,000	47,279,000
1853	2,000,000	54,965,000	56,965,000
1854	2,500,000	52,045,633	54,545,633
1855	4,189,611	45,161,731	49,351,342
1856	4,270,516	50,697,434	54,967,950
1857	4,369,758	48,976,692	53,346,450
1858	4,770,168	47,548,026	52,318,189
1859	5,533,411	47,640,462	53,173,873

Wool and waste.....	3,421,784	2,005,403

☞ Rutland, Vt., has subscribed $400,000 to the capital stock of the Woodstock Railroad Company.

Lease of the Columbus, Chicago and Indiana Central Railway.

This road has been leased in perpetuity to the Pan Handle Company and the Pennsylvania Railroad Company jointly. The terms are understood to be as follows: The lessees are to keep the Road in first class condition, and furnish all the equipment which may be required, without charge to the lessors. All through traffic is to be prorated over the Roads of the three companies; all taxes are to be first paid out of the gross earnings, and the balance of the gross earnings is to be divided, thirty per cent. to the Columbus, Chicago and Indiana Central Railroad Company, and seventy per cent. to the lessees, and the lessees guarantee that the minimum sum produced by the thirty per cent., each and every year, shall be not less than the interest on the entire bonded debt of the Columbus, Chicago, and Indiana Central Company—if in any one year it should be insufficient for that purpose, the lessees are to make up the deficiency without charge to the lessors. The lessees are also to provide for the sinking fund of the Columbus, Chicago and Indiana Central Company for the redemption of its bonds out of their own funds. All existing contracts of the Columbus, Chicago and Indiana Central Company, are assumed and guaranteed by the lessees, and the lease precludes any contract for a division of earnings between the Pittsburg, Fort Wayne and Chicago and Pan Handle Companies without the consent of the Columbus, Chicago and Indiana Central Company.

Lease of the Atlantic and Great Western Railway.

This indenture, made this 7th day of December, 1868, between the Atlantic and Great Western Railway Company, party of the first part, and the Erie Railway Company, party of the second part:

Witnesseth, That for the period of twelve years from this date, the party of the first part hath leased and rented, and by these presents doth demise, lease, and let unto the party of the second part, its successors and assigns, the railroad of the party of the first part, and all the land of the party of the first part, from and including Salamanca, in the State of New York, to and including the terminus at Dayton, in the State of Ohio, and at all points in any State or States between the termini of said railroad and all branches or leased lines of railroad which now are or may hereafter be in operation, including all equipment and property of every name and kind belonging to or in anywise appertaining unto said railroad and branches.

And also so much of the franchise and privileges of the party of the first part as may be necessary, or as are usually exercised in and about the operation of a railroad, or may be necessary for the construction, repair and improvement or for the operation of such railroad, or any extension of the same, or any branch or branches thereof, and to collect, demand, and receive tolls and emoluments thereof during said term; and all such franchises as are usually exercised by railroad companies in protecting and securing to itself the full use and enjoyment of such railroad either in the States of New York, Pennsylvania or Ohio.

The party of the first part reserves to itself the franchises of being a corporation and of keeping up its organization, and the right to defend and maintain suits, and to take all requisite steps for the protection of its rights as a corporation, and of its shareholders.

Said party of the second part paying, or causing to be paid, as and for rent of the aforesaid railroad property and premises, thirty per cent. of the gross earnings of said line and branches, as now, or hereafter in operation, and as hereby demised, such payments to be made quarterly on the 15th days of April, July, October and January, at the office of the party of the second part in the City of New York.

And the party of the second part agrees that it will use all reasonable efforts to develop and increase thereby both the local and through business of the said demised railroad and branches.

And whereas, by a decree or order of the court of Common Pleas, in the County of Trumbull and State of Ohio, made in November, 1868, in the case of Samuel Gurney and others, against the Atlantic and Great Western Railway Company and others, the same decree or order in the same action being also made by the Supreme Court at Special Term of the State of New York, held at Buffalo on the 22d day of October, 1868; the same decree having also been made in the State of Pennsylvania; by which said orders and decrees it is provided that the debts of the Receiver in said action, as per schedule hereto annexed, must be paid before a delivery of the said railroad and its property can be made by said Receiver over unto the officers of the said Atlantic and Great Western Railway Company; and whereas the party of the second part has advanced and paid, said moneys as provided in said decree:

Now, therefore, the said party of the second part is, by these presents, placed in the stead of the said receiver, with the same rights to protect itself for the moneys thus advanced to pay the said receiver's debts, as the said receiver now has or could have, with all the rights, privileges and privities of the said receiver, to secure the said debts now paid by the party of the second part; and the said party of the second part hereby has a prior right, and a mortgage lien upon the said demised property and franchises of the party of the first part, to secure the party of the second part for the cash advance above mentioned.

Provided always, that if the rent above reserved, or any part thereof, shall remain unpaid for sixty days after any day of payment when the same ought to be paid as herein agreed, then and from thenceforth it shall be lawful for the parties of the first part, their successors and assigns, having first repaid the moneys advanced by the said Erie Railway Company as above specified into and upon the said demised premises and property of every kind, and every part thereof, absolutely to reenter and remove all persons therefrom, and the same to have again, repossess and enjoy as in their former state; anything herein contained to the contrary notwithstanding.

And thereupon this indenture, and all the provisions herein contained and the estate herein created, are by these declared to be and the same shall be henceforth forfeited, and shall cease and determine, except so far as to enable the parties of the first part to collect the rent due or unpaid up to the time this indenture is so forfeited and determined; and also any damages the said party of the first part may sustain by reason of the failure of the party of the second part to perform this lease or any of its covenants; and the said parties of the first part may thereupon forthwith actually reenter and take and keep actual possession of the said demised premises and property, and each and every part thereof, without delay or legal process.

The said parties of the second part, and their successors, agree to pay, bear and discharge all taxes and assessments of every name and kind which may be lawfully levied, assessed, or imposed on said demised premises and property, or on the use or occupation thereof, or on the income the party of the second part may receive or derive therefrom, and have the parties of the first part harmless therefrom, and the demised premises and property from sale or forfeiture for the nonpayment thereof. The said second part will hereafter, at their own expense, maintain and keep in operating condition the said railroad, and everything therewith connected or which properly belongs to the said railroad of the party of the first part, using the same in a legal and proper manner, and doing all the acts for the preservation of the franchises, rights, property, and interest of the said Atlantic and Great Western Railway which good faith, fair dealing, and the laws require.

And the said parties of the second part, their successors and assigns, hereby agree, that at the expiration or other sooner determination of the term hereby granted, they will surrender said railway with all the depots, stations, shops, grounds, buildings, structures, appurtenances, engines, machinery, equipments, and all other property hereby demised to them under and by virtue of this indenture, in as good state and condition as when they received the same; but the party of the second part is not bound to surrender or return any property to which the title of the party of the first part may have terminated, unless said title shall have been again invested in the party of the first part at its own expense.

And it is mutually agreed by the parties hereto, that if any difference of opinion shall arise as to the true intent and meaning of this contract, or as to any difference which may arise under it in any manner legitimately connected herewith, that all such questions, disputes, and differences shall be referred to three arbitrators, one to be chosen by the party of the first part, one by the party of the second part, and a third by the two chosen as aforesaid, and the decision of a majority of said arbitrators, given in writing and signed by two of the said arbitrators, shall be binding and final upon the parties hereto.

Possession of the demised premises is to be delivered to the party of the second part on the final execution of this agreement.

In witness whereof the parties hereto have caused their corporate seals to be affixed, the day and year first above written, and the signatures of their Presidents and Secretaries to be hereto signed.

(Signed) HENRY G. STEBBINS,
President of the Atlantic and Great Western Railway Company.
(Attest)—W. ARCHDALL O'DOHERTY, Secretary.
JAY GOULD,
President of the Erie Railway Company.
(Attest)—H. N. OTIS, Secretary.

Columbus and Xenia Railroad.

The Cincinnati *Commercial* states that the Columbus and Xenia Railroad has been leased to the Little Miami Railroad, and this lease has been confirmed by the stockholders of the former. These roads have heretofore had a close running arrangement, with two Boards of officers and directors. Hereafter they will be operated as one road. It is generally understood, however, that this step is preliminary to a lease of the entire road—from Cincinnati to Columbus—to the Pan Handle Company, which is owned by the Pennsylvania Railroad Company.

☞ The Susquehanna Canal Company have sold to the Columbia and Port Deposit Railroad Company the old canal property along the east side of the river, extending northward from Port Deposit some ten miles to Bald Friar Ferry. Price $13,000.

☞ The Williamsport *Standard* says that the Pennsylvania Railroad Company, having previously purchased the West Branch Canal, has recently bought the line up to the North Branch, and purpose deepening it, and otherwise increasing its capacity for business.

☞ A proposition to build a railroad from Carlisle in Nicholas Co., Ky., by way of Cynthiana and Georgetown, to Frankfort, is being agitated in all those places.

☞ Work has been commenced on the Passaic and Peapack Railroad at Bernardsville, Somerset Co., New Jersey.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, February 6, 1869.

Stock Exchange and Money Market.

The Money Market has shown more activity since our last. The available supply of Money has been liberal; but the speculative, as well as the mercantile, demand has been on an enlarged scale, and rates have been well supported at 6@7, generally at 7 per cent. on call, and 7@9 per cent. per annum in the discount form. The banks made a less satisfactory exhibit, in their last weekly return, having reported a loss of $115,701 in the deposit line, and $1,079,274 in the specie reserve. They made an addition of $725,450 to their legal tender average, during the week, and of $216,490 to their loan and discount footing. These variations, however, have not been deemed of importance. The change to ease is more gradual than that which occurred this time last season, when the loans and discounts were expanded eight millions for the week ending Feb. 1, 1868. The Banks are showing, at present, a commendable caution in view of the fact that, while they temporarily hold nearly four millions more gold, they return ten and a half millions less in greenbacks than at the beginning of February last year. The domestic exchanges are generally in favor of New York, or if adverse, as at New Orleans, the difference is too slight to require the transmission of currency from New York. Trade shows, for the week past, some improvement in the line of exports, and we learn that freight engagements to a fair extent have been made for cotton chiefly per steamer to Liverpool. The market begins to exhibit signs of responding to the recent speculation on this side. The U. S. Sub Treasury reduced its cash balances, about three millions, last week, and about 4¼ millions in all January, holding at the close of the month $83,673,755, against $87,901,161 at the beginning of it.

The specie reserve of the city banks is now $27,784,923, against $23,955,320 same time last year. The city bank deposits are now $196,985,462, against $213,330,524 week ending Feb. 1, 1868 The legal tender reserve amounts to $54,747,569, against $65,197,153 same time last year. The circulation now stands at $34,231,156, against $24,068,321 same time last year. The loans are now $265,171,109, against $266,415,613 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $103,226,716 a day, against a daily average of $111,872,424 the preceding week, and $112,682,602 the week ending with Jan. 13, 1869. The current week's exchanges average about $119,450,000 a day. The city banks, last week, lost $1,079,274 of specie, $115,701 of deposits, while they gained $725,450 of legal tender notes. They increased their loans, $216,490; and reduced their circulation, $34,790.

National Bank notes to the amount of $201,200 were issued last week by the Treasury Department, making the total issue to 1,685 banks thus far, amount to $312,128,026, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $12,382,260, leaving, with the existing 1,626 banks, (having an aggregate capital of $418,858,931,) an actual circulation at this date, of $299,745,766. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,570,600; and for the public deposits, $35,047,350—making a total of $377,617,950. The Treasury Department last week redeemed and destroyed $741,600 of worn and mutilated fractional currency, and issued $1,054,377 of new. The outstanding amount of fractional currency on the 1st of January, 1869, was $34,215,716, against $33,875,268 on the 1st of December, 1868.

The average amounts of the Gold Exchange Bank loans and discounts last week was $1,375,589, average amount of specie $1,344,083, average amount of deposits $1,919,190.

The U. S. Sub-Treasury receipts, week ending with Jan. 30, were $7,097,628, including $2,246,626 from customs duties; payments, $10,024,455, including $1,825,887 of coin interest; balance at the close of the week, $83,673,727, against $86,600,554, at the close of the preceding week, showing a decrease of $2,926,826. The business of the Office during the first two days of the current week, was as follows: Receipts on Monday, $741,273 including $305,000 from customs; and payments, $916,726, including $263,000 of coin interest; on Tuesday, receipts, $1,189,606 including $387,000 from customs, and payments,

$674,007, including $137,315 of coin interest. The balance at the close of business on Tuesday stood at $84,015,873, against $86,977,180 a week previous; and $88,298,837, on Jan. 13, 1869. The aggregate receipts of the office in January were $60,627,079, including $9,702,416 from customs, aggregate payments, $61,854,493, including $18,543,453 of coin interest.

The outstanding amount of coin certificates on the 1st of Jan., 1869, was $27,036,020, against 23,255,840 on the 1st of Dec., 1868. The Sub-Treasurer at this port issued, last week, coin certificates to the amount of $946,600, and retired $2,171,628 through the receipts for customs. The coin certificates issued by the Sub-Treasury office, during January, reached $10,964,000.

The revenues of the Government yielded fairly last week again, particularly in the form of customs. The excises, last week, yielded about three millions; customs at the port of New York, $2,246,626, and at the outports about $750,000 (in coin) more, making the grand total income for the week equal to about $7,120,360 in currency. The total receipts of the National Treasury, from excises, during the fiscal year ending with June 30, 1868, were $191,180,564. The receipts from the same source, thus far in the current fiscal year, commencing with July 1, 1868, have been about 84½ millions, according to the latest Washington advices.

Gold has been more freely dealt in, through the past week, chiefly by speculative operations for both higher and lower figures, especially on Monday and Tuesday.

The offerings of gold on Monday through a single brokerage firm were some four millions, which had the effect of weakening the price materially. Late on Monday, a brisk purchasing demand set in, leading to a sharp rally in the premium. On Wednesday, the dealings were on a less extensive scale, and the market exhibited less buoyancy. The range for the week was from 135¼ to 136¾, and the latest quotation on Wednesday was 135⅝. The exports last week were a little less than a million. Thus far in the current week, the shipments have been $536,000 on Tuesday, and none on Wednesday. The Government income in coin from customs at this port in January was nearly 2½ millions more than in January of last year, the aggregate having been $9,702,416, against $7,204,590. The coin certificates issued by the office in January reached nearly 11 millions; and the coin interest disbursements, about 18½ millions.

The customs demand for Gold last week, averaged $357,771 a day; thus far, this week, it has been equal to $346,000 a day, or equal to a weekly aggregate of $2,076,000. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $13,199, and since Jan. 1, $141,732 against $277,783 same time in 1868. The receipts from California, last week, were $473,172. The total customs revenue of the Government, in coin, at this port, from July 1, 1868, to date was $69,445,951, against $64,308,723 same time in the preceding fiscal year. At the port of San Francisco in 1868, $8,382,329, against $7,622,827 in 1867.

The total receipts of California gold at this port, since July 1, 1868, have been $13,923,282, against $19,712,441 same time in fiscal year 1867–'68, showing a decrease in the current fiscal year, of $4,789,159. The exports of specie, from this port, last week, were $962,907, against $169,100 same week last year; total, since July 1, 1868, $25,023,378, against $34,536,617 in 1867–'68. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $1,825,887; since July 1, 1868, $61,234,802, against $49,465,520 same time in 1867–'68. The specie exports from San Francisco, from Jan. 1, to Dec. 31, 1868, were $36,358,091, against $48,224,237 same time in 1867.

There has been a fair inquiry most of the week for prime drafts of foreign exchange at a trifle stronger prices for bankers' sterling bills, the offerings of which have not been notably extensive. Bankers' prime sixty day bills on London closed on Wednesday at 109⅝@109⅞, and on Paris to 5.18¾@5.15; sight bills on London to 110@110⅜, and on Paris to 5.12½c.@5.11¼. The offering of produce bills has been more liberal this week. The week's exports of domestic produce and miscellaneous goods from this port have been to the currency value of $3,705,274, against $3,218,000 same week last year; total, since July 1, 1868, $94,404,197, against $107,721,089 same time in preceding fiscal year of 1867–'68.

Government securities have been less sought after by all classes of buyers, and have been consequently less firm and less buoyant in price; but the offerings have been comparatively limited, and there has been no pressure to sell on the part of regular holders; though some operators for lower figures, have been endeavoring to depress the market, with, however, nothing like encouraging success for their interest. The latest dealings were indicative of reviving vigor, both as regards the magnitude of the business, and the course of prices. The market was particularly strong for the exportable bonds on Wednesday. In these bonds, a rather extensive *short* interest was said to be in urgent need of protection, and that the recent efforts to manipulate the market both at home and in Europe were designed to benefit the *short* sellers.

U. S. sixes of 1881 closed here on Wednesday at 112¼@112½; U. S. Five-twenties of 1862, 113⅜@113½; U. S. Five twenties of 1864 at 109⅝@109¾; U. S. Five-twenties of 1865 at 110¾@111; U. S. Five-twenties of 1865, consolidated, 108½@108¾; U. S. Five-twenties of 1867, 108¾@108⅞; U. S. Five-twenties of 1868, 108⅞@109⅛; U. S. Ten-forties at 108½@108⅝; U. S. Six per cent. currency bonds, 101⅞@102¼.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 20.	Jan. 27.	Feb. 3.
Consols	93⅛	93¼	93¼
U. S. 5-20's of 1862	75¾	75⅞	76¼
Erie	26½	26½	25½
Ill. Central	93¼	92¾	93½

Railway and miscellaneous stocks have been in active demand, most of the week, at, on the whole, well maintained and generally buoyant prices. On Monday, the Boards formally enforced the rule recently adopted of calling only such stocks as had provided trustworthy places of registry, within easy reach of the brokers.

A fairly active business has been reported in domestic produce, particularly in Cotton and Provisions, which have improved in price. Breadstuffs have been depressed, under more liberal offerings. Middling upland cotton closed buoyantly on Wednesday at 30cts@30¼cts per lb. The stock of cotton now here is estimated at about 56,000 bales. The receipts at the port this week, have averaged about 4,000 bales a day. The receipts at all the ports, since Sept. 1, 1868, have been 1,345,000 bales, against 1,231,000 bales same time in 1867–'8; exports, same time 673,000 bales, against 713,000 bales same time in 1867–'8; stock on hand at latest dates, 339,000 bales, against 355,000 bales same date 1868. Total crops of 1867–'8, 2,430,893 bales; total receipts at ports year ending Sept. 1, 1868, 2,240,282 bales; total exports thence, same time, 1,657,015 bales. The exports of domestic cotton goods from this port, since Jan. 1, have been 691 pkgs., against 555 pkgs., same time last year. From Boston, 807 pkgs., against 1,843 pkgs. same time in 1868. At the Live Stock markets, this week, Beeves have been in less demand and depressed in price, ranging from 10@17c. per lb.; week's receipts, 5,805. Milch cows ranged from $40@110; receipts, 101. Veal calves plenty and in less request at 9@13c. per lb.; receipts, 834. Sheep and lambs less sought after at from 5@7¾c. per lb.; receipts, 32,130. Swine in light supply and demand at from 11@11¾c. per lb., all live weight; receipts, 7,860. Foreign merchandise has been in good request, especially Groceries and Hides, which have been held with more confidence. The total imports of foreign dry goods, last week, were $2,734,227, and the total amount marketed $2,857,111. The value of foreign merchandise imported last week, was $2,496,120—making the grand total specie value of last week's imports of dry goods and merchandise, equal to $5,230,347, against $3,947,594 same week last year; total since July 1, 1868, $140,990,398, against $130,922,984 in 1867–'8. A moderate business has been noted in the ocean freight line, the market closing more firmly. For Liverpool we quote flour at 1s. 9d. by sail, and 2s. by steamer, per bbl.; grain at 6½d.@7d. by sail, and 7d.@7¼d. by steamer, per bushel; cotton at 3/16d.@¼d. by sail, and ¼d.@⅜d. by steamer, per lb.; and heavy goods 17s. 6d.@27s. 6d. by sail, and 25s.@45s. by steamer, per ton. Total number of vessels in port on Wednesday, 466.

The New York exports, exclusive of specie, for the week ending Feb. 2, and since the beginning of the year, compare as follows:

	1868.	1869.
For the week	$3,218,009	$3,705,274
Prev. reported	13,360,704	11,071,919
Since January 1	$16,578,713	$14,777,193

The imports for the week ending January 30, and since the beginning of the year, have been as follows:

	1868.	1869.
Dry goods	$1,321,855	$2,734,227
Gen. merchandise	2,625,769	2,496,120
Total for the week	$3,947,624	$5,230,347
Previously reported	9,557,989	15,356,187
Since January 1	$13,505,613	$20,586,534

The balance in the Sub-Treasury on Wednesday was $84,119,970 70.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

THE FIRST MORTGAGE, FIFTY-YEAR CONVERTIBLE BONDS of the ROCKFORD, ROCK ISLAND and ST. LOUIS RAILROAD COMPANY, pay the PRINCIPAL AND SEVEN PER CENT. INTEREST—1st FEB. and 1st AUG.—IN GOLD COIN, *Free of Government Tax.*

The bonds are offered at 97½ and accrued interest in currency. Persons subscribing now will save the premium on the coupon payable Feb. 1st, proximo, equal to a reduction of one per cent. in the price of the Bonds.

Pamphlets with maps giving full information, sent on application.

All Bonds subscribed for sent by Express free of charge.

The Bonds may be had of H. H. BOODY, Treasurer, 12 Wall street, or of HENRY CLEWS & CO., Bankers, 32 Wall street, New York.

Railroads in Georgia.

The Augusta *Chronicle* of yesterday states that a prospect, and a strong one, too, exists of having Macon and Augusta united by rail, thus cutting off Savannah, to some extent, and detracting from her carrying business.

The firm of Dabney, Morgan & Co., the large capitalists of New York City, who have advanced the funds for constructing the Macon and Brunswick Railroad, had, we understand, an agent in this city a few days since, who came here to confer with Presidents King and Magrath, of the Georgia and South Carolina roads, on this subject. His proposition, as we understand it, is that these capitalists will procure the money and build the road from Milledgeville to Macon for the sum of six hundred thousand dollars—twenty thousand dollars per mile—and take in payment for the work the bonds of the road at ninety cents on the dollar, provided that these bonds receive the indorsement of the Georgia and South Carolina Railroads. We must confess that there is nothing unusually liberal in these terms but still it is the only hope we can see of the building of the road, and we indulge the hope that it may be to the interest of the other two corporations to accept the offer of Dabney, Morgan & Co.—*Savannah Advertiser, Jan.* 31.

☞ The following bill passed both Houses of the Pennsylvania Legislature on the 3d inst., and received the signature of the Governor. It is designed to prevent the New York Railroad Companies from obtaining control of the Pittsburg, Fort Wayne and Chicago Railway:

"It shall be lawful for the Board of Directors of the Pittsburg, Fort Wayne and Chicago Railroad Company, by lot or otherwise, to so classify the members thereof that one-fourth, as near as may be, shall terminate their official terms as directors at the first next annual election. After being thus classified, the stock and boudholders shall elect only members of the Board of Directors necessary to fill vacancies created by expiration of the period of services fixed as aforesaid."

☞ The Locust Mountain Coal and Iron Company announces a semi-annual dividend of 4 per cent., free of tax.

Erie Canal.

RECEIPTS AND SHIPMENTS OF FREIGHT AT BUFFALO, FOR NINE YEARS.

The following is a statement showing the eastward movement of freight in tons from Buffalo by the Erie Canal for nine years:

	Products of the forest. Tons.	Products of Animals. Tons.	Vegetable Food. Tons.	Other Agric'l Prod'ts. Tons.
1860	293,048	3,103	755,549	289
1861	176,325	4,703	1,323,658	491
1862	301,219	35,256	1,575,468	1,163

1868	83,981	108,044	481,759	682,916

☞ A charter was granted by the last session of the New Jersey Legislature authorizing the construction of a railroad from Camden to Medford, in Burlington County. The following gentlemen were designated commissioners to organize the company: Joseph Ellis, Thomas Evans, Lewis L. Sharp, Benjamin D. Shreve, W. R. Braddock, W. Braddock, Wm. Garwood, Jonathan Oliphant, Joseph C. Hinckman, Jacob B. Braddock, Zebedee R. Willis. A meeting to organize and elect directors is to be held on the 13th inst., in Camden.

Coffee Trade of the United States.

The following statement of the Coffee Trade of the United States for the years 1867 and 1868, is from the *N. Y. Shipping List:*

	1868.	1867.
From Brazil, lbs	122,269,650	122,936,403
St. Domingo	6,375,220	4,242,160
Java and Sumatra	6,854,475	5,102,660
Singapore	282,274	790,642
Manilla	537,308	25,720
Ceylon	2,715,165	1,320,950
Maracaibo	11,472,333	6,812,606
Laguayra and Porto Cabello	3,873,430	3,397,020
Jamaica	567,562	995,340
Cuba	4,846	16,400
Porto Rico	422	48,580
Curacao	144,540	145,610
Bombay	181,592	.....
Bolivar City	64,471	19,940
Costa Rica and New Granada	1,793,302	1,092,560
Rotterdam	711,641	175,680
Other ports in Europe	2,503,560	867,450
Other foreign ports	986,852	246,290
Total direct	162,338,643	148,237,011
Received coastwise—		
From Eastern ports	1,371,221	681,460
From Southern ports	724,910	42,880
Total receipts	164,434,774	148,961,351
Total receipts in 1866, lbs		117,204,367
" " in 1865		113,789,187
" " in 1864		118,890,045
Total receipts in U. S. during 1868		238,012,079
Stock January 1st, 1868		37,051,000
Exports in 1868		11,345,460
Stock January 1st, 1869		40,516,682
Consumption of the year		225,200,967

The following shows the consumption at different ports:

Taken from—	1868.	1867.
New York, lbs.	148,220,331	132,335,511
New Orleans	17,288,380	15 076,480
Baltimore	39,800,900	40,507,200
Philadelphia	8,080 360	5,058,910
Boston	4,705,046	5,010,570
Other ports	5,105,920	5,428,000
Total lbs.	223,200,937	203,506,671

The following shows the receipts and consumption of the United States for a series of years:

	Receipts.	Consumption.
1868 lbs.	238,012,079	225,200.937
1867	226,322.811	203,806,871
1866	165,392,983	159,918,881
1865	133,574,397	128,146,356
1864	145,304,957	109,086,003
1863	75,269,417	79,719,641
1862	98,558,680	88,989,911
1861	182,244,627	187,045,786
1860	185,779,689	177,111,923

Railroads in California.

The railroads at present in actual operation within the borders of California are as follows: Central Pacific, Sacramento to State line, 138 miles long; San Francisco and San Jose, 50 miles; California Pacific, from Vallejo to Sacramento, 60 miles; Vallejo junction to Calistoga, *via* Napa, 36½ miles; Sacramento Valley, from Sacramento to Shingle Springs, 45 miles; Central and Yuba, from Folsom to Marysville, 40 miles; Marysville to Oroville, 30 miles; Almeda to Oakland, 20 miles; Petaluma to Rudsill's Landing, 3 miles; total number of miles, 422½. Besides the railroads enumerated, there is one six miles long in Contra Costa County, which is used exclusively to transport coal from the Mount Diablo mines to water navigation.

Journal of Railroad Law.

DUTIES AND LIABILITIES OF COMMON CARRIERS—WHEN THEY CEASE—WHAT IS A REASONABLE TIME AFTER NOTICE—WHEN COMMON CARRIERS BECOME WAREHOUSEMEN—BURDEN OF PROOF.

The case of Goodwin *vs.* The Baltimore and Ohio R. R. Co., decided in our courts a few days ago, is one of the most interesting character, to all common carriers. The facts in the case are as follows:

The defendants herein undertook to convey from Wheeling, Va., to this City, in August, 1865, 650 bundles of sheet iron. There was no dispute that the Railroad Company were common carriers. The iron arrived here about the 4th of September, 1865, by steamer from Baltimore, and was soon thereafter placed on the Company's wharf. On the morning of the 5th September notice was given to the consignees of the arrival of the iron, but the same was not removed until the 9th of that month. Meanwhile a heavy rain storm came on, which had the effect to wet and rust the iron to such an extent that, as claimed by the plaintiffs great damage was done to it. Three bundles of the iron in question were never delivered, as per contract made by the common carriers. Besides, fourteen bundles of the iron, as claimed by the plaintiffs, were lost. The total amount of damage to the plaintiffs was $800.

The defendants gave testimony to the effect that they made efforts to protect the iron by covering it with tarpaulins, &c. On the other hand the plaintiffs adduced evidence to show that, owing to the crowded condition of the wharf, they were unable to get at the iron until the 9th of the month, after all the damage had been done, and that therefore there was no delivery. Counsel for defendants, in reply to this, undertook to convince the court and jury that the giving of notice was a delivery in law; that it was at least a duty incumbent on the plaintiffs to protect the iron by all the means in their power, and they not having done so, by their own showing, a judgment of nonsuit should be granted.

Judge CARDOZO declined so to hold, and charged the jury substantially as follows:

The plaintiffs seek to recover from the defendants, who are common carriers of goods for hire, the value of three bundles of sheet iron, which were lost while in the defendants' charge, and the damages which, they assert, a large number of bundles of sheet iron consigned to them suffered by the negligence of the defendants. So far as the loss of the three bundles is concerned, no dispute is to be made, and * * the plaintiffs will be entitled to recover therefor $29 54. As to the injury to the rest of the iron, the plaintiffs claim that about two-thirds of the whole consignment of 559 bundles was damaged, and as there is no conflict as to the amount of the damage, if the defendant be liable at all under the rules of law, which I shall give you, you will find no difficulty in calculating the amount of your verdict, not to exceed $659. The defendants being common carriers of goods for hire, are responsible by the common law as insurers of the property against everything except the act of God and the public enemies, until their obligation and duty as such carriers terminated. * * * The question disputed by the learned counsel for defendants is, when did their duty as common carriers cease?

Upon that subject I charge you, gentlemen, that that extent of duty and liability continued upon the defendants until the expiration of a reasonable time after notice to the consignees of the arrival of the iron for the latter to remove it from the possession of the defendants, and during the period until such reasonable time has elapsed the plaintiffs were under no duty, except to proceed with due and reasonable diligence to remove the property, and that, of course, includes the duty to endeavor by all reasonable exertion to reach and remove the goods whatever obstructions were there. Whatever you think was reasonable, under all the circumstances in that respect, the plaintiffs were bound to do. * * * But here arises the important question of fact for your determination. Had a reasonable time elapsed before the rain which injured the iron, after notice of its arrival for the plaintiff's to remove it? The term reasonable time must depend upon the circumstances, the character of the property to be removed, the condition of the pier, and such like matters. You must first consider the question of what was the condition of this pier; was it so obstructed by the other freight that the plaintiffs by usual care and diligence could not remove their goods as they claim, or was it as the defendants insist in such condition that the cartmen could get to and remove his goods by taking his stand among the other cartmen, and waiting his regular and reasonable turn as they claim others did. * * * As to so many of the bundles as could have been removed (by reasonable diligence) before the storm, the defendant's duty as common carriers ceased, but as to such bundles, as such time had not expired, the liability of the defendants as common carriers remained. But if you should be of opinion that as to all or any of the iron, a reasonable time for its removal had expired before the storm, still some duty rested upon the defendants. Their liability as insurers ceased, but they were bound nevertheless to exercise some duty as respects the property until the plaintiffs had actually removed it. From the time that the reasonable period for the removal of the goods expired, the defendants' duty and liability became that of warehousemen, which required that the defendants should have exercised over the property and for its protection, ordinary care and diligence; which means that degree of care which persons of ordinary prudence would usually take of such property. And if you find that the period of time had elapsed which, as I have explained to you, would convert the liability of the defendants from that of insurers to that of warehousemen, then it rests with the plaintiffs to satis y you upon the evidence that the defendants did not take that care of this property which persons of ordinary prudence would usually take of such goods; the burden of proof of negligence being then on the plaintiffs. And if you reach this branch of the case you will say whether the plaintiffs have proved that degree of negligence against the defendants. If they have, the defendants will be liable, even though their duty as common carriers was ended.

Under this charge the jury found a verdict for plaintiffs for $659.

☞ Arrangements are being made for the construction of the Houlton Branch of the St. Andrews Railroad. It is confidently expected that work will be commenced early in the Spring.

United States Supreme Court.

NON-RESIDENT ALIENS NOT REQUIRED TO PAY FEDERAL TAXES.

The Northern Central Railroad Company vs. John C. Jackson.—This is a writ of error to the Circuit Court for the District of Maryland. The defendant in error, a foreigner and a subject of Great Britain sued the plaintiff in error for $2,650, the amount of the coupons due on bonds of the company and held by him. Upon demand made the company offered to pay the amount, less five per cent. income tax to the United States and three mills upon each bond reserved to the State of Pennsylvania under the laws of that State. Upon the trial of the case the plaintiff in error gave in evidence the deed of trust or mortgage securing the bonds and the articles of union consolidating into one company corporations chartered by the States of Pennsylvania and Maryland, and the proceedings of those corporations authorizing and assenting to the legislation of the two States effecting such union. The Court was then asked to instruct the jury that by force of the act of Congress holders of bonds, wherever resident, were liable to pay the deduction of five per cent. and also, by the laws of Pennsylvania to pay the three mills additional tax, and on each bond. The Court refused to so instruct, but charged the jury that if they found from the evidence that at the commencement of the suit the plaintiff was the lawful holder of coupons representing interest due on bonds of the defendant held by him, and that the plaintiff, when he purchased the bonds, was a British subject, and resided in Ireland, and that he then resided there, the plaintiff was entitled to recover the amount of such coupons without deductions. The verdict was for the plaintiff, in accordance with the view of the Court. The company brought the case here by writ of error, where it is now held. Mr. Justice Nelson, delivered the opinion of the Court, that, by a true construction of the internal revenue laws, it was not intended to tax the incomes of persons other than citizens of the United States, wherever resident, and of residents, whether citizens or not; hence the stock of the defendant in error was not subject to the deductions made. As to the power of Congress to make a law taxing non-resident foreigners in such case, the Court expresses no opinion. It is also held that the tax imposed by the State of Pennsylvania cannot be exacted because the railroad in question is a Maryland corporation, and the subject for taxation was, therefore, beyond the jurisdictional limits of Pennsylvania. Both debtor and creditor were outside of her territory, and neither of them her subjects. The judgment below was affirmed.

☞ The receipts into the Treasury of West Virginia during the year ending September 30, 1868, (including $4,895 89 from the previous year) were $769,965 62; and the disbursements therefrom $751,395 51—leaving a balance October 1, 1868, of $18,300 11. The receipts for the current fiscal year are estimated at $525,150, and the disbursements at $579,215 67.

☞ The Richmond and York River Railroad has been finished. The rails are all laid, and the cars are now running through to West Point. A heavy force of workmen are engaged in rebuilding the wharf at that place.

Railroads of Iowa.

It will be seen by the following statement than in 1860 there were less than 600 miles of railroad in Iowa; now there are more than 1,500 miles in operation, with nearly a dozen roads, in progress, and some half dozen more in immediate prospect:

	Miles in 1860.	Miles in 1869.
Burlington and Missouri	75	180
Chicago and Northwestern	107	350
Dubuque and Sioux City	100	175
Dubuque Western	30	65
Des Moines Valley	82	165
Keokuk, Mt. Pleasant & Muscatine	25	25
Chicago, Rock Island and Pacific	140	305
Ackley and Eldora	..	22
McGregor and St. Paul	..	70
Minnesota and Iowa Central	..	40
Sioux City and Pacific	..	75
Council Bluffs and St. Joseph	..	70
Total	559	1,542

Including the one hundred miles required to complete the Burlington and Missouri to Council Bluffs, and the fifty miles required to complete the Chicago, Rock Island and Pacific to the same city, which will be speedily done, there will be 1,692 miles of railway in the State, early in the year 1869.

Portland and Ogdensburg Railroad.

This company was chartered February 11, 1867. The amount of subscriptions required by the charter having been obtained, the company have organized by the election of the following named gentlemen as directors: John B. Brown, Andrew Spring, John E. Donnell, William Deering, Samuel J. Anderson, H. N. Jones, F. G. Messer, William Putnam, of Portland, and D. R. Hastings, of Fryeburgh. The city of Portland, in its corporate capacity, has subscribed $714,300, and the citizens individually $266,200 more. Subscriptions in Vermont have so far progressed as to insure the beginning of the work in the early Spring. The subscriptions to the capital stock in Maine amount to between $11,000,000 and $12,000,000. The following is the probable route of the road: Up the east side of the Sebago Pond to Conway, New Hampshire, thence by way of White Mountain Notch to Connecticut River at Littleton or Dalton, thence by way of St. Johnsbury, Danville, Wolcott, Hyde Park, Cambridge, Fairfield and Sheldon to Swanton, Vermont.

The New York Stock Exchange and Open Boa of Stock Brokers on the 30th of November last, passed the following joint resolution:

Resolved, That on and after January 30th, 1869, neither Board will call, or deal in any active speculative stock, of any company, a registry of whose stock is not kept in some responsible bank, trust company or some other satisfactory agency, and which shall not give public notice at the time of establishing such registry, of the number of shares so entrusted to be registered, and shall not give at least thirty days' notice through the newspapers, and in writing to the President of each Board, of any intended increase of the number of shares, either direct or through an issue of convertible bonds, and shall not at the same time give notice of the object for which such issue of stock or bonds is about to be made.

Bangor has issued $250,000 of city scrip to the European and North American Railroad upon the completion of the first ten miles in a satisfactory manner, the city taking a mortgage of the road in return. The construction of the road is being rapidly pushed.

Baltimore and Ohio Railroad.

Under the charter given by Virginia originally to the Baltimore and Ohio Railroad it was provided that the company should be exempt from taxation within the State's limits until its earnings were equal to six per cent. on its cost. A question had, therefore, some time ago arisen as to the company's liability to tax, and the supervisors of Marshall County, West Virginia, brought suit against it. An opinion in the case was recently delivered by Judge Maxwell, of the Supreme Bench of that State. It will be seen that the Court decided all the points in favor of the people and against the corporation:

"The company claimed that, under their charter, they were exempt from all taxation till that part of the road within the State yielded six per cent. net profit on its cost, claiming also the right to include in that cost the five millions paid for the Northwestern Virginia Railroad. The Court decide that this five millions is not a part of the cost of the Baltimore and Ohio Railroad as contemplated by its charter; that its exemption does not depend on the income on that part of the road in the State by itself, but that, in ascertaining the income with reference to the exemption granted in the charter, the 'capital invested' in the whole road from Baltimore to Wheeling is to be the basis of calculation. They decide that, as a matter of fact, the net income on this capital invested did exceed six per cent. the year Marshall County levied her taxes, (1864,) and for several years before; and further, that the net income of that part of the road in this State separately exceeded that figure, not counting the purchase of the Northwestern Virginia Railroad as a part of the cost; so that, even on its own basis, the company is subject to taxation.

"The company claimed that if taxable at all it was only for State purposes, relying on the term 'general taxation' in its charter for this construction. The Court corrects such a construction, holding that the term has a precisely opposite meaning, subjecting the road to taxation for all purposes as contradistinguished from specific or special taxation. The Court therefore holds that the road is taxable for all purposes precisely as the property of a natural person."

Dexter and Newport Railroad.

This road connects with the Maine Central at Newport, and is fourteen miles in length. Passenger trains commenced running over it on the 26th of November last. The road is leased to the Maine Central for thirty years, the lessee to keep it in repair, to furnish the rolling stock, and pay $18,000 per year for its use. The town of Dexter loaned its bonds to aid in the construction for $125,000; the town of Corinna for $50,000; and there has been issued $125,000 of stock, making $300,000 on the cost of the road in bonds and stock, upon which sum the Maine Central pay interest.

Peach Bottom and Oxford Railroad.

The Oxford *Press* says that the route of this new railroad has been surveyed, and considerable interest has been manifested with reference to its early construction. The route conceded to be the proper one, is from Peach Bottom on the Susquehanna River, to a point on the Baltimore Central Railroad near Oxford Borough. A proposition has been made by an engineer to grade the road and erect all the bridges and culverts for $8,000 per mile, a distance of fourteen miles. Two preliminary meetings of the citizens interested in this project have been held and $30,000 has been guaranteed.

Southern Maryland Railroad.

This road will be about 75 miles in length, extending from Point Lookout to Washington. The route of the road is thus described: Leaving Point Lookout, the road will pass through the centre of St. Inigoe's district, and through Factory to Charles County, running parallel with the Patuxent about eight miles west, through Charlotte Hall, Hughesville, Bryantown, Gallant Green, thence near Horse Head and Brandywine, through the "Woodyard," Long Old Fields, and thence to the District line.

☞ The Maryland Central Railroad Company was chartered by the Legislature of Maryland at the session of 1867. The route of the road is from Baltimore to the Susquehanna River, by way of Belair, to connect with the present road to Philadelphia, just completed on the opposite side of the river.

☞ The Philadelphia *Press* gives the following list of roads in progress and projected in the State of Pennsylvania: Wilmington and Reading, Pittsburg and Connellsville, (extension;) Columbia and Port Deposit; Philadelphia and Baltimore Central, (extension;) Plymouth Railroad; Lancaster, Lebanon and Pinegrove; Pennsylvania and New York Canal and Railroad; Northern Railroad and Navigation.

☞ T. W. Briggs has been elected President, H. Voight Treasurer, and J. R. Jaques Secretary of the Monongahela Valley Railroad Company. The choice of a civil engineer was deferred until the next meeting to be held at East Birmingham on the 3d of March.

☞ The work of strengthening and improving the Pan Handle Railroad between Steubenville and Pittsburg, is being pushed forward and at great expense to the company. The trestle work, near Birmingham, has been replaced by masonry, and other parts of the road are being likewise improved.

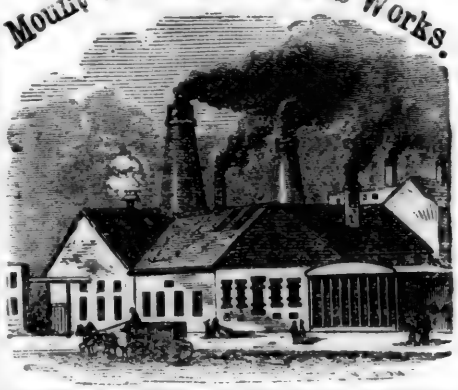
☞ The stockholders of the Cleveland and Mahoning Railroad Company have refused to endorse the transfer of the lease of their road by the Atlantic and Great Western to the Erie company.

☞ The stockholders of the Pan Handle Railroad Company have ratified the lease to that company of the Columbus, Chicago and Indiana Central Railway.

☞ The Cumberland *Civilian* says that the work on the Pittsburg and Connellsville Railroad is progressing favorably, a large force being employed in the neighborhood of Meyers' Mills, Sand Patch tunnel, and other points. The fall of 1870 will doubtless see the road in operation along the entire route from Cumberland to Pittsburg.

☞ The Bethlehem Iron Company has declared a semi-annual dividend of 5 per cent. in cash, payable on and after February 1st, 1869.

☞ Ryegate, Vt., recently voted $18,000 in aid of the Montpelier and Wells River Railroad.



☞ Cambridge has subscribed $15,000 to the Lanesville Valley Railroad, and guaranteed $4,000 more when the road is completed.

☞ Engineers are now engaged in making another survey of the railroad between Murfreesboro and Galatin *via* Lebanon.

☞ The gross receipts of the Baltimore City passenger railway in 1868, were $480,046 30, one-fifth of which, amounting to $96,009 26, was deposited with the City Register, on account of the Park tax. This Company has in its service 479 horses and 78 cars; 1,709,952 miles were traveled, and 10,200,372 passengers carried during the year, 1868, showing an increase over the number carried during 1867 of 1,300,000.

☞ Two hundred miles of the James River and Kanawha canal—about half its proposed length—are finished. The State of Virginia, being unable to construct the remainder, proposes to give the entire work to any company that will complete it.

Mount Washington Glass Works.

MANUFACTURER OF GLASS IN ALL ITS FORMS and varieties. The attention of Railroad Men is called particularly to the *Lantern Globes and Chimneys* produced, which for general good qualities are unexcelled. Railroad Companies, Purchasing Agents, and those interested, would do well to look at sample of these Goods, which will be sent on application. Orders solicited, and all such executed promptly and satisfactorily.

Address,

W. L. LIBBEY,

61 Milk-St., Boston, Mass.

Notice to Bridge Builders.

DEPARTMENT OF SURVEYS,

JANUARY 11, 1869.

In conformity with an ordinance of the Select and Common Councils of the City of Philadelphia—

I hereby invite the presentation of Plans and Estimates for an Iron Truss Bridge suitable to be erected over the River Schuylkill, on the site of the present Suspension Bridge at Fairmount, in said city. The abutments are now erected with a clear span of three hundred and forty (340) feet. The width of Bridge from out to out of footways to be fifty (50) feet, which footways will be not less than eight feet in the clear.

It must be provided with an upper and lower carriageway, the upper to be not more than 35 feet above the bottom of lower chord, or less than 28 feet above the lower roadway—the lower roadway to be not more than seven feet above the bottom of lower chord or it may rest upon the lower chords.

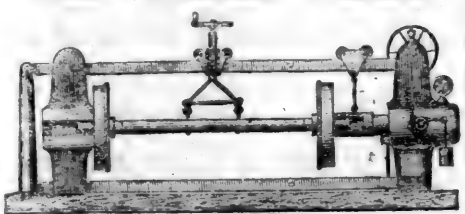
The entire structure to be of iron, excepting the flooring of the road and footways; to be proportioned for a weight of seventy-five pounds per square foot upon each roadway, including the footways. All wrought iron to be proportioned to resist a tension of 60,000 pounds, with a factor of five for security in large bars, and six for the small bars or rods.

A full and detailed estimate of quantities and cost will be required to accompany each plan.

The conditions of the Ordinance are, that the plans herein called for shall be submitted to a Commission of three Civil Engineers, in conjunction with the Chief Engineer and Surveyor of the city of Philadelphia—the best three of the plans to be retained by and become the property of the city of Philadelphia, for which they will be paid in order of merit, as may be determined by the Commission —800, 500, 300 dollars respectively. No design for a Portal will be required.

All plans must be deposited with the subscriber on or before the 1st day of April, 1869, at the Department of Surveys, 224 SOUTH FIFTH STREET, Philadelphia, with letter, giving the address of the Designer. Map and Profile of location may be seen at the Department of Surveys.

STRICKLAND KNEASS,



314 Chief Engineer and Surveyor.

Norfolk and Gt. Western Railroad.

The Danville *Times* says that an agent of European capitalists has for several days been negotiating with the officers of the Norfolk and Great Western Railroad for building the whole or a large part of the road. The company, however, does not seem to have assets enough to induce the agent to close the contract. The engineers have been engaged in making the preliminary survey for the location of the ten miles of the road west of Danville.

☞ The following gentlemen have been elected directors of Woodstock Railroad Company: P. T. Washburn, Frederick Billings, Albert G. Dewey, Charles Dana, Francis W. Clark, Lewis Pratt, Frank N. Billings, Charles S. Raymond, and Otis Chamberlain. P. T. Washburn, president; S. E. Munger, treasurer. The work of grading is being pushed with energy, more than half the route is graded, and the contractors expect to have it ready for the iron by Oct. 1, 1869.

CAR WHEEL PRESS.

Manufactured by

D. P. DAVIS,

Mechanical Engineer,

26½ BROADWAY, N. Y.

AGENT FOR

T. S. DAVIS' PATENT BALANCE PISTON VALVES, & STATIONARY ENGINES, Cut Off Operated by the Governor.

Over 14,000 horse power of Engines with this Valve are now in use, combining the greatest economy in fuel, simplicity and durability of parts, with low cost, they being cheaper than any other first-class Engine built.

Engineers desiring to adopt these improvements, either for new work or to improve the old style of Engines, will be furnished with drawings, and all information necessary to apply them in the best and cheapest manner. Circulars sent upon application therefor.

THE PHŒNIX IRON COMPANY'S
NEW SUSPENSION RAIL JOINT.

Cross Section of Rail Joint.

Side Clamps 14 in. long, showing Rail Stop.

Bottom Ribbed Plate, 14 in. in length.

The above diagrams show the general design of this new ***Suspension Rail Joint,*** which, after long and successful trial on the Philadelphia, Wilmington and Baltimore, and other Railways, is now offered to Railway Companies. The cut on the left gives a cross section of the finished joint, showing the rail (*1*) resting upon the ribs of the bottom plate (*3,*) with the flanges of the rail and the bottom plate embraced by the side clamps (*2,*) and held firmly in place by bolts (*4*). In screwing up these bolts, the bite or grip between the bevel on the side clamps corresponding with the bevel on the flanges of the rail, insures great vertical and lateral rigidity to the joint.

Several careful tests have proved that the deflection of two pieces of rail thus fastened at the joints and subjected to a transverse strain between supports five feet two inches apart, was but a trifle more than that of the same rail uncut, tested in the same way. The value of the joint in this respect was 85 per cent. of that of the solid rail, while the best fish joints, similarly tried, gave less than 50 per cent.

No holes are required to be punched through the neck of the rail, nor slots in the flanges, only a quarter circle notch of about half an inch radius is necessary to be cut out of the corner of one of the flanges of the rail to fit the "stop" shown in the upper right hand cut. This is a very important consideration, as holes punched or drilled in the neck are apt to split the rail longitudinally, and in *Steel Rails particularly*, is the principal cause of breakage.

All that portion of the joint, shown in the cut of cross section, below the bottom of the rail, bears endwise against the cross-ties, and prevents any creeping of the track. It makes a very firm joint, does not get out of order, and can be fitted to any size of rail. When ordering, send a sample piece of rail two feet long. Address

To Railroad Companies.

We beg to call the attention of Managers of Railways and Contractors throughout the United States and Canada to our superior facilities for executing orders at manufacturers prices for all descriptions of both AMERICAN and FOREIGN

RAILROAD IRON.

We are always in a position to furnish all sizes, patterns and weight of Rail for both Steam and Horse Roads, and in any quantities desired, either for IMMEDIATE or REMOTE delivery, at any port in the United States or Canada, and always at the very lowest current market prices. We are also prepared to supply

BESSEMER STEEL RAILS,

of American and Foreign manufacture, rolled to any desired pattern and weight per lineal yard, and of approved lengths. Contracts for both IRON AND STEEL RAILS will be made payable in United States currency for American, and in either currency or gold (at the option of the buyer) for Foreign; when desired, we will contract to supply roads with their monthly or yearly requirements of STEEL OR IRON RAILS, taking their

OLD RAILS IN TRADE FOR NEW

furnished, receiving the difference in cash, and allowing the highest market price for their Old Rails, and, if necessary, receiving the latter after the delivery of the New Rails.

Orders for Foreign Rails, both Steel and Iron, will be taken for transmission by Mail or through the Cable to our

LONDON HOUSE,
58 OLD BROAD STREET,

for execution at a fixed price in Sterling, or on commission at the current market price abroad when the order is received in London; shipments to be made at stated periods to ports in America, and at the lowest possible rates of freights. Address

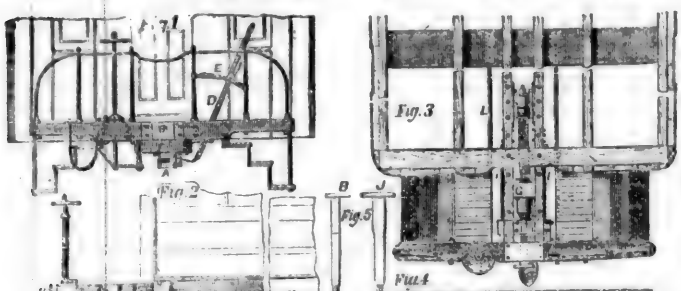
FISHER'S PATENT
Wrought Iron
RAIL JOINTS,
MADE BY
FISHER & NORRIS,
TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

VAN ANDEN
SWAGED

Patented Sept., 18, 1866:
WROUGHT IRON
RAIL CHAIRS.



RAILROAD SUPPLIES.

The VAN ANDEN CHAIR recommends itself above all others now in use, having continuous base and lips, the grain of the Iron running across the line of the Rail, giving it additional strength over all others now in use, with no liability to split. The spike holes being punched within the edge of the lip, admits of one half the Spike being recessed back in the solid metal, which cannot be done in the rolled chair.

Bituminous:		
Cumberland Coal		
Chesapeake and Ohio Can'l	458,153	482,325
Baltimore and Ohio R. R.	735,659	¶848,718
Total Bituminous	1,193,812	1,331,043
Imported	521,305	402,299
Total tons	2,300,683	2 443,394
Add Anthracite	12,211,285	13,405,016
	14,511,968	15,848,410
		14,511,968
Total increase in 1868		1,336,442

* The whole quantity of Coal transported over the Philadelphia and Reading Railroad in 1868, was 3.574,874 tons. Of this quantity 453,951 tons were Bituminous and Anthracite, received at Harrisburg, reported in other regions.

† The whole coal trade of Pinegrove was 163,633 tons. The balance is reported in the Reading Railroad tonnage.

‡ The whole quantity transported over the Lehigh Valley Railroad and branches was 3,603,103 tons. The balance is reported in Lehigh Canal tonnage.

The following is a recapitulation of the quantity of Anthracite coal furnished by the different regions in 1867 and 1878:

	1867.	1868.
Schuylkill Region	4,334,820	4,414,356
Lehigh Region	2,062,446	2,507,582
Wyoming Region	5,328,322	5,990,813
Shamokin Region	485,697	492,265
	12,211,285	13,405,016

The gain in 1868 was as follows:

Wyoming and Lackawanna	662,491 Tons.
Lehigh	445,136 "
Poor enslaved Schuylkill only	79,536 "
Shamokin	6,568 "
Increase in Anthracite	1,193,731 "

Of the 79,536 tons increase from Schuylkill, 25,723 tons was an increase on the Mahanoy and Lehigh road, leaving the increase *via* the Schuylkill Valley only 53,813 tons.

The following statement will show the shipments from the Schuylkill, Wyoming and Lehigh regions since 1860:

	Schuylkill.	Wyoming.	Lehigh.
1860	3,270,516	2,941,817	1,821,774
1861	2,697,489	3,055,140	1,738,377
1862	2,890,598	3,145,770	1,351,054
1863	3,438,265	3,759,610	1,894,718
1864	3,642,218	3,960,836	2,054,669
1865	3,735,802	3,256,658	1,822,585
1866	4,633,487	4,736,616	2,128,867
1867	4,334,820	5,328,322	2,062,446
1868	4,414,356	5,990,813	2,507,582

Railroad Land Grants.

The Secretary of the Interior, in reply to a resolution of the Senate says the aggregated quantity of lands certified under existing laws for railroads and wagon roads to States, Territories and corporations up to January 30, 1867, is 21,561,000 acres, and for canals nearly 4,500,000 acres. The number of acres certified to the following named States since that date is as follows: Minnesota for railroads, 670,000; California, for railroads,

‖ The whole quantity transported over Lehigh and Susquehanna Railroad was 1,042,683 tons, The balance is reported in Lehigh Canal and Lehigh Valley tonnage.

§ 29,005 tons were sent *via* Delaware and Hudson Canal.

¶ The total tonnage of the Baltimore and Ohio Railroad was 1,058,200, but a portion was delivered to and is reported in the Canal tonnage.

26,000; Wisconsin, for wagon roads, 72,000; Oregon, for wagon roads, 19,000; Michigan, for canals, 280,000—making a grand total of 27,128,000 acres.

Virginia and Tennessee Railroad.

The earnings of this road for the twelve months ending June 30, 1868, and for the fifteen months ending September 30, 1868, were as follows:

	From June 30, 1867, to June 30, 1868.	From June 30, '67. to Sept. 30, '68
From passengers	$363,434 10	$469,346 00
" freight	499,008 40	637,405 56
" interest	473 78	1,193 01
" rents	296 19	592 44
	$863,212 47	$1,108,537 01
Expenses viz.:		
Operating expenses	$598,081 45	$598 081 45
Road department	28,849 86	67,747 26
Machinery department	18,876 30	44,376 26
Transp. department	40,784 52	103,228 49
Salaries general officers and expenses	30,042 01	35,362 40
Office expenses	364 71	632 70
Taxes and law fees	62,178 78	70,202 07
Discounts	1,629 62	4,820 16
Losses, property	7,085 27	8,623 46
Telegraph expenses	249 75	636 02
	$788,137 27	$938,710 27
Net revenue	$75,075 20	$174,826 74

It is claimed that the above charge to current expenses for the fifteen months ending September 30, 1868, is rightfully entitled to a deduction, as near as can be ascertained, of at least $176,145 28 for payments made on account of transactions which belong to the previous fiscal years, leaving the actual current expenses, $757,564 99, and the net revenue, $350,972 02—which is more than sufficient to discharge all current demands of interest on account of the funded debt, for the same period, by an excess of over $125,000. The President in his report says:

It may be well to call attention to the fact that our charge of the direction of your company's business was assumed on the 25th day of November, 1867, and that your fiscal year now terminates, as by your action when you were last in Convention, on the 30th day of September, instead as before, on the 30th day of June, in each year.

While, therefore, our account of the operations of the road will, in some respects, embrace the transactions of the company for the fifteen months preceding the termination of the fiscal year to which this report has reference, it will be more particularly directed to a review of matters which have transpired during the period absolutely covered by our administration of its affairs.

In order, however, to lay before you that manner of exposition in this respect, as in our opinion a proper discharge of duty on our part demands, it will be necessary, in the course of this work, to refer to the pecuniary *status* of the company and the physical condition of its property, as these were found really to exist at the beginning of our service.

At this time much was found to obtain in the true situation of affairs calculated to embarrass the successful and satisfactory administration of the company's business, but in no particular had the safety of the property—whose physical condition, as will be hereafter shown, was much impaired—become more directly threatened, than on account of its monetary obligations, no less from the magnitude of the indebtedness, than from the situation in which it was found. Besides the obligation to the government of the United States, under which the company now rested, on account of the purchase of rolling stock—which was made the basis of the suspension of your proceedings at your last annual meeting, since however fully discharged—there was then claimed, as due the government of the United States, the sum of $46,110 45—for taxes from the 1st of October, 1865, to the 30th September, 1867—and on account of which, some of the rolling stock had been attached; of which amount an abatement of $8,540 41 was secured in correction of discrepancies, which were then ascertained and admitted by the proper officer of the government, leaving, as will be seen, the sum of $37,570 04 then actually due on this account.

The nature and situation of this debt, was such, as to make the discharge of the same at once imperative; and while the company, as it was discovered, had been subjected in this connection, as provided by the terms of the assessment laws in the case of delinquents, to a charge for interest, penalty and commission, amounting to the sum of $4,675 01, and to an excess of tax of $8,526 20, by reason of the failure of its proper officers to render the returns of revenue required by the law, there was now no other mode of rectifying these errors than by a plea of abatement, to be made before the authorities at Washington.

This was done, and the sum of $4,564 06, subsequently accounted to the company.

There was due the city of Lynchburg, on account of taxes for the years 1866 and '67, of which no mention is made in the previous reports and records of the company, the sum of $10,550 81; due the State of Virginia, $1,037 25; a balance for locomotives of $13,509 23; a balance due connecting lines of over $14,000; and upon pay rolls, for the month of November, the sum of $31,652 44—the payment of all of which, could not very well, longer be postponed.

These items, together with a bills-payable for the month of December—amounting in round numbers to $50,000, in all, over $158,000 00, constitute merely the more material and pressing claims, which in the beginning of our administration, demanded immediate satisfaction.

The indebtedness of the company, exclusive of interest past due upon its funded debt, as the same was found at that time to exist, so far as could be ascertained, was, as follows:

I. Due upon pay-rolls for the months of March, April, May, June, July, August, September, October, November and December, '65	$1,981 33
For the current months of 1866	2,712 08
And for the current months of 1867, to November 25th, inclusive	116,392 44
	$121,085 85

for which paymaster's checks (so-called) had been given, and these, for the most part, had long since passed from the ownership of the parties to whom they had been originally issued, and on account of which the credit of the company had been brought more into disrepute, perhaps, than from any other form of its obligations.

II. Due in the form of notes and acceptances now under protest, as far back as of the 4th August, 1867 ..... $50,000 00

This was the loan made of S. M. Shoemaker, Esq., for the security of which $100,000 of the company's 8 per cent. bonds had been hypothecated, and the same has now been discharged.

III. Notes and acceptances running to maturity $111,646 10

for which it will be observed, that the burden of this manner of indebtedness, as the same then appeared, had to be encountered upon the very threshold of our administration.

IV. Balances due as by open accounts. $209,235 62

Thus it will be seen, that the floating debt of the company, at the time this casting up of accounts was made, already amounted to the important sum of $501,835 04, and this manner of your company's indebtedness, it is but proper to remark, spread over 888 separate and distinct accounts or obligations. But this is not all; since the date this inventory of liabilities was taken, 151 claims have been presented, examined and admitted to record, amounting to the further sum of $100,696 97, and $3,289 65 of paymaster's checks, by which the floating debt of the company is made as of that date—November 25th 1867—$605,821 66; and while there may yet remain other claims unadmitted or unknown, it is not believed that this sum will be much further enlarged.

Many of these claims were of long standing, and in a large number of cases suits had been instituted, and in some, judgments absolutely obtained for their recovery; by reason of which, much extraordinary labor has devolved upon your Board and the officers of your company, in arriving at an adjustment of the same.

This character of indebtedness, denominated the floating debt of the company, is stated in the report made to you, under date November 11th, 1867, at $369,297 87, short of the sum, as you will observe, which we have found really to exist, as of November 25th, 1867, in the material amount of $236,024 29.]

In the management of a debt of this nature, and of such proportions, as compared with the immediate resources of your company, in connection with its obligations on account of past due interest—its credit, which had now been virtually destroyed, for any practicable purposes, and in view of the heavy expenditures which it was obvious was necessary to be made, not only in the improvement of the property, but in the enlargement of its capacity, even now insufficient to meet the demands of traffic; a solution of the policy best to be pursued, in order that the objects in this connection desired to be attained, and yet a just regard for the claims of the bondholder, in common with these, might be fairly respected, was, as you must perceive, not without its difficulties; but the success which has attended the result at which your Board arrived, in the determination of this important question, has been more than satisfactory.

In the control of these obligations, no aid of material consequence could be counted upon from the available assets of the company, as they were then ascertained to exist, and to which we shall subsequently refer; and no support was to be derived from its credit until this could be re-established, while the past income of the road, and its present capacity for business, furnished but an insufficient basis upon which to rest the accomplishment of these objects—other than upon a plan which contemplated the application of its available means, and the employment of its restored credit in the furtherance thereof, measurably.

It was plain to your board, that the full integrity of your company's credit could not be regained, until the vast amount of its floating debt, and especially that outstanding in the form of paymaster's checks, open bills of long standing, and protested paper, could be given the confidence of assured payment, and it was equally evident to your Board, that in the management of this indebtedness, regard to the ability of the road, mainly to be derived from its income, and to the improvement of its property essential to be made, should be had to the period over which the same was to be extended; and it was no less apparent, in order fully, and the more promptly, to secure this much to be desired and important object, that in all respects, the obligations of the company should be promptly and squarely met; that the improvement of your railway, motive power, and rolling stock, and that the enlargement of the latter classes of property were absolutely essential, as a means of reducing current expenses—dependent as these are upon the good or inferior condition of the same—and of enlarging the traffic and income of your road.

The plan thus briefly indicated, has governed the action of your Board in this respect, and under its operation the market value of your bonds has advanced an average of 12 per cent., and the company's paper to the denomination of first class.

It was believed in the adoption of this policy that the safety of the work, and its preservation to the great public purposes which it was design-

ed to accommodate, no less than the best interest of the bond and stockholder, were to be secured, and as much as your Board would have desired a return to the payment of interest upon the funded debt of the company, they cannot doubt but that this will be seen, to have been impracticable.

The bondholder, they venture to suggest, cannot fail to perceive, that in the improvement of the property, and in the enlargement of the business of the road, as well as in the establishment of its credit, additional value is given to his security, and the only reliable means acquired, whereby a guarantee of interest, once resumed, may be confidently calculated upon; and while the anomalous condition of the country, taken in conjunction with the devastation which the fields from whence your road derives its business have suffered, does not allow your Board to designate, with that confidence they would desire, the period at which the resumption of interest may be definitely promised, they are however, induced to take faith, from the improved condition of the property which has now been secured, and the prospect—already bright—of an enlarged business, that the discharge of this obligation, on the part of your company, may not be deferred beyond the 1st day of July, 1869; at the same time, they are frank to say, in respect to interest past due, the further indulgence of the bondholder will be necessary in the attainment of all these ends, and they are not without hope, that an arrangement on this account, will be accorded, wherein the amount of such interest may be put in such shape, as will at the same time, secure unto them their proper claims, and yet afford your company such further relief in the discharge thereof, as it must be apparent, its necessities demand.

The amount of past due interest is stated, in the report made at your last annual meeting, at $203,000, while on this account it is ascertained by the committee charged with an investigation of this subject, that there was due, and yet remaining undischarged, as of 1st July, 1867, the sum of $215,295, which embraces, however, interest accrued upon past-due bonds up to that date, and not counted in the sum then stated.

Of the 5637 paymaster-checks, so-called, including the November rolls entire, heretofore mentioned as forming a part of the floating debt, as the same was found to exist, on the 25th day of November, 1867, amounting to $129,650 91, there have been actually paid, $72,87318, and $44,553 11 have been retired by the substitution of notes now running to maturity, leaving outstanding, yet in this form, 1624 checks, amounting to the sum of $12,124 62; and on account of other obligations, making up this manner of your indebtedness at that time, 193 claims, aggregating $162,608 16, in the form of open accounts, and notes and acceptances, have been actually paid, and by profit and loss, 73 claims, amounting to $7,650 89, have been cancelled.

The immediate liabilities of the road, as of the 30th September, 1868, the termination of your fiscal year, were as follows:

I. Open accounts	$187,839 05
II. Notes and acceptances	273,810 09
In all	$461,649 14
And on account of interest as of the 1st of July, 1868, past due upon coupon bonds, past due bonds and registered certificates	$329,010 00

The assets of the company, or cash resources, so-called, are given in the report made to you at your last annual meeting, at $1,185,378 84; and in the report to you at your adjourned meeting, November 11th, following, at $167,875 74—an elimination of confederate and other claims, regarded as worthless, appearing to have been, in the meantime, made in the first or original statement; but the committee hereinbefore named, present the assets or cash resources, as they are denominated, as of the 25th November, 1867, at $135,440 16, of which, however, not more than $77,478 were regarded as valuable or available.

The assets of the company, were at the close of the last fiscal year, 30th September, 1868, as follows:

I. Open accounts		$147,146 28
of which, however, not more than $75,000 can be regarded as good and available.		
II. Stores in hand		79,491 69
III. Cash in hand		436 41
In all amounting to		$227,074 38

Besides which, there are, of the one million of eight per cent. bonds, authorized to be issued by Act of Assembly, passed 19th January, 1866, subject to the company's purposes, $264 000, which, however, are now unavailable, except in the cancellation of income bonds and accrued interest, and a basis for temporary loans, on account of which the same are now employed.

The funded debt of the company stands as follows:

On acc't—1st mortgage bonds		$494,000 00
2d " "		23 500 00
Enlarged "		990,000 00
Income "		138,500 00
Salt works branch bonds		9,500 00
8 per ct. bonds, of the $1,000,000, so far issued		736,000 00
and in 8 per cent. registered certificates		61,352 36

In connection with this statement of the funded debt, it is proper to remark, that $50,000 of the $138,500, of income bonds, named in the same, do not, in fact, constitute a liability.

These bonds, as we are informed, are held by the Bank of the Republic, in New York, on account of some transactions which that Bank had with Messrs. Peters, Campbell & Co,, in whose hands, these, with other bonds of the same mortgage, were placed for negotiation, and whose receipt for the same is now in the company's possession.

This state of the case, is the result of transactions previous to the war, and we are advised that the bonds were cancelled.

Of the $736,000, of eight per cent. bonds, which have been now disposed of, $161,000 have been substituted for the like amount of income bonds; $8,000 for the replacement of the like amount of enlarged mortgage bonds destroyed by fire; $266,000 in the discharge of past due interest; $290,000 sold by Messrs. Robert Garrett & Sons, of Baltimore, under the arrangement made with them by the previous administration; and $11,000 to other persons, accounted for in the last annual report to the company.

During the period which this Report covers, $25,000 of income bonds have been retired by the substitution of the eight per cent. bonds, and $1,500 have been purchased and cancelled; $22,979 70 of past due interest, have been funded by the issuance of registered certificates, and $13,965 by coupon tickets and compromise settlements.

The Act of Assembly, under which this issue of eight per cent. bonds was authorized, contemplated the employment of $600,000 in the taking up of past due bonds and coupons, and $400,000 for whatever objects of expenditure the exigencies of the company might demand; and it now appears that, on the first account there remains unemployed, a balance of $164,000, and of the $400,000 subject to general purposes, a balance of $100,000.

In the last annual report made to you, it is stated that $10,000 of these bonds had been sold to Thos. Jenkins, Esq., $1,000 to David Graham, Esq., and that $264,000 had been sold by Messrs. Robert Garrett & Sons, of Baltimore, leaving a balance to be accounted for, of $26,000. The account of Messrs. Garrett & Sons, in this connection, rendered as of the 30th June, 1867, acknowledged on their part, a remainder of $26 000 of bonds unsold, and a cash balance to your company's credit of $20,128 61.

As will be seen by reference to this account of theirs, rendered in August, 1868, the $26,000 of bonds remaining over in their hands, were sold at the rate of *seventy-one per cent.*, and that the proceeds derived therefrom, together with the balance in their hands on the 30th June, 1867, of $20,128 61, have been appropriated by them to the payment of interest upon the bonds they had sold.

The number of passengers transported during the fifteen months under review were: local, 109,768; through, 25,898—total, 135,666, equivalent to 7,261,352 passengers transported one mile.

The number of tons of merchandise transported during the same period was 164,154 equal to 15,555,017 tons transported one mile.

The financial condition of the company, September 30th, 1868, was as follows:

Capital stock			$2,950,800 00
Preferred stock			555,500 00
Coupon bonds, bearing 6 p. ct. int.			
First mortgage, payable December 31st, 1872		$494,000 00	
Second mort., payable Dec. 31st, 1868		23,500 00	
Third mortgage, payable June 30th, 1884		990,000 00	
Income mortgage, payable Dec. 31st, 1865		138,500 00	
Salt works branch bonds, payable Jan., 1858, 1859, 1860 and 1861		9,500 00	
Coupon bonds, bearing 8 per cent. interest:			
Fourth mort, of $1,000 payable March 1st, 1900 (issued)		736,000 00	
Eight per ct. registered certificates, payable Jan. 1, 1871 and 1880,		61,352 36	
			2,452,852 36
Gross receipts for fiscal year 1867–'68 September 30th			1,108,537 01
Liabilities:			
Plain bonds outstanding		$5,119 74	
Due on pay-rolls and unpaid labor		43,967 60	
Due to individuals and connecting lines on open account		138,751 71	
Due notes & acceptances running to maturity		273,810 09	
			461,649 14
Profit and loss			2,666,029 34
			$10,195,367 85
Cost of construction and equipment			$7,694,414 87
Paid first mort. coupons.		$413,494 31	
Paid 2d mort. coupons.		15,255 00	
Paid enlarged mort. coupons		606,303 93	
Paid income mort. coupons		139,718 00	
Paid Salt Works Branch coupons		45,525 00	
Paid 4th mort. coupons.		64,736 00	
Paid interest on 8 per ct. certificates		1,319 03	
			1,286,351 27
Due interest on preferred stock			46,310 21
Gross current expenses			938,710 27
Resources:			
Due from individuals and connecting lines on open acco'ts.		$147,146 28	
Old acc'ts for old claims		7,507 35	
Store-house supplies on hand		79,491 69	
Cash in hands of treasurer and in Banks		436 41	
			234,581 73
			$10,195,367

President.—Wm. Mahone.
Treasurer.—M. C. Jameson.
Superintendent.—Henry Fink.

From Herapath's Railway Journal.

Railway Economy.—Permanent Way.

It will be evident from what was advanced in our last article that the weight of the rails and the general capabilities of the permanent way must be adapted to meet the exigencies of the case, the weight and description of engines and rolling stock employed, the curves and gradients of the line, the speed of the trains, the number and proximity of the stations, and the various other conditions under which the line has to be worked, all of which it is difficult to enumerate in confined space. We will, therefore, leave these for the present, and proceed to consider the general construction of the permanent way itself, and examine the merits of the different systems in use.

It is now nearly forty years since the Liverpool and Manchester Railway was opened to the public; the permanent way of this line at first consisted of fish-bellied rails, 35lbs. to the yard, resting on chairs 3ft. apart, held down to stone sleepers by iron pins, driven into wooden plugs, sunk into the stone blocks, the rails being secured into the chairs by iron keys. This plan was partially introduced on the London and Birmingham Railway with a heavier rail of 50lbs. to the yard, and some improvements in the method of fastening the rails at the joints. Experience, however, soon proved that the system was faulty in principle; the stone blocks were too rigid; the vibration of the trains loosened the iron keys, and the rails could never be kept tight in the chairs, nor the joints in good order.

The idea also of bellying the under side of the rails between the chairs was altogether a mistake. It was one of those errors which the cleverest men sometimes fall into from preconceived notions; this would no doubt have been the proper form if the rails had been in separate lengths between each chair, as then each piece of rail would have represented a beam supported on its ends and loaded in the middle, but this was not the case except at the joints, for the rails being in continuous lengths became a combination of the two orders, viz., a series of beams supported in the middle and weighted at their ends, joined to others supported on their ends and loaded in the middle; and it must be evident that when viewed in this light the parallel double-headed rail was the correct form, and to this the fish-bellied rail very soon gave place. At the same time the stone blocks were replaced by transverse wooden sleepers, and wooden keys were substituted for iron to fasten the rails into the chairs. We believe that this system of permanent way was the invention of the late Mr. Locke, who introduced it on the Grand Junction Railway, and it became rapidly adopted on other lines, as it was found to remedy the worst defects of the former system. It was also anticipated that it would possess another important advantage over the fish-bellied rail, in admitting of the reversal of the rails, and their under tables being used after the upper ones had been worn out; here, however, was another practical error, for it was found by experience that by the time the upper table had done its duty, the one underneath had become so indented by hammering on the chairs as to be totally unfit for the purpose, moreover the upper table being diminished in thickness by wear would not properly fit the chair, and could not be held firmly in its place; so manifest, however, were the advantages of this system, that it soon superseded the other, and ultimately formed the type upon which the permanent way of nearly all the narrow guage railways was modelled, and the term narrow guage in reference to the permanent way became almost synonymous with a cross sleeper road, in contradistinction to the broad guage introduced by Brunel on the Great Western Railway, the permanent way of which was composed of a bridge rail resting on continuous longitudinal sleepers to which it was held down by screws without the intervention of chairs. These two systems may be considered the two original types upon which all the improved modern varieties of permanent way are founded. Each of these has its advocates, and its advantages, but the first from having become more extensively adopted has received a larger share of attention than the other, and has thus been the subject of a greater number of improvements, to say nothing of the numbers of useless and unsuccessful schemes applied to it. Most of the real improvements have been in the practical details relating to the form of the chairs and fastenings, the section and weight of the rails, and the method of piling and rolling them, and latterly in the use of steel. Amongst the more specific improvements we may mention the application of compressed wooden keys and trenails for fixing the rails in the chairs and holding them to the sleepers, introduced by Messrs. Ransomes and May, and which were extensively adopted and are still much used, although some complaints, we hear, have lately been made of the trenails being sheared off by the chairs on sharp curves, arising no doubt from the increased side strain on the rails due to the causes previously noticed. By far the most important improvement, however, which has been applied to the double headed rail is undoubtedly the fish joint, and it is hardly too much to say that it has been the salvation of the cross sleeper system. Previous to its introduction the difficulty of properly securing the joints with the increased weight of engines and speed of trains was becoming most alarming; it was in vain that the joint chairs were made wider and stronger, that larger sleepers were placed under them, and that the adjoining intermediate sleepers were brought nearer, one invariable result still followed, viz., the loosening of the joint, and the tilting of the sleeper at the passage of every wheel over it. This tilting was caused by the weight first coming on one side of the joint sleeper, then being suddenly transferred to the other, and the effect of it was to alternately depress and elevate the two ends of the rail at the joint, and offer to each passing wheel the end of the rail against which it struck with a greater or less force proportioned to the speed and weight of the train, to the great detriment of both. This action once set in rapidly increased, for the constant rocking of the sleeper worked away the ballast from underneath it, and by diminishing the support aggravated the evil, and as this evil could only be met by constant attention on the part of the platelayers, it added greatly to the cost of maintenance; besides this the rolling stock also suffered, and although the actual extent of the injury inflicted on it could not be so clearly ascertained, it might be imagined from the noise that always accompanied the progress of a train, caused by the wheels striking the end of the rails at the joints and producing a succession of raps at regular intervals, like the ticking of a clock. Add to this the danger of trains getting off the line in case any one joint from oversight or neglect should be allowed to become so badly out of repair as to bring about such a catastrophy, and we shall be able to form some estimate of the value of the invention of the fish-joint by which means these evils have been remedied.

The fish joint was invented by Mr. Robert Richardson in the year 1847, he being at that time a resident engineer on one of the lines in Suffolk, now forming a part of the Great Eastern Railway system. He did not, however, we believe, give it to the world in the exact form it has since assumed, but he originated the principle; this was to abolish the joint chair and sleeper altogether, and suspend the joint between two sleepers, one on each side, as close together as practicable, and to keep the ends of the rails together by fishing plates placed in the channels of the rails, and crossing the joint; he proposed in the first instance to effect this by driving the fishes through the two chairs on each side of the joint, this method of carrying out the idea had some practical defects in the breaking of the chairs, and the loosening of the fishes, which prevented the adoption of the invention in this form, but it soon after came under the notice of Mr. Ashcroft, now engineer to the South Eastern Railway, and who was at that time engaged on the then Eastern Counties Railway. He proposed to use ordinary intermediate chairs on each side of the joint and to secure the fishing plates by screw bolts passing through them and the rails. This finishing touch by Mr. Ashcroft has made the invention nearly perfect. It has now but one defect, viz., the tendency of the nuts of the bolts to loosen, caused by the vibration of the trains, and this is now in a fair way of being remedied by the patent bolts of Mr. Parsons, which appear to effect the object completely, and are now gradually supplanting the ordinary bolts.

A little consideration will convince any one that the principle on which the fish joint rests is sound. The end of the rail being continued over the sleeper no rocking motion can take place. Thus the first great difficulty is at once obviated, and the end of the rail only projecting beyond the chair a short distance, it has sufficient strength of itself to bear the weight passing over it, and the fishing plates holding the ends of the rails together in a much firmer manner than any joint chair can possibly do, a perfect joint is the result. The best proof of this is the total suppression of that constant clicking never absent from a road in which the joints are supported by chairs, a well fished road being in comparison with it a perfect luxury to travel over.

New York and Harlem Railroad.

The report of this company for the fiscal year ending September 30, 1868, is as follows:

STOCKS AND DEBTS.

Capital stock, as by charter	$8,000,000

Philadelphia and Erie Railroad.

At the annual meeting of the stockholders of this company in Philadelphia on the 8th inst., the following gentlemen were elected managers for the ensuing year: Edward F. Gay, J. Edgar Thomson, Wistar Morris, Henry Duhring, Jacob P. Jones, Josiah Bacon, Samuel T. Bodine, John Kennedy, Washington Butcher, and Henry D. Moore. From the report of the President which was submitted we learn that the gross receipts of the company during the year 1868 were as follows:

From passengers	$631,437 59
From freight	2,101,613 98
From mail and miscellaneous	71,198 79
Total	$2,804,250 36
Thirty per ct. of the gross earnings due this company amounts to	$820,423 95
Of which there has been paid on account of interest and organization	727,902 71
Leaving a balance in favor of company	$92,521 24

The receipts in 1867 were $2,333,759 94, showing an increase in 1868 of $470,490 42. The total amount of tonnage in 1868 was 1,090,845; in 1867, 792,008—an increase of 298,837. The total number of passengers carried in 1868, was 629,820; in 1867, 635,542 a decrease of 6,222. This decrease is wholly due to the local or way business, as the number of through passengers carried in 1868 exceed the number carried in 1867 by 13,503.

Providence, Warren and Bristol Railroad.

At the recent annual meeting of the stockholders of this company, the following gentlemen were elected directors for the year ensuing: Robert H. Ives, Amos D. Smith, William Goddard, Charles T. Childs, Samuel W. Church, Marshall Woods, Thomas G. Turner, Leon Chappotin, and Earl P. Mason. Subsequently the board of directors elected Charles T. Childs, President, and L. M. E. Stone, Superintendent. The total receipts of the road for the past year have been $112,571 62. Total expenditures, $91,030 19.

Erie Railway.

The report of this company as made to the State Engineer and Surveyor for the fiscal year ending September 30, 1868, is as follows:
